That the accounts herein referred cover the period immediately contiguous to the 35th Annual Account of the Trustees;

That he believes from his examination that the statements made by said Trustees in their Report to the Court accompanying the Financial Account are true and correct;

616

that the Trustees have, as witnessed by their reports, and the exhibits accompanying said reports, and in the opinion of the master, carried out the terms and conditions of the trust faithfully, lawfully and prudently, and that they have obeyed the orders of the court, especially that filed November 15, 1921;

That with respect to said Order of the Court filed November 15,1920, the Trustees did publish in the Honolulu Advertiser an inventory of the property of the Trust Estate, which inventory tha master has checked with the inventory filed with the Trustees' accounts herein and found to be correct.

Receipts - Principal and Income.

Pages 6 to 83, inclusive, of the Trustees' financial account is an itemized statement of the receipts of the Estate during the aforesaid fiscal period, and in and by said schedule the Trustees' charge themselves with receipts in the sum of - - - - - - - - - - - - - - - - - - -$897,693.60 of which sum $33,856.75 is the balance brought forward from the previous fiscal period and as shown in the Trustees' 35th Annual Account.

By far the largest part of said income is derived from land - from rentals, as far as income is concerned and from sales, with respect to principal - approximately 93.26% of the income receipts upon which commissions are chargeable and practically all of the principal receipts being from this source. The estate has held during the fiscal period leases and tenancies in force to the average number of about 1200. The master has taken ten or more leases out of every hundred, as well as all the leases made during the period of account, examined them and checked them with the rent sheets of the Trustees. The master found all examined 617

to be proper and in order and the correct charges to be made on said rent sheets. The master has further checked the items of the account under sundry rents with the said rent book and found all money received properly accounted for in the accounts, and believes Exhibit "A" attached to this report to be a correct statement of the rents and taxes due the Estate on June 30,1921. This statement the master will comment upon later. Other receipts the master has checked with the Inventory filed with the account, with the inventory accompanying the 35th account of the Trustees and other available sources and believes the Summary of Receipts pages 2 to 5 inclusive, of the account to accurately show the receipts of the estate for the twelve months ending June 30,1921.

Disbursements - Principal and Income.

Pages 84 to 120, inclusive, are an itemized statement of disbursements by way of principal and income and in this schedule the Trustees' ask to be allowed the sum of - $872,721.18. The schedule is fully supported by 1165 vouchers which the master has examined and found to be signed, in order and correct and all expenditures to be proper and reasonable and within the law and the powers of the Trustees.

Kamehameha Schools.

As provided by Bernice P Bishop, deceased, the Kamehameha Schools in Honolulu are the primary object of the Trust, and the master finds as such have properly received by far the largest portion of the available income of the estate - 43.79% of the actual income going to said object, or deducting the taxes Federal and Territorial paid and amounting to 37.14% of the net income, practically 70% of the income available for choice of expenditure has gone to said schools, 25% of the remainder going to operating

expenses and nearly 5% being carried forward into the next period. The master does not deem it within his province or the scope of his appointment to comment extensively upon the Kamehameha schools, but in view of the fact that the Trustees' have filed as exhibits with their account reports of the President and the Registrar of said schools the master desires to state that in comparing the said exhibits with the exhibits of like nature filed with former accounts and with more than a casual interest on the part of the master in the schools because of their distinct position in the school life of Honolulu, he thoroughly believes that educationally they are in better condition than ever before. The master commends the Trustees in their decision of last March to add high school facilities to the schools, believing that heretofore a lack of higher education has kept many boys from reaping the full benefit of their vocational training. The physical conditions have changed little during the year but the master is delighted to find that after years of delay for various reasons and because of wars and rumors of wars, that the Trustees have now obtained from architects and engineers a variety of plans and designs for the reconstruction and future enlargment of the schools on their present sites. - and will soon be ready, when the proper moment arrives to replace the old buildings, some of which are more than thirty years of age, which is old age in this country, with a definite plan for a beautiful, convenient and efficient institution. During the year the President, Mr Webster was allowed a four months leave of absence to travel and study institutions of like nature in the United

States, and from his annual report the master believes the time well taken and to the benefit of the Kamehameha Schools.

General Operating Expenses.

The master finds the Trustees have conducted the business of the Estate in a highly efficient manner and with a proper liberaltiy for the future welfare of the Estate. The master finds the Estate's employees to be well paid and efficient and an atmosphere of contentment and interest to pervade the home office. The principal items of general operating expense were -

Salaries - - -	$38,881.89
Office expense -	6,287.29
Furnishings etc -	1,577.84
Outside Agts Com.-	1,323.76
Trustees' Comm. -	25,091.23
Auto Expense -	2,262.09
	$76,423.86

In an estate with assets of over $6,000,000.00, over $5,000,000 of which is in land scattered throughout the Territory and requiring a number of engineers the amount above named is not exhorbitant.

The estate again contributed, this year in the sum of $236.40, to the Hawaiian Sugar Planters' Assn in Kohala for the rehabilitation of the Halawa Nuilii Forest Reserve in Kohala, and said expenditure the master finds to be in accordance with the court order of November 15,1920.

As reported by the Trustees the policy of completing the surveys of the estate lands has been continued during the year and this the master finds to be a justified and wise expense. In an estate where so wide and scattered are the holdings boundary titles must always be a constant source of trouble and litigation if not properly established. The report of the Trustees sets out the number of suits and actions during the fiscal period with regard to land matters

620

and they need no further comment here.

The master has checked up all travelling expenses and finds all unexpended balances of amounts advanced have been properly returned and accounted for.

The master has checked up office furniture and equipment purchased during the year and finds all to be accounted for and in accordance with the account.

The master finds the office of the estate and the equipment of the Estate to be sufficiently insured. Outside of the Kaahumanu Street building and equipment and the automobiles of the estate and the office furniture of the Kona office of the estate the only insurance carried at the Trustees' expense is $5,200.00 on the Fort Street building occupied by the Kamehameha Alumni Ass., and $17,000 on the Delmonico Hotel and warehouse in rear thereof. Leasees are required to insure improvements and the master finds in many cases the Trustees' have taken out policies for leasees and charged the same to them collecting later. The master finds many such policies in the vaults of the Estate where they are safely kept.

Principal Investments

With regard to principal investments the master finds $63% of the net capital receipts to have been reinvested, 11.94% remaining uninvested and 24.29% going into Maps, Equipment and Kamehameha Schools. At the end of the fiscal period the Estate held bonds, including

U.S.War Stamps to the book value of - -	$353,619.20
Stocks in the sum of -	13,200.
Notes " " " " -	41,900
Certificates of Deposit	200.025.00
Total	$608,744.20

Included in the above are investments for the year as

621

follows -

Bonds	$ 49,005.00
Notes	300.00
Certificates of Indebtedness	250,025.00
Total	$299,330.00

The bonds purchased were all Territorial Public Improvement bonds designated for road improvements on Oahu and in Kona Hawaii. This appears to the master a very wise move in many ways for not only has the Estate helped the Territory materially at a time when it has found it impossible to sell many of its bonds, but the opening of raods is of great value to the estate, especially in the Kona District where such large tracts of land are held, and again, in view of the recent ruling of the Internal Revenue Department of the United States that the B.P.Bishop,Estate is a common law trust, these tax free bonds while bearing on their face a low interest rate will be worth more than 7% bonds to the estate.

The Trustees have found it necessary to keep about $200,000 on hand to meet the enormous taxes of the Estate and in order to get some return on the money have followed the practice of purchasing Certificates of Indebtedness falling due after a short term, and this practice the master finds commendable and shows zeal on the part of the Trustees to get as much return as possible from the money in their care.

Commissions

With regard to commissions the master believes the Trustees have not taken all that they are entitled to. With regard to frontage tax collections they have charged principal commissions while the master believes they are entitled to income commissions on the same. On several occasions in this court it has been held that on taxes collected

622

income commissions are chargeable, presumably on the theory that the owner of property figures on a net rental and that if he did not put a clause in his lease requiring the tenant to pay taxes apart from the rental he would figure as closely as possible and add the taxes to the rental asked. It appears to the master on the same theory that if the owner of property in an unimproved district could not get tenants to agree to assume frontage taxes apart from the yearly rental asked, he would figure as nearly as possible the frontage tax and add the same to the lease rental. In both cases the taxes received would be income. Of course there is no doubt ~~doubt~~ that the improvement accomplished by the frontage tax is of a permanent nature and will increase the value of property in all probability, but under the ruling and holdings of the court it seems to the master that the Trustees are entitled to income commission on frantage taxes. If, however, the Trustees desire to take the smaller commission as a matter of bookkeeping the master sees no objection to leaving commissions as they stand as the estate is the gainer, but if they desire to claim the larger commission the master thinks the same should be allowed. Outside of this question the master finds the commissions properly computed.

Inventory

The master has checked up the inventory filed with the account as of June 30, 1921, with former inventories, and in connection with the accompanying account, and has personally examined every bond, note and other security held representing the holdings of the Bernice P Bishop Estate, and certifys that they were all present

623

and accounted for and in order as in said inventory set out; that all coupons due had been clipped from the bonds, interest collected on notes and all in order and correct, and all said securities kept in a modern vault and properly protected.

Summary of Account

In summary of the financial account of the Trustees hereunder examination the master finds the Trustees charge themselves with receipts in the sum of $897,693.60
and ask to be allowed for disbursements 872,721.18
leaving a balance in hands of Trustees of $ 24,972.42
which the master has checked and found and believes to be correct, and further the master appends to this report a balance sheet as of June 30, 1921, which he believes to be correct as stated.

Policies

The master finds the policies of the Trustees of this large and influential trust to be one in keeping with the trust and finds the Trustees showing farsightedness as witnessed by their interest in roads, streams and forests, and liberality as shown in their reductions of rents and even in waiving of the same in some localities. While the policy of waiving rents for certain periods of time with regard to the coffee and tobacco planters of Kona may not be altogether unselfish it appears to the master that it shows a real interest in the small agriculturalist and a desire to keep such a class on the land rather than allow all the small holdings to be taken up by corporations and the small farmer driven from his own little leasehold.

Exhibit "A" of this report shows a delinquency of $29,064.75 in the payment of rents and taxes. This is a larger

delinquency than at any former period as far as the searches of the master go. It of course reflects the present conditions financially of the Territory - especially, the master finds among the rice, coffee and tobacco planters. In Kona, although all amounts are comparatively small, the master finds the delinquency to amount to $7,355.65 or 1/4 of the entire delinquent amount. In the matter of delinquents the Island of Oahu leads the list $17,110.80 being due June 30,1921, but the master finds that since that date most of the larger delinquents have paid up making the sum due on Oahu about $8,000.00. With regard to Kona, as stated, the master finds rents have been reduced, in some cases waived for a period but that on the whole the Trustees' are not pressing the Kona people too hard at this time. In other parts of the Islands the master finds the Trustees' diligent in their collections and believes the larger delinquent list is merely an accompanyment of this years depression.

Suggestions

The master suggests that with the inventory filed with the annual account there be an inventory of office equipment.

The master further suggests with regard to rents that they be lumped each month instead of itemized by the month and that at the end of the schedule leases be itemized so as to show the 2,4 or twelve payments at a glance on one line, so that the master might more quickly and comprehensively check rents with the original book of entry. This method would, as a matter of fact, be easier for the typist also as well as he could then follow the rent book closely.

Finally

The master having examined the Accounts of the

625

Trustees of the Bernice Pauahi Bishop Estate for the 12 months ending June 30, 1921; having verified the amount of cash in the hands of the Trustees to be $24,972.24, on said date; having verified the income to be derived from interest and investments and notes receivable; having compared expenditures with vouchers presented; having checked the rents as heretofore stated; and believing all to be in order and correct, the master recommends that the 36th Annual Account of the Trustees of the Estate of Bernice Pauahi Bishop, deceased, be approved as filed.

DATED: Honolulu, T.H. November 8,1921, and

Respectfully submitted

Arthur E. Restarick

Master.

IN THE MATTER OF THE ESTATE)
OF BERNICE PAUAHI BISHOP,)
DECEASED.)

ORDER APPROVING THE THIRTY-SIXTH ANNUAL ACCOUNT OF THE TRUSTEES UNDER THE WILL AND OF THE ESTATE OF BERNICE P. BISHOP, Deceased.

WHEREAS, WILLIAM O. SMITH, E. F. BISHOP, A. F. JUDD, WILLIAM WILLIAMSON and R. H. TRENT, Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, have caused to be filed in this court the Thirty-sixth Annual Report and Account of their administration as such Trustees for the year ending the 30th day of June, 1921, together with vouchers pertaining thereto; and

WHEREAS, the said Report and Account of said Trustees was by this Court referred to Arthur E. Restarick as master to examine the same, and the said master, did, on the 8th day of November, 1921, file herein his report upon said Thirty-sixth Annual Report and Account, recommending that the same be allowed by the court and approved as filed; and

WHEREAS, the said Report and Account having come on regularly to be heard on the 9th day of November, 1921, and the court having considered the report of said master,

NOW, THEREFORE, IT IS ORDERED, ADJUDGED AND DECREED that the Thirty-sixth Annual Report and Account of said

Trustees is hereby approved and allowed; and

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the said Arthur E. Restarick, as master aforesaid, be allowed and paid out of the fund of said trust estate compensation for his services in the sum of $500.00.

DATED: Honolulu, T.H. November 9, 1921.

Jas J Banks
Judge of the Circuit Court of the First Circuit

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT.

To the Honorable the Presiding Judge at Chambers, in Equity, of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 37th Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1921, to and including June 30, 1922.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

The petitioners submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 16th day of October, 1922.

C. H. Atherton
W. O. Smith
Wm Williamson

Trustees under the Will and of the Estate of Bernice P. Bishop, dec'd.

For Court

ANNUAL REPORT
of
THE PRESIDENT
of
THE KAMEHAMEHA SCHOOLS

1921 - 1922

The Kamehameha Schools
Honolulu, Hawaii
August 10, 1922

To the Trustees of the
Bernice P. Bishop Estate
Honolulu Hawaii

Gentlemen:

I have the honor to submit the following report of the Kamehameha Schools for the school year 1921-1922.

OUTSTANDING FEATURES OF THE YEAR

The particular feature which has made the year 1921-1922 differant from those which have preceded it has been the extension of the course of study. At the School for Girls this change was not numerically very important for but four of the sixteen girls who had the preceding year completed the 9th grade and were therefore eligible for the advanced work returned to take it. This small showing of interest was I am satisfied, due in a considerable measure to well meant but poor advice from members of the Girls' School staff, for five others of the sixteen continued their secondary school work elsewhere. The fact, however, that these four girls did their class work with the boys in Bishop Hall did distinguish them and the results of this trial of co-education were so uniformly good that it is with real regret that I see it abandoned for the next class because of numbers.

At the School for Boys the interest shown was greater than had been expected. Twenty-three out of a possible thirty returned for the advanced work and their presence made a marked change on the campus. The new year saw no new set of cadet officers in charge of the battalion. With twenty-three of the "graduates" back as pupils there were not as many new boys as usual. Of the eight classes I have known as pupils there is certainly none which could have started the new order of things more auspiciously.

Four boys and one girl dropped out of this group of twenty-seven during the year. In two instances ill health was the reason, one boy decided he was too old to be in school and ought to go to work, and the other two found that the work was beyond their ability. Two or three more will probably not return in September for similar reasons and five more have had enough of being pioneers and plan to transfer to Punahou for the coming year. The numbers in the eleventh grade will be small but a good start in the right direction has been made and the coming tenth grade looks encouraging in size. These transition years are bound to be hard ones for pupils, teachers, and administration alike but when the new order has been accomplished and running for a year or two the difficulties of the past will be forgotten and a long forward step will have been taken.

Equal almost in significance to the extension of the course of study has been the adoption during the year of a comprehensive plan of making provision for the old age of teachers and other employees of the Trustees under Mrs. Bishop's will. Recognition of the Kamehameha Schools as an "institution engaged primarily in educational or research work" by the Teachers Insurance and Annuity Association of New York, the corporation created and backed by the Carnegie Foundation for the Advancement of Teaching, whose purpose is "to provide insurance and annuities for teachers ----- on terms as advantageous to its policy holders as shall be practicable and to conduct its business without profit to the corporation or to its stockholders", and the adoption by

the Trustees of a contributory plan for the payment of premiums puts the Kamehameha Schools in the ranks of some seventy-five mainland colleges and universities in making provision against dependency in old age for their teachers and other employees and distinguishes them as one of the very few schools of secondary grade who have adopted a comprehensive plan for providing such protection.

ENROLLMENT

The enrollment by departments and the number of changes which have occurred in it are shown by the following table;

Enrollment Record - Year 1921-1922

	Enroll. Sept.	Entered dur.yr.	Left dur.yr	Enroll. June
Boys' School	155	3	14	144
Girls' School	108	6	10	104
B.S.PREP.DEpt.	72	5	3	74
Totals	335	14	27	322

The usual full enrollment of the Preparatory Department of the School for Boys is shown by the table and any larger numbers in the School for Boys proper would have meant unwise crowding in the dormitories. At the School for Girls, however, there has at no time been a capacity enrollment. While but eight or ten more girls could have been accommodated a condition to which careful consideration should be given is indicated. Why have fewer girls qualified to do the work of some one of the grades 6 to 10 inclusive than could be accommodated applied for admission at this the least expensive girls' boarding school in the territory?

Several reasons might be suggested. The public school system has been for several years, and still is, providing additional opportunities each year for pupils to continue their schooling at home. With high schools on every island, junior high schools in Kona, Kohala, Waimea, Kauai, and seven and eight grades in many smaller schools which but recently had only the grades 1 to 6 it is quite natural that many boys and girls, particularly the latter, should have no real need for a boarding school.

A possible reason which we should carefully consider is whether there is anything about the opportunities offered or the life at the School for Girls which makes it unattractive to the girl of today. I believe that it is quite possible that too strict an adherence to customs and methods which were good fifteen or even ten years ago may account for a lack of interest on the part of the girl of 1922 and also on the part of 1922 parents. When the School for Girls sacrifices some of its time honored practices - and good practices for their time - to progressive changes adapted to the third decade of the twentieth century there will be, I believe, no dearth of applicants for admission, and it is hoped that some of the needed changes which have been already suggested and others can be accomplished during the coming year.

132

HEALTH

Among the pupils health conditions have been those of a normal year. Epidemic of mumps at the Preparatory Department and of "flu" at the School for Girls have necessitated the quarantine of those departments for nearly two months in the latter instance and longer in the other. There has been very little ill health among the teachers and practically no substitution required except in the case of one teacher on her first year's contract and whose services have not been retained for the coming year.

From the beginning of the year in September until Dr. Kilbourne's return from the mainland in November Dr. A. L. Davis substituted as school physician most acceptably. All the operative work was attended to by Dr. Kilbourne, a summary of such work being as follows:

Appendectomy	7
Tonsilectomy	14
Adenoidectomy	4
Hernia	1
Circumcision	1
Nasal - 1 (x) -	2
Mastoid (x)	1
Eye Operation (x)	1
Hermoids	1
Old Fracture	1

(x) Performed by other than school physician.

There have been more cases of incipient tuberculosis than for several years past. Two girls have been taken to Leahi Home during the year; one left for her home on Kauai after a few weeks much improved in health and the other is still there. Since the close of the school year a preparatory department boy has been taken there and another who had been there under treatment for over a year has returned entirely sound physically.

DENTISTRY

After having served five years as School Dentist, from 1916 when our dental operating room was opened to 1921, Dr. Dai Yen Chang was for this year granted a leave of absence without pay and Dr. A. Gonsalves has devoted 10 hours per week, except during epidemics of contagious disease, to the dental work of the pupils. His work has been satisfactory and as Dr. Chang still prefers to devote his entire time to his private practice Dr. Gonsalves will continue as School Dentist during the coming year. The cost of this important phase of the care of the health of pupils has been less than in three of the five preceding years as shown in detail by the table which follows:

	Total paid to Dentist	Recollected from Pupils	Balance paid by Schools.
1916-17	$ 1766.00	$ 1278.00	$ 486.00
1917-18	2071.00	1268.00	803.00
1918-19	1813.00	1352.00	461.00
1919-20	2356.50	1362.00	994.50
1920-21	2998.50	1374.00	1624.50
1921-22	2052.00	1356.00	696.00

For the first time since 1916 it has been necessary to replace a few items of equipment in the dental operating room. The expense incurred was $40.00 making the total net cost to the schools $736.00. The cost per pupil in the three

departments has been:

Preparatory Department	$2.36
Girls' School	6.90
Boys' School	7.02

EDUCATIONAL FEATURES

Aside from the extension of the course of study already discussed, the reorganization of the work in Music has probably been the greatest change made during the year. In previous years there have been employed as teachers of music one woman who resided at the School for Girls and gave instruction in vocal music to all, and piano lessons to about twenty of the girls, and a man or woman who combined with instruction in vocal music for the boys of both departments of the School for Boys enough class room work in some other subject to make up a reasonable program. Under such an arrangement two things always had been and seemed likely to continue to be true; the girls received good training in singing and mediocre piano instruction or vice versa depending upon the aptitude and training of the teacher, and the boys similarly failed to get all that they should either in vocal music or such other subject as might in a particular year be assigned to the music teacher. During the year 1921-1922 we have had two teachers of music, one in charge of the work in Vocal Music in both schools and all departments, and the other devoting her entire time to piano instruction. This arrangement has made it possible to a little more than double the number of piano pupils thus satisfying partially a demand which has been increasingly insistant.

Miss Olsen the teacher has proven exceptionally well adapted by temperament to be the teacher of Piano in a boarding school and has produced results which for an initial year are both surprisingly good and indicative of much greater accomplishment after a few years of continued effort. To have its effect apparent a longer period than one year of consistent training under one system is probably more necessary in the field of vocal music but Miss Chapman has done remarkably well during her first year, a year of becoming acquainted with a new situation and the effort necessary to overcome the instinctive though unreasonable resentment of the older boys at being under the tutelage of a woman. The year has clearly proven the superiority of the new organization for instruction in both vocal and instrumental music.

SUMMER SESSION

Interest in the five weeks summer courses was, despite considerable advertising and the sending of circulars to those on a rather extensive mailing list, not as popular as in some past summers. Sufficient enrollment to justify opening shops or class rooms was obtained only in the Sewing Department for girls where Mrs. E. E. Baty acted as substitute teacher, the Woodworking Shop with the regular teacher in charge and the Electric Shop where Mr. Baty the retiring teacher presided. The numbers to whom certificates were granted were:

Sewing	9
Woodworking	15
Electricity	16

The racial distribution of the 40 girls and boys was:

#5

Haole	34
Chinese	1
Japanese	3
Hawiian or part Hawaii	2

SUMMER VACATION STUDY

Three summers have shown interest in the $250.00 allowance to assist teachers in attending mainland summer sessions to further train themselves for their work as follows:

1920, three applications and three awards, to Miss Moody, Miss George and Mr. Bartlett.

1921, one application and award, to Miss Breckenridge.

1922, six applications and three awards, to Miss Williamson, Miss Noeckel and Mr. Lowrie.

The plan now in operation long enough to have become established and with consequent increasing interest bids fair to be a real factor in improving and retaining a competent corps of teachers.

OPERATING EXPENSES

The attached annual report of Mr. H. E. King, Accountant, shows in considerable detail the financial results of the fiscal year ended June 30, 1922.

The decrease in operating expenses from those of the preceding year, $11353.33 or 5.04%, was secured by a policy of economy inaugurated at the beginning of the school year, assisted by a slight decline in the cost of some commodities, principally those used in the boarding departments. At a general faculty meeting in September the uncertainty as to what might be demanded from the Trustees by the Internal Revenue Department was explained to the members of the staff of all departments and they were urged to seek in every reasonable way to keep expenses down.

Of the nine general headings under which the comparative statements are made a decrease is shown in the total for all departments with the single exception of "Administration and General" The increase here is due primarily to three items; a difference in classification between the two years which makes a comparative though not an actual increase of $1390; Mr. Carpenter's salary $4200; and Miss Newton's half salary while on leave of absence, $1650. It will be noted that in the Girls' School subdivision three other headings show increases; "Upkeep of Grounds" due to an increase in wages; "Boarding Expenses" under which heading the half salary paid Miss McCracken while on leave $1050.00 is charged and where the effect of a matron without local experience in comparison with Miss McCracken's marked efficiency at providing excellent board at low cost is shown; and, "Care of Health" where the increase is due to the "flu" epidemic and the necessity of employing extra nurses.

135

Account 36, Scholarships, which comes under the general heading "Instruction" shows practically the same net result as during the preceding year, the exact comparison being a decrease of $9.25. Estate Full Scholarships were granted as follows;

9 girls at $50.00	$450.00		
3 " " 25.00	75.00	$525.00	
18 boys at $50.00	900.00		
1 boy " 23.75	23.75	923.75	
10 boys - P/D at $74.00	740.00		
1 boy " " 37.00	37.00	777.00	
Total		$2225.75	

Compared with the school year 1914-1915 when pre-war conditions prevailed and making no allowance for increases caused by additional services rendered, the year 1921-1922 shows a percentage increase in total operating expenses of 62.46%.

STOREKEEPER

During the first two years of its operation the "School Store" showed a small profit after being charged with all expense incident to its operation including the salary of the Storekeeper. The figures of net profit were 1919-1920 $388.52 and 1920-1921 $841.55. This year "Stores Expense" has been somewhat greater because of renting quarters for the Storekeeper, an item of $360.00, and there has also been some loss occassioned by the necessity of selling at present day prices some stock purchased before costs dropped from the war time level. The net result is as follows:

Total sales to pupils, teachers, and various departments of both schools		$17794.20
Total charges including inventory adjustment		16034.42
Gross Profit		1759.78
"Stores Expense" -		2008.04
Salary of Storekeeper	1500	
Rent quarters for Storekeeper	360	
Miscellaneous	148.04	
Net Loss		248.26

With more settled conditions as to prices of groceries the Storekeeper is now increasing his sales in this line to the occupants of the cottages on the campus and while but a small profit is made on each article, and the purchasers are thus given a service which seems to be appreciated, it is believed that as the volume of business of this kind increases the aggregate profit will prevent any loss in the future. By moving the "Store" into the central mauka room of the shop building which has been the "armory" and putting the military department in the smaller room which has been the store better facilities for handling his stock are being this summer provided the Storekeeper.

136

#7

FARM

Dairy products represent the source of roughly two thirds of the income of the farm. These products are principally milk. When in the summer of 1921 an increase in the price for milk of 25% was authorized it seemed that nearly half of the $7800. deficit shown for the year 1920-1921 should be eliminated but the tables which follow show instead a reduction of less than $1000.00 in farm "net cost". This result is primarily due to the reduction in the inventory value of the livestock, the market price for dairy cattle having declined during the year making the total value $1010 less than a year ago, and the epidemic in the swine herd having reduced the numbers from 75 to 46 and the value from $3610.00 to $1592.00. There were also unusually large charges for veterinary service incident to both the epidemic among the hogs and the efforts to clean up the damage done the cows by the Pabst bull Aurelius.

Reference to the Dairy Herd Performance table shows that during the year 1921 production dropped to a figure third from lowest in the eight years for which records are available, the direct result of the breeding troubles in the herd, and also that the herd average for butter fat has gone down appreciably.

The tables which are self explanatory are as follows;

Farm Operating Expenses

Year	Salaries and Wages	Feed Purchased	Other Misc. Expense	Total Operating Expense	Operating Expense less Income or Net cost
1911-12					$ 3142.23
1912-13					4313.94
1913-14					3727.48
1914-15					2845.27

"PUPILS ACCOUNTS RECEIVABLE"

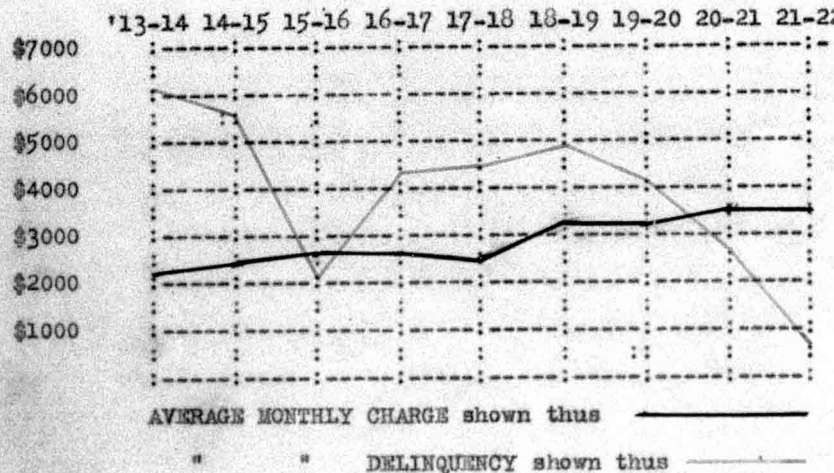
This heading is the name of the account in the general ledger which is the control on the accounts in the pupils ledger nearly 400 in number. When our books were closed as of June 30th 1921 this account showed a debit balance of $4078.67. This figure, the total of 182 open debit accounts less the sum of 34 credit balances, while less than the corresponding figure in any of the years immediately preceding since 1916 attracted the attention of the Trustees and in September all parents, guardians, and patrons were advised by circular letters that pupils' bills rendered monthly must be either paid or satisfactory arrangements for their payment made, on or before the 10th of the month next succeeding that in which they are presented or the pupil made liable to suspension. This backing from the Trustees has been a decided help in a task which throughout my eight years experience has been a difficult one, to which considerable attention has been given (See Special Report to Educational Committee April 7, 1915, and Minutes for April 9, 1915.)

In this connection a study made of the records of collections in the past nine years should be of interest. A large debit trial balance does not in itself indicate an unhealthy state of affairs. It is only when, after presentation of statements based on such a balance, the payments are not prompt that a condition needing remedy is shown. If we therefore take the trial balance of "Pupils' Accounts Receivable" month by month and from it deduct all credits to that account during the month next succeeding we secure a series of figures which represent the "delinquency" after a period of from twenty to twenty-five days depending upon how soon after the closing of accounts on the last day of the month it is possible to get bills made and in the mail. Plotting these figures gives a "delinquency curve" which is very interesting in its fluctuations and shows some progress since the year 1913-1914. Condensed to fit the limits of this report by deriving the average monthly delinquency for each school year and adding another curve which should be considered at the same time, a curve showing the average monthly charge to "Pupils' Accounts Receivable" during each year, we have the following:

138

#9

Pupils' Accounts Receivable



AVERAGE MONTHLY CHARGE shown thus ——————

" " DELINQUENCY shown thus ——————

The "charge" curve is important for it will be noted that, while the "delinquency" curve shows in general a marked decline, it, on the other hand, shows a fairly steady increase. The delinquency has decreased while the amount charged and hence to be collected has increased. The average monthly charge to all pupils in 1913-1914 was $2070.06, that in 1921-1922 $3519.80 an increase of 70%. One reason for this is obvious. While "tuition" charges have remained constant the cost of all such articles as books, clothing, stationery etc. has necessarily increased materially.

This fact, however, does not account entirely for the 70% increase. It has been offset to a considerable extent in recent years by the issue to all the R. O. T. C. cadets of government clothing without cost to them. Equally if not more important in producing this increase has been the policy of handling all necessary expenses of pupils through their school accounts. Where in 1913-1914 pupils purchased all such articles as shoes, clothing other than uniforms, toilet articles, etc. off the school grounds and as a personal proposition we have been since then gradually adding to the number and variety of such articles purchased at wholesale and sold to the pupils at as small a margin above cost as possible. Where formerly all such expense as doctors, dentists, or hospital bills were carefully kept off the school books we now assume full responsibility to those rendering such services, charge the pupils, and try to collect the added amounts thus due from their parents or guardians. As I have previously shown on several occasions such a policy would obviously be a wrong one if the administration of the schools sought to keep the monthly cash allowance from the Treasurer at a minimum.

The "delinquency" curve is more interesting. The large unpaid pupils' accounts were one of the things which first impressed me in the summer of 1914. With some effort during the following year the average monthly delinquency was reduced from $6113.08 to $5690.86. A circular authorized by the Trustees and insisting on payment within 45 days after the presentation of bills, and the abandonment of the work scholarship plan in the spring of 1915 operated to produce

139

a marked drop in the curve in 1915-1916. But then the enrollment in the School for Boys fell off, some of the Trustees felt quite concerned about it, we were endeavoring to get boys into the school and keep them and were not in an advantageous position to replace the boy whose account was not promptly paid. The result is shown in the rise in delinquency in 1916-1917. During that and the following year, Mr. Bostwick's last two years, the figure remained between $4300 and $4400. Then came the Watson regime and things became worse. Mr. Bartlett worked hard for payment in advance and during his first year a figure of $4000 was approached. 1920-1921 showed a drop to within $700 of the 1915-1916 figure and brought the "delinquency" curve below the "charge" curve.

During the past year after the issue of the circular regarding payment of bills the entire matter of collections was taken over by the President's office instead of delegating it as formerly to the three principals who know the pupils and their parents more intimately and should, it had been supposed, be better able to handle each case on its merits. The result has been an improvement in not only the Boys' School which has always been the chief offender but in the other departments as well and a drop in the delinquency curve to $730.61. If the figures could be readily based on the status as of the tenth rather than the first of the month this figure would closely approach zero. There have been some "satisfactory arrangements for payment" and some old accounts carried over from previous years which have made and will continue to make such a result impossible but I feel that thanks to the backing of the Trustees much has been accomplished in a task which had been consistently worked upon but with comparatively little success until this year.

ALUMNI and ALUMNAE

The organized bodies of the graduates of each school have this year done things worthy of note. After two years marked by inactivity under a group of officers and board of directors representing almost exclusively the classes prior to 1900 the Alumni Association in the summer of 1921 might have been pretty accurately described as "dead". Thanks, however, to a conscientious treasurer in Joseph Ordenstein '08 and a faithful chairman of the house committee, Louis Feary ex '01, who together had seen to it that the rents for rooms in the dormitory were collected, the financial status of the association when a group of the more recent graduates under the energetic leadership of Harold Godfrey '12 started a reorganization was very favorable. After several meetings with the President of the schools in the summer of 1921 a new constitution and set of by-laws were drafted by a voluntary committee and from a membership of 1, the treasurer exempt under the old by-laws from the payment of dues, the association has made steady progress until as of June 30th the membership was 185 active members and 20 associate members nearly four times as many as at any previous time.

The Alumnae Association has continued its activities for the building up of the Ida M. Pope Memorial Fund and in the year has added to it the tidy sum of $4398.38 making the total as of June 30th $43182.94. The contract for providing the

140

#11

Alumni-Alumnae luau at commencement time was at their request this year awarded to the Class of '97 G. S. and while the schools saved approximately $400.00 over the expense of a year ago when an outside caterer was employed the Class of '97 G. S. cleared $218.32 as a contribution to the Memorial Fund.

THE YEAR'S STAFF

The "Faculty Payroll" during the year has carried a total of sixty names. Of this total fifty-three were on a full time basis, while one teacher, three in the military department and the School Physician devoted only part time to the Schools, and two, Miss Newton and Miss McCracken, were on leave of absence. Classifying them according to essential character of occupation, although there is considerable over-lapping of duties, we have;

Administration and clerical	13
Teachers	27
Boarding departments	9
Health department	4
Military department	4
On leave of absence	2
Religious education	1

Thirteen were on their first year of service at the schools and of this number eight are to remain for the coming year.

Of those of longer service who will not be on the resident staff next year; three, Mr. Thompson, Miss McCracken, and Miss Church, have been retired on pension; eight have resigned and three will be on leave of absence. Twenty new persons will be on next year's staff, sixteen to fill vacancies, three substituting for those on leave of absence and one addition in the Auto-Mechanic shop.

One of those who has resigned after nine years of faithful service is Mr. Baty who goes to California to join his two sons in the electrical contracting business.

The staff as a whole has been loyal and faithful. Miss Lemmon who has substituted most acceptably in the office of the principal of the School for Girls is worthy of special mention. The united efforts of all the Schools' workers supported and furthered by the Trustees have made it possible for the year 1921-1922 to show some real progress toward the high ideal set for the Kamehameha Schools by their founder.

Such progress as has been made, however, would, it is believed, be of little value unless the effort is constantly to go forward, to do each year more and better work than in any preceding year. I am sure that staff of 1922-1923 can be depended upon to make such an effort.

Respectfully submitted,

E. C. Webster
President.

ACCOUNTANT'S ANNUAL REPORT

1921 -- 1922

The Kamehameha Schools
Honolulu, T. H.
July 1, 1922

Mr. B. C. Webster
President, The Kamehameha Schools
Honolulu, T. H.

Dear Sir:

There follows herewith, the general trial balance, June 30, 1922, and tabulated statements covering all expenditures at these Schools during the fiscal year beginning July 1, 1921 and ending June 30, 1922, viz:

I General Trial Balance, June 30, 1922
II Capital Expenditures, 1921-1922
III Comparative Statements of Operating Expenses 1921-1922, of the three Departments of the Schools.
IV Comparative Statements of Operating Expenses 1920-1921 and 1921-1922 of the entire Schools and for each of the three Departments.
V Statement of Inventories, June 30, 1922
VI Students' Ledger Accounts
VII Sundry Accounts Receivable
VIII Students' Bank Accounts

Respectfully submitted,

H. E. King.

H. E. King
Accountant

THIRTY-SEVENTH ANNUAL REPORT

of the

TRUSTEES OF THE BERNICE P. BISHOP ESTATE

YEAR ENDING

JUNE 30th, 1922.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY — AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ending

JUNE 30th, 1922.

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their THIRTY-SEVENTH ANNUAL REPORT, covering the period from July 1st, 1921, to and including the 30th day of June, 1922.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B") accompanied by 1,121 vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. Copies of the Reports of the President and Registrar of the Kamehameha Schools are also filed herewith:

The accounts for the year show as follows:

Balance forward, July 1, 1921		24,972.42	805,944.32
DISBURSEMENTS			
Revenue		696,352.23	
Capital		46,787.30	743,139.53
Balance in hand, June 30, 1922			$ 62,804.79

The net Revenue Receipts for the year (including the revenue balance of $13,789.20 brought forward from the previous year) amounted to $485,913.65 as against disbursements of $624,881.41, leaving a revenue deficit of $138,967.76, or 28.6% of the net revenue, to be met out of Capital realizations.

155

This was due to the large amount which the Trustees were this year compelled to pay for account of Federal Income Taxes for the years 1918 and 1919, amounting to $178,424.28 or 36.72% of the total net revenue. Of remaining operating costs,

Property Taxes absorbed	32.66%	
Kamehameha Schools	41.22%	
Sundries	18.00%	91.88%
Federal Income Taxes as above:		
Revenue Receipts	8.12%	
Capital Receipts	28.60%	36.72%
		128.60%

Of the net Capital Receipts, amounting to $228,223.76 (including the capital balance of $11,183.22 brought forward from the previous year), 5.04% was invested in a way calculated to produce income. The segregation is as follows:

Lands Purchased	3.51%	
Roads and Sewers	1.12%	
Grading, Fencing, etc	.41%	5.04%
Maps, Equipment, etc		2.38%
Kamehameha Schools		4.17%
Transferred to Revenue		60.89%
Balance uninvested		27.52%

LEASES AND RENTALS

The rent collections for the year (including taxes recovered from tenants and treated as rents) amounted to $444,417.94 - an increase of $20,559.00 as compared with last year's receipts.

A promissory note in the sum of $888.75 was accepted in settlement of rent and taxes due on Lease 2470, Piopio, Hilo, Hawaii, surrendered as of February 28, 1922. It is listed on the attached statement of Miscellaneous Assets.

In order to check the unauthorized removal of sand from the beach at Piopio, Hilo, Hawaii, the Trustees found it desirable to grant the Hawaii Consolidated Railway an exclusive license, revocable on short notice, by the terms of which the Estate has, since October 1, 1921, been receiving reports of quantities taken and payment of royalty thereon.

156

In the case of two leases for which there were more than one applicant the Trustees, in order to give each a fair opportunity, called for tenders. The result was that a three year lease of the Waialua Sea Fisheries with a $90 rental upset is now yielding $150 per annum, while for a 21 year lease of the Waialae Ranch lands a bonus of $6,500 was realized, making the average rental of these latter lands $7,000 as against the old rental of $3,030.

Leases in force at the close of the year numbered 1,234 - an increase of 42. Tenancies (so called as distinguished from leases) numbered 70 - an increase of 13. The classified record for the twelve months ended June 30, 1922, is as follows:

Leases	
New	118
Surrendered	22
Cancelled	6
Given up on expiration or renewal	46
Transferred on sales of land	2
Term extensions	9
Partial surrenders	8
Assignments permitted	144
Tenancies	
New	26
Terminated	13

Reduced rents have been continued or allowed in the case of 3 leases; 1 in Apua, Honolulu, 1 in Wailau, Molokai and 1 in Keokea, South Kona, Hawaii.

INVESTMENTS

Of personal property investments reported at the close of the year preceding, current collections aggregated $206,280, of which $200,000 consisted of funds held on special deposit against anticipated demands from the Collector of Internal Revenue for the payment of the Federal Income Taxes above mentioned.

The only addition to Investments this year was a 6% mortgage executed in favor of the Trustees by Bertha K. Isenberg in the principal sum of $3,300 payable on completion of the proposed extension of Kahala Avenue to the Northwest corner of the

157

Isenberg premises, secured by real property in Waialae, Oahu, conveyed to her by the Trustees under Exchange Deed dated August 31, 1921. Of the sum stated, $1,000 has been treated as partial consideration for the fee in the land conveyed to Mrs. Isenberg, while the remaining $2,300, representing the estimated cost to the Mortgagor of making the contemplated road improvement, is being held in suspense pending further developments, with the understanding that if the improvement be undertaken by the Trustees the Mortgagor will pay to them the full amount of the mortgage on completion of work to the point designated, but if it be undertaken by the City Authorities, and the Mortgagor is assessed direct for her proportionate share of costs under the Special Assessment Law, then the Trustees will waive collection of the $2,300 and accept $1,000 as in full satisfaction of the debt secured by the mortgage.

Retirement on July 20, 1921, of $50,000 U. S. Treasury Notes (forming part of the special deposits above mentioned) necessitated the writing off of $25.00, representing costs incurred in the purchase of such notes; also the retirement at par on January 14, 1922, of $5,500 Kalakaua Avenue Improvement Bonds occasioned a loss to the Estate of $137.50, the bonds having been purchased at the rate of 102½.

The book value of the securities detailed in the appended statement of investments as on hand at the close of the year was $405,601.70 - a decrease of $203,142.50 as compared with the total reported at the close of the year preceding. This is accounted for as follows:

Forward from June 30, 1921		$608,744.20	$
Deductions			
Kamehameha Alumni Note, bal	$ 500.00		
Kahaumalumalu Note, a/c	280.00		
Kalakaua Ave. Bonds retired	5,637.50		
U.S. Treasury Notes retired	50,025.00		
Bishop & Co., C/D retired	50,000.00		
Bishop & Co., C/D retired	100,000.00	206,442.50	402,301.70
Additions			
Bertha K. Isenberg Mortgage			3,300.00
Total, June 30, 1922			$405,601.70

158

TRUSTEES AND MEETINGS

There has been no change in the personnel of the Trustees since last report - the Board at the close of the year being constituted as follows: William O. Smith, President; E. Faxon Bishop, Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Fifty-one meetings were held during the year.

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended statement - the list includes fifteen sales, four purchases and six exchanges. Among the former may be mentioned the conveyance to the City for a nominal consideration, of title in several parcels of Estate lands within the Kakaako Improvement District used for, or needed in connection with, public streets. As practically all of the area involved has in fact been used for that purpose for some years past, the principal object of the transaction was to transfer the paper title to the Governmental Authorities. The quit-claim to the Cleghorn Estate of title in two small lots of agricultural land at Kanewai, Waikiki, was also a transfer of paper title merely, the lands concerned never having been in possession of the Trustees and adverse rights having been established by the vendee. The sale to Henry Mailolo of a small lot in Keei, South Kona, Hawaii, was one of the results of a recent survey, which disclosed five instances where the boundaries of Kuleanas in Keei had previously been incorrectly defined so that their walls subsequently built enclosed small pieces of the Konohiki. Amicable adjustments have been effected in each of these instances - Mailolo purchasing the Estate area involved in his case and the others consenting to the moving of the walls on to proper lines, which latter work is now being done at the expense of the Estate.

159

The purchases were confined to lands in Waiawa and Waialae - the former including a flowing spring of fresh water capable of development so that the surplus may be profitably used on neighboring cane lands of the Estate. By the Waialae purchases, supplemented by the Isenberg exchange, the Trustees acquired title in various scattered Kuleanas within their larger Waialae holdings.

The two Manoa exchanges enabled the Trustees to acquire permanent road easements from Tantalus Road across intervening properties to the Estate lands of Puahuula and Pukaemaomao, portions of which will eventually become sites for mountain homes.

In fulfillment of preliminary conditions incidental to the conveyance of title in Estate land needed for the widening of King Street at the East corner of Houghtailing Road, the City has this year completed the paving of the area taken for the street, set back old buildings to the new property line and laid a new curbed, concrete sidewalk along the Estate frontage, all of which greatly improves the approach to the Kamehameha School premises.

Another important street improvement affecting Estate lands has been that undertaken by the City within the area known as the Kakaako Improvement District and for which the Estate has been assessed $170,665.40, due July 19, delinquent August 18, 1921. Of the sum mentioned $19,051.76 is being taken care of directly by the Government as occupants of the Marine Railway and Atkinson Park premises, leaving a direct charge of $151,613.64 against the Estate which the Trustees have elected to pay on the 10% installment plan. Of this sum $123,382.22 is recoverable from tenants holding leases within the District, leaving a balance of $28,231.42 to be absorbed by the Estate, representing (a) the unleased areas ($23,448.20) and (b) the Lessors' share

150

($4,783.22) of leased areas in the case of those leases whose terms will expire prior to the end of the ten year payment period allowed by statute.

Of the two roads mentioned in previous reports as having been built by the Trustees for the purpose of serving subdivided areas in Kona, Hawaii, the one through Keauhou has this year been put in repair, while the other (through Keei) is now in process of repair - the work in both instances being done by the tenants in fulfillment of lease conditions and with practically no expense to the Estate, save only as to those portions of the Keei Road which abut upon areas still unleased.

In accordance with the terms of an agreement whereby the Trustees covenant to convey to Lau Kang et al the title in a lot of 1221 square feet of Estate land in rear of the premises owned by Lau Kang et al at the West corner of Nuuanu Avenue and Bishop Lane, the prospective purchasers have torn down the old wooden-frame structure which formerly stood on that corner and are erecting, in its stead, a modern two-story store building of a character in keeping with the best of the more recent buildings erected in that section of the city.

The Kauikeolani Building, erected in 1913 by the Charles Brewer Estate, Limited, on land leased from the Bishop Estate on King Street near Fort, is being heightened by the addition of one more story, which greatly improves the appearance of the front elevation of the structure.

A lot of Bishop Estate land on Ala Moana, occupied by the Honolulu Planing Mill, has this year been filled by the Lessee to the grade established by the City under the Kakaako Improvement District plans - the Lessors contributing towards the cost by accepting the fill in place, in lieu of a half-year's cash rent, $700.

A much needed increase in the water supply of the Kunana

161

Subdivision, at Watertown, Ewa, was this year provided at an expense to the Estate of $226.93, representing two-thirds of the total outlay for materials, including 1,400 feet of pipe connected with the 2½ inch main of the Hawaiian Dredging Company who, besides furnishing supervision, also bore the remaining third of material costs. The labor for laying the pipe and making the necessary house connections was supplied by the tenants.

During a tour of inspection of Estate lands on the Island of Hawaii made last March by a committee of Trustees, the possibility of the eventual development of portions of upper Keauhou, in North Kona, as a site for summer homes was conceived and will receive further study. Data as to rainfall is now being gathered by means of guages installed by the Estate at three different points - Kanahaha, Ahua Umi and Puu Lehua - and read at regular intervals by Mr. W. H. Greenwell, who has freely volunteered his services in this matter.

A revised plan of subdivision of the beach section of Kahala has been adopted by the Trustees designed to give each of the present occupants there a direct thirty year lease of lots regularly laid out with a system of five 10-foot lanes forming convenient approaches to the beach from the lots in rear and providing also for the future relocation and improvement of Kahala Avenue on a width of 60 feet. The new leases, carrying net rentals calculated to yield the Lessors a fair return on present land values and future development costs, will commence April 1, 1924 (the date of expiration of the majority of the existing leases) and will be issued as soon as some further necessary surveys are made. In the meantime, dating as from January 1, 1922, all of the tenants who are to receive new leases have agreed to pay the taxes assessed against their present holdings - a condition not contained in the original

182

terms and which has had the effect of placing the Lessors in the position where the taxes paid by them exceeded the sum total of the rentals collected from this source.

In January, 1922, a severe storm swept away 16/100 acre of taro land and 15/100 acre of Kula belonging to the Trustees at the mouth of the Wailau Stream, in Wailau, Molokai; and in consequence a 50% reduction in the rental heretofore paid by the Wailau hui of native tenants has been granted by the Trustees upon the understanding that the tenants will continue in occupation of the remaining taro lands and keep them under cultivation.

The Trustees have prepared and file herewith an inventory of the property held by them as of the 30th day of June, 1922, and are publishing a copy of the same in the "Honolulu Advertiser."

MAPS AND SURVEYS

The policy of having made new and complete surveys of Estate lands has been continued - the moneys expended in this way during the past year amounting to $3,753.76 exclusive of the time of regular employees engaged in the work. Of this sum $3,425.96 represents the cost of extra labor and materials used on completed maps added to the office collection of maps. The remainder ($327.80) represents the costs accrued on work still unfinished at the close of the year.

Completed work comprises:

(1)	Additional costs of a general detailed survey of that portion of Waiawa, Ewa, Oahu, lying principally makai of the main Government Road	$ 205.50
(2)	Monumenting of portions of Helumoa, Waikiki, Oahu	13.00
(3)	Additional costs of the resurvey of sections of Kahauloa 2, South Kona, Hawaii	474.90
(4)	Additional costs of the resurvey of sections of Keokea, South Kona, Hawaii	20.20
(5)	General detailed survey of Puaa 1, North Kona, Hawaii	1,060.17

163

(6) Study of the Kahaluu-Kaumalumalu boundaries North Kona, Hawaii $ 51.55

(7) General detailed survey of the lands of Waiapuka and Ulupaalua, North Kohala, Hawaii 1,060.69

(8) General detailed survey of portions of Keauhou, Kau, Hawaii 539.95

Uncompleted work comprises:

(1) Preliminary survey of a portion of that section of the land at Kakaako, Honolulu, lying makai of Ala Moana, and monumenting corners 20.00

(2) Soundings and cross-sections in Maunalua Pond, Oahu 22.49

(3) Preliminary survey of section of Honohononui, South Hilo, Hawaii, including location of roads in preparation for subdivision 285.31

The purpose of the Kahaluu-Kaumalumalu boundary study was to determine upon an equitable line of division between the two lands in order that the owners of Kaumalumalu might proceed at once with the continuation of the present fence (ending at a point some 3½ miles above the Government Road) to the Kealapuali Trig. Station. To facilitate matters, the Estate engineer has run out a straight line which differs from the line previously run and cuts off some 200 acres from Kahaluu; and the parties in interest have agreed that, as soon as a proper survey can be made of Kahaluu as a whole which will accurately determine areas, they will execute an agreement definitely fixing this line as the true boundary between their respective holdings - the understanding being that the Kaumalumalu owners will construct the proposed additional fencing at their own expense, accept title in the cut-off section of Kahaluu and pay therefor such sum of money as shall be determined by appraisal to be the value of the portion lying above the 3½ mile point, the remaining part (below said point) being thrown in, without charge, by way of compromise.

The Puaa (North Kona) Survey disclosed that the fence

164

erected to mark the line of division between Puaa 1 and the adjoining land of Holualoa does not stand on the true boundary although following the same with sufficient accuracy to make it acceptable to the Trustees. The deviations, made for the purpose of avoiding natural obstacles, such as swampy areas, throws about three acres of Puaa on to the Holualoa side and about twelve acres of Holualoa on to the Puaa side.

The Kahauloa (South Kona) Survey included the location of lots planted to coffee within the area extending from the sea to the makai line of forest reservation, done with the view of enabling the Trustees to continue their policy here, as elsewhere, of dealing directly with actual occupants on the expiration of old blanket leases. In this instance the old lease, reserving an annual rental of $470, will expire November 1, 1922, and will be superseded by ten new leases at rentals aggregating $1,015.

The Honohononui Survey consisted of preliminary work within the area lying makai of the Government road, including the tentative location of two 16-foot cross roads and the compilation of a plan of subdivision designed to meet local demands. The Ili of Honohononui has heretofore been leased in a single tract, but it is believed that the rentals derivable from the beach section will be sufficiently remunerative to justify the costs of the proposed development of that section. As the old lease did not expire until June 30, 1922, active operations could not be started until July 1, but road work is now in progress and is expected to be completed before the end of the current calendar year.

FORESTRY AND FOREST RESERVATIONS

The Trustees have this year made their fourth pro rata contribution to the fund raised from among the various owners concerned to enable the Experiment Station of the Hawaiian Sugar

185

Planters' Association to continue through 1922 the work (begun in 1918) of rehabilitating the Halawa-Niulii Forest Reservation area, known as the "H. S. P. A. Forest Reserve No. 1," in North Kohala, Hawaii. The Station reports that the nursery work and planting operations undertaken in connection with this reserve, are progressing satisfactorily.

With the view of securing the reforestation of the lands in upper Manoa Valley and the re-creation there of an effective watershed, the Trustees in 1920 (see 35th Annual) leased to the Hawaiian Sugar Planters' Association a tract of 69.5 acres in Aihualama to be used as an aboretum in connection with the acclimatization garden and forest nursery of the Association's Manoa Sub-station. The initial report of the Lessee, covering the period July 1, 1920 to December 31, 1921, gives six acres as the area planted during that time and states that the purpose of the Station is (1) to plant on this and adjoining tracts a few specimens of all available species of trees in order to test their value as forest trees and their ability to thrive under Hawaiian conditions and (2) to create small groves of desirable species which will eventually become a source of seed supply for planting in other parts of the islands.

During the winter months last past, the Hawaiian Sugar Planters' Association has planted trees on the upper levels of Estate Oahu lands to the number of 10,277, distributed as follows: 5,977 on Halawa, Ewa; 3,000 on Waiawa, Ewa; and 1,300 on Kapalama.

As a preliminary measure of safety in connection with a proposed survey for a military road across a portion of the forest area of Kawailoa, Waialua, Oahu, the Trustees and Waialua Agricultural Company, Lessee, employed two expert foresters to inspect conditions along the line of the proposed road; and their illustrated reports, now on file, contain much valuable infor-

166

mation on the character and sensitiveness of the Kawailoa forest and the potential damage which might result from the building of the road. Copies of these reports have been furnished the military authorities with the view of impressing upon them the need for extreme care in conducting the survey.

During the above inspection one of the forestry experts found that a number of young, healthy, live koa trees in the Kawailoa forest had been deprived of branches in such a way as to be destructive; and as a result the Lessee has promised to discontinue the practice of taking dead wood from the forest for domestic purposes and to plant ten seedlings for every one of the improperly trimmed trees.

In December last the Trustees granted a 5 year lease of a 10 acre lot at the 2,700-foot contour in the Kahauloa 2 Forest Reserve, South Kona, Hawaii, with the stipulation that the lessee must plant on a portion of the demised premises sugi trees, otherwise known as "Japanese Redwood" (Taiwania Crytomerioides), which are similar to the big trees of California. Whether such trees will grow there is yet to be seen, but the tenant seems confident of success and it will be interesting to watch the results of the experiment.

LAW

By the exchange deed with Ho-a et al (see Land Transactions attached), the Trustees accepted the return of the acre lot granted last year by way of compromise in the matter of the Trustees' petition to register title in the Ili Aina o Honohononui, South Hilo, Hawaii, and gave in its stead a lot in the same tract and of practically the same area but differently placed - the original location having proved unsatisfactory to the other parties in interest.

The exchange with the Roman Catholic Church enabled the Trustees to peaceably dispose of an adverse claim affecting

title in two acres of Estate land in Waiapuka, North Kohala, Hawaii, found by the late survey to be in possession of the Church - the latter quit-claiming all of its interests in the cane area for a release of the Trustees' interests in the part adjoining (25/100 acre) used as a cemetery.

In August, 1921, the Trustees' attorney went to Washington and there made further representation of the Trustees' claim for exemption from the payment of Federal Income Taxes, but since his return word has come that the Committee on Review and Appeals has sustained the former ruling that the Bishop Estate trust is a common law trust and as such is taxable. What further steps will be taken has yet to be determined by the Trustees.

An appeal has been taken and argued before the Tax Appeal Board, Third Division, against the tax assessed on the land of Piopio, South Hilo, Hawaii, for the year 1922, but judgement has not yet been rendered.

Two suits for summary possession filed by the Trustees against George M. Yamada in the District Court to recover overdue rents were discontinued on March 3, 1922, when the greater part of the amount sued for was paid in to the Trustees.

Five $100 promissory notes, all dated March 1, 1922, and payable in monthly sequence after May 1, 1922, were accepted from George M. Yamada in settlement of an account for firewood cut and removed from the Estate land of Kunana, Ewa, after his license so to do had lapsed. Forty cords found cut and stacked on the premises were seized by the Trustees and sold to other parties for $447, as appears in the accounts.

Suit for summary possession, Bishop Estate vs. Hee Fat, filed in the District Court at Hanalei, Kauai, terminated on February 21, 1922, in favor the Trustees, resulting in the cancellation of his Lease 1989 of portions of the Ahupuaa of Lumahai. This was followed by an attachment suit, brought in

the Fifth Circuit Court, to recover $1,432 of back rent on said Lease 1989, but this suit was discontinued on May 15 on settlement of the amount sued for out of court.

In July, 1921, the Trustees were notified by the Superintendent of Public Works that in accordance with the report of the Board of Public Health and the provisions of Chapter 71, R. L. Hawaii 1915, as amended by Act 190, S. L. 1915, he would proceed with the construction of a canal designed to drain the tract of land at Waikiki, known as the Waikiki Drainage District, bounded by Sheridan Street, King Street, Waialae Road, Kapahulu Road and the sea. The assessable area within this district is said to be 1,250 acres, of which 73.75 acres belongs to the Bishop Estate. The Trustees, while not opposed to the general project, considered that inasmuch as the statute dealt only with insanitary lands; whereas, with the exception of a very small area, the Estate lands concerned were sanitary and required no drainage or filling, the question of the legality of the proceedings should be settled at once and, therefore, on August 4, 1921, filed an appeal. After several hearings, with expert witnesses appearing for and against the Territory, the Appeal Board has decided in favor of the Territory, holding that the lands concerned are insanitary within the meaning of the statute and are therefore assessable.

KAMEHAMEHA SCHOOLS

Development Plans: The unexpected demands by the Federal Government upon the resources of the Estate have made of the School building programme a difficult problem, but it is recognized that the present buildings are obsolete and that new buildings, with modern facilities, are imperatively needed and should be provided without further delay. In studying the question of physical re-organization the Trustees have decided upon the following general outline for guidance in planning: that

159

the Girls' School should be shifted to the Boys' School side of King Street so as to concentrate all buildings within the area bounded by King Street, Kalihi Road, School Street and Houghtailing Road, but with a well defined line of demarkation between the two schools; that the Bishop Hall and Bishop Museum should be regarded as permanent structures and form the nucleus of a central group of buildings composed of such as would be used in common; that dormitories should be located on the highest ground available and that these, with other buildings incidental to a boarding school, should be so placed with reference to recitation buildings as to make it possible for day scholars when admitted in numbers to enter and leave the campus with the least interference with the routine of the rest of the school; that inasmuch as the Boys' School is avowedly an industrial-vocational school, the shops should receive due prominence; and that the Preparatory should be made a unit of the Boys' School and not maintained, as heretofore, as a separate department of that school. A sketch combining, with the views of the Trustees, the best ideas of the several architects who have submitted plans, is now being prepared and will be forwarded in due course, to Mr. Bertram G. Goodhue, the New York architect and landscape artist, in order that he may complete his contract with the Trustees to furnish them a finished block plan which will admit of a continuance of present buildings while reconstruction is in progress.

Buildings: The year's outlay under this head was $6,512.62, distributed as follows:

Shelter Station provided at the King Street entrance of the Boys' School premises	$ 315.30
Teachers' Cottage "M": A frame building erected as an addition to the group of Boys' School cottages located on the Ewa side of Kalihi Road	4,423.99
Development Plans of proposed physical reorganization of the Boys' and Girls' Schools	503.75

170

Dormitory "A", Boys' School: In replacement of damage caused by fire occurring in the afternoon of February 10, 1922 — $1,094.58

Note: No one was in this building when the fire occurred and its origin is believed to be due to spontaneous combustion of a small quantity of oily waste found in one of the rooms. Insurance recovered was $2,963 including $93 on contents.

Fire Protection: Installation of a fire escape on the Sewing Cottage of the School for Girls, lengthening of fire escapes on the main halls of the Girls' School and Preparatory Department of the Boys' School and the installation of three large fire gongs similar to those recently provided for all public schools — 175.00

Equipment: Additional equipment furnished during the year cost $2,994.78, segregated as follows:

Office Equipment: Metal filing cabinets and book cases in the President's office for the use of the Assistant to the President — 272.80

Motion Picture Film showing various activities at the Schools including an exhibition drill on the campus by the Cadet Battalion with presentation of medals by Major-General Summerall, U.S.A.; also portions of the exercises at the Mausoleum on December 18, 1921 — 50.00

Band Instruments: A second hand assortment purchased with the view of reorganizing a band as part of the military work of the Boys' School — 188.67

Note: Instruction in this branch of military training will be given during the two periods of one hour each per week devoted to military science.

Victrola for the Preparatory Department of the School for Boys — 165.10

Domestic Science Laboratory: Balance costs of installing in the basement of the main building of the School for Girls the equipment referred to in last report designed for class instruction with individual cooking facilities — 751.56

Pianos: Three additional instruments provided to meet the growing demand for piano lessons in the School for Girls — 1,416.75

Note: This addition gives the Girls' School eight pianos upon which 40 girls are now receiving instruction.

171

Waialae Rest Cottage: Electric stove substituted for oil burner $ 150.00

Summer Courses: The fourth of the summer school sessions including, for the first time, courses in sewing and cooking at the School for Girls opened in all branches (save cooking) on Monday, June 27, 1921, and closed on July 29th following. The opening of the class in cooking was delayed pending completion of the new Domestic Science Laboratory, June 29th. Certificates were issued to 60 students completing the five weeks' course, segregated:

Woodworking	15	
Electricity	11	
Machine Shop	10	
Sewing	13	
Cooking	11	60

The fifth session opended on Monday, June 26, 1922, with applicants sufficient only for the classes in woodworking, electricity and sewing.

Preparatory Department: The improved conditions of today both in the homes and in the standard of the lower grades of the public schools in the rural districts have led to the conclusion that the need of placing children under ten years of age in an institution has so far subsided that the Preparatory Department of the School for Boys might now be advantageously reorganized so as to concentrate on children of the fifth grade up; and in the general building scheme it is planned to provide for a preparatory division,or unit,large enough to accommodate a sufficient number of pupils to ensure the preparation of from thirty to forty boys each year for the higher grades. In order that no hardship may be inflicted upon the children now attending the Preparatory, it has been arranged that the change shall be made gradually by dropping only the Receiving Grade in September, 1922, and thereafter one grade each year, in rotation, until all below the fifth grade have been eliminated so that eventually the new Boys' School will contain (1) a Preparatory

Division, comprising the fifth and sixth grades, (2) a Junior Division, comprising the seventh, eighth and ninth grades and (3) a Senior Division, comprising the tenth, eleventh and twelfth grades.

Vocational Survey: During the past year a careful study has been made of local conditions to determine just what occupations are open to Kamehameha graduates in order that the courses at the Schools might provide such instruction as will fit them properly into the industrial life of the Territory. As a result commencing September, 1922, there will be added (a) an eleventh grade for both boys and girls; (b) a course in auto mechanics for a limited number of boys of the tenth and eleventh grades who have already had the basic work in the machine and electric shops; (c) a required pre-vocational course in sugar cane culture for all boys and (d) a commercial course for tenth grade girls, not to exceed ten in number.

Normal work is being taken care of by other institutions and it is the desire of the Trustees to avoid duplication as far as possible. Kamehameha will therefore not undertake technical instruction in this branch but will concentrate on a course which will prepare for normal training.

Of the girls who have taken the course in professional dressmaking at Kamehameha, it is noted that only one has successfully followed up the work afterwards, and this course will therefore be dropped. But in its stead there will be furnished to all girls advanced courses in sewing and instruction in the making of their own clothes.

Pupils: The regular school year opened Monday, September 12, 1921, with a capacity enrollment of 339 and a waiting list and closed Tuesday, June 6, 1922, with an enrollment of 322, distributed:

	Opening	Closing
Manual Department, B/s	156	144
Preparatory Department, B/s	74	74
Girls' School	109	104

173

Full scholarships were awarded during the year to 42 pupils - 19 at the Manual, 11 at the Preparatory and 12 at the School for Girls - representing a charge of $2,225.75.

Due to the extension of the course to include an eleventh grade in 1922-23, no diplomas of graduation were awarded this year, but "Certificates of Completion" were granted to all pupils successfully finishing the work of the ninth and tenth grades. These numbered 80, divided:

Boys' School		
Ninth Grade	24	
Tenth Grade	19	43
Girls' School		
Ninth Grade	34	
Tenth Grade	3	37

Administration: The Trustees regret to have to report this year the death of Mr. Earle G. Bartlett, Principal of the Manual Department of the School for Boys, on Monday, May 29, 1922. He had been long connected with the Schools and labored faithfully in their interest.

As his successor the Trustees have appointed Mr. W. E. Givens, a former principal of McKinley High School. During his incumbency of the latter office Mr. Givens showed marked ability in winning the confidence of the boys - a peculiarly desirable quality for the Principal of the Kamehameha Boys' School - and his experience qualifies him in every way to assume the leadership of the Senior Division now being developed.

Details concerning the educational activities of the Schools during the year ending June 30, 1922, may be had by reference to the President's report filed herewith.

Respectfully submitted,

Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, H. T.,
October 11, 1922.

TERRITORY OF HAWAII.

AT CHAMBERS IN EQUITY.

In the Matter of the)
)
BERNICE P. BISHOP ESTATE) 37th Annual Account .
)
- - - - - - - - - - - - - - - -)

REPORT OF MASTER.

To the Honorable JAMES J. BANKS, 3rd Judge of the
Circuit Court of the First Judicial Circuit:

The undersigned M aster, appointed to examine the 37th Annual Accounts and report of the BERNICE P. BISHOP TRUST ESTATE, covering the period from July 1st, A. D. 1921, to June 30th, A. D. 1922, inclusive, respectfully reports as follows:

The Trustees of said Estate have filed herein four documents which the undersigned Master has carefully examined and which are as follows:

1.

Petition of Trustees for approval of Annual Account .

11.

Detailed statement of receipts and expenditures.

194

Annual Report of Trustees.

lV.

Report of President and Registrar of the Kamehameha Schools.

These reports will be commented on herein in the order given.

The petition of the Trustees for the approval of their annual account shows that there has been no change in the personnel of the Trustees during the year under review. It further sets forth in the regular form that the Schedules filed herein, being A, B and C, respectfully set forth all the receipts and expenditures and finally shows the aggregate of all such receipts and expenditures.

The detailed statement of receipts and expenditures mentioned above as item No. 2 has been carefully gone over and checked by the undersigned Master. Schedule A sets forth all the income receipts which have come into the hands of the Trustees for the period under review. The Master has checked these items of income receipt with the inventory and other sources of income and find these items to be true and to include all income which came into the hands of the Trustees during the period under review.

Schedule B sets forth all the expenditures made by the Trustees during the year under review ahd is supported by 1, 121 vouchers. The Master has examined

195

these expenditures and checked the same against the vouchers filed with the annual accounts herein and finds that all the expenditures were properly made and are supported by proper vouchers.

Schedule C of said report shows a summary of all the sums received and expended by the Trustees and is as follows:

Receipts - - - - - - - - - -$805,944.32

Expenditures - - - - - - - - 743,139.53

which leaves cash on hand as of June 30th, A. D. 1922, $62,803.79.

The Master has carefully checked both the receipts and expenditures and finds that Schedule C is in all respects correct.

The Master desires to commend the Trustees for the complete and comprehensive report which they have filed and which shows with great particularity the numerous items of business transacted by the Trustees and from which is obtained the following resume for the fiscal period under review:

RECEIPTS from all sources:			
Revenue.	$543,595.27	$	$
Capital.	237,376.63	780,971.90	
Balance forward, July 1, 1921		24,972.42	805,944.32
DISBURSEMENTS			
Revenue.		696,352.23	
Capital.		46,787.30	743,139.53
Balance in hand, June 30, 1922			$ 62,804.79

196

The net Revenue Receipts for the year (including the revenue balance of $13,789.20 brought forward from the previous year) amounted to $485,913.65 as against disbrusements of $624,881.41, leaving a revenue deficit of $138,967.76, or 28.6% of the net revenue, to be met out of Capital realizations.

This was due to the large amount which the Trustees were this year compelled to pay for account of Federal Income Taxes for the years 1918 and 1919, amounting to $178,424.28 or 36.72% of the total net revenue. Of remaining operating costs,

Property Taxes absorbed	32.66%	
Kamehameha Schools	41.22%	
Sundries	18.00%	91.88%
Federal Income Taxes as above		
Revenue Receipts	8.12%	
Capital Receipts	28.60%	36.72%
		128.60%

Of the net Capital Receipts, amounting to $228,223.76 (including the capital balance of $11,183.22 brought forward from the previous year), 5.04% was invested in a way calculated to produce income. The segregation is as follows:

Lands Purchased	3.51%	
Roads and Sewers	1.12%	
Grading, Fencing, etc.	.41%	5.04%
Maps, Equipment, etc.		2.38%
Kamehameha Schools		4.17%
Transferred to Revenue		60.89%
Balance uninvested		27.52%

197

More than 90% of the income of the Estate as shown above was realized from rentals. The report shows, and this is confirmed by the Master's examination, that the leases inforce at the close of the year numbered 1,234, which is an increase of 42 over those of the year preceding. Tenancies as distinguished from leases number 70, which is an increase of 13 over the preceding year.

The classified record for the twelve months ended June 30, 1922, is as follows:

Leases	
New	118
Surrendered	22
Cancelled	6
Given up on expiration or renewal	46
Transferred on sales of land	2
Term extensions	9
Partial surrenders	8
Assignments permitted	144
Tenancies	
New	26
Terminated	13

During the year under review the Trustees have continued their policy of preparing complete surveys of the estate lands. The cost of this work for the year was $3,753.76, which is computed exclusive of the time of the regular employees engaged in the work. This survey has included portions of Ewa and Waiawa on this Island, North and South Kona, North Kohola, Kau on Hawaii and Kakaako on this Island as well as Maunalua Pond Oahu and South Hilo.

The Trustees have also made their fourth pro rata contribution to the fund raised to aid the experiment station of the Hawaiian Sugar Planters Association to continue its work of rehabilitating the Halawa-Nuilii

198

Forest Reservation , known as the "H. S. P. A. Forest Reserve, in North Kohala, Hawaii.

The Trustees have also interested themselves in reforestation of the lands in upper Manoa Valley and the re-creation of an effective watershed. For the purpose of carrying out this work they have leased to the Hawaiian Sugar Planters' Association a tract of land containing 69.5 acres in Aihualama, to be used as an aboretum in connection with the acclimatization garden and forest nursery of the Association's Manoa Sub-station. At the close of the 1921 calendar year, 6 acres of this area had been planted while more is being made ready to be put in the way of being planted. The association has also planted trees on the upper valleys of the estate on this Island to the number of 10,277, distributed as follows: 5,977 on Halawa, Ewa; 1300 on Waiawa, Ewa; and 1,300 on Kapalama.

The estate this year has been compelled to pay the Federal Goverment the sum of $178,424.28 as income tax for the years 1918-1919. In August, 1921, the Trustees authorized their attorney to proceed to Washington to make presentation against the imposition of this tax, but the committee on review has sustained the former ruling of the Department that the Bishop Estate Trust is a common law trust and as such is taxable. Whether an appeal will be taken from this decision has not been determined by the Trustees. The effect of the imposition of this tax, has, to some extent, hampered the building plans of the Trustees especially as regards the Kameha-

199

meha Schools, as it has deprieved the Estate of 36.72 of its total revenue. However, the Trustees have proceeded with their plan of enlarging and improving the Kamehameha Schools, both in the matter of buildings and in the curriculum. In studying the question of physical re-organization, the Trustees have decided upon a general outline. It includes shifting the girls school to the opposite side of the street where the boys school is now and that new buildings to be used in common by both the boys and girls should be erected nearby the Bishop Hall and Bishop Museum. A sketch carrying out this idea will be prepared by Mr. Bertram G. Goodhue, the New York architect and landscape artist.

The Trustees have also gone forward with their plan of increasing the usefullness of Kamehameha Schools by enlarging their course of study as to include vocational work. As a result commencing at the opening of the term of September,1922, there was added (a) an eleventh grade for both boys and girls; (b) a course in auto mechanics for a limited number of boys of the tenth and eleventh grades who have already had the basic work in the machine and electric shops; (c) a required pre-vocational course in sugar cane culture for the boys; and (d) a commercial course for tenth grade girls, not to exceed ten in number. The course for girls in professional dressmaking has been abandoned, investigation having revealed that only one out of the number who were trained in this line followed up the work. In its stead there will be furnished to all girls advanced courses in sewing and instruction in

200

the making of their own clothes.

The report of the Registrar of the Kamehameha Schools is very complete and enlightening and shows with great and commendable detail the history and progress of the Schools for the year under review.

The Master wishes to commend the Trustees for the comprehensive manner with which the inventory has been prepared. The inventory which shows the stocks and bonds on hand gives the par value thereof as well as the book value thereof and their serial number which aids in checking and guards against substitution. The Master has checked all these bonds, notes and stocks and finds that they have been correctly set forth in the inventory. The inventory also shows all the real property owned by the Estate. While it has been suggested in other reports that such inventory should contain a description by metes and bounds of the premises, it seems to the Master, in this case, that such description would be impractical and inadvisable in view of the large holdings of the Estate.

The Trustees have charged themselves with $24,073.89 commissions which is computed upon the actual amount received by them. In a great many instances under the terms of the leases they have entered into, the tenants are required to pay all taxes and improvement assessments, and while it is a view generally held, that trustees in such instances are entitled to include such taxes in computing their commissions, in this case they have not done

201

so and have charged solely on the money actually received. In the opinion of the Master they are entitled therefore to more commissions than they have charged; but evidently waived that portion of it which is represented by the tax payments.

In conclusion the Master having examined the account of the Trustees of the Bernice Bishop Trust Estate for the twelve months ending June 30th, 1922, having verified the amounts of the cash in the hands of the Trustees to be $62,804.79 on said date, having verified the income derived from interest and investments and notes receivable; having compared expenditures with vouchers; having checked the rents and believing all to be in order and correct, the Master recommends that the 37th Annual Account of the Trustees of the Estate of Bernice P. Bishop be approved, passed and allowed as filed.

Dated this 9th day of November, A. D. 1922.

Respectfully submitted,

/s/ [illegible]

Master.

Frank Andrade
First Judge of the Circuit Court of the First Circuit

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT.

To the Honorable the Presiding Judge at Chambers, in Equity, of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 38th Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1922, to and including June 30, 1923.

Bal 46,708.79

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

208

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 2nd day of October, 1923.

Honolulu, Hawaii

Gentlemen:

I have the honor to submit the following report of the Kamehameha Schools for the school year 1922-1923.

OUTSTANDING FEATURES OF THE YEAR

Under this heading there are no particularly noteworthy items which distinguish the year from those preceding. The year has been one in which the work of the school has been carried forward in accordance with plans previously adopted rather than one marking the introduction of any new features of major importance. Four things, however, stand out above what might be characterized as routine and will be referred to briefly.

The second step in the extension of the course from graduation at the end of the 9th grade or freshman year high school to a full high school standard was taken this year. Of the nineteen boys and three girls who finished the work of the sophomore year in June, 1922, ten boys and two girls returned in September. Three new pupils were admitted to this grade, one boy and two girls, making the total enrollment in the junior class fifteen. All but one of this number finished the year, were promoted and will form the senior class in September. It was in the sophomore class that the greater progress in this transition to high school standard was shown. Reference to my report of a year ago will show that in September, 1921 only 25% of the eligible girls returned for sophomore year work. In September, 1922, the sophomore class of girls contained twenty-seven. As the number promoted in June was but thirty-two the increase of interest in the extended course on the part of the girls is in decided contrast with that of the preceding year. In the sophomore class of the Boys' School twenty-one of the twenty-three promoted in June, 1922 returned in September and eight admissions to this class made the number in September twenty-nine. This is a better showing for the boys even than that of the preceding year which we felt at that time was very good. A partial explanation of the change in the attitude of girls who had completed the freshman year with reference to returning for sophomore work is the knowledge which they had that in the fall of 1922 commercial work for girls was to be offered.

September, 1922 was the month in which the plan adopted months before for aiding teachers and other employees in the purchase of deferred annuity contracts became operative. Forty employees of the Trustees of the Kamehameha Schools either at the Schools or in the town office were eligible under the adopted

policy to make application for contracts with the Teachers Insurance and Annuity Association. Of the number 29 made application and in all instances their applications were accepted and policies dated uniformly November 1, 1922 in accordance with your adopted policy were in due course issued. Several policy holders were so thoroughly satisfied of the decided advantages of this method of providing against dependence in old age that they have been themselves contributing toward the monthly premiums several times the requisite 5% of salary necessary for them to secure the maximum contribution from the Estate. In one instance a teacher has not only contributed $85.00 per month toward premiums but has, under one of the provision of the policies, paid a single additional premium of $1000.00 thereby increasing the ultimate annuity nearly $10.00 a month.

Your adopted policy while it sought to cover all contingencies which might arise in the working out of the plan, failed, like most general preliminary statements, to provide for all the details which naturally present themselves when such plan is put into operation. In several of these matters, action which you have taken during the year has established desirable precedents for the handling of future similar cases and from my year's experience with it I believe that if your statement of policy is strictly adhered to, the provision thus made jointly by the employer and employee for retirement, will from year to year be more and more appreciated by those who are to ultimately become the annuitants. With this appreciation, which will naturally increase as the annual statements from the Association show to each policy holder his or her accumulated credits, will come, I confidently believe, a desire to continue in the employ of an institution where such a liberal provision for the future is available. The result of such a desire will be an increase in the length of service of all members of the staff, a result which you have often referred to as desirable.

The plan originated by Mr. Carpenter for increasing the effectiveness of the instruction in cooking given at the School for Girls, and to which reference will be made in a later paragraph, was not fully authorized by you for the year 1922-23 because of Miss Newton's absence until late in August, but on her arrival we were able to start the new year under conditions similar, with the exception of the necessary changes in the kitchen and cooking laboratory to be made this summer, to those which will prevail when the plan is in complete operation.

With the total staff numbering the same as in former years a rearrangement of work was made whereby the amount of class room work handled by those who might be classified as teachers, was somewhat increased while the extra-curriculum work formerly assigned to them was decreased and the work of this nature assigned to two women holding the new positions of "house mother". The building known as Senior Hall, and formerly used in the same way as the main building except on a smaller scale for the older girls, was converted into a teachers' residence. The rooms on the second floor of the Sewing Cottage, formerly used as living quarters for two teachers, two assistants and a few girls, were converted into a hospital ward, dispensary and isolation room, one of the former teacher's rooms being assigned to the nurse. The rooms in the main building left vacant by these two changes were used as quarters for

girls, thus concentrating the pupils under one roof and giving the teachers, who under the new arrangement were carrying more class room work than formerly, the desirable relief from the more or less distracting conditions prevailing in the large building where many young people are living and those in ill health a degree of isolation unattainable under former conditions. There was naturally considerable opposition to this plan on the part of those who for many years had been accustomed to the former order, but I have repeatedly been assured during the year, and by some of those who most strongly opposed the change in September, that they consider the new arrangement a vast improvement in every way. With the contemplated rearrangement of the kitchen and the equipment of the present storeroom as a cooking laboratory where, as they become able, girls will get actual practice two or three times a week in preparing, cooking and serving to a group of eight or ten girls a complete meal, an improvement, which should, I believe, have very far reaching results, will be under way.

Another time honored tradition of the Schools was thrown into the discard when, with the opening of the year, the weekly school holiday was changed from Monday to Saturday. To this change there was quite naturally not a little opposition and there is no question but that in some respects Monday is a more desirable day than Saturday for the weekly holiday, both from the standpoint of teachers and pupils. The advantages secured by the change, however, I fully believe, and I think nearly all of those at the schools would agree with me, have more than equalled the disadvantages and few, I think, would now think it wise to return to the Monday holiday plan. The advantages from an educational point of view are difficult to measure but it is easy to see that there must have been much less interference with the routine class room and shop work under the new plan than was possible under the old, when it is remembered on more than half of the Saturdays of the school year some athletic contest, in which a majority of the pupils are either participants or witnesses, is scheduled, because that day is the holiday for nearly all the other schools.

ENROLLMENT

In a preceding paragraph reference has been made to the increased interest in the upper grade work on the part of the girls. All departments have throughout the year had a capacity enrollment and no comments seem called for. The following table shows the numerical record of enrollment for the year.

	Enrolled September	Entered During Year	Left During Year	Enrolled June
Boys' School	159	--	8 *	151
Girls' School	110	2	5	107
Preparatory Department	74	5	5	74
Total	343	7	18	332

* Of this number one died during the Christmas vacation.

215

HEALTH

Health conditions in general among both teachers and pupils have been rather better than average. No substitutions for teachers this year have been necessary and aside from an epidemic of measles in the Preparatory Department which did not assume very large proportions, although requiring a quarantine of several weeks duration, there have been no more serious epidemics among the pupils than severe colds. Dr. Kilbourne has done a normal amount of surgical work as shown by the following figures.

Appendectomy	3
Tonsilectomy	9
Circumcision	1
Fracture	1
Operation on toe	1

DENTISTRY

Dr. Gonsalves serving for the second year as school dentist has followed a schedule for doing his work at the schools which has proved more satisfactory to principals and teachers as no interference with class room work has been necessary. He has come to the schools in the morning between seven and eight for appointments with the boys and in the late afternoon has handled the girls' work. This seems like a rather strenuous program for the dentist and one which it is hardly reasonable to expect to have continued indefinitely. I personally feel that dental work is of sufficient importance to justify excusing pupils from school work if necessary. As long, however, as the dentist is willing to make two trips daily to the schools the plan of the year is unquestionably better than any which has been previously followed. The table which follows shows the division of the total amount paid to the dentist for each of the seven years since general dentistry for all pupils was inaugurated in 1916.

	Total paid to Dentist	Recollected from Pupils	Balance paid by Schools
1916-17	$ 1766.00	$ 1278.00	$ 486.00
1917-18	2071.00	1268.00	803.00
1918-19	1813.00	1352.00	461.00
1919-20	2356.50	1362.00	994.50
1920-21	2998.50	1374.00	1624.50
1921-22	2052.00	1356.00	696.00
1922-23	2305.70	1370.00	935.70

EDUCATIONAL FEATURES

While work in agriculture as a vocation has been offered throughout the past nine years it was not until this year that there was any real interest evidenced by any boys who had reached the point in the course where they were allowed to choose a vocation in which to specialize. All pupils in the lower grades have been required to take work in agriculture but from 1914 to 1922 three only

216

had taken the course in agriculture offered. This year, nine boys started with Mr. Borden and in June eight had finished a year's work in agriculture. One of the original number died while at home during the Christmas vacation. This very decided increase in interest in agriculture is apparently not entirely a coincidence for eight of those who have this year been in the 8th grade, indicated to Mr. Carpenter before the end of the year that their choice of a vocation for next year would be agriculture. It is not easy to ascribe a satisfactory reason for this marked increase of interest in agricultural work but it seems likely that the possibilities being made available by the Hawaiian Homes Commission have a bearing on the matter. In this field the Kamehameha School for Boys has, I believe, a wonderful opportunity to do work of fundamental importance in the Territory. While for a limited number of those who take agriculture, farming on their own responsibility may be a desirable objective, it seems to me the emphasis in the agricultural training the school may give should be on guiding the boys toward positions with the established agricultural industries, primarily the sugar and pineapple plantations.

Work in auto mechanics, recommended by Mr. Carpenter after his study of the vocational opportunities in the Territory, was offered for the first time in September, 1922, to boys who had completed the work of the 9th grade and who in that grade had taken their shop work either in the electrical or machine shop. Ten boys in the 10th and 11th grades availed themselves of this opportunity and while the course has in this initial year been somewhat handicapped by lack of adequate shop facilities and by an unfortunate selection of a teacher for the work, the course should, if handled rightly, give valuable training to some boys. It would be unfortunate, I think, if too large a proportion of any one class should make this their specialty, and as it is in a way but an application of machine shop and electrical training, a thorough grounding by at least one year's experience in either, or better, each of these shops should, it seems to me, be maintained as a prerequisite for those who wish to enter the auto mechanics department.

Another new course was that in stenography and typewriting at the School for Girls. Nine girls have taken the year's work and indications are that as many more from next year's 10th grade will make that their choice of work. It was with some hesitancy that we decided to offer commercial work to girls and not to boys, notwithstanding the fact that there seems to be ample justification for so doing. The year's experience with such an arrangement has shown, so far as I know, no tendency on the part of the boys to feel that they are being deprived of a course of instruction which should be made available to them, and considering the limited number of vocations open in the Territory to girls as compared with boys, there is no reason, so far as I can see, why this course, when it has been in operation long enough to graduate a few classes of girls who have completed a regular high school course coupled with vocational training in stenography and typewriting, should not be an important and useful department of the Kamehameha School for Girls.

As referred to in an earlier paragraph the plan for using at the School for Girls the necessary preparation of three meals per day for the pupils by dividing them into groups approximating the size of the average family in the homes from which they come as so many projects to vitalize the instruction in cooking could be car-

217

ried out this year only in a limited way because of inadequate facilities. A good start in this direction, however, was made by the use of the domestic science laboratory and when the new year opens in September with approximately fourteen stoves and complete sets of kitchen equipment available a forward step of very promising results in the practical training of the pupils for presiding ultimately over their own households will have been taken.

SUMMER SESSION

The summer session this year has had a smaller enrollment than in any year since it was started in 1918. Those who have been in attendance were younger than formerly and it seems likely that more of them were sent by their parents to keep them occupied in some way rather than with any definite idea of getting training in the lines followed. This decrease of interest in the summer session is perhaps only natural when the many opportunities for boys and girls to secure work during their summer vacation are considered, as well as the plans now being inaugurated at Punahou for giving similar instruction. Three departments were opened this year each with the regular instructor in charge, Mr. Banning in the woodworking shop had fifteen small boys, Mr. Budd thirteen in the electric shop and Miss Noeckel seven in the sewing department.

SUMMER VACATION STUDY

Applications for the $250.00 allowance to assist them in study on the mainland during the summer vacation were not as numerous this year as last, but two awards being made, one to Miss Burgner who is studying in the University of Washington and Mr. Hottendorf who is at the University of California. There were others who seriously considered making application for the allowance but who ultimately decided to defer doing so for a year.

OPERATING EXPENSES

The attached annual report of Mr. H. E. King, Accountant, shows in considerable detail the financial results of the fiscal year which ended June 30th, 1923.

The total cost of operating the schools as compared with the preceding fiscal period increased $2392.29, or 1.07%. This increase while relatively small is much more than accounted for by added items of expense. An additional teacher in the School for Boys occasioned by the opening of the course in auto mechanics and the charges made to Account 73 Annuities and Pensions, during the ten months since such expenses began, would, if they were eliminated reduce the total by approximately $8000.00, which means that on a more strictly comparative basis there has been a decrease of nearly $6000.00 instead of the increase shown. The monthly charge to Account 73, Annuities and Pensions of $588.00 will next year be increased $75.00 by the pension you have granted to Miss Knapp and further increases not to exceed a total of about $50.00 may result from the taking out of new policies by those who in September will begin their third year of service and possibly small increases in the premiums to be paid under existing policies. As suggested in an earlier paragraph, however, it seems to me that this is money decidedly well spent, which in years to come will produce results the advantages of which can only be fully realized in those future years.

218

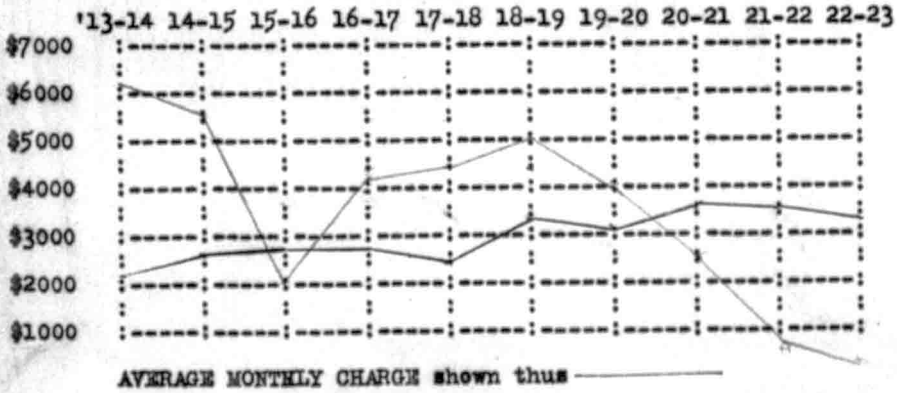
Account 36 Scholarships shows total expenses incurred by the remission of tuition less by about $200.00 than the figure for the preceding fiscal period. The numbers of those who received this aid and the total expense involved are shown in the following table:

6 girls	@ $50.00	$300.00	$300.00
15 boys	@ $50.00	$800.00	$825.00
1 boy	@ 25.00	25.00	
12 boys	@ 74.00	$888.00	$888.00
	Total		$2013.00

PUPILS ACCOUNTS RECEIVABLE

In my annual report of last year I discussed at some length the experiences year by year for nine years in the problem which seems to be omni present of keeping the accounts of pupils with the schools paid up or delinquent as little as possible. The results were graphically shown on a diagram which is repeated with the addition of the year now past. During the past year the average monthly charge to pupils has been $3451.82, a little less than the preceding year's $3519.80. The delinquency curve shows more of a change although not at as rapid a rate as during the two years preceding. In 1921-22 the average delinquency was $730.61, whereas for the fiscal year just closed it has averaged $338.47. The comment was made after a reading of my last year's report that these figures were misleading in that they were derived from the monthly balances of the book account "Pupils Accounts Receivable" which naturally includes a small number of credit balances. While I agree that theoretically this exception was well taken I contend that if the diagram be examined from a relative rather than an actual point of view a correct conclusion as to what has happened from year to year can be drawn. As pointed out a year ago, it should be borne in mind that merely for convenience in figuring, the delinquency curve is derived from figures taken on the last day of each calendar month. If it were practicable to use instead of these figures those which would show conditions as of the 10th of the month next succeeding that for which the charges are shown, or in other words, figures showing conditions at the expiration of the time allowed in your adopted policy for the payment of accounts, the delinquency curve would throughout be a little lower in the diagram, but as stated above it is relatively correct and shows what has been accomplished since you authorized more rigid insistence on the prompt payment of pupils' accounts.

Pupils' Accounts Receivable



AVERAGE MONTHLY CHARGE shown thus ————————

" " DELINQUENCY shown thus ————

STOREKEEPER

The "Store" at the Boys' School has suffered financially this year due probably to the eccenticities of the storekeeper whose services were dispensed with late in March. Mr. Mennings the new storekeeper, found when he came to take inventory that a considerable amount of second hand stuff had been carried in stock by his predecessor at much higher values than was justified. In the inventory adjustment we believe that everything has now been written down to a fair valuation and that if a proper margin of profit is charged on all goods handled two things can be accomplished, first, a saving to all those who make purchases at the store as compared with what they would have to pay elsewhere, and second, the store can be operated at no cost to the schools. Our practice, followed consistently since a storekeeper was employed, of charging all his salary to "Stores Expense", is really too conservative for the storekeeper performs in the Boys' School many duties, particularly in the care of the dormitories and dormitory equipment, which in other departments are taken care of by those whose salaries are charged to operating expenses. It would, I believe, be entirely fair if a third of the storekeeper's salary were charged to the proper operating expense account. The following table shows the financial results of the stores operation for the fiscal period ending June 30th, 1923.

Total sales to pupils, teachers, and various departments of both schools	$ 17344.92
Total charges including inventory adjustment	16335.69
Gross Profits	$ 1009.23
"Stores Expense" - Salary of Storekeeper, rent of quarters for storekeeper, miscellaneous	1992.85
Net Loss	$ 983.62

THE YEAR'S STAFF

The "Faculty Payroll" during the year has carried a total of sixty-five names. Of this number fifteen were on their first year of service and all but four of them have signed contracts for the coming year. Three, outside of the administrative staff, who have been on the payroll longer than one year are not to return, thus making the total loss less than in almost any preceding year in my experience. Taken as a whole the staff during the past year has, I think, been the most effective of any we have had since 1914.

CONCLUSION

In concluding this report of my ninth year as president of the Kamehameha Schools, I would record my sincere appreciation of the loyal support which has been accorded me throughout that time by the large number of different individuals who have, for a longer or shorter period, served the schools. To secure and retain efficient teachers and other boarding school workers here, when it is necessary in most instances to engage them on the mainland, is not an easy task. The years during the period when so many of the young people of the country were engaged in war work were particular-

219

ly difficult ones in which to secure desirable workers for the schools. More recently, however, particularly since our salary schedule was advanced to a point where it compares favorably with all but a few of the most liberal ones on the mainland, I feel that there has been an upward trend in the average efficiency of those making up the staff. The number of applications from those who appear to be desirable teachers which have for the last year or two been received indicates, I believe, a gradual appreciation of the attractiveness of the conditions of employment at the Kamehameha Schools, and now that the travel allowances for vacation study and assistance in the purchase of deferred annuity policies are available to those who have more than a transient interest in working in Hawaii, it should be, I believe, less difficult than formerly to secure and retain the type of worker so essential to accomplishing the results desired by Mrs. Bishop and all those who are now responsible for the administration of the schools she founded.

To you, the Trustees, I would also express my sincere appreciation of the many courtesies extended to me during the past nine years and assure you that it is not without many regrets that it now seems best for me to relinquish the work in which I have been much interested.

It seems to me that the fact that nothing definite in the way of the adoption of a plan for the much needed physical reconstruction of the schools plant has been accomplished since I suggested the need of such a plan, nearly nine years ago, and that the schools are still housed in practically the same buildings in which they originally started thirty-six years ago, indicates a failure on my part either to appreciate the situation in its true light or to present it as it should have been. The physical plant in which an educational institution does its work is not, to be sure, of great importance as compared with the work done with and for the pupils by its teachers and very likely I have over emphasized both the need of a rehabilitation of the plant and the desirability of making such preliminary plans for that rehabilitation as would insure a coherent and attractive group of buildings when they were ultimately completed. Under new leadership, I trust that the schools will go forward faster and farther than during the past nine years and assure you that everyone connected with them in any capacity whatsoever has my very best wishes. I shall always be interested in the Kamehameha Schools, and while there will probably be little that I, five thousand miles away, can do to be of assistance, I assure you that if I can ever help you or those in charge of the schools in any way I shall consider it an honor and priviledge if you will call on me.

Respectfully submitted,

E. C. Webster
President

TITLE 1922 - 1923

TAKEN BY

DATE

ACCOUNTANT'S ANNUAL REPORT

1922 -- 1923

The Kamehameha Schools
Honolulu, T. H.
July 1, 1923

Mr. E. C. Webster
President, The Kamehameha Schools
Honolulu, T. H.

Dear Sir:-

There follows herewith, the general trial balance, June 30, 1923, and tabulated statements covering all expenditures at these Schools during the fiscal year beginning July 1, 1922 and ending June 30, 1923, viz:

I	General Trial Balance, June 30, 1923
II	Capital Expenditures, 1922-1923
III	Comparative Statements of Operating Expenses 1922-1923, of the three Departments of the Schools.
IV	Comparative Statements of Operating Expenses 1921-1922 and 1922-1923 of the entire Schools and for each of the three Departments.
V	Statement of Inventories, June 30, 1923
VI	Students' Ledger Accounts
VII	Sundry Accounts Receivable
VIII	Students' Bank Accounts

Respectfully submitted,

H. E. King
Accountant

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate } TRUSTEES' REPORT for the year ending JUNE 30th, 1923.

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their THIRTY-EIGHTH ANNUAL REPORT, covering the period from July 1st, 1922, to and including the 30th day of June, 1923.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,192 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. Copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$605,774.89		
Capital	507,723.28	$1,113,498.17	
Balance Forward, July 1, 1922, ..		62,804.79	$1,176,302.96
DISBURSEMENTS			
Revenue		575,027.17	
Capital		554,567.00	1,129,594.17
BALANCE IN HAND, June 30/23, ...			$ 46,708.79

236

Of the net Revenue Receipts, amounting to $528,584.70, 94.18% was used in general maintenance, segregated as follows:

Kamehameha Schools	39.00%	
Property Taxes	33.67%	
Other Operating Expenses	21.51%	94.18%
Revenue Converted		5.82%

Of the net Capital Receipts, amounting to $533,178.19 (including the balance forward from last account, and converted revenue), 85.76% was invested in a way calculated to produce income: i. e.,

Certificates of Deposit	74.96%	
Lands Purchased	1.83%	
Roads and Sewers	5.15%	
Grading, Fencing, etc.,	3.82%	85.76%
Maps, Equipment, etc.		2.79%
Kamehameha Schools		2.69%
Balance Uninvested		8.76%

LEASES AND RENTALS

The rent collections for the year aggregated $359,018.55 - an increase of $37,954.31 as compared with last year's returns, while taxes recovered from tenants and treated as rents aggregated $138,451.50 - an increase of $15,097.80.

The increased rentals may be partially accounted for as follows:

Gore Lot, at the junction of King, Richards and Merchant Streets, heretofore yielding little or nothing, was leased as from December 1, 1922, at	$ 9,000
Pawaa Tract, of 11.375 acres, King Street, heretofore held under an old lease at an actual loss in taxes to the Lessors, has been subdivided and leased to 50 actual occupants, as from July 1, 1922, at an aggregate net rental of	9,972
Waialae and Kahala Ranch Lands, heretofore leased at $4,130, have since October 1, 1922, been leased as ranch, farm and house lots at an aggregate net rental of	15,520
Pukaomaomao, Manoa, heretofore yielding a rental of $350, has, since July 1, 1923, been subdivided and leased to actual occupants at an aggregate rental of	3,134

Puaa I, North Kona, Hawaii, heretofore yielding a rental of $250, has, since May 1, 1923, been demised under several leases at an aggregate rental of ..... $ 900

Roads constructed by Estate tenants across Waialae to lands demised to them on the Waialae Ridge, were accepted by the Trustees in lieu of cash rent in the aggregate sum of $2,411.25; to wit,-

Lease 2616b, Miyasato, 12 months, ...	$1,605.00
Lease 2617, Nakasone, 6 months, ...	806.25

The Trustees of the Bernice P. Bishop Museum were granted a lease of the old Museum garage site, containing 624 square feet, and the site of the new receiving porch in rear of Polynesian Hall (583.7 square feet), together with an easement for the bridge as now constructed between the Laboratory and Hawaiian Hall, at a paid-up rental of $50 - the term being 80 years from January 1, 1923, which makes it co-terminous with the existing leases of the main Museum buildings.

Leases in force at the close of the year numbered 1,446 - an increase of 212. Tenancies (so called as distinguished from leases) numbered 68 - a decrease of 2. The classified record for the 12 months ended June 30, 1923, is as follows:

Leases	
New	274
Surrendered	27
Canceled	7
Given up on expiration or renewal	25
Transferred on sales of land	3
Term extensions	3
Partial surrenders	1
Assignments permitted	135
Tenancies	
New	17
Terminated	19

Reduced rents have been continued or allowed in the case of 6 leases: 4 in Honolulu, 1 in Manana, Ewa, and 1 in Honaunau, South Kona.

238

INVESTMENTS

Of personal property investments reported at the close of the year preceding, current collections aggregated $26,151.20.

The book value of the securities detailed in the appended Statement of Investments as on hand at the close of the year was $779,450.50 - an increase of $373,848.80 as compared with the total reported at the close of the year preceding. This is accounted for as follows:

Forward from June 30, 1922		$405.601.70	
Deductions			
Fifth Liberty Bonds Retired...	$ 25,000.00		
U.S.War Savings Stamps Retired.	831.20		
Kahaumalumalu Note Balance ...	320.00	26,151.20	$379,450.50
Additions (C/D's, 3 mos., 4%).			
Bishop & Co., D786, Apr. 25/23		50,000.00	
Bishop & Co., D787, Apr. 27/23		50,000.00	
Bank Hawaii, 4979, May 2/23		50,000.00	
Bank Hawaii, 5003, May 28/23		250,000.00	400,000.00
T o t a l June 30, 1923, ...			$779,450.50

Of miscellaneous assets reported with last account, the Frontage Tax Note made by Loo Goon, as Lessee of Lease 959a, under date December 4, 1916, was this year written off in the remaining sum of $77.70 - the Lessee having paid the proportionate part due to the date of expiration of his lease, July 1, 1921, and the land having thence been leased to other parties at an increased rental sufficient partially to offset the amount of the present waiver.

The only addition to the miscellaneous list is a charge of $326.82, representing the balance due on moneys advanced by the Estate for a Ford automobile furnished the Kona Agent, and recoverable from the latter in monthly installments.

TRUSTEES AND MEETINGS

There has been no change in the personnel of the Trustees since last report - the Board at the close of the year being constituted as follows: William O. Smith, President; E. Faxon Bishop,

239

Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Fifty-two meetings were held during the year.

TRUSTEES' COMMISSIONS

In order to obtain a ruling of court on a point affecting trustees' commissions, the Trustees respectfully call attention to the sale of certain lands which had previously been acquired by exchange:

(a) A lot of .75 acre (part of Apana 1, L. C. A. 6175, R. P. 4498 to Kamaha no Malaea) at Wailupe, Oahu, sold to Antonio Perry by deed dated September 20, 1922, being land acquired by the Estate from the Territory in exchange for land of equal value comprising part of Waialae-iki (Apana 3, L. C. A. 10613, R. P. 3578 to A. Paki) by deed dated October 20, 1920;

(b) Two lots aggregating .29 acre (parts of the Ili of Mookahi, Land Patent - Grant - 7847 to Bishop Estate) at Waikiki, Oahu, sold by deeds dated April 13, 1923, to the Territorial Hotel Company, Ltd., and Mr. C. C. von Hamm, respectively, being land acquired by the Estate from the Territory in exchange for land of equal value comprising parts of the Ilis of Hohe and Keokea (Apanas 32 and 33, L. C. A. 10806 to Kamehameha III) by deed dated June 13, 1921.

Inasmuch as the lands thus given in exchange formed part of the original corpus of the Estate and no commission was taken at the time of transfer of title, and assuming that their value might properly be considered as representing that of the lands substituted therefor, commission was this year taken on such sales at the Statute rate of 2½%. If disallowed, the amount of surcharge will be $155.27; i. e.,-

		Consideration	Commission
Wailupe lot, ...		$4,000.00	$100.00
Waikiki lots - proportionate part of sale price:	Hotel lot, .14 acre,.	1,067.22	26.68
	Von Hamm lot, .15 acre,.	1,143.45	28.59
	Total, ...	$6,210.67	$155.27

240

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement - the list including 15 sales, 5 purchases and 4 exchanges. The important sales were made with the primary object of creating a fund out of which to meet

(1) Possible demands for the payment of Federal Income Taxes, and

(2) Expected rehabilitation costs at the Kamehameha Schools.

The sale to the Bank of Hawaii of the King-Bishop Street corner of the so-called "Bishop Park Lot" definitely disposes of the projected "Paki Building", and the plans that had been made for that building have consequently been written out of the Estate's assets.

The purchase of kuleanas in Keauhou I and II, North Kona, Hawaii, and in Heeia, Oahu, were for the purpose of consolidating Estate holdings in those lands, while the purchase of the Government remnant on King Street gave to the adjoining land of the Estate a needed street frontage.

The purchase of the "People's Bank" premises at Keekee, South Kona, Hawaii, with building and furnishings, gives the Trustees an office centrally located and exceptionally well adapted to take care of the growing needs of the Trustees in Kona. Two of the rooms in the building are rented, while the remainder is occupied by the newly established Kona Branch of The Bank of Bishop & Company, Ltd., under an agreement with the Trustees whereby the Bank becomes the Bishop Estate Agent in Kona, beginning as of September 1, 1923, and succeeding Mr. Thomas C. White, retired.

Bishop Estate lands improved under the Frontage Tax laws during the year comprised

(1) The Bishop Park Lot, assessed for Hotel Street widening in the sum of $1,084.42; and

21

(2) The Pawaa Tract, assessed for the reconstruction and paving of King Street, from Alapai to Punahou Streets, in the sum of $2,490.17.

In both cases the full assessment was paid by the Estate, subject to partial recovery from the tenants of the land concerned; i. e., in the first instance one-half of the assessment has been recovered; in the second, $1,281.17 will eventually be repaid the Trustees - the tenants in this latter case taking advantage of the privilege accorded them of paying their respective assessments in ten yearly installments.

A series of small farm lots has been laid out in Waialae and Kahala, Oahu, at a cost of $10,699.91, the subdivision comprising

(a) A tract of 138.77 acres adjoining the Kapahulu boundary and extending from Kahala Avenue to the Waialae-Koko Head Road, divided into eighty 1 to 3-acre lots, with a main 50-foot road marking the Ewa boundary of the Waialae Ranch lease and provided with a 3-inch water main, and ten 30-foot branch roads;

(b) A tract of 47.31 acres lying on the mauka side of the Waialae-Koko Head Road, and divided into 48 lots.

Fifteen-year leases are being granted in both subdivisions, and practically all the lots have been taken.

A third Waialae Beach subdivision, known as Section "C", has also been opened up in the vicinity of the Naval Radio Receiving Station, comprising 25.67 acres divided into 29 lots averaging 1 acre or less. where 30-year leases are being offered as from July 1, 1923, at moderate rentals.

Under the head of "Grading Lands", the expenditure for the year was $17,283.66, distributed:

(1) Triangular lot at the junction of Ala Moana, First and South Streets, Kakaako, filled in to the level of the new street grade; completed December, 1922, at the cost of $923.48

212

(2) Two lots (Nos. 175 and 286) in the Waikiki Reclamation area, lying makai of the drainage canal and containing an area of 3.86 acres, being two pieces which the Trustees had agreed to have filled following a request so to do by the Superintendent of Public Works; completed March 8, 1923, at the cost of $13,084.43

(3) Swamp section of Helumoa, in rear of Seaside Hotel cottages and "Trentown", at Waikiki; completed January 19, 1923, at the cost of 3,275.75

The subdivision of Honohononui, in South Hilo, Hawaii, was completed in April, 1923, at a total cost of $9,486.26 for road construction. The 47 lots comprising the subdivision are being offered on 30-year leases, at rentals ranging from $50 to $125. The seashore strip between the makai lot boundary and the Estate title line is held as a beach reserve for use of the tenants in common.

A tract of 174.2 acres in Keokea, South Kona, Hawaii, heretofore leased to the now defunct South Kona Tobacco Company, Ltd., has been subdivided into 23 lots averaging 7.57 acres each, which are being leased to individuals. That the failure of the South Kona Tobacco Company has not discouraged other planters is evidenced by the fact that elsewhere in Kona renewed attempts are being made to put tobacco on a commercial basis, efforts during 1923 being directed towards production of the highest possible quality of crop on a small scale. Meanwhile the collection of rents on Estate lands in Honaunau being used in this way is deferred, in order to give the planters a free hand.

The experimental plot of Manila Hemp established by the Trustees at Kainaliu, North Kona, as mentioned in previous reports, has this year been transplanted to a lot of unleased Estate land at Keei, South Kona, (Lot 28), where it is being looked after by a Filipino tenant who has had experience in hemp culture.

The Trustees have prepared, and file herewith, an Inventory of the property held by them as of the 30th day of June, 1923, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps added to the office collection of maps during the year cost $1,722.57, distributed:

(1)	Keokea Subdivision, South Kona, Hawaii, Lot "C"; completed March 31, 1923, ...	$363.34
(2)	Kaiwiki and Manowaialee, Hamakua, Hawaii, made primarily to relocate and permanently mark the various Ahupuaa boundaries; to locate and mark those kuleanas adjoining the konohiki, and to ascertain the correct cane areas; completed April 17, 1923, ...	446.42
(3)	Honohononui Subdivision, South Hilo, Hawaii, including the permanent marking of lots, for registration in the Land Court; completed April 27, 1923, ...	824.81
(4)	Waialae-Kahala Farm-Lot Subdivision, ..	20.00
(5)	Waialae Beach Subdivision, Section "C",	68.00

The Territorial Survey Department being now engaged in the compilation, for taxation purposes, of maps of all the Islands, the Trustees, in response to a request received, have granted that bureau permission to make copies of various Estate maps of lands on the Island of Oahu - the only condition imposed being that the work shall be done in the Trustees' office.

FORESTRY AND FOREST RESERVATIONS

In the way of forest protection during the year, the Trustees have continued their policy of co-operating with the Territorial Department of Forestry and the Experiment Station of the Hawaiian Sugar Planters' Association.

The Estate's fifth pro-rata contribution to the fund raised from among the various owners concerned has this year been

appropriated to enable the Experiment Station, H. S. P. A., to continue through 1923 the work of rehabilitating the Halawa-Niulii Forest Reservation area known as the "H. S. P. A. Forest Reserve No. 1", in North Kohala, Hawaii. This reservation includes a portion of the Estate land of Waiapuka, on which 825 trees were planted during April, 1923, and the remaining open areas were to have been planted during May following.

Under contract made March 3, 1923, the tenant referred to in last report as having been granted a lease of 10 acres of Estate land within the Kahauloa Forest Reserve in South Kona, Hawaii, has undertaken, in return for the privilege of removing designated koa trees from that sparsely covered portion of the Kahauloa Reserve which lies above the 3,500-foot contour, to plant 15 young trees for each tree so removed, and to care for same over a period of two years - the young trees to be furnished by the Estate and planted under the direction of the Trustees' Agents. A small nursery has, accordingly, been established on the Kona Office lot at Keekee, where young trees of various kinds, including the Japanese cedar (Cryptomeria Japonica), four special varieties of English walnut, and a number of coniferous species deemed likely to thrive in this section, are being propagated for ultimate transplanting to the higher levels. In this work the Trustees are enjoying the active co-operation of the Territorial Division of Forestry and the Experiment Station, H. S. P. A.

The forest fence running along the Keauhou (Kau) boundary between the homestead of A. J. W. MacKenzie and the Kau Forest Reserve - a distance of approximately 8,000 feet - was repaired in February last and made stock-proof, the work being done by the adjoining owner with materials furnished by the Estate at a cost of $391.75.

245

In extending the lease of Maunalua, Oahu, October 1, 1922, the Trustees reserved, for forest purposes, the upper part of Kaalakei Valley, comprising 56 acres; and this has since been fenced by the Lessee of the lower lands, and made part of the Waimanalo Forest Reserve as officially established December 29, 1922. On March 21, 1923, the Division of Forestry completed the setting out on 9 acres of said land of 915 Port Jackson fig trees and 200 Moreton Bay fig trees, at a cost to the Estate of $103.75.

An inspection made in November, 1922, of the Waialae Valleys showed a vigorous growth of forest, due to the policy of the Trustees in prohibiting the grazing of stock mauka of the main road - a policy which has made fencing unnecessary at that point and which will result in large forest growth in areas heretofore uncovered.

Following a visit to Molokai made by a Committee of Trustees in December, 1922, the Territorial Division of Forestry has been asked to formulate a plan in which the Estate may co-operate, for the general protection and rehabilitation of the Kamalo Forest Reserve.

LAW

Concerning the 1922 property tax on portions of Piopio, South Hilo, Hawaii, mentioned in last report, the Appeal Board, Third Taxation Division, sustained the Assessor in his valuation of $258,266, but the Supreme Court decision, rendered June 1, 1923, upheld the Trustees' return of $125,685.

An appeal against the 1923 assessment on the same land has been filed with the Tax Appeal Board, where it still rests.

In the matter of the Trustees' claim for exemption from the payment of Federal Income Taxes, referred to in last report, the Trustees, in January, 1923, retained the New York firm of

216

Root, Clark, Buckner & Howland, Attorneys, to represent the Estate. The question of the validity of the tax with respect to this Trust is still pending before the authorities of the Internal Revenue Department at Washington, and no demand for payment of back taxes has been received since that of 1917 mentioned in the Thirty-Sixth Annual Report.

The ejectment suit mentioned in said Thirty-Sixth Annual Report as brought by the Territory and the City and County of Honolulu against the Trustees, involving title in certain alleged road areas at Waialae, Oahu, including the so-called "Mott-Smith Road", was discontinued by the plaintiffs on September 21, 1922 - the City having secured from the Estate two park sites at Waialae which met all public requirements in connection with the enjoyment of beach frontage there.

The condemnation suit, City and County of Honolulu vs. F. Schnack et al., filed August 15, 1922, for the purpose of securing the extension of Bethel Street from Hotel to Beretania, is still pending. The Estate land concerned contains an area of 1,821 square feet on the southwest side of Pauahi Street, and the Trustees' Answer to the complaint was filed October 6, 1922.

Suit for summary possession, Bishop Estate vs. Clarence D. Pringle, filed in the District Court, was decided on August 9, 1922, in favor of the Trustees, resulting in the cancellation of Lease 2527 of land on Kalaepohaku Ridge, Oahu.

The suit, Bishop Estate vs. N. Hida et al., to secure redress for firewood illegally cut and removed from Lot 10, Keauhou II, North Kona, Hawaii, was argued at Kailua, before Judge Thompson, of the Third Judicial Circuit, and a jury, resulting in a directed verdict for the defendants on technical grounds. A new suit brought by the Trustees, amending the form of the original erroneous complaint, was thrown out, as it was held that the above verdict had become res adjudicata. Measures are being taken by

the Trustees to ensure a Supreme Court review of this ruling.

KAMEHAMEHA SCHOOLS

Development Plans: The finished block plan of proposed building operations at the Schools, referred to in last report, has been received from Mr. Bertram G. Goodhue, the New York Architect and Landscape Artist, thus completing his contract in that respect.

Buildings: The year's outlay under this head amounted to $1,607.33, distributed:

Development Plans of proposed physical organization of the Boys' and Girls' Schools,	$1,254.80
Garage - four-stall extension rented to the Bishop Museum at $60 per annum as from April 1, 1923, ...	352.53
Fences: 525 feet of woven wire, 4-foot fence was constructed in April, 1923, along Kahala Avenue and Municipal Park on the boundaries of the School Rest Cottage Lot at Waialae, Oahu, ...	$ 115.32

Equipment: Additional equipment furnished during the year cost $12,609.04, segregated:

Machine Shop - in replacement of equipment transferred to the Auto-Mechanics Shop, inaugurated July 1, 1922, for Tenth and Eleventh-Grade boys, ...	$7,000.00
Commercial Class, G/S - general equipment for new course inaugurated July 1, 1922, offered for a limited number of Tenth-Grade girls, ...	928.00
Physical Training, G/S - apparatus needed to make possible more outdoor practice, ...	539.91
Victrola - for the School for Girls, to be used in connection with the work in Music, ..	225.00
Band Instruments - for the reorganized Band at the School for Boys (the second-hand instruments referred to in last report being turned back), ...	1,000.00
Office Equipment - 2 adding machines,- one each for the offices of the Principals of the Boys and Girls' Schools, respectively, ...	200.00
	$9,892.91

214

Forward, ...		$9,892.91
Ray Oil Stove - installed in Senior Hall, School for Girls, in substitution for wood burner, ...		946.13
Automobiles - for use of the President of the Kamehameha Schools:		
Dodge, ... Aug. '22,	$ 800.00	
Studebaker Special, June '23,	1,635.00	
Total, ...	$2,435.00	
Less turn-in value of the Dodge as partial exchange for the Studebaker, ...	665.00	1,770.00

Repairs: In connection with the regular work of up-keep of buildings on the campus, the roof members of the Memorial Chapel, which had become decayed, were this year renewed in the interests of safety, and such other repairs were made as were possible at a moderate outlay to make the interior of that building fairly presentable. During the progress of this latter work it was decided to remove the pipe-organ; and this was accordingly done by the Bergstrom Music Company without expense to the Schools. The organ, which had not been used since the fall of 1916, was considered by experts as beyond repair, and the space it occupied was needed to enlarge the seating capacity of the building.

Agricultural Department: For the course in Sugar-Cane Culture inaugurated in September, 1922, a special instructor has been employed on a part-time basis. Eight boys from the Ninth, Tenth and Eleventh Grades, at the beginning of the year, selected Agriculture as their choice of vocational work, and out of the 39 boys composing the Eighth Grade who, in April, 1923, were required to select their vocational course for next year, 7 elected Agriculture in preference to any of the Shop courses. This has seemed so encouraging that the Trustees employed Professor Frederick G. Krauss, of the University of Hawaii, to examine conditions existing at Kamehameha and to furnish an advisory report on the subject of the further development of this Department on practical and attractive lines. His report is now under consideration.

249

Summer Courses: The fifth of the Summer-School sessions opened on Monday, June 26, 1922, and closed on July 31st following. The sixth session opened on June 18, 1923. For neither session were sufficient applicants enrolled to admit of the opening of classes in either Machine-Shop work or Cooking; and courses were, therefore, given only in Woodworking, Electricity and Sewing. All students completing the five-weeks course were given certificates.

Pupils: The regular school year opened Monday, September 11, 1922, with an enrollment of 343, and closed Tuesday, June 5, 1923, with an enrollment of 332.

Full scholarships were awarded during the year to 35 pupils - 17 at the Manual, 12 at the Preparatory, and 6 at the School for Girls - representing a charge of $2,013.

Due to the extension of the course of study to include a Twelfth Grade in 1923-24, no diplomas of graduation were awarded this year, but "Certificates of Completion" to the number of 125 were granted to pupils successfully finishing the work of the Ninth, Tenth and Eleventh Grades.

Ten pupils in the Preparatory Department of the School for Boys qualified for promotion to the Manual.

A larger number of boys than usual remained at the Schools this summer, and, inasmuch as it has been the policy of the Trustees, since the abandonment of the work-scholarship system, to assist such pupils as desire to earn money with which to meet their expenses for the succeeding year, means of profitable and useful employment were provided for all of them, either on or off the campus.

Teachers' Pensions: On March 24, 1922, the Trustees, after giving the matter much thought, adopted a pension system, which became operative in September following. The system enables all

250

Kamehameha employees to purchase Deferred Annuity Contracts, on application to the Teachers' Insurance and Annuity Association of America, and contemplates the payment by the Schools of monthly premium contributions in amounts equal to 5% of the employee's salary. Out of 40 eligibles, 29 have thus far taken out contracts, involving a total premium payment of $1,058.74 per month, of which the Schools contribute $430.46.

Administration: Several important changes in the Faculty have recently occurred:

Mr. Ulrick Thompson, Instructor in Science, after thirty-two years of service beginning with the inception of the School for Boys in 1890, retired at the close of the school year 1922, and is now on the Mainland, where he will make his future home. During a portion of his long and successful career Mr. Thompson filled the President's chair, and at all times he has possessed the respect and esteem of his pupils to a marked degree.

Mr. W. E. Givens, mentioned in last report as engaged for the position of Principal of the School for Boys, Manual Department, arrived on August 22, 1922, and served until April 2, 1923, when he was released from his contract in order to admit of his accepting the office of Superintendent of Public Instruction, Territory of Hawaii. Mr. Givens's place at Kamehameha was temporarily filled by

Mr. John E. Carpenter, Assistant to the President, who served until the close of the school year, when he (Mr. Carpenter) also retired.

Mr. Ernest C. Webster, President of the Schools since July, 1914, retired as such at the close of the year, and left July 21, 1923, for the Mainland, where he will engage in business. His nine years of service have been years of earnest and faithful

251

effort, and his administration has been marked by ability of a high order. As successor to Mr. Webster in the office of President of the Kamehameha Schools, the Trustees have appointed

Mr. Frank E. Midkiff, who began unofficially as of May 15, 1923, but did not actually assume the duties of the office until July 1st following. Mr. Midkiff has had teaching experience in Hawaii, and will, therefore, be able to approach the peculiar tasks incident to his new position with a fair insight of the problems before him.

It is not the intention of the Trustees to fill immediately the position of Assistant to the President, but, since the close of the fiscal period under review, the office of Principal of the School for Boys, Manual Department, has been filled by the appointment of Mr. John H. Midkiff.

Details concerning the general educational activities of the Schools during the year ended June 30, 1923, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

W. O. Smith
Richard H. Trent
Wm. Williamson
Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, Hawaii.
October 4th, 1923.

BERNICE P. BISHOP ESTATE)
.....

MASTER'S REPORT.

To the Honorable the Presiding Judge at Chambers, in Equity of the above entitled Court:

C. S. Davis, the Master appointed by the Honorable Frank Andrade, First Judge of the above entitled Court begs to submit the following report upon the petition, report and thirty-eighth annual accounts of the Trustees under the will and of the Estate of Bernice P. Bishop deceased covering the period from July 1, 1922, to and including the 30th day of June, 1923.

The Master has carefully checked the items of receipts of revenue and capital and finds that the total thereof is correct. The items of disbursement are supported by vouchers which have been examined and checked by the M aster and found correct with the exception of one item, to wit; voucher No. 413 which calls for the disbursement of $843.55 and which is listed on Page 115 of the detailed Statement of Receipts and Expenditures as $843.50. The Master has checked the securities in the hands of the Trustees and finds the same to be in order and as listed in the inventory except that the books of the Trustees also

409

show certain changes in the investments which occurred between the time of the filing of the accounts and the date of checking by the Master which changes are satisfactorily shown by the Trustees in their books and records. The Master has examined the books of the Trustees and the same show that on June 30, 1923 the Trustees had a balance on hand of $46,708.79.

On Page 5 of the Trustees' Report the Trustees call attention to an item of their commissions and the Master sees no reason why this commission should not be allowed.

The Master finds the accounts of the Trustees in excellent shape from an accounting standpoint and recommends the approval of the same with the exception of the above error hereinabove set forth as shown by voucher No. 413 unless what is hereinafter called to the Court's attention would prevent the approval of these accounts.

The Trustees have for many years past been maintaining the Kamehameha Schools as, practically speaking, exclusively Hawaiian schools. They have admitted to the K amehameha Schools Hawaiians of pure or part aboriginal blood to the exclusion of all other races with the exception of isolated instances of children of other races who have been admitted as students to these schools. This does not appear to be carrying out the purpose and intent of the Will of Bernice P. Bishop which provides in the 13th paragraph as follows:

"I give, devise and bequeath all of the rest, residue and remainder of my estates real and personal, wherever situated unto the trustees below named, their heirs and assigns forever, to hold upon the following trusts, namely: to erect and maintain in the Hawaiian Islands two schools, each for boarding and day scholars, one for boys and one for girls, to be known as, and

410

called the Kamehameha Schools. I direct my trustees to expend such amount as they may deem best, not to exceed however one-half of the fund which may come into their hands, in the purchase of suitable premises, the erection of school buildings and in furnishing the same with the necessary and appropriate fixtures, furniture and apparatus. I direct my trustees to invest the remainder of my estate in such manner as they may think best, and to expend the annual income in the maintenance of said schools; meaning thereby the salaries of teachers, the repairing of buildings and other incidental expenses; and to devote a portion of each year's income to the support and education of orphans and others in indigent circumstances, giving the preference to Hawaiians of pure or part aboriginal blood; the proportion in which said annual income is to be divided among the various objects above mentioned to be determined solely by my said trustees, they to have full discretion. I desire my trustees to provide first and chiefly a good education in the common English branches, and also instruction in morals and in such useful knowledge as may tend to make good and industrious men and women, and I desire instruction in the higher branches to be subsidiary to the foregoing objects. For the purposes aforesaid I grant unto my said trustees full power to lease or sell any portion of my real estate, and to re-invest the proceeds and the balance of my estate in real estate, or in such other manner as to my said trustees may seem best. I also give unto my said trustees full power to make all such rules and regulations as they may deem necessary for the government of said schools and to regulate the admission of pupils, and the same to alter, amend and publish upon a vote of a majority of said trustees. I also direct that my said trustees shall annually make a full and complete report of all receipts and expenditures, and of the condition of said

411

schools to the Chief Justice of the Supreme Court, or other highest judicial officer in this country; and shall also file before him annually an inventory of the property in their hands and how invested, and to publish the same in some newspaper published in said Honolulu; I also direct my said trustees to keep said school buildings insured in good companies, and in case of loss to expend the amounts recovered in replacing or repairing said buildings. I also direct that the teachers of said scholars shall forever be persons of the Protestant religion, but I do not intend that the choice should be restricted to persons of any particular sect of Protestants".

In this connection it is well to call the Court's attention to the wording of the original prospectus of the Kamehameha Schools which may be found on Page 16, Volume 2 of the Minute Books of the Bernice P. Bishop Estate and which is dated December 23, 1885, and which reads in part as follows:

"While they will be conducted with special reference to advantages to be afforded to Hawaiians by preference, as the will requires, they will not be exclusively Hawaiian. Hilo, Lahainalma, Makawai and Kawaiahao may well be devoted to such special work: but the noble minded Hawaiian chiefess who endowed the Kamehameha Schools, put no limitations of race or condition on her general bequest. Instruction will be given only in the English language, but the schools will be opened to all nationalities. Hawaiians must compete with other nationalities in the struggle for national existence. It is wise to recognize this beneficient but inexorable law of competition in human society, a fundamental law of all physical life. It is hoped to hold the young Hawaiian to help his own from the first in this honorable rivalry, so that he shall work out his own future under the conditions most favorable to his success".

412

The provisions of the Will should be carried out and the schools must be maintained not as Hawaiian schools but as schools to which all children of all races of this Territory may be admitted. This matter should be given prompt and careful consideration for the protection of the Trustees themselves as well as for the benefit of the people of the Territory.

Hawaiians should not be isloated in these schools and then turned loose to compete with other races in the Territory. It was intended that they should compete in the Kamehameha Schools and it is for their best interest to be trained at Kamehameha Schools in such competition. The Trustees should be instructed to take immediate steps to maintain the Kamehameha Schools in accordance with the provisions of the trust as contained in the will and the Court should take such action as it may deem fit and proper in the premises.

Dated at Honolulu this 13th day of September 1924.

Respectfully submitted,

C. S. Davis
Master.

ORDER APPROVING 38th ANNUAL ACCOUNT.

The Trustees under the Will and of the Estate of Bernice Pauahi Bishop, deceased, having filed herein their 38th Annual Account and Report, together with a petition praying that said account and report be examined, approved and allowed; and said account and report having been referred by this court to C. S. Davis as Master for examination and report and the said C. S. Davis having filed his report thereon wherein he recommends that the said account and report be approved and allowed,

NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the 38th Annual Account and Report of said Trustees is hereby approved and allowed; and that the said C. S. Davis as Master aforesaid be allowed and paid out of the fund of said trust estate compensation for his services in the sum of $350.;

The master having called the attention of the court to the 13th paragraph of the will of Bernice Pauahi Bishop, and expressed the view that the Trustees should admit to the Kamehameha Schools as pupils others than those of Hawaiian blood, IT IS FURTHER ORDERED that the clerk of this court shall forthwith furnish the Attorney General a copy of said

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 39th Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1923, to and including June 30, 1924.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

1

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

THIRTY-NINTH ANNUAL REPORT

of the

TRUSTEES OF THE BERNICE P. BISHOP ESTATE

YEAR ENDING

JUNE 30, 1924

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ending

JUNE 30, 1924.

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their THIRTY-NINTH ANNUAL REPORT, covering the period from July 1, 1923, to and including the 30th day of June, 1924.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,293 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the Year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. Copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$681,702.50		
Capital	72,776.59	$754,479.09	
Bal. Forward, July 1/23,.....		46,708.79	$801,187.88
DISBURSEMENTS			
Revenue		$613,453.78	
Capital		151,622.19	765,075.97
BALANCE IN HAND, June 30/24, ...			$ 36,111.91

6

Of the net Revenue Receipts, amounting to $433,075.47, 49.64% was used in maintenance of the Kamehameha Schools, and 34.60% in general operating expenses of the Trust. The remaining 15.76% belongs to Capital Account.

Of the net Capital Receipts, amounting to $162,116.34 (including the balance forward from last account, and converted revenue), 55.63% was invested in a way calculated to produce income; i. e.,

Loans and Deposit Certificates		28.25%	
Land Purchases		5.55%	
Improvement of Lands:			
Grading,	17.58%		
Roads,	1.38%		
Maunalua Development,	1.95%		
Fencing,	0.82%		
Punaluu Arboretum,	0.10%	21.83%	55.63%
Maps and Surveys			10.13%
Kamehameha Schools			11.96%
Uninvested Surplus			22.28%

LEASES AND RENTALS

The rent collections for the year aggregated $396,966.54 - an increase of $37,947.99 as compared with last year's returns - while property taxes recovered from tenants and treated as rents aggregated $153,788.95 - an increase of $15,337.45.

The increase in rentals is due principally to the larger returns received this year from cane lands at Waialua, Ewa and Puna demised by various percentage leases, but some $15,000 may be attributed to normal increase.

On June 20, 1924, the original Waiawa water lease (No. 1467), under which the Lessors reserved to themselves a royalty based on sales, was surrendered in favor of a new lease (No. 3283) effective as from July 1, 1923, and reserving a flat rental equal to the average past royalty - this being the result of negotiations extending over a period of years and involving the settlement of a number of points in dispute, including compensation for surface water from May 27, 1916,

(the date of completion of the Main Tunnel) to January 1, 1918, amounting to $4,954.64.

Two promissory notes, in the aggregate sum of $731.40, were accepted in settlement of rent and taxes due on Lease 2746, Keokea, South Kona, Hawaii. They are listed on the attached Statement of Miscellaneous Assets.

The work of clearing ditches done by the Lessee of Kapalama Lease 3079 was accepted by the Trustees in lieu of three months' cash rent of that lease, amounting to $379.90.

In Kona, Hawaii, a field reconnaissance showed that a number of tenants had vacated their lands and left the district, resulting the in the cancellation of 26 leases by re-entry; 9 others were surrendered; 18 of the tenants who desired to remain, but considered the rentals too high, were allowed reductions.

Leases in force at the close of the year numbered 1,516 - an increase of 70. Tenancies (so called as distinguished from leases) numbered 71 - an increase of 3. The classified record for the twelve months ended June 30, 1924, is as follows:

Leases	
New	220
Surrendered	38
Canceled	33
Expired	76
Transferred on sales of land	3
Term extensions	11
Partial surrenders	2
Assignments permitted	124
Tenancies	
New	20
Terminated	17

Reduced rents have been continued or allowed in the case of 28 leases: 9 in Honolulu, 1 in Halawa, Molokai, 18 in Kona, Hawaii.

INVESTMENTS

Of personal property investments reported at the close of the year preceding, current collections aggregated $7,500, including $2,500 Kalakaua Avenue Improvement Bonds retired on July 16, 1923, at par, or 2½% less than cost.

The book value of the securities detailed in the appended Statement of Investments as on hand at the close of the year was $822,688 - an increase of $43,237.50 as compared with the total reported at the close of the year preceding. This is accounted for as follows:

Forward from June 30, 1923,		$779,450.50	
Deductions			
Kalakaua Avenue Bonds retired	$ 2,562.50		
McInerny Notes - on account .	5,000.00		
Waialae Ranch Note	800.00	8,362.50	$771,088.00
Additions			
Bishop & Company, C/D D813		$ 50,000.00	
Waialae Ranch Note		800.00	
Vitousek Note		800.00	51,600.00
T o t a l June 30, 1924, ...			$822,688.00

TRUSTEES AND MEETINGS

The personnel of the Board of Trustees at the close of the year is the same as reported at the close of the year preceding,- namely, William O. Smith, President; E. Faxon Bishop, Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Forty-eight meetings were held during the year.

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement - the list including 10 sales, 5 purchases and 1 exchange. All of the lands acquired adjoin other Estate holdings, and serve, in each case,

either to provide additional street frontage or to effect consolidation.

Sales include two parcels conveyed to the City and County of Honolulu,- the "Boys' Field" premises at Kauluwela on July 25, 1923, and certain watershed areas at the head of Kalihi Valley on April 24, 1924; also, two park sites were conveyed to the County of Maui,- one at Kaunakakai, Molokai, on May 31, 1923, the other at Lahaina, Maui, on December 29, 1923.

Under the Frontage Tax law the Estate was this year assessed for the extension of Bethel Street, from Hotel to Pauahi, (District 22), in the sum of $17,089, the Estate land benefited being that demised by Lease 2566 to the Consolidated Amusement Company, which bears the whole assessment, and which, on October 16, 1923, paid the first (10%) installment thereof direct to the City Treasurer.

In the way of development of the lands of the Estate, the Trustees have this year expended the net sum of $35,393.46, distributed as follows:

(1)	Filling in strips on both sides of the King Street frontage of the cane lands at Palama,	$28,502.91
(2)	Constructing Oahu Avenue Extension from its junction with Manoa Road to the boundary of the Estate land of Kahaumakaawe - first installment of the Estate's share, ...	666.00
(3)	Acquiring title in 40-foot strip at Kaaipu, Manoa, needed to make Estate lands accessible from Bush Avenue, in return for which the Estate granted the Realty Associates, Limited, a perpetual right to discharge storm waters on to part of Kaaipu (see List of Agreements attached) - costs of deed, ..	6.50
(4)	Installment for 1923 paid on Estate lands in the Kakaako Improvement District (see Thirty-Seventh Annual Report) and not recovered from tenants, ...	1,560.86
(5)	Fencing at Kapalama along the Y. Ahin boundary, ...	398.44

(6) Constructing stone wall along the Kahaluu-Kaumalumalu boundary, North Kona, Hawaii - one-half share, ... $ 938.33

(7) Developing the water resources of Maunalua, Oahu, including reports of geological experts, and labor and materials used in tunneling, ... 2,197.67

(8) Developing the agricultural resources of Maunalua, Oahu, including reports of F. G. Krauss, Agronomist, and labor and materials in planting and cultivating experimental plots, ... 955.38

(9) Establishing an arboretum at Punaluu, Koolauloa, Oahu - the work being done by the Experiment Division of the Hawaiian Sugar Planters' Association, ... 167.37

Capital expenditures on office buildings amounted to $1,032.45, distributed:

Honolulu Office
Additional lavatory, new shelving, etc., $ 158.45

Kona Office
Moving Engineer's Cottage from Kainaliu to the office lot at Keekee, installing bath-room, painting main building, etc., 874.00

Furniture and equipment for the Honolulu Office cost $2,504.51 including:

Ford cars (2), ...	$ 1,210.16
Transit, drafting machine, etc., ...	616.15
Map cabinet, lease index, etc., ...	490.35
Books for office library, ...	150.06
Index cards, etc., ...	37.79

The Trustees have prepared, and file herewith, an Inventory of the property held by them as of the 30th day of June, 1924, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps added to the office collection of maps during the year cost $2,407.46, distributed:

(1) Punaluu-kai, Koolauloa, Oahu, showing arable areas and reporting on possession - completed September 30, 1923, $ 456.57

(2)	Kealia I, South Kona, Hawaii, general survey, made primarily to relocate and permanently mark the Ahupuaa boundaries and the boundaries of kuleanas adjoining the konohiki, to lay out subdivisions at the beach and on the main road, to classify the areas of agricultural and pastoral lands, and to report on possession - completed October 24, 1923, ...	$ 874.96
(3)	Kaluanui, Koolauloa, Oahu, area makai of the Forest Reserve line, with the primary object of reporting on possession - completed March 11, 1924, ...	325.80
(4)	Helemano - Paalaa-uka - Waialua, Oahu, boundary survey in preparation for the filing of a petition with the Boundary Commissioner for settlement of boundaries - completed March 17, 1924, ...	50.91
(5)	Puanui, Upolu and Puuepa I, North Kohala, Hawaii, including inspection of Waiapuka monuments, study of Honokane-Awini boundary, and report of the measurement of Honokane water - completed June 9, 1924,	699.22

As a result of the Kealia survey, the Trustees, on February 25, 1924, were enabled to complete an agreement with the owner of the Ili of Kaiko, definitely fixing the boundaries of that portion of the Ili that lies within the Ahupuaa (see Agreements).

FORESTRY AND FOREST RESERVATIONS

The policy of protecting and preserving the forests on Estate lands has been continued through the year, with the assistance and co-operation of the Territorial Department of Forestry and the Experimental Division of the Hawaiian Sugar Planters' Association.

During February and March, 1924, an inspection was made of most of the Estate forest lands on Oahu, for the purpose of noting any possible depredations, the presence of cattle, and the condition of fencing; and a report of the results of this inspection is now on file. The Oahu Reserves are listed as follows:

Maunalua
Waialae
Aihualama
Kaakaukukui (Pauoa Flats)
Kapalama
Halawa and Kaonohi
Waiawa and Waiau
Kawailoa and Paalaa
Punaluu and Kaluanui
Heeia

In addition to the costs of establishing the arboretum at Punaluu previously mentioned herein, $986.20 was expended in the general work of promoting, preserving and protecting Estate forests, distributed as follows:

(1)	The Estate's Sixth pro-rata contribution to the fund raised by the Experiment Station, H. S. P. A., from among the various owners concerned, to continue, through 1924, the work of rehabilitating the Halawa-Niulii Forest Reservation area known as the "H. S. "P. A. Forest Reserve No. 1", in North Kohala, Hawaii - the Reservation including a portion of the Estate land of Waiapuka, ...	$ 118.20
(2)	Kona Nursery, mentioned in last Report as intended to supply trees needed in the Kahauloa II Forest Reserve to replace the old koa being taken out on the 10-acre tract leased to Motooka in the sparsely covered region above the 3500-foot contour, ...	77.81
(3)	Extermination of wild pigs in the Kaluanui (Oahu) Reserve, ...	24.00
(4)	Inspection of Oahu forests, ...	9.50
(5)	Extinguishing fires in the Kona (Hawaii) Reserves, ...	756.69

LAW

Appeal against the 1923 property tax on portion of Piopio, Hilo, Hawaii, filed by the Trustees as mentioned in last Report, was withdrawn on December 8, 1923 - the Territory having agreed to accept the returns (which were substantially in the amount fixed by the Supreme Court in 1922), and the Appeal Board (Third Taxation Division) having rendered a decision fixing the value in the same amount.

An adverse claim by Lily K. Woodward et al. to ownership in a beach lot of 1.5 acres at Punaluu, Koolauloa, Oahu, was amicably settled out of court - the Trustees conveying to the claimants title in 0.63 acre thereof, in return for a quitclaim to the remaining 0.87 acre (see Agreements).

The suit mentioned in last Report as having been brought by the City and County of Honolulu to condemn land needed for the extension of Bethel Street, from Hotel to Pauahi, resulted in an award (made in October, 1923) of $6,291 for the 1,821 square feet of Estate land involved; and this sum has been duly received, as noted in the attached List of Sales.

The suit, Bishop Estate vs. N. Hida et al., mentioned in last Report as having been brought to secure redress for fire-wood illegally cut and removed from Lot 10, Keauhou II, North Kona, Hawaii, was on October 24, 1923, carried to the Territorial Supreme Court on a writ of error, but was withdrawn and reheard by Judge Thompson, of the Third Judicial Circuit, by stipulation, resulting in a judgment confessed by the defendants, and a fine of one dollar. This answered the purpose of the Trustees, whose chief concern in bringing the suit was to ward off and discourage repetitions of the offense with respect to their Kona lands.

Suit, Bishop Estate vs. Manuel C. DeMello, brought in the Third Circuit Court for summary possession of the land at Keokea, South Kona, Hawaii, demised by Lease 2746, was discontinued on May 15, 1924, the rental arrearage having been taken care of by the two promissory notes previously mentioned herein.

Suit, Bishop Estate vs. Chang Chock Hing, brought in the local District Court on February 21, 1924, for summary possession of land at Kakaako, Honolulu, was decided in April following in favor of the Trustees, resulting in the cancellation of Leases 429a and 1463.

Suit, Bishop Estate vs. Aukai et al., brought in the First Circuit Court on June 20, 1924, to quiet title to a lot of land at Waialae, Oahu, is still pending.

Suit, Bishop Estate vs. Masuhara Mitori, brought in the local District Court for summary possession of land at Kapalama-kai, Honolulu, demised to the defendant by Lease 2680, on the ground that a breach of the liquor covenant contained in the lease had been committed, was, in May, 1924, decided in favor of said defendant.

Injunction suit, United States vs. the above Mitori et al., was subsequently dismissed as to the Trustees, the Lessee providing a bond satisfactory to the Prohibition authorities.

KAMEHAMEHA SCHOOLS

Buildings: The year's outlay under this head amounted to $9,611.78, distributed:

Development Plans of proposed physical reorganization of the Boys' and Girls' Schools,		$ 280.65
Garage Extension - adding two more stalls to existing Garage, ...	$ 245.00	
Converting Building 3 into a two-stall garage, ...	238.00	483.00
Teachers' Cottages, M/D		
"A" - bath-room	$ 362.86

Nash 2-ton truck,	550.00	
Moreland 1-ton truck,	150.00	
Power lawn mower,	375.00	2,494.25
Shop Equipment		
Electric Shop,	$1,106.06	
Auto Shop,	1,175.00	
Forge Shop,	125.00	2,406.06
Class-room Equipment		
Piano for Bishop Hall,	$ 560.00	
Outdoor stage, G/S,	240.56	
Transit, level, rods and tape, for Twelfth-Grade course in Elementary Surveying,	550.89	1,351.45
Other Equipment		
Fire protection,	$ 544.36	
Motion-picture film,	500.00	
Range telephone,	100.00	
Cash register,	300.00	1,441.36

Enrollment: The school year opened Monday, September 10, 1923, with a capacity enrollment of 367, and closed Thursday, June 5, 1924, with an enrollment of 352, distributed:

	Opening	Closing
Manual Department, B/S,	184	174
Preparatory Department, B/S,	68	73
Girls' School,	115	105

Scholarships: Full scholarships were awarded during the year to 36 pupils, representing a charge of $1,816.

Diplomas: Thirteen diplomas were awarded at the close of the school year - to 10 boys and 3 girls. Nine pupils at the Preparatory qualified for promotion to the Manual.

Administration: Of the Schools' administrative staff, Mr. John H. Midkiff, Principal of the School for Boys, Manual Department, resigned at the close of the school year to enter the commercial field. He has been succeeded by Mr. John F. Nelson, a graduate of Colorado College and formerly Principal of Mid-Pacific Institute.

Details concerning the general educational activities of the Schools during the year ended June 30, 1924, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

W. O. Smith
A. Lindsay
W. Williamson
Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, Hawaii,
December 31, 1924.

Consideration: $1.00

UNITED STATES OF AMERICA
By which the Trustees grant a perpetual easement for an electric transmission line and water main across Halawa, Ewa, Oahu (L. C. A. 7712 and 8516B, R. P. 6717 to M. Kekuanaoa and Kamaikui) as part of the system extending from the Naval Station at Pearl Harbor to the Military Reservation at Aiea,
Date of Agreement: September 26, 1923,
Consideration : $1.00

AGREEMENTS (Continued)

With

FRANK ANDRADE

By which the Trustees receive a release of any adverse interest which may have been established in 3,338 square feet, Kaaipu, Manoa, Oahu - part of L. C. A. 5368, R. P. 1262 to Akahi - being land claimed and inventoried by Bishop Estate, but occupied adversely to the Trustees,

Date of Deed : October 12, 1923,
Recorded in : Liber 709, pp 19/20,
Consideration: $1.00

KAIMUKI LAND COMPANY, LIMITED

By which the Trustees quit-claim all interest in 1,052 square feet of land situate at Kaneloa, Manoa, Oahu - part of Apana 1, L. C. A. 1924, R. P. 5369 and of Grant 708 to Kealohapauole,

Date of Deed : December 29, 1923,
Consideration: $1.00

Note: This was a case where the land concerned (a six-foot strip in the Halelena Tract) had not been inventoried nor claimed as Bishop Estate property, and the quit-claim was issued by request of the owner so as to remove any cloud upon the title due to adverse use by tenants of the Estate.

MARY KEKOA (widow)

By which the boundaries of the Ili of Kaiko (Grant 1196 to L. Marsh) within the Ahupuaa of Kealia 1 (Apana 2, L. C. A. 5368, R. P. 7732 to A. Akahi), South Kona, Hawaii, are permanently fixed to accord with the lines of a recent survey made by the Trustees,

Date of Agreement: February 25, 1924,
Recorded in : Liber 716, pp 169/171

REALTY ASSOCIATES, LIMITED

By which the Trustees, in return for the grant of storm water rights mentioned below, acquire (subject to rights of use in common reserved to adjoining owners) title in 3,563 square feet at Kaaipu, Manoa, Oahu - Land Court Transfer Certificate 2934 - being a 40-foot roadway needed to make Bishop Estate neighboring lands accessible from Bush Avenue,

Date of Deed : March 1, 1924,
Recorded in : Liber 30, p. 133,
Consideration: $1.00

REALTY ASSOCIATES, LIMITED

By which the Trustees, in return for the fee in the above 40-foot roadway, grant a perpetual right to discharge storm waters from adjoining lands on to part of Kaaipu, Manoa, Oahu - L. C. A. 5368, R. P. 1262 to A. Akahi,

Date of Agreement: March 25, 1924,
Recorded in : Liber 730, pp 94/95,
Consideration : $1.00

KAMEHAMEHA SCHOOLS

REPORTS OF PRESIDENT AND REGISTRAR

filed with

THIRTY-NINTH ANNUAL REPORT

BISHOP ESTATE TRUSTEES

JUNE 30th, 1924.

For Court

ANNUAL REPORT
of
THE PRESIDENT
of
THE KAMEHAMEHA SCHOOLS.

1923 - 1924

July 31, 1924

To the Trustees of the
Bernice P. Bishop Estate,
Honolulu, T. H.

Gentlemen:-

I have the honor to submit the following report of the Kamehameha Schools for the school year 1923-1924:

GENERAL CHARACTERISTICS OF THE PAST YEAR

One of the largest features of encouragement during the past year has been the fact that the Schools have graduated a 12th Grade. This graduation has had a very stimulating effect upon the students and the community. The community seems now to regard the Kamehameha Schools as first-class when judged by standards of education, and the students feel a considerably greater pride in the schools if one may judge from their statements. A very large percentage of the previous year's students returned for work during this past year. There was a very decided increase in this tendency, and doubtless the fact that Kamehameha is offering 12th Grade work was to a considerable extent responsible for this. There have been other stimuli to progressive action. The conversion of Cottage "A" from a teachers' residence into a dormitory for boys and the resultant increase in enrollment, was no small reason for feeling that the schools are actually planning to go ahead. The use of this cottage "A" has also meant a better care of small boys in their transition year - the year in which they first mingle with the older and larger boys of the Senior Department. Applications for admission last year and for this coming school year, have been numerous, about 25% more than we can care for with the existing facilities. The spirit among the faculty has steadily improved during the year, to my observation. For one thing, the effect of a quantity of paint and some building renovations made a year ago this summer, was very wholesome and beneficial. The faculty speak and plan for the future as if they feel there is now a progress and growth in the Schools. The report of a favorable attitude in Washington toward relieving us of Federal Taxes has certainly stablized this feeling. An attempt has been made to stimulate the members of the faculty by Committee and Research work. This seems to be increasing their professional pride and interest. I believe there is also an improvement in the attitude toward the school property and the Bishop Estate. I do not believe this is all that it should be yet, on account of lack of information, and I am planning to have the faculty addressed by the Trustees during the coming year on some features of the Estate. I think it is merely a matter of education to secure a perfect cooperation and understanding on the part of

the teachers. The spirit among the students also is improving. I do not believe the students are at present looking so much for gifts as they have been in the habit of looking. We have been trying to develop the students' interest in improving the campus and to have them feel that the campus is, and always will be in the very best sense, their own in proportion to the care they take of it, and the amount of labor they invest in it. Accordingly during the past year the students have planted trees, and have attached their names to these trees. They are building a fence around the athletic field, and their names are being inscribed on the posts there. In such ways we plan definitely to tie their affections to this school. They are now anxious to construct their own swimming tank, and I hope this may be a project for them as soon as a permanent site for the schools is decided upon. The care of the property is stated to be at a high mark, and I know that many of the older students not only are careful themselves, but also take great pains in checking the more untrained and careless of the students from damaging the property. The Seniors state that there have been relatively few violations of rules during the past year, which is, of course, a very good index of the students' attitude. Even though many of the 11th Graders were inclined at first to consider the part-time idea as "wasting" a year, they now seem to see the advantage of such an extension of our education, and so far as we can learn, the entire 11th Grade, with the exception of one boy who has moved to the mainland, will return to enter our 12th Grade this Fall. This will make a total of 49 in the class, but because of the part-time plan none of the 23 boys will graduate this year. Our first 12th Grade graduating class was 13. Next year's class should be 26, and the following year's class 45.

CURRICULUM AND EDUCATIONAL FEATURES

The goal for which there has been a constant striving for years, has been more nearly accomplished during this past year than heretofore, as should normally be expected, that is, the academic classes and the shop work are better coordinated and there is a more harmonious feeling between the two sets of teachers, as they realize the unity of aim in the entire schools. It will be necessary, of course, to give attention to this feature week by week. The reason for this is probably in the mistaken idea generally held by the people in the community, not excepting the academic teachers themselves, that classic work and academic subjects are of a higher plane of value and usefulness than is training in the skilled trades. Whereas the "dignity of work" is not a standardized conception by any means, and whereas any honest work may be regarded as dignified if the pay in it is high compared to the pay in other professions, it is nevertheless true that right in our schools no small amount can be done to establish a favorable attitude toward honorable work in production as compared to honorable vocations in professions, business, clerical lines, etc. Unfortunately the teachers in some instances have been inclined to regard hand work, even the

skilled divisions of it, as drudgery and as a necessary evil. This is a subject for education in the schools, and will have our attention. Attempt is being made to differentiate between drudgery and disciplinary repetition of work, for the sake of inculcating habits and instilling a "stick-to-it-iveness" in our students. We are aware of the indistinct border-line between the use of skill for educational development on the one hand, and the exploitation of the students on the other hand. There is no desire to exploit student labor but there is a desire to have the students contribute to the honorable work and expense of carrying on the Kamehameha Schools and to repay in so far as they are able, the affection of the founder of the Schools, and thus to pass on and increase benefits which the school may offer children yet to come.

It seems to me that in general the product of our schools is very well suited to local demand and opportunities for men and women. We are alert to new opportunities and shall use every effort to see that new opportunities on the plantations and elsewhere in the Island are created and that they are taken advantage of by our students.

The daily work which is neither class work nor shop work, but is for the purpose of maintaining in good condition the buildings and grounds, is in itself educational, and we try to keep it on that plane as much as possible. During the past year we have had the teachers go out with the students and take part in this daily work. For my own part, I have followed this custom, and have found it of considerable benefit in my relations with students and teachers. It is probably impossible to make any young and growing boy enthusiastic over sustained, laborious effort, but in so far as it is possible to arouse his interest and to secure his intelligent cooperation and participation in these jobs, keeping records of the work, discussing and reasoning about the work, etc., we are planning to make this hour and a half per day worth while from an educational standpoint, and not unattractive to the boys.

Sewing and Millinery have been two activities in the Girls' School which have received very careful attention during the past year. I believe the girls have made good progress in them, and whereas these two subjects were not presented primarily from the vocational standpoint, but were given with the idea that they constitute useful knowledge and skill for any home-maker, it is found that there are some openings for girls to spend a part of their time as seamstresses in homes, for pay. I welcome this development, and I am pleased to say that the girls are alert for opportunities to work for pay. I do not believe they are inclined to neglect the home-making features, but rather look upon these opportunities as aids to the income of their family, which as a rule is very limited.

Cooking has been on the same high plane. With our new system of cooking instruction and with the new equipment which we installed last year, enabling the girls to prepare their meals in the cooking classes, as well as to do such other work in cooking as a thorough cooking course contemplates, we have

been able to train the girls in a way that is certainly very acceptable in this community, and that is hardly inferior to any Home Economics education presented on the mainland.

The training in Nursing for the girls is being extended, and the thought that the Hawaiian race needs many trained nurses, and mothers who are well versed in child care underlies the activity in this course. I believe that along this line some of our most useful instruction will be given in the future, and we shall give the subject very careful attention continuously.

Commercial Work for girls has been extended somewhat during the past year, and from a cursory survey of the situation I agree with the idea of incorporating these subjects into the Girls' School curricula. About one-fourth of the girls are taking up these subjects, and all the girls will have some business training. Vocationally, the commercial field for our girls is somewhat limited, of course, but I do not believe that with the small number of commercial students we shall turn out, the limitations will be so much from the outside but will rest within the girls themselves, and it is therefore our duty to remedy these limitations, increasing the English ability of the girls, and bringing it up on a par with their skill of hand which they are able to acquire to a very high degree. The business training for home keeping is emphasized in all of our commercial work.

Accounting has been offered the Seniors during the past year, and we plan to continue this work next year. In addition to offering the theoretical course in accounting to all Seniors so that they may be able to take care of their own income and expenses, we are going to require these students to keep a personal account-book on the budget plan, and their credit for this work will depend upon their making every entry and having all accounts balance at the end of the year.

Normal Preparatory Training is a feature of our instruction which we believe is of considerable value to the Territory. The Department of Public Instruction, including the Superintendent and the Director of the Territorial Normal School, state that they look to the Kamehameha Schools for that fine type of Hawaiian teacher which is becoming somewhat scarce.

Surveying: This has been offered to both boys and girls in the 12th grade during the past year. The use of the new instruments and equipment in this subject has been of great assistance in increasing the interest in mathematics. Whereas the course is not strictly vocational in itself, but is supplementary to the vocational work we offer, there is nevertheless a demand for a few young men such as we may turn out, to take up various divisions of surveying work in the Islands.

The Garden Project which we have been running for several years in the Preparatory School, was extended last year to the Senior Department, and it proved to be a success in every way. After a great deal of hard work and good training,

185

we secured the tilth of an area of approximately an acre in the rear of the President's office, and from this, since the middle of January, we have sold over $400.00 worth of vegetables. From the Preparatory gardens we sold $110.00 worth of vegetables. In these garden projects, the students did the planning, organized the work, and kept all records. The project was very highly spoken of by the University of Hawaii in its Extension letter.

Printing during the past year was not on a strictly educational basis, although I believe it was contributory to the training and experience of our students. A few Preparatory School boys, and in all about a half dozen of the older boys were employed from time to time throughout the year, and in this way did a considerable lot of printing for us at low expense, and were able to earn some money for themselves.

Automotive Instruction has been facilitated by improving the equipment and shop. The purchase of two old trucks which were re-conditioned and re-built by the boys in our shop, and of a Fordson Tractor with appliances during the year, as well as two Chevrolet autos which were re-built (and one of which has been re-sold) has given some very fine training in this line. It seems to me that our automotive work is quite thorough and up-to-date. Several of our automotive students are employed during this present summer in repair garages, at good pay.

Carpentry Training has been of a very high standard, and the building of new garage stalls, tables, a watchman's cottage, and other buildings of the new piggery and hennery plant have furnished excellent projects for training in this line.

Electric work is first-class in Kamehameha. As a matter of fact, it is considerably better than anything of the sort which I saw on my trip to the mainland. The shop has been equipped somewhat more extensively during the past year, and a number of projects on the campus have given practical training to the boys. Our electrical boys are building a name for themselves, and are in demand on the plantations, in the Hawaiian Electric Co. Ltd. and elsewhere.

Forge Shop equipment was somewhat improved during the past year. Instruction and interest in this branch were relatively low grade, but I hope there will be a decided improvement during the coming year.

In the Machine Shop Practice courses, we have had a good average year, with few changes. Our students get positions easily during the summer, and I believe they are being efficiently trained for the work that is offered in the Territory along these lines.

In Agriculture there has been a very decided increase in interest. The number of students electing agriculture as a vocation has increased from a previous maximum of 8, to a total of 35 during the past year. This interest has been stimulated by a number of things, probably chief of which is the manner in

which we have taken hold of the two paying crops of the Islands - Cane and Pineapples. A trip to Molokai to visit the Hawaiian homesteads there, also revealed the students' intefest in this feature of agriculture. Our areas under cultivation are being increased as rapidly as it is possible to increase them. We are converting about seven acres of worn-out alfafla fields into cane, and have growing nicely three and one-third acres of Pineapples, to which pineapple area we are adding about fifteen acres this Fall. This work has been done by the boys almost entirely, and the methods they have employed have been progressive and good. Indeed it is fair to say that the agricultural work, and the farm during the past year, have proved to be very good educational media. For the first time the farm (excepting of course the cane and pineapple crops which have not as yet been harvested) has operated at a profit. I submit herewith tables of Farm Operation:

Farm Operating Expenses

Year	Salaries and Wages	Feed Purchased	Other Misc. Expense	Total Operating Expense	Operating Exp. less Income, or Net Cost
1911-12					3142.23
1912-13					4313.94
1913-14					3727.48
1914-15					2845.27
1915-16					949.22
1916-17	7335.46	3047.68	1753.83	12136.97	3474.30
1917-18	8458.62	5126.76	3115.92	16701.30	6482.11
1918-19	9084.29	6376.55	2520.55	17891.39	4874.81
1919-20	10299.36	7149.47	3548.16	20996.99	3356.31
1920-21	12927.87	8701.10	3556.19	25185.16	7822.97
1921-22	12383.56	5158.52	7225.04	23424.54	6917.94
1922-23	12050.98	3376.61	4525.30	19952.89	4096.00
1923-24	10933.51	3333.94	6187.63	20455.08	6724.25

Farm Income

Year	Dairy Products	Stock Sold	Pigs Pork	Other Misc. Inc.	Total
1916-17	5701.72	422.22	761.99	1746.44	8632.37
1917-18	5751.35	1110.60	1040.33	2317.01	10219.39
1918-19	6944.00	1849.20	1940.51	2372.87	13106.58
1919-20	8600.02	1730.86	2007.83	5301.97	17640.68
1920-21	10103.84	792.41	2318.16	4148.78	17362.19
1921-22	11070.80	823.02	2721.75	1891.03	16506.60
1922-23	10894.15	1004.20	1530.72	2527.82	15856.89
1923-24	11835.83	2576.51	1804.83	4912.16	21129.33

Performance of Dairy Herd

Year	No. of Cows	Daily Average per cow (in lbs.) milk	Herd Aver. % Butterfat	Avg. Amt of grain fed per cow	Avg.cost of grain mixture per cwt.
1914	17.3	15.8	3.10	9.5	$1.47
1915	16.7	19.4	3.05	8.2	1.38
1916	18.3	21.9	3.20	11.0	1.55
1917	20.1	22.1	3.35	9.2	2.25
1918	19.6	22.2	3.30	9.3	2.94
1919	19.7	23.6	3.39	11.5	3.07
1920	22.0	24.3	3.33	12.0	3.31
1921	24.5	20.8	3.21	11.5	2.80
1922	27.2	16.90	3.39	- -	- -
1923	19.75	18.16	3.25	9.6	2.67

During the past year a very elementary observation revealed that the herd contained a number of unprofitable cattle. These we disposed of, and the records of the herd have been improving monthly since that sale. We are at present disposing of our rabbits, believing that they are not profitable for instruction, and are very doubtful income.

Early in the year the sum of $7,500.00 was authorized to carry on an experiment in cane and pineapple crops. So far we have expended $3,537.00 and our crops are well along. We have still some more planting to do, but we believe that our estimate for bringing these two crops to maturity is going to prove correct, and we also are of the belief that these crops will be grown at a profit. The students certainly now know much more about these two great crops, and we believe they will find many excellent opportunities in connection with these two bases of territorial income, although we are not sure as to exactly what work they will do. Some we hope will become crop contractors; some experts at plant selecting; some skilled in the mechanical pursuits connected with these industries; some will become general agriculturalists on the plantations, many of the last-named going on for further work in this line at the University of Hawaii.

Military Training has been of good value during the past year, and the educational features of this training, such as inculcating discipline, establishing the correct attitude toward organization and authority, and developing a sense of good physical bearing and alertness, have been well cared for by the present instructor. We have now adopted the scheme of making the Seniors the officers, the Juniors the Sergeants, the Sophomores the Corporals, and all others Privates.

Co-Education, as was anticipated, has been found to be difficult with the increasing size of the classes in the two schools. I am convinced after watching co-education, that it is very desirable, and that the mingling of boys and girls in classes and in other supervised activities is in every way beneficial to our students. I hope that we may have more co-education in the future.

Summer School: During the past summer we did not conduct a summer school for the reason that there did not seem to be the demand for it that has previously existed. At any rate,

there is not a demand, and never has been found a demand among the Hawaiians and Part-Hawaiian families for this summer schooling. Previous students have been chiefly from Punahou families, and many of these have been well taken care of by employment in the Punahou shops during the past summer and by going to Summer Camps, etc. It is my belief that there was no call to expend our time and energy in conducting a summer school along the lines of previous years.

ENROLLMENT

I submit herewith tables showing the enrollment for the past year, as compared with that of several years previous.

	Enrollment in September			Entered during year:			Left during year:			Enrollment in June:		
	1923-1924	1922-1923	1921-1922	1923-1924	1922-1923	1921-1922	1923-1924	1922-1923	1921-1922	'23-'24	'22-'23	'21-'22
Boys' School	184	159	155	6	—	3	16	8	14	174	151	144
Girls' School	115	110	108	2	2	6	12	5	10	105	107	104
Prep. Dep't.	68	74	72	6	5	5	1	5	3	73	74	74
Totals	367	343	355	14	7	14	29	18	27	352	332	322

One thing which should be noted is that about nine out of ten of the Applications for enrollment these days are for entrance into the 9th grade. This means that students are finding it desirable to attend the public schools in their vicinities, until the end of the 8th grade, and that then they find High Schools and Junior High Schools remote, whereupon they wish to come to Kamehameha. To date we have had very few applications from students who have finished Junior High Schools, although doubtless we will be feeling this influence a year or two later. Applications for entrance to the 7th Grade are very few indeed. The 7th Grade promises always to be a very small class. The 9th Grade will be large because of the reason mentioned above, and the 8th grade also will be large because many of the students who come to us are not able to do our 9th Grade work and have to go into the 8th Grade. These students, of course, will remain on through the rest of their course, and the classes will remain high from the 8th Grade on. I believe in the 7th grade in our course, and I regret that students do not have their 7th grade with us and go through our complete training. I expect to make a special presentation of this feature to the community before another year, so that parents may consider having their children go through our well-organized course of training, including Grades 7 to 12, instead of having them enter at the 8th or 9th grade and thus miss the vocational work of our 7th, or 7th and 8th grades.

186

From the foregoing it may be concluded that students are coming to Kamehameha at present because no school of similar upper grades is convenient. There is a second reason in that they have been found hard to manage by their parents, and their parents wish them under the discipline of a boarding school in which there are the military features. The existence of a waiting list and the fact that Kamehameha Schools are making known the true value of the training offered here, through the medium of news stories, addresses, school films, and by having the Glee Club tour the Islands, are going to improve this situation, and I can see a tendency to ascribe to the schools a higher respect, and to regard the Kamehameha Schools not as merely a place of resort for persons lacking sufficient intelligence to take higher training, but as a first-class School for the best type of educational development.

HEALTH

Students: Health conditions during the past year among the students have apparently broken all records. There has been no epidemic, and very few contagious diseases. I submit a table of operations performed by Dr. Kilbourne, which speaks for itself.

Table of Operations:

	1923-24	1922-23	1921-22	1920-21	1919-20
Appendectomy	--	3	7	6	5
Tonsilectomy or Adenoidectomy	3	9	18	15	33
Circumcision	--	1	1	--	--
Fracture	--	1	1	6	2
Eye Operation	--	--	2	--	--
Operation on Foot	--	1	--	1	--
Mastoid	--	--	1	--	--
Repair after cuts or bruises	1	--	--	--	--
Abcesses	--	--	1	1	4
Hernia	--	--	1	2	2
Nasal	--	--	1	--	1
Total	4	15	33	31	47

Staff: Health conditions among the members of the staff have been what one might call average during the past year, but I do not regard our attention to the health of the staff to be all that is desired. We have no systematic recreation for our staff, which is unfortunately characteristic among teachers. This we purpose to remedy during the coming year by laying out a recreation program. One teacher, Miss Bessie Kirk, had to leave on the verge of a nervous breakdown. However, her difficulty I do not attribute to over-work or to any condition connected with the school

DENTISTRY.

Our Dentist work has been about as existed a year ago. I should say that the methods have been somewhat old and risky, and that operations have not been preceded by proper prognosis, X-ray examination, etc. The work has been somewhat hit or miss. I present at this time a table showing the dental work done last year, as compared with that of previous years. Costs of medical work are also shown:

	Total paid to Dentist:	Total paid to Doctor:	Re-collected from pupils: Dentist:	Re-collected from pupils: Doctor:	Bal.paid. by Schools Dentist:	Bal. paid by Schools Doctor:
1923-24	$1154.15	$1500.00	$739.00	$739.00	$425.15	$761.00
1922-23	2305.70	1500.00	685.00	685.00	1620.70	815.00
1921-22	2025.00	1500.00	678.00	678.00	1347.00	822.00
1920-21	2996.50	1500.00	687.00	687.00	2311.50	813.00
1919-20	2356.50	1020.00	681.00	681.00	1675.50	339.00
1918-19	1813.00	1020.00	676.00	676.00	1137.00	344.00
1917-18	2071.00	1000.00	634.00	634.00	1437.00	366.00

In our school, students should have 100% good teeth. This will probably cost rather high and parents should pay charges for all but routine work; but it is along this line that I am going to work this coming year to see what can be accomplished.

OPERATING EXPENSES.

A cursory glance at the operating expense accounts, as shown in the Accountant's Report submitted by Mr. E. P. Murray, attached hereto, reveals that the amounts expended on keeping the property in repair and on boarding costs considerably exceeded the budget as submitted by Mr. Webster for the year just closed. All such expenses were discussed and authorized prior to their being incurred. The following table brings out several interesting features. (Percentages show portion of total gross expense for the respective years.)

	Year 1922-23		Webster's Budget 1923-24		Actual Expenses 1923-24		Budget 1924-25	
Maint.of Bldgs.	$11495.	5.2%	$11000.	5%	$25564.	10.5%	13000.	5.4%
Upkeep of Grds.	11597.	5.2%	9600.	4%	14965.	6.2%	12000.	5%
Wtr.Lght.&Sewer.	5744.	2.7%	5500.	2.4%	6206.	2.5%	6500.	2.6%
Indus. Operation	7303.	3.4%	11000.	4.7%	7197.	3%	10000.	4%
Instruction	58721	27.2%	66000.	28%	62589.	26%	62000.	25.7%
Boarding Expense	55921.	26%	58000.	25.1%	61038.	25.5%	70000.	29%
Religious & Soc.	5718.	2.7%	6200.	2.7%	5155.	2.1%	4000.	1.7%
Care of Health	12293.	5.6%	11500.	5.1%	10356.	4.2%	11500.	5%
Admin.& General	47413.	22%	51600.	22.4%	48628.	20%	53000.	21.6%
	216206.		230400.		241803.		242000.	
Income from Tuitions,etc.	20500.		20400.		22173.		26000.	
Net Cost -	195706.		210000.		219630.		216000.	

(in this table, cents are omitted)

The two items, Maintenance of Buildings, and Upkeep of Grounds last year contained the following expenditures regarded necessary but not contemplated by Mr. Webster in his Annual Budget. The first four items were requested by Mr. Webster just before he left:

Re-shingling Cottage "F"	$500.
Re-shingling President's house	500.
Renewing Tower, Prep. Dep't	200.
Changes and restorations in Water Mains	1000.
Extraordinary repair of buildings, accumulated for years	16600.
Total not budgeted -	$18,800.

I do not believe it is fair accounting to charge the past year's operating expenses for more than one-tenth the above total amount; I believe the proper distribution of repairs would have meant charging out last year not over $2000. on the work we did, as noted above. If therefore $16800. of repairs had been distributed over previous years, our gross expense for last year would have been $225003. as compared to the budgeted figure of $230400. gross.

Furthermore, the budget contemplated an income from tuitions, medical and dental fees, etc. of $20400. to be turned back to the Trustees against the above gross costs. Owing to the increased number of students the tuition fees amounted to more, and we have to show a profit on the farm and a profit on the sale of Pupils' Supplies, so that the total amount returned to the Trustees was $22173. which is $1773. more than expected, and $2253. more than the income of the preceding year. The following figures I believe show the expenses on a fair basis of comparison:

Gross Expense 1923-24	$241803.	Gross Expense 1923-24	$241803.
Gross Expense(Budget)	230400.	Gross Expense 1922-23	216206.
Excess - -	11403.	Increase -	25596.
Gross Expense 1923-24 less $16800.	$225003.	Gross Expense 1923-24 less $16800.	225003.
Gross Expense(Budget)	230400.	Gross Expense 1922-23	216206.
Saving - -	5397.	Increase	8797.
Net Expense 1923-24 less $16800.	202830.	Net Expense 1923-24 less $16800.	202830.
Net Expense(Budget)	216000.	Net Expense 1922-23	196286.
Saving - -	13170.	Increase	6544.

$- In my letter of Aug.19, 1923 I stated that I hoped to keep this figure $4850.00 under the budget.

The last-named figure, showing an increase of $6544. over the net expenses of the preceding year, is to be accounted for by an expenditure of $3537. for Cane and Pineapple crops, and by the increase in the number of pupils which ran up our boarding expenses. We had an average gain of twenty-two students during the past year over the preceding year.

189

Gross Expense, 1923-24		$241803.
Deductions		42510.
For extraordinary maintenance	$16800.	
For Cane and Pine-apples (to be recovered at Harvest)	3537.	
Income from tuitions, etc.	22173.	
Actual net expense on basis of previous years		$199293.

Net approximate per capita costs (359 pupils)1923-24....$555.
Net approximate per capita costs (337 pupils)1922-23.... 592.

The General Store practically broke even, but its usefulness has not seemed to warrant the setting aside of so much important space for this institution, so we have decided to close the store and carry the supplies in the several Departments. The record for the year's operation of the store is as follows:

Total sales to Pupils, Teachers, and various Departments of both Schools	$19862.54
Total charges including inventory adjustment	17803.55
Gross Profits -	2058.99
"Stores Expense", Salary of Storekeeper, miscellaneous	2108.28
Net Loss -	49.29

Half of the Storekeeper's time during the last two months was spent in the new central tool room, and all through the year much time was spent in checking up and caring for dormitory property. Had this time been charged to Industrial Operations and Boarding Expense respectively, the store would have shown quite a profit.

Every effort has been made to keep expenses down and to increase the income from operation. Barring ill health and unforeseen difficulties we expect to operate somewhat more economically next year, but further large savings per capita must lie in the direction of increased enrollment.

ACCOUNTS RECEIVABLE

We have had more students during the past year, and a greater number of Accounts Receivable, and the amount is somewhat higher than during the year preceding. The condition of these accounts is satisfactory, and practically all are known to be good.

STAFF

I wish to take this opportunity of stating to the Trustees the splendid spirit of cooperation shown by the three Principals during the past year. I regret the loss of John H. Midkiff, Principal of the Boys' School, who has been very valuable in keeping a good spirit among his staff and students, in securing cooperation between shop and class teachers, and in promoting interest in agriculture. I believe that his successor, John F. Nelson, who will come to the Schools August 1st, will perform the duties of this office in a very acceptable manner. The following table shows the number of teachers on the staff, as compared with the numbers for previous years:

	1923-24	1922-23	1921-22	1920-21
Administration and Clerical	11	13	15	15
Teachers	26	27	27	29
Boarding Departments	12	14	10	9
Health	5	5	4	4
Military Department	3	2	1	1
On leave of Absence	1	3	2	3
Religious Education	1	1	1	1
Totals	59	65	60	60

We have lost some good teachers in the annual turn-over, and we have lost also a few malcontents, unwilling workers, and "spiritual tightwads". I look forward to a year of considerably better unified cooperation and every effort will be made to secure the proper spirit and response on the part of our staff for the coming year. One feature that should be of great value next year is that several men on the academic staff have had experience in the trades, as well as good previous teacher training and experience.

PRESIDENT'S MAINLAND TRIP.

I feel at this time, even more than I did immediately after my return from the mainland, the value to me of the trip among the educators and the educational institutions on the mainland. I believe that the work on this trip will be reflected throughout the coming year.

PERSONNEL.

Miss Maude Post, Principal of the Boys' School; Preparatory Department, and Mrs. Susie E. Davis, teacher of 6th grade subjects in the Preparatory Department, are enjoying a Sabbatical year's leave of absence on the mainland during the coming year. During the past year, the only teacher on Sabbatical year's leave was Miss Zella Breckenridge, who is not to return to us, by mutual agreement. Mr. Claude G. Banning, teacher of Carpentry subjects, has been sent by the schools for a summer of study at the University of California. Several of the new teachers, including Messrs. Forbes and Miles, and Miss Elizabeth Woods, are pursuing summer study courses at their own expense prior to coming to us this Fall.

Retirement Pay: The amounts paid annually toward the retirement of teachers, are increasing as is to be expected, since the teachers'salaries increase annually and the proportion of the annuity paid by the Trustees to equal the amount paid by the teachers, up to and including 5% of their salary, is also increasing. This retirement policy seems to be working out very well indeed, and to be an excellent solution of a problem which the Trustees would have found very serious from now on. One teacher who has been on the staff for sixteen years, but whose annuity premiums had not enabled him to secure much income upon his retirement this past summer, viz: Mr. John J. Mengel, was assisted by the Trustees to the extent of $800.00 This amount will apply against the account "Instruction" for this coming year. Another retiring teacher, viz: Ralph J.Borden. who has been with the Schools for eleven years of continuous service without a vacation, was granted a half year's salary on retirement. These adjustments were accepted by the two men as very fair and generous.

PROPERTY.

The buildings of the Schools are old and not best adapted to educational plans. The dormitories, as has been noted many times before, are not very healthful structures, and they have stood for a long period of time, giving good value for their cost of construction. Whereas they are not disreputable, and whereas many schools have time-honored dormitories of a similar type which they would not remove for a number of reasons - some of which are sentimental - I should be very glad to have a decision reached within the next two or three years as to what site the schools are to occupy, so that we may have new and safer structures for housing our activities. Our dormitories are jammed full now. We have done as much as is possible toward rendering them sanitary and safe from fire, but we are not altogether at ease in our minds along these two lines. Capital Expenditures of reasonable amounts have been made during the past year for additions to these buildings, and these additions were necessary to handle increases in the size of teachers' families, and increases in the numbers of students. The grounds are in the process of becoming beautified by our planting over 500 fruit trees and 300 ornamental trees on the premises.

Waialae Cottage: The Waialae Teachers' Cottage has been used all week-ends and holidays by teachers, and on many other occasions whenever opportunity occurred. This equipment is very much appreciated, and is very valuable in maintaining the health and morale of the staff. I believe that further buildings on the Waialae lot would be a good investment, and would be used as continuously and profitably as is the present cottage.

GRADUATES.

The spirit of cooperation and loyalty among the graduates is improving in quality, I believe. I find good organizations of graduates on the outlying Islands, as well as in Honolulu, and these organizations are functioning to maintain the spirit of Aloha for Kamehameha, and to select the best students in their localities and support them in school. 192

SOME EDUCATIONAL PROJECTS FOR NEXT YEAR.

Educational Extension: Through the medium of "The Cadet", our weekly school paper, we are planning, in cooperation with the University of Hawaii, to offer the following educational features for our subscribers, most of whom - outside of the school body - are former students:

a.- Cooking recipes proved good in our Home Economics classes

b.- Child care and home sanitation advice from the Nursing Classes.

c.- Results of school experimental work in shops and farm.

d.- "Improve your English" section.

e.- Local market news.

The Palama Settlement and our nursing classes will cooperate in some of the well-baby clinic work, and later, as the training may prove valuable, we shall offer our nursing classes some experience in home service and family care among the beneficiaries of Palama Settlement.

Mothers' Classes, in which mothers in the vicinity may come to see what the girls are doing, and in which the girls may learn by advising and assisting the mothers, will be offered during the coming year.

The Part-Time Plan will be tried out for the first time next year. The only class to benefit by it the first year will be the Seniors. The many advantages of this year of vocational practice under supervision of the schools and under the pay and urge of industry have been dwelt upon in my weekly letters to the Trustees. It is possible that in the not too distant future a similar arrangement may be worked out for girls who wish to become nurses, clerical employees, dressmakers, etc.

The General Layout of shop experience for next year is represented by the following chart:

Dep't.	Grade	Shop Experience.	
Pre-paratory.	5	Introductory and inspirational prevocational handwork in wood, concrete, clay and paints.	
	6	Elementary Agriculture and Gardening. Small animal projects	
Junior High School Years	7	Full year, 16 periods per week Forge and Sheet Metal Work	
	8	1/2 yr. Printing 16 periods per week	1/2 year Carpentry 16 periods per week
	9	1/2 yr. Machine Shop 16 periods per week	1/2 year Electric Shop 16 periods per week
Senior High School Years	10	(Work at an elected trade for vocational ability, skill and vocational knowledge	16 periods per week
	11		16 periods per week.
	12 12A		8 or 10 periods per week. Part-Time plan, two weeks in school, alternating with two weeks in industry at pay.

Daily Work: (1-1/2 hours' gratuitous work for the Schools) will be correlated with the trade which the boy elects after he finishes the ninth grade. Thus boys who are to become electricians will do our local electric repair work at this time; automotive students will condition our trucks and tractors, etc. etc.

Projects which will be employed as vehicles for educational subjects will include gardening, cane contracting, pineapple contracting, small animal and fowl producing, refreshment selling, novelty selling, barbering, clothes pressing, shoe repairing, automobile washing and lubricating, newspaper reporting, etc. All this will be done on a business basis at a profit for service rendered.

Crop Contractors: On the part-time plan we are arranging for two boys to contract to grow seven acres of cane, and four boys to grow our pineapples. We believe there will soon be a far bigger field for well-trained and capable crop contractors than there is for house contractors.

Other plans include Silent Reading Improvement (a study in itself) grading and checking our students and curricula by means of Standardized Tests, additional Public Speaking and Dramatic training, and tests for Character Traits and training in several elements of character.

Wherever it is possible the Dalton Plan will be followed, thus permitting students to progress just as fast as they can, and not retarding them because of the slow students in their groups. By this plan the children of under-ability, the average children, and the superior children will all be allowed to move right along to the full extent of their mental capacity, and no one will suffer serious discouragement or lack a challenge to hard work.

CONCLUSION.

The Kamehameha Schools should more and more turn out real leaders of Hawaii. Generation by generation the comparative ability of the Hawaiians and the Part-Hawaiians will be seen to improve and in all lines they will rate more and more favorably with others in the Territory. Competition, racial inter-marriage, and general progress are responsible for this. The product of the Schools must improve rapidly. Skill of hand, mental ability and a "flame within" must be the endowment Kamehameha gives her graduates so that they will return to and mingle with their fellows and lead them on in turn, just as the Schools have led students on and out. To secure such leadership in the Schools requires that every one of the Staff have a love for the students and a feeling of responsibility for their individual mental growth and spiritual well-being. To accomplish this is the real aim of the coming year.

Respectfully submitted,

Frank E. Midkiff

ACCOUNTANT'S ANNUAL REPORT

1923-24

The Kamehameha Schools
Honolulu,T.H.,
July 31,1924.

Mr. Frank E. Midkiff,
President, The Kamehameha Schools,
Honolulu, T. H.

Dear Sir:

There follows herewith, the general trial balance, June 30, 1924, and tabulated statements covering all expenditures at these Schools during the fiscal year beginning July 1, 1923 and ending June 30, 1924, viz.:

I	General Trial Balance, June 30,1923
II	Capital Expenditures, 1923-1924
III	Comparative Statements of Operating Expenses 1923-1924, of the three Departments of the Schools.
IV	Comparative statements of Operating Expenses 1922-1923 and 1923-1924 of the entire Schools and for each of the three Departments.
V	Statement of Inventories, June 30,1924
VI	Students' Ledger Accounts
VII	Students' Bank Accounts
VIII	Sundry Accounts Receivable
IX	Pineapple and Cane Account

Respectfully submitted,

E. P. Murray

E. P. Murray,
Accountant.

TO THE HONORABLE RAY J. O'BRIEN, JUDGE OF THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT, IN AND FOR THE TERRITORY OF HAWAII

In the Matter of the BERNICE P. BISHOP ESTATE	EQUITY #2048

REPORT OF MASTER
on
PETITION OF TRUSTEES
FOR APPROVAL OF ANNUAL ACCOUNT

Comes now Fred Patterson, the duly appointed Master of the 39th Annual Accounts of the Estate of Bernice P. Bishop and begs leave to report as follows:

-I-

That your Master has carefully checked all of the items set forth in schedule "A" of the accounts of the Trustees, and finds that said schedule fully shows all the receipts which have been received by the Trustees during the period covering the 39th Annual Account.

-II-

That schedule "B" of said accounts shows fully all of the expenditures which have been made by the Trustees during the period covered by their 39th Annual Accounts, and your Master finds that the Trustees have vouchers on file for each and every item thereof and the same is true and correct in all particulars.

-III-

That your Master has examined the inventory which is filed together with said accounts and has carefully checked all of the personal property and securities in the hands of the Trustees and they have fully accounted for all items thereof, and your Master finds that said inventory is true and correct in all particulars.

There does exist, however, certain features in connection with the administration of the Bishop Estate by the Trustees thereof which I am unable to approve, and feel that notwithstanding such actions on their part have been disposed of in connection with other Accounts heretofore filed by them, that it should be rectified.

The Trustees of this Estate have the fee simple title to a large area of land in the Territory of Hawaii and this land is leased out to a total of approximately fifteen hundred tenants. In some instances the land is leased in very small areas at very small rentals and in other cases there are vast areas of the land of the Bishop Estate that are leased to large corporations in the Territory of Hawaii. In most cases, if not all, the leases made by the Trustees require that the tenant shall pay all of the taxes which may be levied against the land during the term of the lease and the Trustees of the Estate collect these taxes from the tanant and then in turn pay the taxes to the Government, and for this they collect the usual commission provided by law for collections and expenditures. They justify their position in this regard upon the ground that they must protect the property and see that the taxes are paid themselves, or else the taxes would not be paid by the tenants and a penalty would be imposed. There can be no question but what it is the duty of the Trustees to see that the taxes are paid and it is unquestionably their duty to pay them before they become delinquent in the event

that the tenant does not, but they are certainly not entitled to any commission for seeing that the taxes are paid as it is not an income to the Estate, and it is not money that is paid out by the Estate, but it is money that is to be paid out by the tenant by virtue of a binding contract entered into to the tax collector and not to the Trustees, and it is the duty of the Trustees of this Estate to see that the tenant does pay.

Your Master has been given to understand that this precise question is now before the Supreme Court of the Territory in another case and feels that the final disposition of this particular phase of the Trustees Annual Accounts should not be passed upon by this Court until the question is disposed of by the Supreme Court of the Territory.

-IV-

A far more serious question in connection with the 39th Annual Report of the trustees of this Estate presents itself in connection with their real estate transfers.

On the 14th day of July, 1923, the trustees quitclaimed to one Lillie K. Woodward and others all of their right, title and interest in and to a certain piece of land at Punaluu, Koolauloa, Oahu, containing an area of a little less than an acre. This land belonged to the Estate by virtue of a fee simple title and this deed was made as a settlement with the trustees and an exchange deed was executed whereby the Woodwards took part of the land and the Estate took part of the land.

It is the duty of the trustees of this Estate to see that no one obtains title to the lands of this Estate by adverse possession, and if they allow a title by adverse possession to be acquired, in my opinion they are undoubtedly liable for the value of the same unless they can show some good and valid excuse therefor. And it is my recommendation that the trustees be required to appear in court

and present evidence with reference to this transaction, and satisfy the Court that this title has been acquired by the Woodwards through no fault of the trustees.

There are other transactions of the same nature and if they should be compelled to account in regard to this particular transaction, they should also be compelled to account as to the other transactions.

-V-

Another real estate transaction which has been carried on by the trustees during the past year is the deeding of 1.23 acres at Kaipu, Manoa, to the Bishop Trust Company, Limited, for the sum of THREE THOUSAND DOLLARD ($3,000.00). This land was owned in fee by the Estate subject to a lease which expires in 1928. The price paid for this land was in the neighborhood of five cents a square foot. This land is in the heart of the residential district of Manoa Valley and comprises a piece of land which is suitable for residential purposes and my investigation discloses that this piece of land was sold for less than the fair market value, and I have also ascertained that this land was not sold to the Bishop Trust Company, Limited, but was sold to them for a client, and the client is an employee of the Bishop Estate. It is recommended that this land shall be appraised by the court, or that your Master be given authority to take testimony in regard to the matter to ascertain the fair market price of this property and that if this property was sold for less than the fair market value the trustees be surcharged with the balance.

-VI-

In connection with the matters hereinbefore set forth, your Master has inquired as to the amount of work which is performed by the trustees of this Estate for and on behalf of the Estate, and he feels that the trustees, individually and collectively, do not

give so much of their time to the matters pertaining to this Estate that they should be excused for any dereliction in their duties to the Estate

-VII-

It is my recommendation that the trustees of this Estate be compelled to account for the commissions which they have collected by virtue of receiving and paying out taxes and that they file a supplementary report showing the exact amount so received. And it is further recommended that they make a full and true report of all of their real estate transactions of the nature set forth above, and that the Court determine whether or not the transactions were fair and just to the beneficiaries of this Estate.

I have made no finding in regard to the value of the property involved in these transactions for the reason that I do not feel it is my duty as a Master to do so unless I should receive specific authority to take evidence in regard to this matter.

Respectfully submitted,

Master.

FRED PATTERSON
Master

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT

TERRITORY OF HAWAII.

AT CHAMBERS IN EQUITY

In the Matter of the Estate of BERNICE PAUAHI BISHOP, Deceased.	39th Annual Account.

ORDER APPROVING 39th ANNUAL ACCOUNT.

The Trustees under the Will and of the Estate of Bernice Pauahi Bishop, deceased, having filed herein their 39th Annual Account and Report, together with a petition praying that said account and report be examined, approved and allowed; and said account and report having been referred by this court to Fred Patterson as Master for examination and report, and the said Fred Patterson having filed his report thereon wherein he criticizes certain acts, matters and things in connection with the administration of the trust, and recommends that the Trustees be compelled to account for commissions received by them upon taxes collected from their lessees,

NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the said Trustees were and are lawfully entitled to charge and collect the commissions charged in said account upon moneys collected for taxes from their lessees, and that the Master's recommendation with reference to such taxes is not approved;

That the 39th Annual Account and Report of said Trustees is hereby approved and allowed; and that the said

213

Fred Patterson as Master aforesaid be allowed and paid out of the fund of said trust estate compensation for his services in the sum of $350.00;

That the Master's criticisms of certain acts, matters and things in connection with the administration of the trust are hereby referred to Honorable William B. Lymer, Attorney General, and the clerkof this court is hereby directed to forthwith furnish to the Attorney General a copy of the Master's Report, and of this order, to the end that the Attorney General may take such action, if any be needed, as he may deem necessary or proper.

Dated, Honolulu, T. H., July 2nd 1925.

Jas. J. Banks
Judge of the Circuit Court of the First Circuit

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 40th Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1924, to and including June 30, 1925.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 30th day of October, 1925.

Trustees under the Will and of the Estate of Bernice P. Bishop, deceased.

Honolulu, T. H.

Gentlemen:-

I have the honor to submit the following report of the Kamehameha Schools for the year 1924-1925:

GENERAL CHARACTERISTICS OF THE PAST YEAR

The most encouraging feature of the past year has been the professional growth and activity in the staff. The teachers have shown a willingness to cooperate and to do special committee work; this spirit has been caught to a fair and introductory degree by the students, and we are sure to be in line for better educational results in the future. We have made definite efforts to tie our work in with the community life. These efforts have been in the nature of the "Part-Time System"; by sending our nursing students to assist in the Palama clinics; by sending girls out to demonstrate home hygiene among the graduates and parents, and by bringing in friends of the Schools to witness the fine things we are doing. In turn these experiences have improved and made more practical the character of our instruction. Certain changes in the personnel enabled us to stimulate the remainder to better effort, all feeling that we have a staff of higher general calibre and attainment. The addresses made by the Trustees at our Faculty Meetings at the beginning of the school year were instructive and they served to develop a cooperative attitude and to give needed knowledge in respect to the Estate. Thanks to the "Part-Time Plan" there has been the finest growth among our Senior boys that I have ever observed among any group of students in a year's time. This "Plan" is now well received by students and parents on the whole.

There were eighteen graduates of The Kamehameha Schools in June. Owing to the fact that the Part-Time System added a year to the curricula of the Boys' School, only girls graduated in this class. Of these girls, four are going to the University of Hawaii, seven to the Territorial Normal School, one to the Queen's Hospital for training, two to the Children's Hospital in San Francisco for training, and four into Commercial work.

The announcement of the Trustees' plans to proceed with re-building the school plant has had a fine tonic effect throughout the Schools, especially among the faculty, who appreciate the benefits of good equipment. All concerned stand anxious to help in any way possible to make the buildings and equipment as nearly perfectly appointed as possible. A superb plant in which we lay

F 221

out a modern program, will go far toward assisting us to secure the best teachers trained in the profession. Spirit among students and faculty has been very fine and it is improving all along. We plan to incorporate more features of student control during this coming year, for we find conditions warrant and really call for the training and personal development which come from young peoples' assisting and checking each other in conduct.

CURRICULUM AND EDUCATIONAL FEATURES.

Emphasizing correct English throughout the Schools has become a large objective in Kamehamehs. English teachers are to take a leadership among faculty as well as among students. We have asked three shop men, who are studying on the Mainland, to try to present to us a solution of the problem of teaching English in connection with its use; thus, the Mathematics, Science, Home Economics and Shop teachers, the coaches and the dormitory supervisors are expecting to correct mistakes in speech and to teach plain, direct, clear English to the students whom they mingle with outside of English class. This is one important feature in correlating class and vocational shop work. In other ways, such as in preparing for class use Mathematics problems which are taken from local industry, we are endeavoring to correlate theory and practice and to secure mental discipline and culture in connection with actual or everyday life, and not as a thing unnatural. Our visiting industries and homes in connection with the Part-Time Plan, Inter-Island trips, etc., is helping us to construct a curriculum that will train well for later life.

"Parents-Graduates Get-Together Day" A group educational project as well as a scheme for the information of parents as to what their children are doing, was held in May. It was attended by hundreds of parents and graduates. Planning of exhibits and demonstrations was in the hands of students and under faculty advice and supervision. Students exhibited their products, and took as social projects the opportunity of showing just how things were made and done. The whole thing worked excellently to the improvement of the students', faculty's, parents' and graduates' interest in the important things our boys and girls are doing.

Home Economics Training; Senior Practice Cottage: Our new Practice Cottage for Senior girls has proved to be outstandingly the finest type of educational and social experience a girl with proper elementary training can secure. Mere telling about how to keep a home, operate it on a limited budget, furnish it and do the work incidental to the home cannot compare with the excellent training our Senior girls received last year in this Cottage. Nor can studying and reading about child care compare with actually looking after an infant as our girls did this year. The whole Practice Cottage project is the best thing of its kind I have yet heard of in any Secondary School, and we handled it better, and in a manner more nearly like actual home conditions than does any University on the Mainland that I have learned about.

Sewing and Millinery: These subjects have been on a practical and high plane. Many teachers of Home Economics and other

232

qualified critics have told us that the dresses and hats our girls are making are of quality equal to the products of the professional seamstresses and milliners.

Cooking: This training includes lots of practical cooking as well as the teaching of dietetics. Watching our girls work in this department, observing their tests and sampling their cooking establish a pleasing confidence in the training we offer in this home art. Similarly, Laundering and Ironing, Mending, Room Care, etc. are thoroughly taught under the fine supervision of experienced house mothers and matrons. There have been no special extensions of this type of work; rather it has simply held up to a well-established standard.

Nursing has received more attention during the past year than during any year previous. The girls received more advanced instruction and training, and in addition to this, they improved their knowledge and skills by going out among parents, out to Palama Baby Clinics, and in the homes of former K. S. G. girls and there practicing their nursing skill and showing others the correct ideas in baby care and home hygiene.

Accounting, although we teach all Senior students only a very limited amount, and that with the idea of inculcating ideas of the worth of a dollar and of the need for careful accounting (with the exception of those girls who elect a Commercial Course), is proving to be very beneficial and it is a subject in which our students show great interest as a rule. I feel that we must give enough simple accounting and bookkeeping well to acquaint all of our students with business practice. I think we must do more and begin lower in our classes with bookkeeping and accounting, - not so much to turn out clerical employees as to instil business knowledge and procedure into our boys and girls. It will be recalled that Dr. Dean emphasized this point in his graduation address.

Hawaiian Language has had a year's experiment, which was what I asked for it. I am fully convinced of the benefits that accrue from its study. There are strong sentimental reasons why our boys and girls should be able to speak with their "old folks" in the friendly tongue of Hawaii Nei; also, there are practical uses to which a knowledge of the Hawaiian language can be turned, such as Court work, land matters, native church cooperation, etc. On the other hand, I do not believe that Hawaiian language should be studied by any person who more seriously needs English, nor by anyone during time that might well be devoted to improving ability in the language which will be employed habitually when the student leaves school. And with the exception of a very few in our next year's Senior class, I find our students seriously in need of an extra amount of English. I believe, therefore, that we had better wait a while for Hawaiian language, or at any rate offer it to only those who are clearly proficient in English and can spare time from the hours they would otherwise spend studying English. This would make the subject an elective.

In the School for Boys, we have carried on all the former curricular activities and have added Hawaiian language, Printing, Sugar Cane and Pineapple culture, and have incorporated

the Part-Time Plan of education with very good success. We have seven and one-half acres of fine H-109 Sugar Cane, all cared for by the boys with the exception of certain more strenuous operations where assistance has been hired. The same is true of about thirteen acres of Smooth Cayenne Pineapples. On both these crops the boys are keeping careful records. I am confident that Kamehameha will turn out some very useful and valuable men into these two great agricultural fields in due time. Garden Projects and Animal Husbandry Projects (with pigs and chickens) have been carried on by some twenty-five boys during the past year. Printing has taken its place among our Vocational courses as one of the best we have to offer. There is ample interest in the vocations connected with Printing at present. We have never before had such excellent instruction in the Automotive Shop practice as was given last year. We now have an A-1 instructor and mechanic, who has a well-planned course. The same is true of Electricity, Machine Shop Practice and Carpentry, due to two things; chiefly, to a careful outlining of courses and jobs, and also to improved equipment. Forge training has been well handled by a new man, who has also had the responsibility of installing a new course with its new equipment, - Sheet Metal Work. This latter promises to become a very useful vocational training.

The following table shows a very favorable year in Farm Operation. We have made large expenditures out of our Farm Operation Accounts to improve our land, to rotate crops and to improve property. We have also had two instructors instead of one. Expenses now are such as will yield increased incomes later. Even at that, our Operating loss was only $1769.35, which may be regarded as a very inexpensive lot of agricultural training for all we offered our boys.

Farm Operating Expenses

Year	Salaries and Wages	Feed Purchased	Other Misc. Expense	Total Operating Expense	Operating Exp. less Income, or Net Cost
1911-12					3142.23
1912-13					4313.94
1913-14					3727.48
1914-15					2845.27

1924	21.75	18.8	3.7	6.83	2.8

ENROLLMENT

Summer Boarders: For the first time probably in the history of the Schools, we have had no students at the Schools during this summer vacation except those who are at work for the Schools, or at work elsewhere and are paying board. We believe it is very desirable that the students return to their homes, or that they shift for themselves for a small part of the year, so that they will appreciate more what they receive at Kamehameha. It was quite an effort to get all students well taken care of for the summer; on the whole, however, they largely took care of themselves except for members of the Preparatory Department, who required personal placement by the Principal.

225

I submit tables showing the enrollment for the past year as compared with that of two previous years:

	Enrollment in September:			Entered during year:			Left during year:			Enrollment in June:		
	1924-1925	1923-1924	1922-1923	1924-1925	1923-1924	1922-1923	1924-1925	1923-1924	1922-1923	1924-1925	1923-1924	1922-1923
Boys' School	209	184	159	3	6	—	14 9 dismissed June 1st	16	8	189	174	151
Girls' School	120	115	110	1	2	2	1	12	5	120	105	107
Prep. Dep't.	75	68	74	2	6	5	2	1	5	75	73	74
Totals	404	367	343	6	14	7	26	29	18	384	352	332

We have had even more applications to enter our Schools this coming fall than ever before. Considering this in the face of good Junior and Senior High Schools on the other Islands, leads one to believe that the prestige of Kamehameha is in the ascendency.

HEALTH

Students: On the whole, the health of our students for the past year has been very good. It was the best ever recorded in the Girls' School, and it was better than usual, but not so good as during the year immediately preceding in the Boys' School and Preparatory Department. We had no epidemic. We lost one boy - Joseph Awai - during the school year, from intestinal trouble, and another boy - Kenneth Kihoi - during Easter recess, from an automobile accident. Both were excellent young boys. The following tables show the Operations performed during last year and during

three previous years:

Table of Operations

	1924-1925	1923-1924	1922-1923	1921-1922
Appendectomy	1	--	3	7
Tonsilectomy or Adenoidectomy	3	3	9	18
Circumcision	--	--	1	1
Fracture	--	--	1	1
Eye Operation	1	--	--	2
Operation on Foot	--	--	1	--
Mastoid	--	--	--	1
Repair after Cuts or bruises	--	1	--	--
Abscesses	--	--	--	1
Hernia	--	--	--	1
Nasal	--	--	--	1
Total	5	4	15	33

Staff: Health conditions among the staff members have not been extra good. In my opinion, the greatest difficulty our teachers have, comes from too much continued application to the incessant, 24-hour-per-day duties of a boarding school and too little regular exercise and recreation. I shall make definite plans to improve these conditions during the coming year. Some progress was made along this line during the past year, with our new Faculty Health Committee, but much more needs to be done. The only serious cases we had, however, were not caused from the above stated conditions; one man, J. C. Leukhardt had a nervous breakdown before school began and we had to send him back to Pittsburg; one woman, Helen Ahlstrom, almost lost her life in an automobile accident, and in complications resulting therefrom. Both these teachers are now recovering well, but they will not be with the Schools next year.

DENTISTRY

Under a new dentist, Dr. J. C. Wright, our dentist work during the past year has been good. We have had operations preceded by due and scientific diagnosis, so that work done has been properly done. The following table shows costs of medical and dental work for last year and years preceding:

227

	Total paid to Dentist:	Total paid to Doctor:	Re-collected from pupils: Dentist:	Doctor:	Bal. paid by Schools Dentist:	Bal. paid by Schools Doctor:
1917-18	$2071.00	1000.00	634.00	634.00	1437.00	366.00
1918-19	1815.00	1020.00	676.00	676.00	1137.00	344.00
1919-20	2356.50	1020.00	681.00	681.00	1675.50	339.00
1920-21	2998.50	1500.00	687.00	687.00	2311.50	813.00
1921-22	2025.00	1500.00	678.00	678.00	1347.00	822.00
1922-23	2305.70	1500.00	685.00	685.00	1620.70	815.00
1923-24	1164.15	1500.00	739.00	739.00	425.15	761.00
1924-25	1448.00	1500.00	995.00	995.00	453.00	505.00

OPERATING EXPENSES

The following table would be regarded as a favorable showing of our Operating Expenditures for the past year, as compared with previous years. In studying these figures it should be borne in mind (1) that a very large expense of $16660.00 was incurred during the summer of 1923 to repair buildings and roads; (2) that the item "Industrial Operations" for the past year bears a new set of costs for Cane and Pineapples of $6840.55; and (3) that the number of students for the past year has been considerably greater than that of previous years.

	1922-23		1923-24		1924-25	
Maint.of Bldgs.	$11495.	5.2%	$25564.	10.5%	$8247.	3.49%
Upkeep of Grds.	11597.	5.2%	14965.	6.2%	12002.	5.08%
Wtr.Lght.&Sewer.	5744.	2.7%	6206.	2.5%	4683.	1.98%
Indus.Operation	7303.	3.4%	7197.	3.%	10802.	4.57%
Instruction	58721.	27.2%	62689.	26%	71913.	31.03%
Boarding Expense	56921.	26.%	61038.	25.5%	66045.	27.74%
Religious & Soc.	5718.	2.7%	5155.	2.1%	2812.	1.19%
Care of Health	12293.	5.6%	10356.	4.2%	10713.	4.53%
Admin.& General	47413.	22.%	48628.	20.%	49129.	20.39%
	215206.		241803.		236351.	
Income from Tuitions, etc.	20500.		22173.		22631.	
Net Cost	195706.		219630.		213720.	
Number of Students enrolled September	345		367		404	
Net per capita costs	$570.57		$598.44		$529.01	

The gross operating expenses for last year were thus $236351., compared with an approved budget of $242000; the income from tuitions, etc. was

$22631.62 as compared with an estimated income of $26000.00; the net cost was $213720.06 as compared with a budgeted net cost of $216000.00.

ACCOUNTS RECEIVABLE.

Our Accounts Receivable are in good condition with but few exceptions. We have a few very difficult accounts. On the whole, however, we collect month by month up to the end of the fiscal year all but a small percent of our outstanding accounts. Our gross charges during the past year, including accounts outstanding at the beginning of the year, have been $68834.13; our collections have been $61863.76; we have $6970.37 in accounts receivable, of which $2647.50 is the account of the Athletic Association. We would class about $500.00 of the last-named figure as very hard to collect. Of this $500.00, $270.56 is the account of Mr. J. C. Leukhardt.

STAFF

There has been a good cooperative and professional spirit among the members of the staff this year. We have fostered this by calling for much Committee work and by providing considerable professional literature for the teachers' reading and opinions. We have a good set of teachers, on the whole - teachers who are interested in the ultimate success of the individual student as well as in the standing of the Schools as an institution. The new Principal of the Boys' School, Mr. John F. Nelson, has proved to be a very capable and valuable man. We have much yet to do in the way of teaching English in connection with its use. Not yet are we at the place where Shop men, dormitory teachers, field coaches and others outside of the English classes, really teach and correct English expression. We have this keenly in view and shall urge the importance of teaching English in connection with its use more especially than in connection with class-room recitations during the coming year.

The following table shows the number of teachers on the staff, as compared with the number for previous years:

	1924-25	1923-24	1922-23	1921-22
Administration & Clerical	11	11	13	15
Teachers	32	26	27	27
Boarding Departments	12	12	14	10
Health	5	5	5	4
Military Department	3	3	2	1
On Leave of Absence	2	1	3	2
Religious Education	--	1	1	1
Totals	65	59	65	60

PERSONNEL

Two teachers have enjoyed a Sabbatical year's leave of absence during 1924-25; Miss Maude Post, Principal of the Boys' School, Preparatory Department, and Mrs. Susie E. Davis. Miss Post has had an excellent year at Teachers College, Columbia University,

and she has also visited many schools, some of them at my specific request. Mrs. Davis has spent the year in travel and school visiting. During the coming year Miss Katherine Burgner and Mr. Robert Lowrie will take their authorized year's leave for study and travel.

During the past summer the following large number of teachers has been studying on the Mainland: John F. Nelson, at the University of Colorado; C. V. Budd, University of California; Curtis T. Leaf, University of Chicago; George H. Kennedy, University of Southern California; Adolph G. Hottendorf, Mergenthaler Linotype Co., San Francisco; Alfred M. Church, Columbia University; Wm. B. Caldwell, University of Southern California; Erwin L. Miles, University of California, Southern Branch; Earl L. McTaggart, Iowa University.

We have good teachers employed to take the place of the fourteen teachers and matrons who will not be with us another year. All positions are now filled with the exception of an Instructor in Agronomy and Sugar Cane Culture, which position we are having difficulty in filling.

PROPERTY

The decision of the Trustees to replace our old wooden buildings with permanent construction at an early date, is eminently timely. There can be no question as to the need for scrapping several of our present unsanitary, and in some serious respects, unsafe buildings. We have been improving the premises gradually but steadily so that we have appealed to the pride of the students and staff in so far as it has been practicable and economical with our present equipment. Lawns and cultivated areas have been enlarged, and we have continued to plant trees and shrubs where needed. Many old and obstructive trees we have removed.

Waialae Cottage: We have continued to use our rest cottage at Waialae every week-end and holiday during the year. The decision of the Trustees to add to our camping facilities at Waialae will be of great benefit to the Schools.

SOME EDUCATIONAL FEATURES FOR NEXT YEAR

Our school paper "The Cadet", by means of our new Linotype, will be enlarged and made more of an educational feature, and it will serve as a better medium of contact between the Schools and the Graduates.

Exhibits and Demonstrations: will be employed more as opportunities to increase interest of the students in their educational projects. These exhibits also greatly attract the parents, and the explanations and demonstrations benefit the students in their oral expression.

Part-Time Education is a proved success with us, and will be extended below the Twelfth Grade also to include the Low Eleventh and High Eleventh grades. We shall have eighty-two boys in this part-time employment next year. We are not yet to the place where we can install this plan for our girls, although I wish we could do so. I am convinced of the efficacy of this educational plan.

Shop Experience for next year will be as follows, and this promises to be a permanent lay-out:

Dep't.	Grade	Shop Experience
Boys' Preparatory	5	Introductory and inspirational prevocational handwork in wood, concrete, clay and paints.
	6	Elementary Agriculture and Gardening. Small Animal Projects
Junior High School Years	7	Full yr., 10 periods per week, Forge and Sheet Metal Work
	8	1/2 yr. Printing, 10 periods per week — 1/2 yr. Carpentry, 10 periods per week
	9	1/3 yr. Agric., 10 periods per wk. — 1/3 yr. Machine Shop, 10 periods per week — 1/3 yr. Electric Shop, 10 periods per week
Senior High School Years	10	Full year's work at an elected trade, 16 periods per week
	Low 11 / High 11 / 12	(Part-Time Plan, Two Weeks in School, alternating with two weeks in the industries) — During the two weeks in school there will be 4 periods per week spent in Shop Work, coordinating the theory of class with the experience gained in the industrial position.

Modified Dalton and Winnetka Plan: We are introducing in a cautious, experimental way, a modification of the Dalton Plan and the Winnetka Plan of individual instruction. We hope to carry this on during the coming year, for individual instruction together with "socialized" recitation promises to supersede the old memory type of recitation. This individual instruction method permits all students to proceed and advance just as fast as is possible, and without any retardation on account of slow and backward members of the class. We tried out features of the Dalton Plan in our Girls' School English classes and in the History and Shop courses last year. We are convinced of the merits of individual instruction in so far as we have tried it.

Bishop Memorial Church: Although we have had no regular Chaplain this past year, we have had a good year in the activities of the Bishop Memorial Church. Rev. Henry P. Judd has preached regularly the first Sunday of each month, and has had charge of the usual pastoral duties, such as administering the Sacrament, performing baptisms, counselling new members, etc. Other secretaries of the Hawaiian Board and other local pastors have preached for us during the year and the arrangements have been very satisfactory. I wish to give due credit to Dr. French E. Oliver, who spoke many times to our students and who had a large influence in securing new memberships in our church and in leading to definite decisions of students to live a Christian life. We plan to carry on the church work in a similar manner this coming year. Of course the best plan is to have a resident Chaplain who can lead in religious activities and who can also serve the Schools in some other capacity, as, for example, instructor in Oral Expression and leader of extra curricular activities. But I feel that it is unwise to secure such a man unless we are convinced that he is eminently qualified for such work. We are in hopes that before long we shall be able to discover such a man, but until we do, we believe that the system obtaining during the past year is the proper way to handle the religious activities of Bishop Memorial Church.

CONCLUSION

We still hold that The Kamehameha Schools are responsible for turning out a large share of the leaders of the Territory. We are getting better raw material to work with each year, and we are slowly breaking down the old attitude that The Kamehameha Schools are all right for those students only who have not wit enough to go to McKinley High School, St. Louis College or Punahou. We feel that we have a responsibility for character development through disciplinary training and spiritual inspiration. We have the responsibility for these things because we have the opportunity for them. The need of our students is evident; it is our great problem to exercise such tact and leadership that all will have a burning desire for improvement and growth so that the efforts of the staff and the experiences possible with the excellent equipment which Mrs. Bishop's Will provides, may be effectual in really educating these boys and girls.

Respectfully submitted,

Frank E. Midkiff

ACCOUNTANT'S ANNUAL REPORT

1924 -- 1925

The Kamehameha Schools
Honolulu, T. H.
July 23, 1925

Mr. Frank E. Midkiff,
President, The Kamehameha Schools,
Honolulu, T. H.

Dear Sir:

There follows herewith, the general trial balance, June 30, 1925, and tabulated statements covering all expenditures at these Schools during the fiscal year beginning July 1, 1924 and ending June 30, 1925, viz.:

I	General Trial Balance, June 30, 1925
II	Capital Expenditures, 1924-1925
III	Analysis of Capital Expenditures, 1924-1925
IV	Comparative Statements of Operating Expenses 1924-1925, of the Departments of the Schools.
V	Comparative Statements of Operative Expenses 1923-1924 and 1924-1925 of the entire Schools and for each of the three Departments.
VI	Statement of Inventories, June 30, 1925
VII	Students' Ledger Accounts
VIII	Students' Bank Accounts
IX	Sundry Accounts Receivable
X	Pineapple and Cane Experiment

Respectfully submitted,

E. P. Murray,
Accountant.

FORTIETH ANNUAL REPORT

of the

TRUSTEES OF THE BERNICE P. BISHOP ESTATE

Year Ending

JUNE 30, 1925

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ending

JUNE 30, 1925

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their FORTIETH ANNUAL REPORT, covering the period from July 1, 1924, to and including the 30th day of June, 1925.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,578 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. A copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$842,896.05		
Capital	202,537.05	$1,045,433.10	
Balance Forward, July 1/24, ...		36,111.91	$1,081,545.01
DISBURSEMENTS			
Revenue		$ 644,953.49	
Capital		380,013.75	1,024,967.24
BALANCE IN HAND, June 30/25, ...			$ 56,577.77

The normal net Revenue Receipts for the year

aggregated	$450,480.87
Add Federal Income Tax recovered,.....	90,096.39
Interest on sums advanced for Federal Income Taxes, ..	33,099.68
Total Net Revenue, ...	$573,676.94

The above tax refund represents amounts paid out by the Trustees under claims for refund,- namely, on

June 14, 1919,	for year ending June 30, 1918, ...	$ 5,565.96
June 16, 1921,	for year ending June 30, 1917, ...	45,501.94
July 20, 1921,	for year ending June 30, 1918, (add'l).	39,028.49
A Total of		$ 90,096.39

which, for comparative purposes, should be treated as Revenue for the years in which the expenditure occurred.

The interest of $33,099.68 is the aggregate of amounts allowed by the Federal Government, at the rate of 6%, on taxes paid; i. e.,

Mar. 15/20,	$ 6,974.36	from Mar. 15/20 to Sept. 15/23		
Jul. 20/21,	139,395.79	from Jul. 21/21 to Sept. 15/23		
	$146,370.15	year ending June 30/19, ...	$ 19,461.95	
June 14/19,	$ 5,565.96	from Dec. 16/19 to Apr. 30/24		
June 16/21,	45,501.94	from Dec. 23/21 to Apr. 30/24		
Jul. 20/21,	39,028.49	from Jan. 21/22 to Apr. 30/24		
	$ 90,096.39	years ending June 30, 1917 & 1918		13,637.73

The principal of the tax paid as above for the year ended June 30, 1919, amounting to $146,370.15 and which is the last of the advances made in this way aggregating $236,466.54, has not yet been recovered, but its refund is expected during the current calendar year.

The refund of taxes is the result of a decision of the Solicitor of Internal Revenue in November, 1924, that no portion of the Income of the Estate is taxable.

Of the net Revenue Receipts, amounting to $609,788.85 (including the balance of $36,111.91 brought forward from last accounts), 61.62% was used in general maintenance; i. e.,

Kamehameha Schools		35.95%	
General Operating Expenses		25.67%	61.62%
Converted to Capital			29.10%
Balance to New Account			9.28%

Of the net Capital Receipts, amounting to $238,210.98 (including $177,476.70 converted Revenue), 76.27% was invested in a way calculated to produce income; i. e.,

Bond Purchases		46.58%	
Land Purchases		12.27%	
Improvement of Lands:			
Grading,	2.19%		
Roads,	9.73%		
Fencing,	0.70%		
Maunalua Development,	4.80%	17.42%	76.27%
Maps, Equipment, etc.,			4.06%
Kamehameha Schools			19.67%

LEASES AND RENTALS

The gross rental collections for the year aggregated $405,825.58 - an increase of $8,859.04 as compared with last year's returns, while property taxes recovered from tenants and treated as rents aggregated $175,465.59 - an increase of $21,676.64.

Of leases completed during the year, the most important was one (No. 3446) made to the Territorial Hotel Company, Ltd., for a term of fifty years from June 1,1925, at a yearly net rental of $25,000 - the land demised comprising 15.21 acres at Helumoa, Waikiki, including the old Waikiki Seaside Hotel premises on the beach and interior lands formerly leased to other parties. The Lessee is now erecting on the land a large modern hotel building, which will eventually revert to the Lessors. This lease was to have been sold at public auction on May 9, 1925, and was extensively advertised both locally and on the Mainland, but the notice of sale was subsequently withdrawn and the lease completed by private treaty.

When the land of Kealia I, in South Kona, Hawaii, reverted to the Trustees at the death of the life devisee thereof, the late

Queen Liliuokalani, it was encumbered with a 10-year lease (No. 1991) to an Hawaiian hui, expiring December 31, 1924. During 1924 the land was subdivided (see last report) and a moderate schedule of rents adopted for 30-year leases of house lots, and 15-year leases of grazing lots, to be issued direct to the individuals in actual occupation. This has resulted in the issuance, as from January 1, 1925, of 53 leases at an aggregate rental of $1,243.50 as against the original hui rental of $600, and the arrangement is more satisfactory to the individuals concerned.

Leases in force at the close of the year numbered 1,595 - an increase of 79 as compared with last year. Tenancies (so called as distinguished from leases) numbered 71, the same as last year. The classified record for the 12 months ended June 30, 1925, is as follows:

Leases	
New,	230
Surrendered,	38

Reduced rents have been continued or allowed in the case of 91 leases, of which 74 were of lands in Honolulu, 17 in South Kona, Hawaii. Of the former, 66 were Manoa leases, where the tenants are using for agricultural purposes lands now taxed as residence property, the relief granted in rentals being intended to offset the difference until such time as the Trustees are prepared to open up the lots as home sites.

Of the 57 leases surrendered or canceled, 19 were of lands in Honolulu proper, 2 in Ewa, 3 in Heeia, 25 in South Kona, Hawaii, 4 in North Kona, 1 in North Kohala, and 3 in Hilo, Hawaii.

INVESTMENTS

Of personal property investments reported at the close of last year, current collections aggregated $163,150, including $22,000 Mutual Telephone 5% Bonds exchanged on January 16, 1925, for a new 6% issue of January 15, 1925, at 101, entailing a Capital loss of $1,150.

The book value of securities detailed in the appended Statement of Investments as in hand at the close of the year, was $891,125.50 - an increase of $68,437.50 as compared with the total reported at the close of the year preceding. This is accounted for as follows:

Forward from June 30, 1924		$822,688.00	
Deductions			
Mutual Telephone Bonds retired	$ 23,370.00		
McInerny Note 3 retired, ...	11,250.00		
Vitousek Note retired, ...	800.00		
Sheldon Note retired, ...	800.00		
Isenberg Note retired, ...	3,300.00		
Hawaii Bank C/D's retired, ..	125,000.00	164,520.00	$658,168.00
Additions			
Union Mill Bonds, ...		$ 30,075.00	
Waiakea Mill Bonds, ...		25,062.50	
Mutual Telephone Bonds, ...		22,220.00	
Third Liberty Bonds, ...		10,050.00	
Young Building Bonds, ...		35,525.00	
Davies Building Bonds, ...		10,025.00	
Bishop Bank C/D, ...		100,000.00	232,957.50
T o t a l June 30/25, ...			$891,125.50

TRUSTEES AND MEETINGS

The personnel of the Board of Trustees at the close of the year was the same as reported at the close of the year preceding,- i. e., William O. Smith, President; E. Faxon Bishop, Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Fifty-five meetings were held during the year.

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement - the list including 12 sales, 6 purchases, 1 exchange and 8 agreements. All the lands acquired adjoin other Estate holdings and serve, in each case, either to provide additional street frontage or to effect consolidation.

The quitclaim to Kuahine K. Pilipi of 0.45 acre at Waiau, Ewa, for the consideration of $70, was a compromise settlement of an adverse claim of long standing. As the property was not original corpus, it should have been deducted from Land Sales in computing Trustees' Commissions; and this error will be corrected in the next accounts by deducting $1.75 (2½% of $70) from commissions payable in that year.

The sale to the City and County of Honolulu of 600 square feet on the northwest side of Nuuanu Avenue included 50.625 square feet (Grant 4005), that was not part of the original corpus of the Estate, and was accordingly deducted from commissions taken on this sale, at the rate of $2.50 per square foot, or $126.56.

In the way of developing Estate lands, the Trustees have this year expended $41,495.27, distributed as follows:

(1)	Installment for 1924, paid as assessed on Estate lands in the Kakaako Improvement District and not recovered from tenants,	$ 2,295.04
(2)	Subdivision of the Kawananakoa Tract, in Nuuanu, including road construction, sewers, water mains, etc., ...	18,399.05
(3)	Constructing Oahu Avenue Extension from its junction with Manoa Road to the boundary of the Estate land of Kahaumakaawe (see last report) - second and final installment of the Estate's share, ...	2,419.59
	Forward, ...	$23,113.68

	Forward, ...	$23,113.68
(4)	Rolling Oili Road, Waialae Farm-Lot Subdivision, ...	50.00
(5)	Filling in low land at Kapaakea, Waikiki,.	5,219.83
(6)	Fencing lands at a Kakaako (makai of Ala Moana) $465.00 b Waialae (Oili Road) ..... 135.00 c Kapalama (Waipilopilo Road). 233.35	833.35
(7)	Wall construction along the boundary of Kealia I and Kauleoli I and II, South Kona, Hawaii, as established by the survey of Kealia I mentioned in last report, ...	837.20
(8)	Developing the water resources of Maunalua, Oahu, including reports of geological experts, labor and materials used in tunneling - a work continued from last year, ...	9,940.09
(9)	Developing the agricultural resources of Maunalua, Oahu, including reports of F. G. Krauss, Agronomist, and labor and materials used in planting and cultivating experimental plots - a work also continued from last year, ...	1,501.12

The Kawananakoa Tract (Item 2 above) comprised some 167,000 square feet, and was subdivided into ten lots fronting on a 650-foot street constructed by the Trustees, with asphalt-macadam paving, sidewalks, water system and underground light, gas and telephone service, opened to traffic on September 22, 1924. The lots were extensively advertised for sale under the method of private competition, at upset prices ranging from $6,500 to $7,500 per lot - sealed tenders to be opened on November 15, 1924. Only one bid was received, however, and Lot 4 was sold thereunder to Mr. Henry A. Walker for $7,502.50, or $52.50 above the upset.

The work of extending Oahu Avenue (Item 3 above) was completed in July, 1924, and accepted by the City authorities on November 18th following. The total cost involved (including curbing and water system) was $18,898, of which the Estate paid $3,085.59, representing one-third

of the cost of constructing that section of the road that crosses the Salvation Army premises and ends at the boundary of the Bishop Estate land of Kahaumakaawe. The improvement renders Kahaumakaawe readily accessible and puts the Trustees in position to subdivide the tract whenever the time seems ripe.

The filling in of low land at Kapaakea (Item 5 above) began September 12, 1924, and is still in progress - the material used being over-burden of quarry waste deposited as it became available. The lot being filled contains 4.65 acres, comprising a strip 200 feet deep, with a frontage of 466.65 feet on the mauka side of Beretania Street near the King Street junction. When the work is completed, the lot will offer an excellent site for residences.

Items 8 and 9 above refer to the work of developing the potential resources of the land of Maunalua, Oahu,- a work begun last year and still in progress. The agricultural experiments made under the direction of Professor F. G. Krauss have demonstrated that the soil is capable of producing a variety of crops, and that the land can be made very attractive to the small farmer, provided water can be secured in quantity sufficient to meet the needs. With this latter end in view, test shafts and tunnels were sunk in various localities under the advice of Dr. Harold S. Palmer, Consulting Geologist, resulting in the development of approximately one million gallons per day of twenty-four hours, testing less than 75 grains of salt per U. S. gallon and, therefore, usable for purposes of irrigation. To supplement this supply, the Trustees are assured that a sufficient quantity of fresh water can be obtained from their land of Waialae and brought to Maunalua, if a license can be obtained from the public authorities for the necessary pipe-line. In addition, a supply of city water will be available if

the Municipal Government completes the terms of its Right-of-Purchase Lease 3348 of the Koko Head Park area, requiring, among other things, that the City shall, by August 1, 1927, construct and thereafter perpetually maintain an extension of the public water main across Maunalua to "Mouo", and there deliver daily to consumers, at usual rates, not less than 200,000 gallons of potable water at 100-foot pressure head.

The Trustees have prepared, and file herewith, an inventory of the property held by them as of the 30th day of June, 1925, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps, added to the Office collection of maps during the year, are listed as Nos. 1243-1249, inclusive, and comprise a detailed survey of those portions of the lands of Kahaluu, Keauhou I and Keauhou II, in North Kona, Hawaii, which lie between the sea and the main Government Road; a re-survey of portions of Keauhou II lying above said road; and the relocation and permanent marking of the outside boundaries of these lands. The Hawaii survey party was in the field from August 4, 1924, to May 18, 1925, and completed, in addition to the above survey, a further subdivision of the land of Kealia I, in South Kona, providing for a series of grazing lots, for which there appeared to be a demand, and also additional house lots, laid out in rear of those established on the main road under the survey reported last year.

FORESTRY AND FOREST RESERVATIONS

For many years the Trustees have followed the practice of forest protection, making inspections of various sections from time to

time, both personally and by deputy, since they have realized the vital economic importance of such a policy with relation to their agricultural holdings, and at the present time most of their forest areas are fenced and tax-exempt under Section 1326, Revised Laws 1925. For assistance rendered in the carrying out of these policies, the Trustees would like here to express their appreciation of the earnest cooperation and helpful suggestions of the officials in charge of the Territorial Department of Forestry, and the Experimental Division of the Hawaiian Sugar Planters' Association.

None of the Estate's forest areas have ever been turned over to the Governmental authorities in the manner provided for by Section 593, Revised Laws, as the Trustees have felt that they could best meet the needs of preservation and protection by, themselves, retaining control, but in several instances they have tentatively approved of the "paper" lines fixed by the Department of Forestry as affecting Estate forest lands, and in this way have put themselves in position to secure the expert advice of the forestry officials with regard to the lands concerned. At a hearing of the Board of Agriculture and Forestry held January 28, 1925, "paper" lines of the new Kahuku, Honouliuli and Kawailoa Forest Reserves were established - the lines being approved by the Trustees as affecting the Estate land of Kawailoa.

On May 11, 1925, the Department of Forestry also adopted a plan for enlarging the Ewa, Waiahole and Honolulu Watershed Forest Reserve, including portions of the Estate lands of Waiau, North Halawa, Kaonohi and Waiawa, in the Ewa District; Heeia, in the Koolaupoko District; and Waialae, Kalaepohaku, Aihualama, Pukaomaomao, Kaakaukukui and Kapalama in Honolulu.

A revised plan of the Kohala Mountain Forest Reserve, in North Kohala, Hawaii, takes in additional land of the Estate,- namely, that part of Honokane that lies east of the east branch of the Honokane-iki Stream,- this being done to protect the waterhead of the Kohala Ditch and to prevent further deterioration.

The Trustees have signified their approval of the proposed establishment of "paper" lines for the Kona (Hawaii) Forest Reserves as affecting the Estate lands of Kahauloa II, Keei II, Honaunau and Keokea, in South Kona, and Puaa I, Keauhou I, Keauhou II, and Kahaluu, in North Kona; and the Department of Forestry is now working out tentative plans in this connection, to be announced at a later date.

A definite programme has been received from the Territorial Superintendent of Forestry for the reforestation and protection of the Estate land of Kaiwiki, in Hamakua, Hawaii, forming part of the Manowaialee Forest Reserve.

The Molokai Forest Reserve, created by Proclamation of July 11, 1912, includes approximately 1,610 acres of upper Kamalo. On July 18, 1924, this area was withdrawn from lease (No. 1180), and a substantial stock-proof fence is now being erected by the Lessee along the makai line of the Reserve from the boundary of Makolelau to Kamalo Gulch. Under decision of the Fence Commissioners for Molokai, rendered March 27, 1925, the Trustees are required to repair the existing fence between the Kamalo Reserve and Makolelau (the original fence having been erected by the Makolelau owner), while such additional new fencing as may be necessary to continue the old fence along the boundary to the mauka end of Makolelau is to be done at the joint expense of contiguous owners. The time limit in which to comply with these requirements of the Fence Commissioners will expire (as extended) December 1, 1925.

The North Halawa (Ewa) Reserve was forested by seedlings set out by the Experimental Division of the Hawaiian Sugar Planters' Association in 1922. In August, 1924, the Division planted 630 trees to replace seedlings that had died, cleared around the remaining trees, and planted a wind-break of 1,000 casuarina quadrivalvis on three sides of the planted area. The cost ($134) was borne by the Estate.

An inspection (made in June, 1925) of the trees set out by the Experimental Division, H. S. P. A., in the denuded areas of the Punaluu Forest Reserve, in Koolauloa, Oahu, (where, as mentioned in last report, the Trustees have established an arboretum) showed the necessity of cultivating the young trees if satisfactory growth was to be expected and the information obtained from this source of experimental planting that would be of value in carrying out a progressive programme for the future. To meet this need, the Trustees have employed a caretaker to serve not more than two years from July 1, 1925, who will attend to the cultivation of trees now planted, replacement of trees that may die, and planting of new areas.

In September, 1924, about 50 acres of underbrush and a few large trees along the edge of the Lumahai Forest Reserve, in Hanalei, Kauai, were burned through the spreading of a fire started by the Lessee of the lower (grazing) section of the land for the purpose of burning off the staghorn thicket. After an inspection made personally by the Trustees, the tenant was notified to discontinue the practice of burning off staghorn on said leasehold, to erect a stock-proof fence along the line of the Reserve, and to reforest the damaged area within the Reserve. The tenant reports having since completed the fence and planted within the Reserve 1,000 trees of the ficus macrophylla and a like number of the ficus rubiginosa; also, that many young koa and ku-

kui trees have started since the fire, so that in a few years there should be a good tree cover on a section which has heretofore been but sparsely covered.

As a corollary to the previously mentioned work of developing the economical resources of the land of Maunalua, Oahu, the Trustees have set aside, and are holding free from all grazing, the ridge and gulch areas lying west of Kamehame Ridge and above the sections capable of intensive uses, and are here attempting, with the help and advice of forestry experts, to arrest, by reforestation, the erosion taking place on the denuded slopes. Already some 200 pounds of the Haole-koa seed have been broadcasted in favorable places within the reserved area, and approximately 4,000 self-spreading trees have been planted in selected locations on the protected slopes and sheltered valleys of the upper ridges between Hahaione, Kamilo-nui and Kamilo-iki, and in other suitable places - care being taken to choose trees of hardy character, likely to survive the semi-arid conditions obtaining in this region. A recent inspection showed that most of these trees were growing. Since October 1, 1924, a caretaker has been employed for Maunalua, one of whose chief duties is to attend to the cultivation and planting of trees.

LAW

An adverse claim by Beni B. Kaoao to ownership in three lots of land at Punaluu, Koolauloa, Oahu, was settled out of court under compromise agreement whereby the claimant was granted title in 0.62 acre in return for a quitclaim of the remaining 0.225 acre involved (see "Agreements").

The suit, Bishop Estate vs. Aukai et al.(mentioned in last report as having been brought in the First Circuit Court to

quiet title in certain land at Waialae, Oahu,), was discontinued by the Trustees in June, 1925.

The suit, Bishop Estate vs. David Kui Laamea et al., brought in the First Circuit Court to quiet title in certain land at Maunalua, Oahu, resulted in a hung jury, after a trial lasting four weeks.

In the suit, City and County of Honolulu vs. Bishop Estate, to condemn land required for the widening of Bishop Street between King and Hotel, involving some 3,100 square feet of the Bishop Park lot frontage, judgment entered on June 3, 1925, in the First Circuit Court, awarded damages to the Trustees in the agreed sum of $50,000.

In garnishee suit, Bishop Estate vs. Ernest K. Akina, filed in the First Circuit Court for the purpose of collecting delinquent rents and taxes under Lease 2512, Honokane-nui, in North Kohala, Hawaii, amounting to $645.25, judgment was entered on March 24, 1925, in favor of the Trustees for the full amount, with interest and costs. The judgment has since been partially satisfied.

Injunction suits, brought by the United States against tenants or occupants of Bishop Estate lands on account of breach of the National Prohibition Act, and citing the Trustees as owners, have been disposed of during the year as follows:

(1) Re Suit vs. Sue Shoji et al., corner Ala Moana and First Street, Kakaako, the Trustees, given the option of furnishing a $500 bond or having the premises padlocked for one year, chose the latter alternative, feeling that this method offered the better object lesson to other tenants, and would tend to deter them from similar transgressions of the law. The decree, closing the premises for a year, was issued July 19, 1924.

(2) Re Suit vs. A. Murakawa et al., Manoa Valley, filed November 24, 1924, the case was dismissed as to the Trustees in December following, on the showing that the nuisance was not committed on Estate land.

(3) Re Suit vs. Sadao Obata, Kakaako, the case was dismissed in March, 1925, on the showing that the Trustees had previously canceled the lease under summary possession proceedings brought in the District Court, as reported last year.

Land Court petitions contested by the Trustees during the year included:

(1) Petition of Lyman H. Bigelow to register title to land at Waikiki, Honolulu, was contested, on the ground that the premises sought to be registered included a lot of 0.25 acre at Auaukai, belonging to the Estate. This objection was withdrawn, upon the payment by the petitioner of $300 for a quitclaim deed of the parcel, executed March 31, 1925 (see "Sales").

(2) Petition of Mary F. Van Valkenberg et al. to register title to land at Waimea, Koolauloa, Oahu, was contested, on the ground that the petition involved surplus waters in the Kaiwikoele Stream belonging to the Estate land of Kawailoa. The objection was withdrawn, on amendment of the petition in such a way as to eliminate the cause of complaint.

(3) Petition (No. 631) of the Territory of Hawaii to register title to two parcels of land at Queen and South Streets, claimed by the Territory as parts of the Ili of Puunui, was answered by the Trustees on July 14, 1925, contesting the petition and asking that it be dismissed, on the ground that a portion of the land concerned belonged to the Bishop Estate.

In compliance with the provisions of Act 208, Session Laws 1919, as amended by Act 155, Session Laws 1923, the Trustees have filed applications for the settlement of boundaries in the case of some of the unsurveyed lands of the Estate, and will file the rest

as soon as the necessary data can be prepared, having been assured by the Territorial Surveyor-General that, notwithstanding the fact that the time limit set by statute would expire June 30, 1925, the Territory will not make surveys of private lands as long as the owners thereof show reasonable progress in this direction.

The first application, filed April 29, 1924, was for settlement of the boundaries of the land of Maluawai - a lele of the Ili of Waiaula - in Kalihi Valley, Oahu, awarded by name only to Victoria Kamamalu as Apana 37 of L. C. A. 7713, R. P. 4475, and comprising 79 acres. At the hearing (January 30, 1925) the Territory interposed an objection to the granting of the petition, on the ground that Maluawai was unassigned land belonging to the Government. As this objection had the effect of taking the matter out of the jurisdiction of the Boundary Commissioner, some other procedure will now have to be followed to adjudicate the question of title.

Application, filed June 17, 1925, for settlement of the boundaries of Helemano (surveyed as reported last year), being the mauka part of the Ahupuaa of Paalaa, Waialua, Oahu, (Apana 34 of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu) and comprising 3,100 acres, was granted, resulting in the issuance by the Boundary Commissioner on August 25, 1925, of Certificate No. 100, according to the map and description furnished by the Trustees.

Applications, filed June 30, 1925, for settlement of the boundaries of the Ahupuaas of Aki, Paunau and Kelawea, in Lahaina, Maui, (Apanas 25, 26 and 27, respectively, of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu) were heard by the Boundary Commissioner for the Second Judicial Circuit on September 5, 1925. No objections were offered, but certificates have not yet been received.

Application, filed June 30, 1925, for settlement of the boundaries of the Ahupuaa of Waimano, in the District of Ewa, Oahu, (Apana 47 of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu), is still pending before the Commissioner of the First Circuit.

KAMEHAMEHA SCHOOLS

Buildings: Concerning the year's progress, under this head may be mentioned the construction of a Senior Cottage for the Girls' School (intended to accommodate eight pupils and a matron) where students of Home Economics may actually practise, on a family scale and under the direction of a trained Matron, the theories absorbed in the class-room.

A sleeping lanai provided for Dormitory "D" of the School for Boys enables the School now to accommodate 400 boys, as against 368 previously enrolled.

Alterations were made in the Memorial Chapel, resulting in an increased seating capacity - the modifications including a change in the mauka transept to make it correspond with the arrangement of the makai one, and the building of a new choir loft on the Minister's platform.

Now that the Trustees know definitely that the obstacle of the Federal Income Tax is removed, they are anxious to proceed with their reconstruction programme referred to in previous reports. To this end, they have engaged Architects Charles W. Dickey and The Bertram G. Goodhue Associates, of New York, jointly, to prepare preliminary plans and estimates for rebuilding either on the present campus or on the hills back of that site. Which site shall be selected has not yet been determined, and probably no further action will be taken until the Trustees shall have submitted the matter to

the Court and secured a ruling as to (1) whether they have authority under the Will and Codicils of Mrs. Bishop to disuse and dispose of the present School buildings and plant, and to erect and maintain in place thereof new buildings and plant in accordance with the proposed plans; and (2) whether, for the purpose of erecting, furnishing and equipping such new buildings and plant, and defraying the cost thereof, lands devised by the Will and Codicils, and now forming part of the corpus of the Trust Estate, may be sold by the Trustees, and also whether the funds and securities now in hand, being corpus of the Trust Estate, may be used for such purpose.

Equipment: Under this head may be mentioned the purchase this year, in the way of class-room equipment, of the following:

(a) Additional surveying instruments and material for the Twelfth-Grade boys, in order that larger classes may be taken care of and as provision for an increased volume of work to be done by those classes;

(b) Material needed to inaugurate a Sheet-Metal Course at the Boys' School - a branch of instruction offering valuable training in the use of hand tools and correlating well with the first year's Shop Course; a n d

(c) A linowriter for use in the Printing Course at the Boys' School.

Additional furnishings and special equipment were made necessary by the adoption this year, for the first time, of the policy of housing teachers in the Boys' Dormitories, and were also required for the fitting up of Cottage "D", on the Boys' School campus, for use as a Faculty Club.

Items of equipment purchased for utilitarian and labor-saving purposes included two electric dishwashers for use in the Boys' and Girls' Schools, respectively; a Westinghouse electric hammer for rock drilling, the acquisition of which relieves the

Manual students of tedious campus work of relatively low instructional value; and, for the Agricultural Department, a "Best" Tracklayer Tractor, a Fordson Tractor with appliances, a Disc Plow, a Ford Truck with automatic hoist and dumping attachment, and a De Laval Sterilizing Apparatus and Bottle-washing Machine.

Miscellaneous: To the agricultural activities of the Boys' School have this year been added courses in cane and pineapple culture, inaugurated under the advice, and with the co-operation, of Mr. H. P. Agee, Director of the Experimental Division of the Hawaiian Sugar Planters' Association, and Professor F. G. Krauss, Agronomist on the staff of the University of Hawaii, both of these institutions being interested in the experiment.

The Schools opened in September, 1924, with an enrollment of 404 pupils, and closed in June, 1925, with an enrollment of 384, distributed:

	Opening	Closing
Manual Department, B/S, ...	209	189
Preparatory Department, B/S, ...	75	75
Girls' School, ...	120	120

Full scholarships were awarded during the year to 28 pupils, representing a charge of $1,531.

Details concerning the general activities of the Schools during the year ended June 30, 1925, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, Hawaii,

October 30, 1925.

AGREEMENTS

With
THE HAWAIIAN ELECTRIC COMPANY, LIMITED

By which the Trustees grant a perpetual easement for an electric transmission line across Maunalua, Koolaupoko, Honolulu (Apana 30, L. C. A. 7713, R. P. 4475 to V. Kamamalu) from Kuliouou to Koko Head Wireless Station,

Date of Agreement: July 31, 1924,
Consideration : $1.00

AGREEMENTS (Continued)

With
REALTY AUCTION COMPANY, LIMITED
By which the Trustees are granted perpetual easements over parts of Kaohao (Lanikai Beach Tract - Land Court Petition 505, Certificate 3019) at Kailua, Koolaupoko, Oahu; to wit, (1) vehicular right-of-way over Kaelepulu Drive from Kaelepulu Boundary to Mokulua Drive, thence (2) foot right-of-way over Lot "F" to Kaohao Beach,
Date of Agreement: November 24, 1924,
Recorded as Document 6696, Land Court,
Consideration : $1.00 and the aforesaid grant to Charles R. Frazier (see Sales)

CHUN KAM
By which the Trustees quit-claim all interest in a small lot of land situate at Kalihi, Honolulu - part of Apana 7, L. C. A. 7714B, R. P. 7834 to Moses Kekuaiwa,
Date of Deed : January 6, 1925,
Consideration: $1.00

Note: The above land lies within the boundaries of the lot of 1.03 acre described in the deed. It had not been inventoried nor claimed as Bishop Estate, and the quit-claim was issued by request merely to perfect the paper title of the present owner.

MAGGIE HOOPER JOHNSON ET AL
Defining and locating the boundary of lands in South Kona, Hawaii, i. e. between the Bishop Estate land of Kealia 1 (Apana 2, L. C. A. 5368, R. P. 7732 to A. Akahi) and the Hooper Estate land of Kauleoli 1 and 2 (Grant 3051 to Palaualelo),
Date of Agreement: January 31, 1925,
Recorded in : Liber 756, pp 383/385

BERTHA K. ISENBERG
By which the Trustees grant a 20-foot roadway across parts of Waialae-nui and Waialae-iki, Honolulu, from the Isenberg premises at the sea to the Easterly side of the Isenberg premises at Waialae-iki until such time as the proposed extension of Kahala Avenue is completed to the Northeast corner of the Isenberg premises, in exchange for a release of like easement in another location granted by Exchange Deed dated August 31, 1921,
Date of Agreement: June 1, 1925,
Recorded in : Liber 785, pp 188/190

BERTHA K. ISENBERG
By which the Trustees, in consideration of the payment to them of $3,300.00, discharge the Mortgage for that amount dated August 31, 1921, and assume the obligation of the Mortgagor to pay a proportionate part of the cost of extending Kahala Avenue as contemplated by said mortgage to the Northeast corner of the Isenberg premises, $2,300.00 of the principal of the mortgage being Mrs. Isenberg's estimated share of such costs,
Date of Agreement: June 26, 1925,
Recorded in : Liber 782, pp 279/280

AGREEMENTS (Continued)

With
BENI B. KAOAO
By which the Trustees, in return for the quit-claim mentioned below, receive a release of any adverse interest which may have been established in 225/1000 acre at Punaluu, Koolauloa, Oahu - part of Apana 25, L. C. A. 9971, R. P. 7804 to W. P. Leleiohoku,
Date of Deed : June 25, 1925,
Recorded in : Liber 785, pp 148/149,
Consideration: $1.00

BENI B. KAOAO
By which the Trustees, in return for above release, quit-claim all interest in three lots aggregating 62/100 acre at Punaluu, Koolauloa, Oahu - part of Apana 25, L. C. A. 9971, R. P. 7804 to W. P. Leleiohoku,
Date of Deed : June 25, 1925,
Consideration: $1.00

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT

TERRITORY OF HAWAII.

AT CHAMBERS IN EQUITY

In the Matter of the)
) Trustees' 40th Annual Account.
BERNICE P. BISHOP ESTATE)

REPORT OF MASTER.

To the Honorable James J. Banks, Third Judge of the Circuit Court of the First Judicial Circuit:

William Hoopai, the Master appointed by the Honorable James J. Banks, Third Judge of the above entitled Court to examine the 40th Annual Account of the Trustees of the above entitled estate begs leave to report as follows:

That William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased;

That the said account covers the transactions under and in respect of the Trust Estate for the period beginning July 1, 1924 to and including June 30, 1925;

That in addition to the Petition of Trustees for Approval of Annual Account, there are also filed Detailed statement of receipts and expenditures, (Schedules A and B) together with Schedule C; the Annual Report of Trustees; and the Report of President and Accountant of the Kamehameha Schools; all of which the Master has carefully examined;

That the facts set forth in the Petitionex of Trustees for approval of their Annual Account are correct;

That the Master has checked the items set forth in Schedule "A" of the Detailed statement of receipts and expenditures showing all receipts amounting to $1,045,433.10 plus $36,111.91 balance in hand, June 30, 1924, making a total receipt of $1,081,545.01, and

after a careful examination of the same finds all items listed in said Schedule correct and in order;

That the Master has checked the items set forth in Schedule "B" of the Detailed Statement of receipts and expenditures showing all expenditures amounting to $1,024,967.24, and after a careful examination of the same finds all the items listed in said Schedule correct and supported by proper vouchers;

That Schedule "C" of said account shows a summary of all the sums received and expended by the Trustees and is as follows:

Receipts as per Schedule "A" $1,081,545.01

Expenditures as per Schedule "B" 1,024,967.24

which leaves a cash balance in hand, June 30, 1925 of $56,577.77. This Schedule is correct, and the balance referred to above is correct;

That the commission charged by the Trustees is correctly computed, and the Master recommends it be allowed;

That the Master has examined and verified the 40th Annual Report of the Trustees of said estate, which contains a comprehensive statement of the business transacted by the said Trustees during the accounting period. Right here the Master desires to commend the Trustees for their complete and illuminating report. The high degree of elaboration by the said Trustees in said report and in their financial account, has resulted in a work of clarity and exhaustiveness. There are attached to said Report a Statement of Real Estate Transactions during the said period, a list of Personal Property Investments, a list of Miscellaneous Assets, and an Inventory of Properties of said Estate, all of which the Master has examined and verified and is satisfied as to their correctness. There are some changes, however, in the Personal Property Investments and the Inventory of Properties which occured between the closing day of the accounting period and the date the Master made his check which changes are satisfactorily shown by the Trustees in their

books and records;

That the Report of the President of the Kamehameha Schools and the financial statement of the Accountant, which are complete and comprehensive, speak for themselves. It is not my purpose nor do I deem it to be within the scope of the reference to me in this respect, to deal with the administration of these schools in detail, but in the most general and casual manner. I, therefore, deem it sufficient for my present purpose to state that, to all outward appearances the Schools are being efficiently and economically conducted, and that at least to a general extent, the object of the generous author of this Trust, in reference to the education of Hawaiian youths is being conscientiously observed.

Before closing my report I desire to state that nothing could exceed the excellence and orderliness with which the accounts of the Trustees have been presented. I cannot too highly commend the conscientious efforts, neatness and efficiency of the accounting and clerical staff of the Estate, concerning the manner and the method of its presentation of the facts and figures involved in the account, whereby the task of the Master in the examination and checking up of the facts and figures set forth, has been greatly facilitated.

In conclusion the Master having examined the account of the Trustees of the Bernice Bishop Trust Estate for the twelve months ending June 30, 1925; having verified the cash in hands of the Trustees to be $56,577.77 on said date; having verified the income derived from rents, interests ect; having compared expenditures with vouchers filed, and believing all to be in order and correct, the Master recommends the 40th Annual Account of the Trustees of the Estate of Bernice P. Bishop be approved, passed and allowed as filed.

Dated at Honolulu, T. H. this 2nd day of January, 1926.

Respectfully submitted,

415

William Hoapili
Master.

BERNICE P. BISHOP ESTATE

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 41st Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1925 to and including June 30, 1926.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

3

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, Hawaii, this 6th day of December, 1926.

Conclusion

July 26, 1926

To the Trustees of the
Bernice Pauahi Bishop Estate,
Honolulu, T. H.

Gentlemen:-

I have the honor to submit the following report of The Kamehameha Schools for the year 1925-1926:

GENERAL CHARACTERISTICS OF THE PAST YEAR

Certain gradual developments have crystallized during the past year to the extent that they may be said to characterize this period. I have especially in mind: First, - the epochal decision to proceed at once with the construction of a new school plant; Second, - the evident improvement of the general average of students in the Schools due to selection; and, Third, - the earnest attitude and efforts on the part of the teachers to improve their own abilities and teaching method.

During the past year there have been the improvement in the content and method of our teaching; the inauguration of certain new educational opportunities such as farm work at Kahaione; forestry and tree studies; and separate Seventh Grade grouping. The development of the Faculty due to earnest professional study and discussions is of great importance. It is believed by our teachers that the character of our students has been morally and mentally higher during the past year than ever before; this is due to selection. We have carried on the educational program as developed in previous years, have "proved up" on the newer ideas such as Part-Time education and Senior Practice Cottage, and have laid careful plans for new vitalization of our instruction through the use of normal social experiences and "projects".

A class of thirty-four graduated from the Twelfth Grade this June. There were twenty-one boys and thirteen girls. The plans for these graduates are as follows: Twelve of the boys are already employed in firms in which they had their Part-time training; two are working at their elected trade but have gone over to other firms; six are at work or at Camp this summer, preparing for further schooling in the line of their chosen work - five going into professions (one engineering, one the Army, one law, two teaching) and one into Agriculture; one boy lost his life in an accident.

The girls are planning as follows: Seven to go to the

Territorial Normal School to become teachers; two to the University of Hawaii to become Home Economics teachers; one to the Mainland to become a music teacher; and three to become stenographers. Two of these last-named girls have already secured good permanent positions.

The twenty-one boys are the first to graduate with our "Part-time" training. They would have graduated in June 1925 except for this new plan which adds a year to the time required to complete our work, the extra year being spent in alternating periods two weeks long in industry. It is apparent that the combination of time spent in industry and in carefully coordinated school work has been excellent for these boys.

To speak further concerning the three developments mentioned in the first paragraph, I would say that our plant has been inadequate in many respects for years. During the last three years, while a careful study was being made as to the merits of various sites, etc., the Trustees have provided additional facilities for carrying on the work on the present site. Among these facilities may be mentioned the Senior Practice Cottage for Girls, the Nursing and Seventh Grade Cottage for the Girls' School, the small additions to the shops, and during this present summer the Seventh-Eighth grade cottage and the Recreation-Auditorium building in the School for Boys. These temporary constructions have helped us out very well in our problems of conducting a good school. They have enabled us to try out in comparatively inexpensive form several ideas that have proved to be excellent, and which we safely can and by all means should incorporate into our new permanent construction. Among these ideas mention should be made of the provision of social hall---reading rooms in our boys' dormitories, and of a general evening study hall for boys in what was formerly the auditorium of Bishop Hall. These ideas we now know to be sound in boarding school administration, and we shall have a period in which we may try these things out thoroughly and learn practical economies and advantages for incorporation into our new buildings.

Notwithstanding the above cited advantages from which we have profited during the past recent years, our dormitories are in many ways inadequate, unsuitable and obsolete; our classrooms are inconvenient and not well adapted to project work; our Science equipment is very limited and space for it insufficient; and the wooden material of our buildings has become insanitary and deteriorated rather generally. These buildings, though made of redwood and having proved to be of excellent durability, fully have given value received; they have served their purpose and now they should be replaced with better equipment. The Trustees and the teachers have felt this for a long time, and it is very fortunate that the way has been opened for definite action in constructing a new plant at this time when all of us have come to feel poignantly that it is unwise to temporize with the old plant longer. A current of optimism prevails at the Schools, and this is dulled only by the fact that it will probably be a period of five years before we can be well established in our new plant. If it is possible to erect the new buildings in short of five years' time, of course every reasonable effort should be made to do this.

Our student personnel is said to be very good as compared with other students of recent years. It is to be hoped that Kamehameha always will be in a position to select student material very carefully. If the Schools build up a reputation for high standards and it becomes the general opinion that we have a fine class of students, then places in our school will be sought after earnestly; if, on the other hand, we take in those who are incompetent and who are known to be unable to succeed elsewhere, then in a very short time the better class of parents will prefer to send their children elsewhere and we shall have only culls and indigents. Should we get into this latter named unfortunate position, I do not believe the Schools would then be serving the purposes and fulfilling the hopes of their Founder, and I believe we would be failing in our efforts to comply with the provisions of the Will. I believe the Schools must be of great influence in these Islands. I submit as my earnest conviction that it is far more important to have a reasonable and comparatively small number of students and do thorough work in training these to be leaders in the Islands than it is to operate on a large, wholesale basis, making only a surface impression on our students. Now to attempt to turn out leaders that will "leaven the whole lump" without first getting good quality material is hopeless; and to spend considerable sums annually on low-grade students who would do just about as much if given the cheaper public school training and a simpler and more direct occupational preparation than we can give, seems to me uneconomical and indefensible if better student material is available.

Lest the above paragraph may be misinterpreted, I would add that I believe the Kamehameha Schools' special field lies in service of the Hawaiians; but I believe that Kamehameha's service and influence will be limited by anything that causes thoughtful and best type parents to send their children to other schools, leaving the poorer stuff for us.

A thoughtful parent wishes his child to be placed where he will have the most helpful, educative, developing and broad type of social experiences possible. He wants his child to be thoroughly trained in the tools of life's work - in the "three R's", in clear expression, in occupational skills, etc. - and beyond this he knows that his child should share those social contacts and experiences that quicken the mind, enrich knowledge, improve social adjustability and make the child into a high grade, effective member of his community.

Two questions these thoughtful, high type parents for some time have cautiously expressed to me: first, - a doubt as to the wisdom of segregation in a school on a strict racial or on any basis other than the basis of fitness for the offerings of the school; and, second, - a fear concerning their committing their children to a school where they cannot exercise a full freedom of choice in connection with their future vocations, even including the professions, if the child's inclinations, desires, and ability cause him to go in that way.

Actually being in the place of parents for most of the year, and acutely aware of our responsibility to make the most useful and effective citizens possible out of these children, we are forced constantly to consider all phases of the questions of segregation and vocational adjustment. Each student needs individual study and vocational counsel according to his bent, his abilities, his heritage, his early training, etc. The Schools serve the Territory best not by grooving a student into Agriculture or into a certain Trade or into a

Profession because an opening is seen to occur in one of these places, but rather by carefully finding out the qualities of the student and then giving him adequately planned and effective training along the lines of his aptitudes. Any other course will produce a large percentage of discouraged and dissatisfied misfits.

Society, with all the Trade Tests, Intelligence Tests, etc. so far devised, knows no scientific and reliable way of guiding young men into their proper vocations other than experience in various vocations and selection of life work based upon these experiences. Our Part-time Plan of education, preceded by the rotating of the boys through short courses in Printing, Forge and Sheet Metal work, Agriculture, Carpentry, Automotive Work, Electric Work and Machine Shop Work, all the while they are receiving a certain amount of training and insight into business methods, is the best instrument in educational use today for getting young men properly trained and into vocations for which they are naturally qualified. Supplementing this Part-Time plan we have made a careful survey of the occupations of the Territory, and we have this data for a boy to see and size up. We have the number of men employed in the various divisions of each occupation, the wages, the turnover, the factors influencing promotion and growth, etc., and all these facts and findings will be discussed with the boys. The survey was made by Mr. A. M. Church, who found a fine spirit of cooperation among the employers of labor throughout the Islands. It will be available for study soon.

Shall we then urge students who desire to pursue other than Trade and Agricultural vocations not to attend Kamehameha? I am of the opinion that to do so would cost The Kamehameha Schools seriously in prestige. I believe we would soon lose our likelihood of attracting leadership material. I get this very decided reaction from conversations with the best parents, - the ones most solicitous for their children's reaching maximum usefulness. Common acceptance agreex with mental tests in the rough grouping of mental abilities - children with lowest intelligence quotients customarily gravitating into the manual vocations, while those with highest intelligence quotients use their wit to get into the professions where there is a more desirable social as well as economic status as a rule. We find as wide a range of intelligence in our students as is found at Punahou; in other words, it is likely that whereas we have many who will succeed only in manual vocations, we may have some who would be discontented unless placed where they have more scope and opportunity. Thus many will find satisfaction in Trades as journeymen, others will become Trades Foremen and Superintendents, while some will wish to grow into other types of activity which demand more thought and more administration and leadership. If Kamehameha were to close the door of opportunity to proceed except into manual vocations, I feel sure that the best Hawaiian and part-Hawaiian families of today would quickly respond by sending their children of leader quality to schools wherein there is a freedom of vocational choice.

It must not be inferred from the above that many parents are unwilling to have their bright sons enter the Trades; it is not that; it is only that they do not wish their sons kept from a freedom of choice as they mature and develop an ability to choose wisely.

My position is that the great bulk of our graduates should be trained adequately in a Trade and started off in such vocation; on the other hand, I believe there are some students who should be permitted - after a careful study has been made of their cases - to change from a Trade or from Agriculture into some other vocation that may be found eminently suited to these particular students. Our emphasis should be on Trade and Agricultural training that will give our children a safe bed-rock upon which to build their structure; but we also should assist and encourage all students into vocations for which they are best suited. The small number that ought to change from manual vocations should still be welcome in Kamehameha, I believe. They can secure good basic training in Kamehameha for any work, and also they can go on into institutions of higher learning from Kamehameha if they so desire. This affects very materially the quality of student applications we shall receive in the future. With this policy clearly adopted, there will be no tendency to drift from the purposes of the Schools as stated in the Will, but rather all children will be guaranteed opportunities equal to those afforded students in the public high school and other private schools.

The above discussion as to policy is made at length because of the fact that we must have all such matters before us in laying out and planning for the new plant. Another question affecting the building is the relation of the Preparatory Department to the Boys' School.

Shall the Preparatory Department have 75, 100, more or less students? Shall it have a separate entity? Or, now that the school has only Grades V and VI, shall it become more truly a branch of the Boys' School, with less distinct autonomy than now exists?

It must be admitted that the earliest years of a child's life are the most impressionable. The pre-school years are now known to excel all later periods in learning speed; these years control all subsequent years, to a very large extent. The logical school is the home, where children of all ages interact upon each other; the next best school is one of the country school type supplementary to the home, where children of all ages cluster about a fine, mature character, - the teacher. But both these types of school are out of the question. We have a city school and it will be many decades before Kamehameha's task as a home, or boarding school, for our Hawaiian children can ever be laid aside. The best things we do for our children are done through the boarding school program today, and this will be true for many years to come, is my belief. I do not believe that we need a kindergarten. It would seem a mistake to start a separate school for little Hawaiian children, segregating them in the childhood years from all other races. We do not have any waiting list in our present Preparatory Department of 75 students, and with public primary school facilities improving and public kindergartens apparently improving throughout the Islands, I doubt that the size of our Preparatory Department needs to be increased materially. There always will be a few of pre-school age, of kindergarten age, of primary age and of intermediate age who would like to have a good boarding school provided for them. But if the issue is made that of the greatest good to the greatest number, it will be seen that to maintain a Preparatory school for a small number of children of greatly varying ages is very expensive - probably costing more than to care for half again as many older boys. With public schools what they are today, we do not need to have our students "prepared" in a Preparatory Department to enter

the Manual Department. The only justification for the Preparatory Department seems to be that we may care for a few needy orphans and children in indigent circumstances. Our experience is that nowadays the better families are not sending their young children to the Preparatory Department, with very few exceptions. Now if Kamehameha's field of distinct service lies in the realm of vocational training, with also special emphasis upon home school training for Hawaiian boys and girls, would not the provisions of the Will amply be fulfilled in so far as "devoting a portion of each year's income to the support and education of orphans and others in indigent circumstances" is concerned if we should so care for orphans, etc. in Grades VII to XII inclusive? This would simplify matters greatly and reduce costs. It seems a more logical step to me than to eliminate but a portion of the Preparatory Department. Why have a Preparatory Department with only Grades V and VI? Experience seems to vindicate the dropping of the Grades up to V; what real reason have we for keeping on with Grades V and VI at such great expense? So far as I have been able to learn, dropping the grades up to Grade V has not proved to be an error. It may be too early to draw conclusions as to this, however. Our Preparatory Department has rendered a good service in the Territory in years gone by when it has taken in these young boys, orphans and children of indigents. But this is not primarily Kamehameha's responsibility or field. If it were we should be condemned for not taking in girl orphans, etc., as well as boy orphans; girls without parents need more care than do boys under similar circumstances. To provide an institution whose chief reason for existence is to care for orphans is the duty of the Territory or of charity foundations, under our existing order of Society. This does not prevent our caring specially in certain cases for orphans in our schools - indeed the Will provides that we shall do this; but the main service our Preparatory Department has performed and the service which in later years we shall feel really has justified its place and cost, is the thorough, high-class home training the small boys have received at the hands of the devoted women of this Department. "Old Boys" will vouch for this. They will tell of the abiding influence in their lives due to the careful, homelike supervision and parent-like direction they received in the "Prep".

Now our Manual Department should exert this thorough, homelike bringing up on the boys of Grades VII to XII - and especially upon the boys of Grades VII, VIII and IX . It is the more obligatory upon us to provide this thorough training because our students now come to us in Grade VII as little boys; in olden times most Seventh Grade "boys" were physically mature men.

Our new dormitories and scheme of training should provide the right sort of housemasters and housemothers for boys. There should be but little difference between the training we shall furnish our Seventh Grade Manual School boys and the training we now furnish our Sixth Grade Preparatory School boys. Add a few men to the influences about these boys, retain the influences of the Christian, highly responsible women, and we then will have the home life our boys need while in school.

From the schooling and vocational standpoint, seven years is long enough to keep a boy in a boarding school. And if students

are kept for seven years only, instead of keeping many for nine years (Grades V to XII) more students can receive Kamehameha training than is now possible.

The only recommendation I make in regard to the foregoing discussion is that we think the matter through before we erect the new plant. If for sentimental and conservative reasons it is felt best to continue the Preparatory Department as a separate unit as it is at present, well and good. But from a logical standpoint I do not believe a "preparatory" school of Grades V and VI is any more needed than the former Grades I to IV were needed.

It may naturally be asked: "Why raise such a question? Why speak of such changes in a school that is going along well and has gone along well for so many years?" The reason is that we are building a new plant. The Will says "two schools". The pre-adolescents of the Fifth and Sixth Grades just naturally do not go well educationally in large groups with the boys of Grades VII onward, who are in the adolescent and late adolescent periods. There is a real reason for a Junior High School of Grades VII, VIII and IX; the same is true for a Senior High School. But it is not feasible to combine the grade groups of V and VI with the High School groups. Although we call our grade groups a "department" of the Boys' School, in actuality this grade group has been and practically must be a unit unto itself.

The other outstanding development mentioned above is the matter of professional growth of the faculty. The teachers have done some very constructive committee work. Also they have carried on special studies and group discussions as to teaching method, use of the laws of learning, and curriculum construction. The Trustees' arrangements with teachers as to retirement allowances, salary schedules, and summer and sabbatical year's leave for study, are well calculated to secure good teaching material, to hold teachers, and to encourage the teachers to continue professional growth. When a teacher loses his eager attitude toward learning, his usefulness as a leader of youth ceases.

ENROLLMENT

Our enrollment during the past year has been the largest in the history of the Schools. Our waiting lists in the Boys' School and the Girls' School continue to be large, totalling over a hundred. Our Seventh and Eighth grades are comfortably filled, especially the Eighth. The great bulk of our applications is for entrance into Grade Nine. This is due to students wishing to remain in their homes until after they have finished the common school through the first eight Grades. As the value of our Seventh and Eighth Grade work becomes better appreciated, we shall have more applications for those grades than is the tendency at present. The enrollment figures present the following comparison: (see next page)

	Enrollment in September:			Entered during year:			Left during year:			Enrollment in June:

CURRICULUM - SPECIAL SUBJECTS

School for Boys

Applied Arts in Preparatory Department: The Shop work under Miss Nevada Moore and the gardening under Mr. Adolph G. Hottendorf have been well taken care of this past year. This is more especially true of shop work, Miss Moore being a true teacher and applying the "Project Method", having the boys participate in making many things which they actually see the use for. Mr. Hottendorf's strenuous duties in the Print Shop have caused us to supply Senior student assistants to work under Mr. Hottendorf's guidance in gardening, daily work, and Physical Education. This was not up to the standard set by Mr. Hottendorf when he gave full time to the Preparatory Department work. The addition of a Physical Director in the person of William Wise will be a great improvement in this important field of small boy activity next year.

Forge and Sheet Metal Work:- We offered a full year's work in the Forge and Sheet Metal shop to the boys of the Seventh Grade last year. This work proved to be a little too heavy and too drawn out for the small boys of Grade Seven. Next year we are planning to have the Seventh Grade boys take a full year's training in the Print Shop, giving a third of a year in the Eighth Grade to the introductory course in Forge and Sheet Metal work. Since the next year's Eighth Grade boys have had Forge work, and since none of our boys nowadays are electing forge work as a vocation, we have no need during the coming year for a regular Forge and Sheet Metal instructor. For special work in this shop we are planning to secure Mr. Charles Crozier, a former instructor in the Forge Shop.

Pattern Making and Casting: We are planning to do a little pattern making in our Woodworking Shop this coming year. The need for this work has become very apparent. Practically all large machine shops in the Islands do their own casting. Our Part-Time work has

shown us the need for teaching our boys to make patterns and rough castings. This work will tie in well with mechanical drawing and Machine Shop practice. The equipment needed for this will not be extensive and is contemplated in the authorized sum for Capital Expenditures in the Shops.

Printing: The work in Printing has developed into a great educational and social asset for the Schools. Printing is going to offer good occupations for several of our boys each year; also the "Cadet" and "Ka Moi" have proved to be excellent English "projects" for our students. We have many printing jobs and these constitute almost ideal shop experiences, furnishing training in skill, in English and in record keeping.

Woodworking: Carpentry students under Mr. C. G. Banning last summer built a stone house, two bath houses and a laborer's cottage on our Waialae lot. In addition to this they have done a large amount of repair and alteration in our school buildings, have made furniture, and each boy has made himself a good tool box. After an unfortunate experience with a new Carpentry instructor, we have succeeded in getting a first-class man in Mr. Earle L. Russell. This instructor is directing several carpentry boys this summer in alteration and repair work and in building the Seventh-Eighth Grade building.

Agriculture:

(1.) Gardening - Several garden and experimental plots have served in our introductory Agriculture and Agronomy during the past year. The gardens were not much of a financial success, but they did supply a considerable quantity of fresh vegetables for our Dining Halls. This year we plan to do more with small experimental plots, and to let individual agricultural students operate pieces of the garden on a 50-50 basis with the Schools, as "projects" in record-keeping, business and Agriculture.

(2) Cane- After various set-backs and trials we have discovered how to grow a good crop of cane on our lower farm. The work our boys have done in this connection has been well worth while from the standpoint of agriculture, of removing prejudice against the Sugar industry, and of school pride developed through a successful venture into a rather hard field. Our "Cane Harvest" was a very successful "project" in which practically all the members of the School for Boys participated.

Cane is the best crop we know of for our lower farm, though we require over a third of this farm for alfalfa. It was a big and instructive job to get a good stand of cane on this farm, but now it is in, we expect to make some money on it. Our expenses to date have been $7662.39 against the 7½ Acres of cane. We have harvested just about 5 acres and have received $3169.09 for this portion of the plant crop. At the beginning of this school term we shall harvest the other 2½ acres. We expect to pay off all expenses on the harvest of plant crop and first ratoon. Considering the nature of our land and the fact that the price of sugar is low and we have produced it with expensive boy labor, this cane crop record is a success.

(3) Pines - We have taken our Agricultural students through a thorough course of pineapple culture. This has been valuable knowledge for the boys. However, our hill site has proved to be a poor place to grow pineapples, - especially in dry seasons. The soil is excellent but the drought was too severe for this plant. In addition

to a knowledge of pineapple culture the boys have learned the important fact that one must make sure of his locality before he attempts to go into the business of growing pineapples. I believe that the Schools' expensive lesson in pineapples will save much grief to Agriculture course graduates of our Schools in the future.

After securing a marvelous growth of plants up to the fruit setting period, our pines withered and produced a small crop. Two fields which we took over from the A. H. P. C. we tried to restore to pine growing condition but found that the soil losses from clean farming had been far too great for a term of three years fallowing; we finally covered these fields with panicum and let them lie. The sole value we got from this operation was in plowing, cover crop growing, etc., and in seeing the mistake of clean farming on slopes. We are reducing our pineapple acreage to small experimental and practice plots on account of the expense in growing this crop.

Our total expense on account of our pineapple fields during the past three years has been $8630.82. Our income has been only $1461.86. The 1926 harvest is not included in the above.

(4) Animal Husbandry - With the new piggery and hennery our work in Animal Husbandry has shown a very gratifying improvement. We have taught much more of the care and raising of animals the past year than has been offered heretofore at Kamehameha, in so far as one may judge from filed written reports of this department. Project work with pigs and chickens has been similar to what it would be if the boys were out in these businesses for themselves. We have increased the number of our animals. Pigs are affording the farm its chief profit. Chickens are as yet variable in returns, due to loss of chicks. We have found out much that a successful chicken farmer must know, but we have lots yet to learn and I know of no way in which to learn these things that is comparable to going into the game in a serious, studious fashion, keeping records scientifically and comparing experiences with other chicken growers.

Farm and Garden Operating Expenses

(cents omitted)

Year	Salaries and Wages	Feed Purchased	Other Misc. Expense	Total Operating Expense	Total Income	Operating Expense less Income, or Net Cost
1911-12						3142.
1912-13						4313.

Performance of Dairy Herd

Year	No. of Cows	Daily Average per cow (in lbs.) milk	Herd Aver. % Butterfat	Avg. Amt. of grain fed per cow	Avg. Cost of grain mixture per cwt.
1914	17.3	15.8	3.10	9.5	$1.47
1915	16.7	19.4	3.05	8.2	1.38
1916	18.3	21.9	3.20	11.0	1.55
1917	20.1	22.1	3.35	9.2	2.25
1918	19.6	22.2	3.30	9.3	2.94
1919	19.7	23.6	3.39	11.5	3.07
1920	22.0	24.3	3.33	12,0	3.31
1921	24.5	20.8	3.21	11.5	2.80
1922	27.2	16.9	3.39	--	--
1923	19.7	18.1	3.25	9.6	2.67
1924	21.7	18.8	3.70	6.83	2.8
1925	20.1	16.6	3.20	5.50	2.52

The low annual production as shown in the column above marked "Daily average per cow (in lbs. milk") is due to the fact that our herd is small and through a lack of judgment several of our cows became dry and have freshened at the beginning of our summer vacation. Production at present is much higher than the above average. Our butter fat percentage is low. The three new carefully selected heifers we are adding to our herd in September will doubtless materially improve our records in every way.

We are selling our young pigs to the Hahaione Farm instead of to outsiders now. We need 100 head of hogs at Hahaione, whereas we have thirty at present. We do not wish to buy from other producers whose herds may have infections our hogs are free from.

(5) Forestry - Our decision to cooperate so far as may be feasible from an educational standpoint with the Forestry work of the Bernice P. Bishop Estate, has opened a series of experiences to our students that will be decidedly valuable to them as citizens, - being especially applicable to students who are going into Agriculture- and that may lead some of our graduates into useful avenues of employment. Already several boys have shown an interest in the work. We have a simple but well laid out nursery where we are caring for large numbers of trees for the various elevations of the forest above Kapalama, the orchards in the valley above the Schools, and for the planting of the areas above School Street.

(6) Hahaione Farm: Our School Farm at Hahaione is one of the most interesting projects we have in connection with the wide range of useful economic experiences in which Kamehameha students may participate. At present the farm is a place where we can give the boys a full training in applied general farming on a small scale; in the future it is not at all unlikely that Hahaione will be needed as the real center of our Agricultural Department. Factors entering into this are possible other demands for our lower farm, and possible decisions on the part of the Board of Health concerning the location of dairies and piggeries within the thickly populated areas of the city limits. We are doing quite well with our agricultural projects in the city now, but, of course, with water available, much less expensive and more truly typical agricultural work can be carried on at Kokohead than can be done on the expensive lands of the city, where also trespass is a serious feature.

The possibilities of general education and character development at Hahaione are so great that we have come to the realization that we need a man who is truly interested in boys, - a teacher- out there. Hahaione is going to be a feature of which we shall be very proud, if we have the right man and woman to take hold of the job. The chief desire of our work at Hahaione, just as it is in all other phases of Kamehameha life, is to turn out "good and industrious men"; the second desire is like unto the first - to turn out good men who can operate a farm at a profit. The economic and social balance in Hawaii will not permit an indefinite movement of people from rural to Honolulu dwelling. Even now there is a strong desire on the part of many to get back to the land. Truly we wish that a system might be devised that would be economically and socially satisfactory, for attracting our people to homes on sugar and pineapple plantations. This will come inevitably before long, for with the gradual loss of the old type Japanese, and with comparatively inefficient and rapid-spending Filipinos who have but one member of the family as a wage earner, cheap labor may soon prove to be incapable in competition with better trained young men with better agricultural methods. At any rate, homesteading is appealing to many Hawaiians, and the chances of success for such enterprises are greatly improved by proper training. Though we have had much to learn, we believe we are getting Hahaione into a typical, well-organized, self-contained pig farm, which will pay good dividends in cash if the price of pork continues firm. Of course our real reason for the Hahaione Farm is the development of our boys.

In Mr. Moe and Mr. Gantt I believe we have two men who have the knowledge, experience and enthusiastic interest to develop our Agricultural work into the practical usefulness required by all boys who expect to choose their vocations in this field where men are so greatly needed in Hawaii.

It seems logical to me that The Kamehameha Schools, with such a large landed endowment, should make every reasonable effort that may come within the sphere of education toward solving the various agricultural problems of Hawaii.

Electric Shop Practice: With the exception of motor work and electric machine installation, our plant affords opportunity for about all the types of jobs a journeyman electrician will be called upon to do in the Islands. This is as it should be, and we are fortunate in having a first-class man in charge of this work. Mr. C. V. Budd has always been a fine man and instructor. During this coming year, while he is acting as Coordinator in place of Mr. C. G. Banning we are going to have considerable difficulty in keeping the electric work up to its present high standards.

Wages in the Islands for electricians are not high. There are more would-be electricians than are needed as a rule. Four of our electric shop graduates in the past two years have found employment in their trade on the Plantations.

Machine Shop Practice is taught quite thoroughly. As has been the case in all shops, the Machine Shop courses have greatly benefitted by the contacts we have established on account of the Part-Time plan.

In Auto Mechanics I cannot see many very attractive openings for our boys in Honolulu. Our courses, supported by Part-Time training, are excellent; but the field is far overcrowded at present, considering the rewards to be gained by making good. A knowledge of auto mechanics is desirable for practically all our boys, but preparation for a vocation in this line should be carefully thought through. It is likely that some of the positions the boys are now working toward will prove satisfactory; these are in connection with large Diesel plants, tractor mechanics, etc.

Mechanical and Elementary Architectural Drawing are very useful courses required of all boys. By tying this work up with pattern-making and building construction, we shall definitely increase the interest in and profit from drawing. This work will all be under Mr. Robert Lowrie during the coming year.

Plan of Shop Experience: The only change planned in our shop experiences and training for the coming year consists in substituting Printing for Forge Work in the Seventh Grade, and in adding a short course in Automotive Work in the Ninth Grade. The layout is as follows:

7th Grade:	Printing - full year	12	periods	per	week
8th Grade	(Agriculture- 1/3 year	16	"	"	"
	(Woodworking- 1/3 "	16	"	"	"
	(Forge and Sheet Metal - 1/3 "	16	"	"	"

9th Grade	(Machine Shop -	1/3 year	16 periods per week	
	(Electric Shop-	1/3 "	" " " "	
	(Automotive	1/3 "	" " " "	
10th Grade	Elected Trade	Full year	16 periods per week	
Low 11th "	Elected Trade	) Two weeks out of each four in Industry;		
High " "	Elected Trade	) Two weeks in School on coordinated		
12th "	Elected Trade	)Shop work; 8 periods per week for the full three years.		

The above gives what seems to be a very thorough preparation for a chosen vocation.

We are planning to include practically all the Daily Work as carefully supervised Shop experiences this year. We have such a variety of work and it will be much better to put it on an educational plane in so far as is possible, thus relieving drudgery with instruction and tending to make work seem more an incorporated and natural part of that type of life which the Schools seek to exalt.

Part-Time Plan

A second year's experience finds many more friends for, and much more confidence in, the Part-Time Plan of education than we had a year ago. The idea is more in favor with the students, and also with the parents. It is also very well thought of by the foremen concerned with our boys, as well as by the managers of the firms in which the boys work.

No less has the Plan improved our instruction than it has improved the boys participating. We have had to meet the Industries' requirements. We are doing well in the Trades. Also we are turning out good Animal Husbandrymen, special Agriculturalists for Sugar, and general farmers or homesteaders. We are not doing anything worth mentioning in helping solve the Territory's great problem: How to get our Cane and Pineapples grown by our own citizens and expensively reared young men. Educators and Planters alike are seriously concerned over this last problem; but the conservative procedure seems to be not to do anything that will disturb production as it is being successfully carried on at present, even though we fear this may be short-sighted and liable simply to pile up deferred costs of production in the shape of social problems and a greater percentage of non-producers in years to come. Our thorough vocational work has resulted in the Labor Bureau at Pearl Harbor, placing our graduates eligible to examination as Second Class Machinists. This lops off two years as required of ordinary Naval Employe Apprentices, and it is a distinct compliment to the class of work we are doing.

Military Training has been carried on beneficially and with few difficulties during the past year. The fact that Captain J. R. Urquhart is Physical Director as well as Commandant of Cadets has made his leadership very effective. There is no one who makes a greater impression on the student body than the man who can successfully lead them in Athletics. During this year we have tried out successfully the idea of having two complete sets of officers, one set from each Part-Time group. The Twelfth Graders during the year past were permitted to hold commissions on the "reserve" list, but this has not proved good; the next year's Seniors will all be active officers.

All Seniors have had a course in Elementary Accounting under Mr. E. P. Murray. This type of study is a serious need of all our students. We should do more of it in years to come, so that every one will have to practice careful accounting in many projects all through his school career.

We have made some improvement in Music for our boys during the past year. Our Band is in better condition than ever before, and is on a good basis for development; some of the boys received training in the orchestra; Glee Club, Chorus, Choir and sight-singing classes complete a sufficiently broad musical offering for any school, and we are making some headway in raising musical appreciation.

School for Girls:

General Homekeeping is always stressed at the School for Girls. The results speak for themselves; our parents state that their girls return home and take an inspiring and industrious attitude toward improving their home conditions and living. Most of the training is incidental to keeping up the living conditions about the School; this training is all under careful Housemother supervision and also it ties in with the class work in cooking, cleaning, nursing and sewing.

Cooking during the past year tended a bit too much to the theoretical and Mainland type of Home Economics instruction. The best way to teach cooking is to cook. We are equipped so that all girls can cook and can discuss their cooking and all principles connected therewith as they are revealed in practice. Our work shall be more along this line during the coming year.

Nursing is one of our strong features of training. The girls have had better work during the past year due to having a properly equipped classroom for nursing studies. Also, Miss Ora Saunders has encouraged the girls to practice their knowledge among their relatives and friends in the city; this has been good for the girls as well as for their homes.

Our training in Sewing and Millinery under Miss Emma Noeckel is first-class. The girls make their own clothes and hats, and the "creations" of our upper grade girls are equal to products of professional shops. There is no reason why our girls could not use this training vocationally.

The Senior Practice Cottage has had a second year of great success. We made no mistake in building this cottage. We have had good matrons, but unfortunately both have remained in the work but a year each. We hope that our next Matron will stay for a much longer period. This Practice Cottage is exactly what we need to round out and clinch the instruction in Home Arts.

Our Commercial Training is good in so far as it goes. It is impossible to turn out first-rate commercial employees unless these have had a good grounding in English in their early years. Some of our girls have had this, but the most of them have a handicap here that is very hard to overcome. Also, the most of our girls are by nature poetical and visionary, and lack that businesslike way of looking at work and transactions that characterize the child who comes from a family of business trained people. However, there are certain

types of commercial work our graduates can do very well, and general statements about a group of people who show a very wide variation of temperament and inclinations are apt to be seriously misleading and useless.

In Music we have offered orchestra instruction, Glee Club Choir, Chorus and class sight-singing instruction to all girls who have time for it. Our orchestra in its first year made a very creditable showing. The musical clubs were well up to previous standards.

What we need is a well laid plan of study and hearing of better class music so as gradually to improve the appreciation and tastes of our young people. We have hopes that considerable will be done in this line during the coming year, for we have a vocal music teacher coming who should be a fine leader toward good music.

Art studies are kept practical for the most part, it being the aim to teach appreciation of beauty and to develop taste in design, color and proportion. Much thought is given to home decoration. So far very little has been done vocationally with art or any application of it in our School for Girls.

Physical Education is a very important phase of school life. It ties in with hygiene, play, physical development, dancing, and group control. During the past two years an evident gain in buoyance of spirit and in vitality has been observed among our girls. Their daily program is serious indeed, crowded full with responsibility developing exercises; the physical education program balances this well. A series of qualifications and awards running through the School from Grade VII to Grade XII has been devised by Miss Jeannette Gause. Interest is increased by this plan.

CURRICULUM: "Constants" or Academic Subjects

The academic "constants" in The Kamehameha Schools are English, Mathematics, Science, Social Sciences, and recently, the Hawaiian Language.

English, in its correct and facile use, has been one of our hardest objectives to attain. "Fortunate is he who imbibes the German Language with his mother's milk" said Schiller. This is equally true of correct English. It is very, very hard to secure good English results from a child who did not speak reasonably good English in his early years pre-school. We are devoting more and more thought to this great problem and we feel we are making some headway. It may be, however, simply that our younger students are coming from homes where better English has been spoken. Our aim is to have English taught in all classes, dormitories, the field, the shops, and wherever it is used in normal situations, as well as in the English classroom.

We try to keep our Mathematics thorough and of practical application. This is an excellent study if approached so as to increase a boy's confidence in his mental ability and his reliance upon mathematical relations and formulae as convenient tools. We constantly increase the amount of mathematical study drawn from and related to Hawaii's industries.

Our boys and girls seriously need lots of Science. They need to know natural laws and to acquire a scientific attitude. Whereas it is probably true that none of us is without some superstitions, and no one is scientific beyond a certain point in all things, yet we find our Kamehameha children very lacking in true understanding of phenomena, and very much inclined to explain things on the basis of superstitions. We emphasize the laws of the relationships of matter and force, of cause and effect, of component factors - in our teaching. We are improving our courses in Science this year. Boys receive General Science, Chemistry, Biology and Elementary Physics, as well as constant lessons in the application of these branches in Agriculture, Athletic Training, Shop work, etc. Girls are taught General Science, Hygiene, and Biology. Considerable chemistry is taught incidental to Nursing, Cooking and Hygiene. The same is true of Biology - its principles are noted in many subjects of study.

The Social Sciences - History, Civics and Geography - are offered throughout the entire course of study. The aim is to help the student to appreciate the struggle the race has made to achieve present civilization, and to learn to understand and apply the rules of good citizenship gladly while in school.

In the discussions of History a splendid tendency is developing frankly to discuss with a good teacher matters that we know the students discuss frequently among themselves and with outsiders; such questions as race relationships, sex relationships, and many personal moral problems are dealt with helpfully by Mr. J. W. Garrett and Miss Katherine Burgner in the School for Boys and School for Girls respectively.

The Hawaiian Language is to be taught during the coming year, after one year's previous trial. It is hoped that this subject will be presented in such a way as to increase a proper pride in race, a better appreciation of English, and a more helpful attitude toward Hawaiian churches and people in these Islands. We view the teaching of this subject with hope, yet with a little apprehension; our belief is that it is necessary to have the right person as instructor in this subject, and we feel that Mr. John Wise, who is also to be the teacher of Hawaiian Language at the University of Hawaii, will be very satisfactory and constructive;

EXTRA CURRICULAR ACTIVITIES

Not until recent years has a scientific study been made of the psychological laws of learning. Education is going to be many fold accelerated due to the knowledge of and application of these laws in the schools. The clubs, student council, girl scouts, boy scouts, athletic teams, etc. are all effective because they fortunately are based on the great law of learning of which Interest is the chief ingredient. We have a full complement of these clubs, each student being in at least two, and no one being permitted to take part in such activities beyond the limits of his time and capacity to carry the work.

Our Extra Curricular Activities include:

For Boys: Athletic teams (interscholastic, interdormitory and intercompany) Boy Scouts, Hi-Y Club, Radio Club, Pauahi Triangle

Club, Kodak Club, Science Club, "Aggie" Club, Hiking Club, Sir Galahad Club, Student Council, Dramatic Club, Glee Club, Band, Orchestra, Chorus, Hobby Club, Travel Club.

For Girls: Girls Scouts, Student Council, Lanakila Club, Better English Club, Glee Club, Orchestra, Chorus.

RELIGIOUS AND MORAL TRAINING

We have tried to treat religion as a requisite element in a normal life. Most of our ministers during the past year have spoken of it as such. We have tried to cause the students and faculty to realize that religious and moral attributes grow just as other mental capacities and as physical characteristics grow - by exercise. We have had a good year in Bishop Memorial Church. There were eighteen additions to the Church Membership, four on confession of faith, the remainder coming as associate members from other churches. We have enjoyed hearing various local preachers and Christian men at our Sunday morning services. Rev. N. C. Schenck has been Acting Pastor. To his efforts most of the constructive work of the year has been due.

We have conducted Christian Endeavor Services, Y.M.C.A. and Boy Scout Group work each week. Members of our Faculty have led in this. Also we have talks on various phases of personal conduct, from time to time. Probably more has been accomplished by quiet talks in an informal way with individuals, or by mere example, than in any other way to improve our students' moral attitudes. Fortunately our teachers have been sound of conduct and speech during the past year. Our older students are growing in leadership and responsibility. We try to develop their reliability in a gradual way by increasing responsibility and freedom of action up to the time they graduate from the Schools.

HEALTH

We had a serious run of influenza during the past year. Because of excellent care there were no deaths, and the disease was kept in reasonable bounds. Otherwise the health of students and faculty has been very good. We lost one boy, Walter Ahulii, in an automobile accident during the Easter Recess.

The following operations were performed, and a comparison with operations of previous years is shown:

Table of Operations

	1925-1926	1924-1925	1923-1924	1922-1923
Appendectomy	5	1	--	3
Tonsilectomy or Adenoidectomy	16	3	3	9
Circumcision	--	--	--	1
Fracture	3	--	--	1
Eye Operation	--	1	--	--
Operation on Foot	--	--	--	1

1925-26	1203.50	1500.00	1052.50	1052.50	151.00	447.50

BOARDING DEPARTMENT

Owing to the increase in the number of students and to the advance in prices of poi, meat and other commodities, our boarding costs were materially higher this year than last. Also we served a somewhat better menu, with more milk, butter and vegetables included in it. On the whole our Matrons have been very efficient, even if there were three new ones on the job at the Girls' School.

OPERATING EXPENSES

Operating within the authorized budget during the past year, we offered several valuable new experiences and types of training not previously given. Among these were: Hahaione Farm work, Sheet Metal work, enlarged weekly newspaper, pasture development above School Street, nursery and forestry work, and mental and achievement testing and classifications.

The following table gives comparative expenses for several years. Our per capita expense will tend to increase a little from now on until we increase our enrollment.

	1922-23	1923-24	1924-25	1925-26
Maint.of Bldgs.	$11495.	$25564.	$8247.	$10578.
Upkeep of Grds.	11597.	14965.	12002.	14191.
Wtr.Lt.&Sewerage	5744.	6206.	4683.	5763.
Indus.Operation	7303.	7197.	10802.	10943.
Instruction	58721.	62689.	71915.	80420.
Boarding Expense	55921.	61038.	66045.	69330.
Religious & Soc.	5718.	5155.	2812.	2977.
Care of Health	12293.	10356.	10713.	12337.

	216205.	241803.	236351.	257638.
Income from Tuitions,etc.	20500.	22173.	22631.	23783.
Net Cost...	195705.	219630.	213720.	233855.
Average enrollment for the year	337	359	394	412
Average net Per Capita Costs	$580.73	$611.78	$542.43	$567.60

ACCOUNTS RECEIVABLE

We close our books this year, as last, with about $500.00 worth of accounts that will be hard to collect. Our gross sales, including accounts receivable at the beginning of the year, have been $79039.06; our Collections on these accounts have been $72762.72; we have $6276.34 in accounts receivable. We expect to collect practically all of this, as we have in the past. We have written off but a small percentage of accounts of recent years, notwithstanding the fact that our patrons are neither wealthy nor well trained in business matters.

A comparison with last year shows:

	1924-1925	1925-1926
Charges.....	$68834.13	$79039.06
Collections.....	61863.76	72762.72
Outstanding Accounts...	6970.37	6276.34

30

FACULTY

The excellent professional spirit among the teachers has been commented on in an earlier paragraph, There were very few poor cooperators in our group. As usual, we hope for none such next year, owing to some of the changes in our staff. We have lost a few very excellent teachers but on the whole we still have our high grade teachers. Our line-up for 1926-1927 appears to be better than ever before as regards teachers.

The following table gives data regarding the staff:

	1925-26	1924-25	1923-24	1922-23
Administration & Clerical	10	11	11	13
Teachers	32	31	26	27
Boarding Departments	16	13	12	14
Health	5	5	5	5
Military Department	3	3	3	2
On Leave of Absence	2	2	1	3
Religious Education	--	--	1	1
Psychologist	1	--	--	--
	69	65	59	65

It will be noted that there is an increase of three in the boarding department this year. Two of these are the House Mothers of the Boys' School, Mrs. Caldwell and Mrs. Bonsey; the third is Miss Daisy Bell, who has been employed but a fraction of her time as assistant.

Two of our teachers have enjoyed a Sabbatical year's leave in study and travel; these are Miss Katherine Burgner and Mr. Robert Lowrie. Miss Daisy Bell, Miss Emma Winslow and Mr. C. G. Banning are now attending Summer School on the mainland; Mr. C. V. Budd and Mr. A. M. Church attended the Territorial Normal School during its 1926 Summer session.

SPECIAL FUNCTIONS

Kamehameha has a considerable number of worth-while functions. Along with many others there are two that deserve especial mention during the past year; these are: Founders' Day Ceremonies - of a high order and well received - and "Hoolaulea", or Parents'-Graduates' Get-Together Day. Very large and warmly appreciative numbers turned out on this last occasion (the second annual one) and enjoyed our exhibits, games, and visiting.

We have had a good number of prominent men address the Faculty and students during the past year on subjects pertinent to school life.

EDUCATIONAL FEATURES FOR THE COMING YEAR

Our chief desire for the coming year is for more thorough and effective work in all lines. We plan to secure this through first arousing

the students' interest in, and realization of, the need for thorough preparation and active living. "Projects" will be made the method of learning. Our new Auditorium-Recreation Hall will be used frequently and we shall have exhibits and demonstrations in which the boys will be required to do their best before critical fellow-students, relatives and friends. The placing of Seventh and Eighth Grade students in groups under one instructor who is responsible for definite results with these children in all except Shop Work and special subjects, will be a great advantage in the "integration" or all-round and unified progress of each child. A carefully planned course of study and discussion to improve the teachers' professional attitude and ability will be carried on.

CONCLUSION

As I think of The Kamehameha Schools, after my three years' acquaintance with the institution, it seems to me they are happily growing into more important usefulness in the Territory. The times in Hawaii are surely changing commercially, economically and socially. Races are changing through immigration, inter-marriage and education. To judge incorrectly in our planning for the new schools and their courses of study would be of serious consequence in all probability. I believe we are proceeding in tune with the trend of the times. Constantly improving student material, high-grade men and women as instructors, courses well adapted to the growing needs of the Islands - all this in an adequate plant, will keep the Schools developing in usefulness. These objectives, striven for under the urge of charitable and high ideals, are what we aim for this coming year.

August 9, 1926

To the Trustees of the
Bernice Pauahi Bishop Estate,
Honolulu, T. H.

Gentlemen:-

In my 1925-1926 Annual Report, just submitted, I have raised a question regarding the Preparatory Department of the School for Boys which may cause considerable concern to the Trustees for two special reasons: First, because of the sentiment in connection with the founding of the Department; and second, because of the service this Department has rendered and is still rendering. Because of these two special reasons, also, I desire to follow up the report with a word of explanation beyond what was in the report.

Because I have been at the Schools only three years, I am probably not deeply enough grounded in their history and traditions to appreciate the seriousness of the suggestions made; nevertheless, I have studied the matter carefully and, without revealing what the purpose of my conversation was, have talked with many people concerning the story and function of the Preparatory Department. Also, although I am convinced as to the logic and soundness of my position in regard to the Preparatory Department, I must confess to a fear that it has been presumptious in me to make such proposals regarding a department which has been functioning for several years.

If the Estate could afford it, I believe it would be an ideal thing to do to have a small elementary school for both boys and girls from Grades I - VI inclusive, providing there would be normal contacts with other races and peoples made possible. A school of this sort should contain both boys and girls; it should provide rooms in small-sized, home cottages for probably a hundred children, and should provide facilities for a number of day students. This would bring us close to the normal home relationships, where children of all ages live together, both boys and girls, under the counsel of mature, carefully prepared teachers. A school of this sort would serve two valuable purposes: It would be an experimental school, and it would provide a home for needy and worthy orphans or others in indigent circumstances. It is a recognized duty of the Private Schools to conduct certain progressive experiments in education. In such a field Kamehameha could do things that would stand in some ways as patterns for education the world over.

But I feel sure it is out of the question to consider such a Preparatory school as this unless - when the income from the Estate shall have become quite large - it may be regarded wise later. We do not provide a preparatory school for orphan girls or other girls in indigent circumstances; we do not provide a preparatory department for young boy orphans of tender years in Grades 1 to IV inclusive, whereas we do have a preparatory department for boys in Grades V and VI. Owing to the fact that our boys of Grades V and VI are now quite young as compared to those of some years ago, we shall have to provide quite a separate equipment and plant for this considerable group (75 to 100) of pre-adolescents in our new school buildings, and treat the preparatory department as a unit quite separate from the Boys' School, Manual Department.

Now of course we can well continue with our Preparatory Department of Grades V and VI. There is no question that this department does much good. Personally, however, as I have thought concerning the future of the Schools, I have been unable to convince myself that it is wise to build a new Preparatory Department, with public schools what they are, unless we want to do the complete job and make it a department of both the School for Boys and the School for Girls, Grades I to VI inclusive.

As I have said above, I feel that I may have been presumptious in suggesting such a change in the long-standing organization of the Schools, but it is something that ought to be given careful consideration by the Trustees at this time when we are building a new plant. Things of this sort, after I have thought about them for considerable time and have come to some conclusion regarding them, should be referred to the Trustees, of course.

Respectfully submitted,

August 25, 1926

To the Trustees of the
Bernice Pauahi Bishop Estate,
Honolulu, T. H.

Gentlemen:-

I believe it may be well for me to make more thoughtful answers to questions asked at the last Trustees' meeting concerning my Annual Report for 1925-1926. There was not time to give adequate reply to the questions at that meeting. Some of the questions were such as to make short and concise answers very difficult.

1. Concerning reference to paragraph One of page three, -How many students would constitute a "reasonable and comparatively small number of students" with whom we could "do thorough work in training these to be leaders in the Islands"?

Some of the best Eastern Preparatory boarding schools limit their numbers to about 100 students; most of them have 200 to 300; many have about 500; very few indeed exceed 500. I do not believe our boarding department should exceed 300 in the School for Boys and 300 in the School for Girls. I believe Day Students may be taken in very gradually and only as many as we find we can handle well and can influence thoroughly, up to about 200 in each School. This would make 500 in each school - 300 boarders and 200 day students. It may be that in years to come we shall feel able to take in up to 300 day students in each school; our building plans provide for such a contingency. The best way, however, is to start out in our new plant at approximately the present size, then very gradually increase the enrollment as the funds and as our ability to do thorough training with each student will enable us to increase.

2. In what way cannot Kamehameha boys "exercise a full freedom of choice in connection with their future vocations, even including professions, if the child's inclinations, desires, and ability cause him to go that way?" This refers to Paragraph Four on page three, and to Paragraphs two and three on page four. Specifically, as stated in the last paragraph of page four, in what way are Kamehameha "sons kept from a freedom of choice as they mature and develop an ability to choose wisely"?

Our vocational guidance program, except for the fact that there is limited latitude of choice in our Schools, is the best that is known to education. We spend three years with boys, during their Grades VII, VIII and IX, putting them through actual experiences in Printing, Forge and Sheet Metal work, Woodworking, Electric Shop Work, Machine Shop Practice, Agriculture, and Automotive work. During this period, also, they are given general academic training as are boys in other schools, and we require them to do a certain amount of record keeping. We do not teach account-keeping in anything like an adequate manner during these years, though our students peculiarly need such specific knowledge, nor do we give any training in typewriting, though this is a skill which would facilitate all work in school and out in later years. Both these courses I believe we should give all students in this Junior High School period because of the broader knowledge our students need and because of the improvement in English and in facility of expression which these subjects promote.

However, the limitations of our vocational guidance program lie more in the fact that at the end of the Ninth grade we require each boy definitely to elect either one of the above-named Trades or Agriculture. He is then given specific training in one of these vocations throughout the remainder of his course, - four years.

Does this requirement and this training which is restricted to Trades and Agriculture prevent boys from choosing other vocations if they care to do so? Not entirely, of course, as will be seen from the intentions of our graduates of last June: Out of the twenty-one boys graduating in the class of 1926, fourteen are slated to enter directly into Trades or Agricultural work for which they received specific training in Kamehameha. Two more are going into kindred vocations - Architecture and Civil Engineering - after they receive further training; one is going on in his military training and is trying for West Point; two are going to teach vocational subjects and one will teach Science after further schooling; one is going into law. It cannot be claimed, therefore, that Kamehameha boys are <u>unable</u> to choose vocations other than Trades or Agriculture if they so desire. The difficulty lies in that since we offer training in only Trades and Agriculture, so long as boys stay with us all the training and influence upon the boys is to keep them in these vocations, even though they keenly may desire to enter law, medicine or the commercial field. The courses are such as to discourage vocations other than those specifically taught. Most of our boys should be urged to "follow the Trades"; a few should be encouraged into other vocations if they have qualities that fit them for other work and not for Trades.

The Part-Time Plan has eased up on this and helped out somewhat. Through the Part-Time system several vocations are now open to a boy which previously would have required the boy's leaving Kamehameha had he chosen one of them. Thus we have sugar boiling, expert office machine repairing, marine engineering, navigation, etc. Last year Daniel McGregor, who is planning to be a lawyer, was enabled to get a wealth of valuable knowledge and experience in a local law office while at his Part-Time work. James Hakuole was able to receive business experience in a good firm in town. Henry Kaahea was placed in an Architect's office where he had exactly the training he desired. Not one of these boys would have gone on in a Trade. They would have been "square pegs in round holes" had they done so. Most of the boys who are electing teaching would be discontented in a Trade, even though they have had very good Trade training and some Trade experience, and will use their Trade training and knowledge in making a success of teaching.

What then is needed to correct the situation and assist boys into the Trades, Agriculture, or to encourage them to go on for further training and enter the professions—if after careful study we and they believe a few of these boys belong in professions,— instead of preventing them from a freedom of choice in the vocation they shall follow? In my opinion, no radical change is needed. First; we should continue the idea of securing boys the Part-Time employment that will fit them best for the vocation they should be in; Second; we should give more training in keeping accounts and in typewriting. This will be sufficient. It will enable a boy to get such fine all-round training that he will be a very useful man, no matter what vocation he may decide to follow. The extra work in typing and elementary accounting will be of considerable benefit in improving spoken and written English also, which is one of our perennial problems.

The above suggested changes would not mean introducing any Courses that are needed in preparation for specific professional education but not needed in the general training required of boys entering the Trades and Agriculture. Each boy would be given a Trade or Agricultural training and he would always have this to rely upon; but if as his experience increased during his Junior and Senior years, he should learn that he really wants to go on in Engineering, Law, Medicine, or into the business world, then with the slight changes provided for above, he would not find himself at a loss; he could go right on into these later chosen fields from his Part-Time job. I have not the slightest idea in the above suggested changes of introducing Latin or foreign languages into the course. I certainly do not

advocate the introduction of advanded training for any profession. This is the function of institutions of higher learning and of professional schools. My proposal is simply to increase the all-round knowledge of business procedure and method, and to provide for Part-Time experiences that will permit of growth into whatever vocation our boys may elect - mostly in Trades and Agriculture, but probably a few of the brightest ones from time to time into professional callings.

If this free choice of vocation is not provided, we are going to feel it in the quality of students applying for entrance. There is a rather definite opinion abroad that boys who are not bright enough to go to St. Louis should be sent to Kamehameha, and that Kamehameha is not the school for the superior boy. Many of our best graduates believe this in respect to their bright sons. As we raise our standards and improve our course of study, we begin to attract the best parents to send their best boys to Kamehameha. If we do not have correct courses of study, the best material will be sent to other schools and in a short time again we shall be getting only mental culls. Our fine plant and fine staff will not be enough in the mind of the parent to compensate for a lack of opportunity for his boy to make the most possible out of his life, and secure the greatest possible economic and social returns for his life. Most parents, when they find that they have a bright boy and one who excels in his earlier school experiences, desire that this superior boy shall be trained for and placed in the position that will give him widest usefulness and influence. This is a universal human trait.

It would be a bad thing for Kamehameha if we cannot win the confidence of parents who have these superior boys. They are the ones who make leaders and who give the largest returns for money expended on their education. As a specific instance, I am sure it would have been a bad thing had we not adjusted our work so as to satisfy Daniel McGregor, a graduate last Spring, and his parents. We did this by enabling him to receive Part-Time training in a law firm and by permitting him to take as extra subjects typewriting and short-hand to use in connection with his law training and studies. McGregor is a very bright boy and if he had left, as he almost did leave, we should have lost several other superior boys, I believe. This would have a bad cumulative effect in a few years.

I sincerely hope the Trustees will approve of such adjustments in our courses. If thought desirable, individual cases might be referred to the Trustees for their consideration as exceptions to the general rule by which we try to place all boys in the Trades or in Agriculture upon graduation. I believe firmly that the quality of

our student applications is inextricably tied up with our courses of study and with the breadth of vocational opportunity and encouragement found in The Kamehameha Schools.

I am a strong advocate of vocational training, and for many years I have stood for less directing of our Hawaii children into "white collar jobs". Most of our boys should go into Trades; a few should not. I have had considerable practical difficulty in permanently convincing parents of superior boys that their boys are better off in the Trades, when so frequently a St. Louis boy will land a good clerical job at higher income, shorter hours, more leisure time, higher standing in the community for himself and family - which job a Kamehameha boy could have had if he had been prepared for it.

3. How many orphans, and others dependent upon other than their own families, are there now in the Preparatory Department?

In looking over the 75 names of last year, I find that there were 20 boys who were dependents - 8 through having no parents, and 12 through lacking relatives who are in financial position to pay for these children. In half of the last-named twelve cases, the families pay something on the childrens' accounts.

In the public schools of Hawaii in Grades V and VI there are 312 Hawaiian and 676 part-Hawaiian boys, as against 75 in our Preparatory Department. In my opinion the character of instruction and the educational results secured in our Preparatory Department have improved greatly during the past few years. But so have they improved in the public schools to the extent that except in certain instances I cannot see any real superiority or advantage possessed by our Preparatory students as they stand alongside other students when about to graduate from the Manual Department. The exceptions are in that we not infrequently get boys entering our 7th grade and 8th grade from the poorer rural schools, and these boys have had such meagre social experiences in their earlier years that they do not compare favorably with our Preparatory boys. Also we have had excellent teachers in the Preparatory Department and these teachers have secured better educational results with our Preparatory boys than do the ordinary teachers in the remote rural public schools. There has been some weeding out in the Preparatory Department also, although we do not have a large enough list of applicants to enable us to do very much selecting.

The Preparatory Department has a fine record of results to its credit. And it is doing the best work now it has ever done, I believe. Miss Post is an excellent Principal, and the training in all features at the Preparatory Department is very nearly as good as it can be in a segregated boarding school for small boys. But we are doing this work at considerable expense. The average net per capita cost of operation in the Preparatory Department last year was $570.70 The costs of the Boys' School and the Girls' School were low in comparison when it is considered that we provide many special subjects such as shop, agriculture, home economics, nursing, commercial subjects, sewing, and other similar courses in these two schools in addition to the regular academic work. The costs of the Boys' School and the Girls' School reduced the net per capita costs for all three schools and departments down to $567.60. The net per capita costs in the School for Boys amounted to $563.70, and in the School for Girls, with its Senior Practice Cottage, $580.20. The per capita costs of the Preparatory Department will always be high unless we make large increases in the numbers of students. What it costs for 75 Preparatory students would care for more than 100 additional students in the School for Boys or School for Girls.

Now if this expense were really necessary, I should be the last one to object to it; but I do not believe the expense is necessary and I should like to suggest a solution to this problem which years ago, when conditions were quite different in the Hawaiian homes from what they are now, was so admirably solved by establishing the Preparatory Department:

I do not believe it is as good for young children to be in an institution, - not even in an excellent boarding school - as it is for them to be in good homes. There are comparatively few of the homes from which children worthy of several years' training in Kamehameha are drawn nowadays, which are not satisfactory for the rearing of children. (Many may be far from perfect, but so are many homes of wealth far from perfect for raising children. We cannot remove children from all but the homes wa consider ideal.) Now for the eight orphans in the Preparatory Department, and for, say, seven out of the remaining children who require special aid, coming from homes not fit to raise children in, this would give us fifteen (a number I believe to be conservative) children requiring home life to be furnished. It would not be hard to find homes wherein these fifteen children could be placed at an average boarding cost to the Bishop Estate of, say, $40.00 per month. The children would then enjoy a good home life up to the Seventh grade and they could attend the public schools, many of which schools are very good, particularly below the Junior High School. Fifteen students per year of ten months, at $40.00 per month would cost the Estate but $6000.00 per year. At present our

Preparatory Department costs us $42234.00 net per year. All this cost of operating the Preparatory Department could be saved by the above plan and at the same time special assistance would be given "orphans and others in indigent circumstances".

Furthermore, this system would save constructing a $290,000.00 plant for a Preparatory Department of Grades V and VI. This is the estimated cost of these buildings presented in the Architects' first figures to the Trustees.

From the standpoint of a School Administrator, I should very much appreciate having a proper Elementary School. Personally I hate to lose any portion of our plant but rather I would prefer to widen our Schools' service as much as possible. In the minds of many friends of the Preparatory, I will be held responsible for the abolition of the Department if it is decided to give it up. But I have thought over this matter very carefully for months, and I cannot see the justification for a boarding department and school for Grades Five and Six.

In years to come, if the income of the Estate increases greatly, it may be that the Trustees will wish to have a day elementary school as part of the present Schools, for both boys and girls together. I can see good education in such a plant if it is not a place where young children are segregated on the race basis. But at the present I believe the Territory's greatest need and Kamehameha's greatest field is the work of the Junior and Senior High School years in a boarding school.

4. Is there another school in the Islands where small boys who do not have good homes will receive the excellent home training that they receive in the Preparatory Department?

I believe not, but I believe the scheme I have outlined above provides for better and more normal home training than can be given to small boys in any institution.

Nowadays our students are coming to us in the Manual Department, Grade Seven, at about thirteen or fourteen years of age. This is in the period of early adolescence. It is the "gang" age - the time when boys normally go in groups. They wear short pants in the Preparatory Department; they dress like men in the Manual Department. Radical and important physiological, sociological and psychological changes are taking place. It is a good time for them to enter our boarding department.

11

Now whereas no school in the Territory, not excepting even our Manual Department, has been giving as excellent home training as has our Preparatory Department, this must be changed and the boarding and home life of our Manual Department must be greatly improved. We should have more provisions to make the dormitory life of the Manual Department that of a good home, in which a good, Christian man and wife wield a large and constantly uplifting influence. It is quite likely that Mrs. Bishop and Mr. Bishop had such a home influence in mind for Kamehameha, due to their experience with the old school for royal children in which Bernice Pauahi was reared.

Boys of the early adolescent period are very impressionable; they are hero worshippers. They are entering upon a new world in a way not dissimilar in many psychological respects to the unfolding experiences of childhood years. It will be possible to put a lasting stamp on the characters of the boys of the Manual Department through fine dormitory home life, just as this is done in so many Eastern Preparatory Schools of High School grade and in Berea College, Kentucky, to which college students come from the mountains of Tennessee and Kentucky at an average of twenty years of age, but psychologically being in a state of impressionable childhood.

Our Manual Department should furnish boys the fine home training now found only in the Preparatory Department.

Respectfully submitted,

Frank E. Midkiff

Honolulu, T. H.
July 22, 1926

Mr. Frank E. Midkiff
President, The Kamehameha Schools,
Honolulu, T. H.

Dear Sir:-

There follows herewith, the General Trial Balance, June 30, 1926, and tabulated statements covering all expenditures at these Schools during the fiscal year beginning July 1, 1925 and ending June 30, 1926, viz:

I General Trial Balance, June 30, 1926
II Capital Expenditures, 1925-1926
III Analysis of Capital Expenditures, 1925-1926
IV Comparative Statements of Operating Expenses 1925-1926 of the Departments of the Schools.
V Comparative Statements of Operating Expenses 1924-1925 and 1925-1926 of the entire Schools and for each of the three Departments.
VI Statement of Inventories, June 30, 1926
VII Students' Ledger Accounts
VIII Students' Bank Accounts
IX Sundry Accounts receivable
X Income and Balance of Capital Appropriations Refunded to Trustees.

Respectfully submitted,

E. P. Murray
Accountant

FORTY-FIRST ANNUAL REPORT

of the

TRUSTEES OF THE BERNICE P. BISHOP ESTATE

Year Ending

JUNE 30, 1926

Harry + Rice

Referred to Hon. Wilder W. A. Dickson as Master
this 18th day of January A. D. 1927
Frank Andrade
First Judge of the Circuit Court of the First Circuit

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ending

JUNE 30, 1926

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their FORTY-FIRST ANNUAL REPORT, covering the period from July 1, 1925, to and including the 30th day of June, 1926.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,732 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. A copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$967,280.67		
Capital	350,093.55	$1,317,374.22	
Balance Forward, July 1/25,		56,577.77	$1,373,951.99
DISBURSEMENTS			
Revenue		$ 730,050.56	
Capital		544,325.04	1,274,375.60
BALANCE IN HAND, June 30/26, ...			$ 99,576.39

The year's normal net Revenue Receipts were $493,794.01

Add Federal Income Tax advanced for the year ended June 30, 1919, i. e.,

On March 15, 1920, ...	$ 6,974.36	
On July 20, 1921, ...	139,395.79	
Refunded this year, ...		146,370.15
and additional interest allowed on same, ...		8,950.63
Total Net Revenue, ...		$649,114.79

To obtain a proper comparison, the above tax should be credited to the Income received during the years in which the payments were made. This tax refund (being the balance mentioned in last year's Report as then outstanding) marks the favorable ending of the long fought out matter of the Trustees' claim for exemption. The interest shown is in addition to the $19,461.95 collected last year on the 1919 advance, making a total of $28,412.58 allowed by the Treasury Department on this particular item.

Under a ruling of the Commissioner of Internal Revenue the interest thus far allowed has been computed merely to the date of the initial audit of claim (i. e., date of allowance of claim by the Commissioner and before dispatch of same to the local Collector for checking). Under a recent decision of the United States Supreme Court in the Girard Trust Company case interest will be allowed to the date of final audit of claim (i. e., date of receipt by the Commissioner of notice from the local Collector that there are no outstanding unpaid assessments and that the refund should be paid). This decision will result in the payment to the Trustees of a substantial addition to the interest already collected from the Treasury Department.

While Acts of 1924-1926 exempt from taxation the income distributed by charitable trusts (which wholly exempt this Trust), returns showing no tax liability were filed, nevertheless, on September 9th, for the year ended June 30, 1925, in accordance with advice of counsel.

Of the net Revenue Receipts, amounting to $705,692.56 (i. e., $649,114.79 plus the balance of $56,577.77 brought forward from last accounts), 58.37% was used in general maintenance; i. e.,

Kamehameha Schools	32.59%	
General Operating Expenses	25.78%	58.37%
Converted to Capital		27.52%
Balance to New Account		14.11%

Of the net Capital Receipts, amounting to $232,794.39 (i. e., $38,560.90 plus $194,231.49 converted Revenue), 73.91% was invested in a way calculated to produce income; i. e.,

Notes Purchased		32.22%	
Lands Purchased		1.43%	
Improvement of Lands:			
Roads & Sewers	26.46%		
Kapaakea Subdivision	2.22%		
Kahala Cliffs' Subdivision	8.54%		
Maunalua Development	1.65%		
Fencing & Forestry	1.39%	40.26%	73.91%
Maps, Equipment, etc.			3.84%
Kamehameha Schools			22.25%

LEASES AND RENTALS

The gross rental collections for the year aggregated $447,347.58 - an increase of $41,522.00 as compared with last year's returns, while property taxes recovered from tenants and treated as rents aggregated $213,975.60 - an increase of $38,510.01.

Plans for the new Territorial Hotel building, erected on land at Helumoa, Waikiki, under Bishop Estate Lease 3446 (referred to in last Report) were duly approved by the Trustees on March 12, 1926, after an inspection on the ground - the letter transmitting the approval containing an expression of the Trustees' appreciation of the excellent character of the work undertaken by the Lessee.

Leases 993, 993a and 993b, from the Bishop Estate to the Bishop Museum, of lands within the Kamehameha School campus, were surrendered on December 31, 1925, in favor of a single new lease for the residue of the term of the old ones - 77 years from January 1, 1926.

The new lease, in addition to the area demised by the old leases, includes the site of the new Laboratory (Konia Hall) and the court yards between the buildings as defined by the new walls and gates, comprising an area of 47,200 square feet, at a paid up net rental of $975.

An old blanket lease (1171) of portions of the lands in Kahaluu, Keauhou I and Keauhou II, in North Kona, Hawaii, expired June 30, 1926, and has been superseded by new 15-year leases issued direct to former sub-tenants in accordance with the general policy of the Trustees to deal direct with actual occupants when opportunity occurs. Forty-three of these direct leases have been written to date, with an aggregate net rental of $1,987.50 as against $530 obtained under the old lease. In addition, a 20-year lease of the grazing area lying makai of the West Hawaii Railway, and comprising 1,846 acres, has been awarded to the Kailua Ranch (the highest bidder among several competitors) at a rental of $750 - term beginning January 1, 1927.

The rentals of Keei (South Kona) coffee lands have been lowered to accord with the very moderate schedule adopted for Honaunau, the Trustees believing that this will result in satisfied tenants and stimulate them to remain upon and develop their holdings to the best advantage.

Leases in force at the close of the year numbered 1,700 - an increase of 105 as compared with last year. Tenancies (so called as distinguished from leases) numbered 73 - an increase of 2. The classified record for the 12 months ended June 30, 1926, is as follows:

Leases	
New	231
Surrendered	35
Cancelled	10
Expired	80
Transferred on Sales	1
Term Extensions	18
Partial Surrenders	3
Assignments Permitted	146

Tenancies

New	26
Terminated	24

Reduced rents have been continued or allowed in the case of 48 leases, of which 19 were of lands on Oahu, 27 in Kona, Hawaii and 2 in Halawa, Molokai. Of the former, 9 were in Waiawa, Ewa, and 6 in Manoa Valley, where agricultural conditions were such as to make it seem wise to grant relief.

Of the 45 leases surrendered or cancelled, 28 were of lands in Honolulu proper, 2 in Ewa, 1 in Waialua, 6 in South Kona, Hawaii, 2 in North Kona, 2 in Hilo, 1 in North Kohala, and 3 in Halawa, Molokai.

INVESTMENTS

Of personal property investments reported at the close of last year, current collections aggregated $209,000, including $39,000 Oahu Railway 5% Bonds which were listed at an average cost of about 102.385, and retired at par on December 21, 1925 - entailing a Capital loss of $930.

On the same day, the Estate purchased $100,000 Mutual Telephone 6% Bonds at 105.25, or a total of $105,250, immediately turning over to the Bishop Museum and Charles R. Bishop Trust, at cost, as many as were needed to offsett the retirement on that date of a like number of Oahu Railway 5% Bonds, held by those Trusts: i. e.,

Bernice P. Bishop Museum, $15,000	$15,787.50	
Charles R. Bishop Trust, $65,000	68,412.50	$84,200.00
Leaving the Estate $20,000 in partial replace-		
ment of the like retiring Railway Bonds held by it..		21,050.00

The book value of securities detailed in the appended statement of Investments as in hand at the close of the year, was $961,295.50 - an increase of $70,170.00 as compared with the total reported at the close of the year preceding. This is accounted for as follows:

Forward from June 30, 1925		$891,125.50	$
Deductions			
Hawaii Bank C/D's retired	$ 70,000.00		
Bishop Bank " "	100,000.00		
Oahu Railway Bonds "	39,930.00	209,930.00	681,195.50
Additions			
Hawaii Bank C/D's		45,000.00	
Bishop Bank C/D's		200,000.00	
Mutual Telephone Bonds		35,100.00	280,100.00
T o t a l June 30, 1926, ...			$961,295.50

TRUSTEES AND MEETINGS

The personnel of the Board of Trustees at the close of the year was the same as reported at the close of the year preceding,- i. e., William O. Smith, President; E. Faxon Bishop, Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Fifty-one meetings were held during the year.

Mr. Henry Holmes, a Trustee of the Bernice P. Bishop Museum Trust, having resigned as such, the Trustees of the Bishop Estate Trust, in accordance with the power conferred upon them by the Museum Deed of Trust, appointed in his stead the Hon. George R. Carter, subject to the approval of the Chief Justice of the Territorial Supreme Court, by whom the appointment was duly approved and confirmed on February 26, 1926. On March 5th following, a Circuit Court order was issued vesting Museum title in Mr. Carter, jointly with the other Trustees of that trust.

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement - the list including 12 sales, 2 purchases, 1 exchange and 4 agreements. All of the lands acquired adjoin other Estate holdings and serve to further the policy of the Trustees to consolidate where possible, with the object of alleviating the difficulties encountered with reference to encroachments upon the konohiki by kuleana owners. Many of the detailed

surveys recently made of the larger tracts of the konohiki have disclosed the existence of encroachments of this kind - some of them involving costly litigation.

With the view of stimulating sales in the Kawananakoa Park Tract (referred to in last Report) the Trustees, in October, 1925, made a 10% cut in the original prices fixed for lots in this subdivision, feeling that this course was preferable to that of holding out for higher prices and keeping their investment tied up indefinitely. One sale was made (in February) as the result of this action. The improved street through the tract (known as"Andrews Street") has been conveyed to the City as a public highway under deed dated May 29, 1925, for the consideration of $1, and with the understanding that the City would install a street electric lighting system. This has since been done.

The strip of land at Kapaakea, on the mauka side of Beretania Street, referred to in last report as having been withdrawn from an agricultural lease and being filled, has this year been completed as part of the "Kaialiu Subdivision", at a cost of $2,831 expended during the year for filling and of $1455 for installation of water system. The 11 lots in this section have all been disposed of under 20-year leases at rentals yielding a 6% return on the investment.

On June 4, 1926, a contract was let for the construction of asphalt macadam roads and a storm water system in the residential tract of 13.32 acres adjoining the above, divided in 87 lots and called the "Bingham Park Extension". The expense incurred to June 30, 1926, was $929.20 for filling and engineering.

Oili Street, a small private lane leading mauka from Kahala Avenue and lying between the Waialae-Kahala Farm Lot Subdivision of the Trustees and the Waialae Ranch leasehold, although rolled last year as a temporary measure of relief to tenants using it (see last Report), was this year resurfaced with coral for a distance of 2650 linear feet, at

a cost of $2,172.

A tract of 6.5 acres of idle land on Kahala Cliffs was this year brought into the income-producing class by the construction of an asphalt-macadam road extending from Kahala Avenue to the top, and along a portion of the boundary, of Kupikipikio. The work, begun July 3, 1925, was completed in November following, at a net cost to the Estate of $19,864.54 - the owner of the adjoining land of Kupikipikio reimbursing the Trustees to the extent of $2,792.26 representing his proportionate share of the gross cost charged to him in accordance with agreement. The Subdivision comprises 18 lots, which are being offered under 30-year leases at rentals yielding a 6% return on the investment.

On August 14, 1925, the work of relocating and widening a section of Kahala Avenue was begun by the Trustees, and completed in December following, at a cost of $56,217.92. This improvement renders available for lease a new series of lots on the mauka side of the road; and a reasonable return on the investment is otherwise assured by reason of the fact that tenants benefited are obligated by the terms of their leases to pay increased rentals predetermined on estimated improvement costs. The fee in the road has since been offered to, and accepted by, the public authorities, although the deed of conveyance has not yet passed.

The work of exploring for water in Maunalua, Oahu, (referred to in last Report) was brought to a close on August 1, 1925. The investigation included test pumping operations at Waialae to determine the quantity of the flow in the Waialae Spring Reserve of the Trustees, with the view of the possible tapping of that source of supply for Maunalua. The total cost of the exploration work was $14,727.40, and the results have demonstrated:

(1) that at the foot of the Kamilonui-Hahaione ridges, in Maunalua, there can be secured, per 24-hour day, 687,000 gallons of water sufficiently low in salt content to render it usable for purposes of irrigation; a n d

(2) that the Waialae Spring will provide, per 24-hour day, 500,000 gallons of potable water that can be delivered at Maunalua.

As a measure preliminary to the further study of plans contemplating a beach subdivision along the shores of Maunalua Bay east of Kuapa Pond, and a 250-acre farm-lot subdivision in the rich agricultural section makai of the Radio Station, the Trustees, on June 1, 1926, secured from the municipal authorities a license to lay an 8-inch underground supply pipe line in the Government Road area between Waialae and Maunalua. It is understood that this water will be in addition to the water for domestic purposes which, under its Koko Head Park lease (No. 3348), the City is obligated to furnish by August 1, 1927.

To the various agricultural experiments being conducted in Kona, Hawaii, there has this year been added that of the Macadamia Nut tree, the production of which is now being prosecuted extensively by the Hawaiian Macadamia Nut Company on a tract of 94.2 acres of Bishop Estate land in Keauhou II, North Kona, under a 47-year lease (No. 3330) beginning as of January 1, 1925 - the Trustees assisting by waiving the rent for the first 10 years. The lease requires the Lessee to plant Macadamians in the ratio of one-fifth of the total area during each of the first five years; and reports received at the close of the initial year (1925) show that this condition has more than been met for that year, with 3,000 trees planted, and 4,500 more ready for planting in 1926. But already appearances indicate that the experiment will meet with the usual disappointments due to insect pests, soil conditions, the peculiarity of the tree itself, and the numerous obstacles that retard the progress of most new agricultural enterprises, and an effort is being made to secure now the active

co-operation of the Federal Agricultural Experiment Station, in order that its experts may advise the planters as to proper orchard methods and avoid the costly mistakes that have caused agricultural failures in Kona.

The Manila hemp grown at Keei, South Kona, from suckers obtained some years ago from the Federal Agricultural Experiment Station, proved to be of an inferior variety - samples of the fibre, tested at different times by the Tubbs Cordage Company of San Francisco, developing but low tensile strength. In July, 1925, the Department of Agriculture in Washington announced the receipt of several varieties of Manila hemp, which, when released from quarantine, will be reshipped to Honolulu; and some of these will be furnished the Trustees for the purpose of enabling them to continue their Kona experiments in this direction.

The Jak fruit (Artocarpus integrifolia - Rock) and the Moreton Bay chestnut (Castanospermum australe - Rock), both beautiful trees and bearers of edible fruit, are being introduced into Kona as a valuable addition to the trees of that district - the Trustees assuming the expense of securing young plants from the Hilo Nursery of the Board of Agriculture and Forestry, and of their transportation thence to the Kona office for distribution among the tenants in that section.

The Trustees' office at 848-850 Kaahumanu Street, when completed in September, 1918, was considered large enough to take care of the needs of the staff for the next ten years, but the rapid growth of the business of the Estate has necessitated a slight anticipation of this original estimate. A vacant lot of some 1,800 square feet, adjoining the office on the makai side, suggested the natural direction of expansion, and a 10-year lease of this area (as from May 1, 1926) was accordingly secured from the Estate of Thomas Cummins and Alma

Nieman, owning, respectively, two-thirds and one-third interests. The lease, issued with the approval of the Court, grants the Lessees the right to remove improvements on expiration of term; and at the close of the year treated of in this Report the Trustees had approved the plans of, and let the contract for, an appropriate building, which has since been completed and is now in use.

The Trustees have prepared, and file herewith, an inventory of the property held by them as of the 30th day of June, 1926, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps, added to the office collection of maps during the year, are listed as Nos. 1357, 1358, 1359 and 1361, and comprise a detailed survey of the lands of Kamalo, Keawanui and the Kaamolas, belonging to the Estate on the Island of Molokai - the survey (begun in October, 1925) being completed in March, 1926. The object of said survey was to check possession, re-establish and permanently mark the boundaries, and to compile data necessary to enable the Trustees to plan for the future disposition of these lands. This latter work included a study of flood waters and the lay-out of a tentative 5-to-10-acre-lot subdivision of the fertile low lands, comprising some 200 acres in Kamalo and 50 in Keawanui. In order to ascertain whether or not the demand for such lots would be sufficiently strong to warrant their proceeding with the project, the Trustees, through the medium of the press, have announced that they are prepared to subdivide the above arable areas, develop water for the irrigation thereof, and offer 20-year leases at annual net rentals averaging $30 per acre.

The detailed survey, reported last year as having been made, of lower Kahaluu, in North Kona, developed the existence of many cases where the owners of kuleanas within the boundaries of that section of

the Ahupuaa had encroached upon the konohiki - small areas, in each case, being enclosed within the kuleana walls. Efforts to correct this situation are being made, and already many of the cases have been amicably adjusted.

FORESTRY AND FOREST RESERVATIONS

In May, 1926, the Trustees approved of the mauka (paper) boundary of the Manowaialee Forest Reserve, in Hamakua, Hawaii, as determined by the Board of Agriculture and Forestry. This line,- which excludes the well sodded and open pasture at the mauka end of Niupea, Kaiwiki and Manowaialee, but includes the portions of these three lands that are covered with native forest,- coincides with an existing fence at an elevation of 3,430 feet, so that, as far as the Estate land at Kaiwiki is concerned, complete protection of the forest will require only maintenance of that fence. The Commissioner of Public Lands has approved of the setting aside, for forest purposes, of the Government lands within the prescribed area, and the ruling, fixing the boundary, will become effective January 1, 1927, when the existing lease (No. 1232) on the Estate land involved will expire.

In co-operation with the Board of Agriculture and Forestry, the Experiment Station of the Hawaiian Sugar Planters' Association and the United States Agricultural Experiment Station, the Trustees have this year inaugurated a project of tree planting in the upper reaches of Kapalama, which is designed ultimately to bring back the thick native jungle that formerly existed there, but which has now practically disappeared - the Trustees believing that the cost of this undertaking (which includes the building of fences and construction of trails) will be more than offset by the value of the increased water supply developed in this way. The programme contemplates that the Kamehameha Schools shall take a leading part in the work as an educational feature, valuable to the students as one which will inculcate

a knowledge of forests and trees, of soil conditions in the mountains, and of water conservation. A nursery for young trees has been established on the Kamehameha School campus, and at the close of the year (June 30, 1926) the work of planting tree covers on the mauka scars (intended to stop the erosion taking place there) was well under way, with some 1,000 Ironwoods (quadrivalvis), 25 Paper Bark (Melaleuca leucadendron) and trees of other varieties planted or on the ground in readiness for planting, and 2,500 more of the quadrivalvis held in the School Nursery for distribution, when wanted.

The work of reforesting the land of Maunalua, Oahu, (mentioned in previous Reports) has been continued during the year - most of the trees showing a satisfactory growth under the careful cultivation of the Trustees' caretaker there.

In October, 1925, two dozen rare and useful trees from the Philippine and South Sea Islands were presented to the Trustees by Mr. Gerrit P. Wilder, and planted in the Punaluu (Oahu) Arboretum, in places where they might best be expected to thrive.

On Kaluanui (Oahu), within the Hauula Forest Reserve, where the forest is badly depleted and needs building up, 1,262 seedlings, slips and seeds were planted this year,- the list comprising

1,000 Benguet Pines (Pinus insularis)
200 Karaka (Corynocarpus laevigata)
25 Norfolk Island Pines (Araucaria excelsa)
25 Mountain Ironwoods (Casuarina montana)
12 Binding Vines (Pothos aureus)

LAW

The suit, Bishop Estate vs. David Kui Laamea et al., referred to in last Report as brought in the First Circuit Court to quiet title in 1.6 acres of Estate land adversely held by Laamea at Maunalua, Oahu, and which resulted in a "hung jury", was reopened before Judge Massee on April 19, 1926, and closed on May 26th following, with

a jury verdict in favor of the Trustees. A writ of error has since been sued out by the defendant, carrying the case to the Supreme Court.

Land Court Application No. 666, filed by W. Aukai Kanika (w), to register title in certain land at Waialae, Oahu, was contested by the Trustees on the ground that the application included not only her kuleana, but also konohiki land adversely claimed by her - being the same land involved in the suit to quiet title, Bishop Estate vs. Aukai et al., mentioned in last Report. The matter has since been settled by compromise.

Of the applications reported filed last year in compliance with Act 208, Session Laws 1919, as amended by Act 155, Session Laws 1923, for settlement of boundaries of unsurveyed land,

(a) that relating to portions of the Ahupuaas of Aki, Paunau and Kelawea, in Lahaina, Maui, (Apanas 25, 26 and 27, respectively, of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu) was granted by the Boundary Commissioner of the Second Judicial Circuit after the hearing held September 5, 1925 - certificates being issued on December 15th following; a n d

(b) that relating to the Ahupuaa of Waimano, in the District of Ewa, Oahu, (Apana 47 of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu) was heard before the Boundary Commissioner of the First Judicial Circuit on February 5, 1926. Objections interposed by the Territory and by L. L. McCandless had the effect of throwing the matter out of the Commissioner's jurisdiction, and some other procedure will now have to be followed to adjudicate the question of title in the lands defined by the surveys and map submitted.

To adjudicate the question of title in the land of Maluawai - a lele of the Ili of Waiaula - in Kalihi Valley, Oahu, containing 79 acres and comprising Apana 37 of L. C. A. 7713, R. P. 4475 to Victoria Kamamalu, the Trustees, on April 13, 1925, petitioned the Land Court for registration - this being the case referred to in last Report as having been heard by the Commissioner of Boundaries on January 30, 1925, and thrown out of his jurisdiction by reason of an objection

interposed by the Territory, claiming title in Maluawai as unassigned Government land. The case is still before the Land Court.

As part of the consideration in the compromise settlement reached with respect to the adverse claim of Lily K. Woodward et al., referred to in the Thirty-Ninth Annual Report, the Trustees, by deed dated April 27, 1926, conveyed to the claimants title in 5.92 acres mauka of the road in Punaluu, Koolauloa, Oahu. This was done on advice of counsel, to avoid protracted and costly litigation with the attendant uncertain results.

A claim of the Territory involving portions of the Ili of Kapalama, Oahu, was also amicably settled out of court under a compromise agreement dated July 30, 1925, whereby the Trustees will convey to the Territory the fee in that portion of the Ili which is covered by water and contains approximately 95.57 acres, together with the rights of fishing and all other rights therein, for the sum of $15,000, and full quittance of all claim to any portion of the remainder of the land described in Royal Patent 7834, for which remainder the Trustees will file an application for registered title as soon as the necessary surveys can be completed. In the meantime the deed and warrant are being held in escrow with The Bank of Bishop & Company, Ltd.

As a corollary of the injunction suit, United States vs. Sue Shoji et al., referred to in last Report and which resulted in the issuance on July 19, 1924, of a decree closing the premises at the corner of Ala Moana and First Street, Kakaako, for the period of one year, on account of a breach of the Prohibition Act, the Trustees, on May 22, 1925, were served with a writ charging them, and Sue Shoji, with $122.55 as costs incurred in the suit. This was paid by the Trustees and subsequently recovered when the premises were reoccupied

after the close of the year's injunction. The present occupant has furnished a cash bond guaranty against any future violation of the Prohibition Act upon the premises.

Co-operating with the Federal authorities in the matter of enforcing the provisions of the National Prohibition Act as far as tenants of the Estate are concerned, the Trustees, on October 12, 1925, re-entered upon and terminated Lease 3033 to Torao Iseri in the Waialae Farm-Lot Subdivision - a raid, made October 2d, having resulted in the seizure upon the premises of evidence showing that the tenant had violated the Act and, therefore, the provisions of his lease.

A raid made by the officers on December 15, 1925, disclosed the presence of liquor in the building situated on the premises at the corner of Punchbowl and Halekauwila Streets demised by Lease 1491, but, as this liquor was found only in rooms occupied by sub-tenants, who subsequently pleaded guilty, were fined and thereafter obliged to move elsewhere, and as the Lessee was not himself involved, the Trustees, in this case, allowed the lease to stand, but exacted from the tenant a substantial cash bond guaranty against any future violation of the Act upon the premises.

In order to settle the question of title in such of the Estate's sea fisheries as were not established by proceedings in the Circuit Court, as required by Sections 95 and 96 of the Organic Act, the Trustees have furnished the Attorney-General with a list of such fisheries for the purpose of presenting the matter to the Supreme Court on an agreed statement of facts for judicial determination of the Trustees' rights.

KAMEHAMEHA SCHOOLS

Buildings: The year's building outlay, amounting to $16,946.30, is divided:

Campus		
Piggery and Hennery, ...	$ 687.17	
Servants' Cottage and Laundry,	400.00	
Garage Stalls, ...	589.35	
Nursery Shed, ...	169.72	$ 1,846.24
Waialae Vacation Lot		
Teachers' Cottage, ...	$12,348.54	
Garage, ...	902.00	
Furnishings, ...	573.00	13,823.54
New Site		
Development Plans, ...	$ 285.52	
Test Borings, ...	991.00	1,276.52

On the subject of the reconstruction programme referred to in last Report, a decision handed down by the Supreme Court on May 21, 1926, clears the way for the Trustees to proceed with the large undertaking involved in the physical rehabilitation of the Kamehameha Schools; and steps are now being taken to formulate definite plans and to carry them out. On the date of the above decision the Trustees definitely decided to adopt the upper (mauka) site - on the hills back of the present campus - as the locus for the new School plant, and already this site has been cleared and a topographic survey made for the benefit of the architects employed in the preparation of the building plans.

Equipment: Expenditures on this account during the year totaled ..... $34,846.48, including the cost of

(1)	Additional machinery, furnishings, etc., needed next year for all departments, ..	$17,296.70
(2)	Live stock, water system, buildings and supplies for the Hahaione Farm at Koko Head, ...	9,980.89
(3)	New storage room for milk, and live stock needed next year for the School plant proper, ...	1,285.00
(4)	Fencing, clearing and planting forage areas mauka of School Street, ...	6,283.89

The Agricultural Department of the School for Boys has this year been conducted by Mr. Kilmer O. Moe, an experienced agriculturist from the Philippines, where, for the past ten years, he had held the office of Superintendent of the Central Luzon Agricultural School. Instruction in agronomy and sugar-cane culture has this year been emphasized in the attempt to qualify students to grasp the opportunities now presenting themselves for young men equipped with a knowledge of biology and scientific agriculture.

Enrollment: The Schools opened in September, 1925, with an enrollment of 413 pupils, and closed June 8, 1926, with an enrollment of 408, distributed:

Manual Department, B/S, ...	213
Preparatory Department, B/S, ...	74
Girls' School, ...	121

Full scholarships were awarded during the year to 30 pupils, representing a charge upon the Trust amounting to $1,333.

Details concerning the general activites of the Schools during the year ended June 30, 1926, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, Hawaii,

December 6th, 1926.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT

TERRITORY OF HAWAII

AT CHAMBERS — IN EQUITY.

In the Matter of the Estate of BERNICE PAUAHI BISHOP, Deceased.

FORTY-FIRST ANNUAL ACCOUNT.
Equity No. 2048.

REPORT OF MASTERS.

To the Honorable, the Judge of the above entitled Court,
Presiding at Chambers, in Equity:

H. A. WILDER and W. A. DICKSON, heretofore appointed as Masters to examine and report upon the Forty-first Annual Account of William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees under the Will and of the estate of Bernice P. Bishop, deceased, respectively submits this as their report in said cause.

The Masters find after a complete and careful examination of said account that same is found correct in all respects and the inventories filed and made a part of said account were duly examined and verified and found to be true and correct.

Having found said account to be true and correct, the Masters therefore recommend that the prayer of the petition be granted, that the Forty-first Annual Account of said Trustees be approved, allowed and settled as rendered.

Dated: Honolulu this 21st day of June, 1927.

Respectfully submitted,

H. A. Wilder

W. A. Dickson

Masters.

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 42nd Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1926, to and including June 30, 1927.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 21st day of October, 1927.

Richard N. Trent
C. H. Judd
Wm. Williamson
Trustees under the Will and of the Estate of Bernice P. Bishop.

TERRITORY OF HAWAII)
CITY AND COUNTY OF HONOLULU) SS.

Wm Williamson, one of the above named petitioners, having been duly sworn, deposes and says:

That he has read the foregoing petition and also the Schedules therein referred to, and hereto attached, and made parts of said petition, and knows their contents, and that the account of receipts and expenditures set forth in said schedules respectively is correct; and that the allegations contained in said petition are true to the best of the deponent's knowledge and belief.

Wm Williamson

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ended

JUNE 30, 1927

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their FORTY-SECOND ANNUAL REPORT, covering the period from July 1, 1926, to and including the 30th day of June, 1927.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,926 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. A copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$869,091.58	$	$
Capital	951,435.50	1,820,527.08	
Balance Forward, July 1/26,		99,576.39	1,920,103.47
DISBURSEMENTS			
Revenue		$ 816,092.08	
Capital		1,022,738.38	1,838,830.46
BALANCE IN HAND, June 30/27, ...			$ 81,273.01

83778.21
81273.01
25'05.20

106

Under the decision of the United States Supreme Court in the Girard Trust Company case, referred to in last report, the Estate this year received on March 24, 1927, from the Department of Internal Revenue the sum of $6,402.72 as additional interest allowed on the moneys advanced by the Trustees as Federal Income Taxes for the years 1917 and 1918, and since refunded (see Fortieth Annual Report), this interest being computed from the date of the initial audit of claim to the date of the final audit on the sums of

$45,501.94 (1917 Tax)	$3,487.44
44,594.45 (1918 Tax)	2,915.28

Of the net Revenue Receipts, amounting to $614,684.77 (i. e., $515,108.38 plus the balance of $99,576.39 brought forward from last accounts), 75.18% was used in general maintenance; i. e.,

Kamehameha Schools	41.66%	
General Operating Expenses	33.52%	75.18%
Converted to Capital		11.60%
Balance to New Account		13.22%

Of the net Capital Receipts, amounting to $569,160.31 (i. e., $497,857.43 plus $71,302.88 Converted Revenue), 79.99% was invested in a way calculated to produce income; i. e.,

Notes and Bonds		49.96%	
Lands Purchased		1.47%	
Improvement of Lands:			
Roads and Sewers	10.83%		
Grading	5.40%		
Subdivisions	9.65%		
Maunalua Development	0.27%		
Water Systems	1.12%		
Fencing and Forestry	1.29%	28.56%	79.99%
Maps, Equipment, etc.			8.10%
Kamehameha Schools			11.91%

LEASES AND RENTALS

The gross cash rental collections for the year aggregated $434,870.47 - a decrease of $12,477.11 as compared with last year's

returns, attributable to the fact that a number of rents, normally due in July, were actually collected in the month preceding. Property taxes recovered from tenants and treated as rents amounted to $253,479.54 - an increase of $39,503.94 over last year's collections.

A further study of conditions on Molokai made it seem wise to the Trustees to abandon the idea of the projected farm-lot subdivision of portions of the lands of Kamalo, Keawanui and the Kaamolas (see p.11 of last report), and to offer, instead, the lands for lease in three parcels under 20-year terms from April 1, 1927, requiring the lessees to develop water and provide flood control. A public auction was accordingly held on March 17th in Honolulu, resulting in the sale to Kenneth F. Brown of a lease (No. 3926) of the agricultural and grazing areas in Keawanui and Kaamola at $600 per annum or $100 in excess of the upset, and a lease (No. 3925) to the Wing Hop Fish Pond, Ltd., of the Keawanui Fish-Pond and Sea-Fishery at $655 per annum or $155 in excess of the upset. The third lease (of portions of Kamalo) was not sold, but was afterwards disposed of to a Japanese hui as Lease 3941 for a term beginning May 1, 1927, at practically the original upset annual rents of $500 for the first three years, $1,500 for the next seven, and $3,000 for the remaining ten years. These three leases, and five small ones issued in displacement of blanket Lease 1180, produce together an average net annual rental of $3,400, as against $375 reserved by the old lease.

On March 31st a 20-year lease (No. 3935) from April 1, 1927, of 200 acres comprising the lower portion of Kaalakei Valley, in Maunalua, Oahu, was also sold at public auction to a Japanese hui, at an annual net rental of $1,225, or $25 over the upset.

By the terms of a new lease (No. 3888) granted the Oahu Theatre Company, Ltd., for forty years beginning February 1, 1927, of land on Maunakea Street near Pauahi, the Lessee will erect, at its own expense, a $50,000 modern theatre building in place of the old condemned structure heretofore standing on the premises.

Under the conditions of an agreement made by the Trustees with W. S. Lederer, the latter filled to grade, at his own expense, 1.5 acres of land in the Palama cane field, off King Street, for use as a stadium - the fill being completed on June 21, 1927, and accepted by the Trustees in lieu of the initial three years' cash rental ($3,600) under his lease (No. 3969) of the same premises, issued June 24, 1927.

During the year two golf-course leases were issued,- the first (No. 3795) to the Mid-Pacific Country Club, of 202.23 acres at Kaelepulu, Kailua, Oahu, with the right of purchase; and the second (No. 3797) to the Waialae Ranch Company, of 224 acres at Waialae, Oahu. The latter transaction involved the surrender as of December 31, 1926, of an existing lease (No. 2817) held by the same Company, and the transfer to the Trustees of 73 sub-leases (Nos. 3803-3873) of lands lying westerly of Isenberg Road and mauka of Waialae Road - the whole yielding the Trustees an immediate rental of $15,298.50 per annum as against the old rental of $6,000.

Leases in force at the close of the year numbered 1,837 - an increase of 137 as compared with last year. Tenancies (so-called, as distinguished from leases) numbered 99 - an increase of 26. The classified record for the 12 months ended June 30, 1927, is as follows:

Leases	
New	255
Surrendered	37
Canceled	21
Expired	59
Transferred on Sales	1
Term Extensions	7
Partial Surrenders	19
Assignments Permitted	222
Tenancies	
New	46
Terminated	20

Reduced rents have been continued or allowed in the case of 30 leases, of which 19 were of lands on Oahu, 9 of lands in Kona (Hawaii), 1 in Hilo, 1 in Halawa, Molokai.

Of the 58 leases surrendered or canceled, 23 were of lands in Honolulu proper, 15 in Ewa, 5 in North Kona, Hawaii, 10 in South Kona, 5 in Halawa, Molokai.

INVESTMENTS

Of personal property investments reported at the close of last year, current collections aggregated $220,750, including $17,000 Oahu Railway 5% Bonds listed at 101 and retired at par on December 31, 1926, entailing a Capital loss of $170.

For the first time since their acquisition in 1916, when accepted in exchange for bonds and interest accumulated at the time of the reorganization of the Company, the 2,200 shares preferred capital stock of the Hawaii Consolidated Railway, held by the Trustees, in the par value of $44,000, have this year yielded a return,- a 2% dividend, or 40¢ per share ($880), having been received on April 1, 1927, and a like dividend on July 1st following. This stock is inventoried on the books of the Estate at only $6 per share, but has today a market value of over twice that amount.

Land sales during the year resulted in the acquisition

of a number of notes and mortgages, representing the unpaid balances of purchase moneys. These are shown in the attached Statement of Personal Property Investments, which gives the total book value of all securities in hand at the close of the year as $1,326,193.78 - an increase of $364,898.28 as compared with the total reported at the close of the year preceding, accounted for as follows:

Forward from June 30, 1926,		$961,295.50

TRUSTEES AND MEETINGS

The personnel of the Board of Trustees at the close of the year was the same as reported at the close of the year preceding,- i. e., William O. Smith, President; E. Faxon Bishop, Vice-President; William Williamson, Secretary and Treasurer; Albert F. Judd and Richard H. Trent.

Fifty-one meetings were held during the year.

LAND TRANSACTIONS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement, the list including 98 sales, 2 purchases, 9 exchanges, 10 agreements. The sum realized from the sales ($572,746.51) will be used

principally in the work of reconstructing the Kamehameha Schools.

The sale of lots in the Bingham Park Extension Tract - the Kapaakea Subdivision mentioned in last report - was satisfactorily handled by brokers, and resulted in the disposal of 77 lots (383,548 square feet) out of the 78 offered, with an aggregate gross return of $142,700, or $50 in excess of the minimum price fixed by the Trustees. Of this sum, $65,977.50 was paid in cash, the remaining $76,722.50 being covered by 3-year, 8% mortgages, all dated December 6, 1926. Payments since made on account of the principal of these mortgages have reduced the aggregate outstanding amount thereof to $50,757.16, the amount shown in the attached Investment Sheet. All the deeds contain restrictions of general benefit to holders, and all the streets and lanes in the Tract (183,374 square feet) are under Government control, having been conveyed by the Trustees to the City by deed dated February 15, 1927, for a nominal consideration.

The sale to the Realty Development Company of 1.137 acres on Tantalus Heights (Pukaomaomao) by deed dated August 28, 1926, was the result of a public auction held August 26th, when spirited bidding ran the price up to $12,350 from a $6,000 upset.

The three sales made in the Kawananakoa Park Tract, Nuuanu, (referred to in last report) leave but five more lots in this Subdivision still to be sold.

The thirteen quitclaims listed in the Statement as issued in Kahaluu and Keauhou, North Kona, Hawaii, are the cases referred to in last report where surveys had disclosed that small portions of the konohiki had been fenced in as parts of the holdings of adjoining kuleana holders. The method of disposing of these claims through sales at $100 per acre, eliminated litigation which would have cost more than the small parcels were worth.

IMPROVEMENTS

In the way of developing the Estate's productive lands with the view of augmenting income, the Trustees have this year expended $162,574.66, distributed as follows:

(1) Manoa Storm Drain ..... $ 949.61
being the Trustees' share of $12,789.33 representing the cost of constructing a drain from the junction of Manoa Road and Oahu Avenue to the Manoa Stream in Kaaipu, Manoa, under agreement with the Realty Associates, Ltd. The completion of this drain enabled the Trustees and the Associates to consummate the exchange set out in the attached Statement of Real Estate Transactions dated February 21, 1927, adjusting questions of title and setting apart rights-of-way for roads at the mauka end of Kaaipu in accordance with a preliminary agreement made between the Trustees and the Associates on November 2, 1923.

(2) Manoa Hill Road .....(net) 11,312.16
being the amount assessed to the Trustees under Improvement District No. 14 in the sum of... $12,764.46
less refund of 1,452.30
received from the City under compromise by which the latter eliminated one million square feet as overassessed and the Trustees withdrew (on May 3, 1927) the injunction proceedings instituted by them on December 2, 1926.

(3) Manoa Uplands Subdivision 323.15
being preliminary costs incidental to the subdivision and improvement of some 15 acres comprising that portion of the lands of Puahuula and Kahaumakaawe which lie northwesterly of the Manoa Road and extend as far mauka as the boundary of Pukaomaomao, preparatory to the offering there of lots for sale. Land Court Application No. 742, for registration of title in this tract, was filed November 3, 1926, and Certificate thereon was duly issued to the Trustees on June 15, 1927. The building of roads and sidewalks, and the installation of the drainage system, will be carried out by the City under the Frontage Tax Law as a 100% improvement project.

Forward, .. $12,584.92

113

Forward, ... $12,584.92

(4) Kaiwiula Subdivision 7,777.80
being the cost of constructing coral roads and installing a water system in the tract at Kapalama extending from Kaumualii Street mauka to the old coral quarry between the Kamehameha School gardens and Waiakamilo Road, where 63 lots have been laid out and are being offered for lease for 20-year terms at rentals ranging from $60 to $100 per annum, according to size and location - an average of slightly over 6% on a valuation of 30¢ per square foot.

(5) Kamehameha Park Tract 5,223.15
being costs incurred to June 30, 1927, in the work of constructing roads, sidewalks, water and sewer system in the tract at Kapalama fronting Houghtailing and Waiakamilo Roads between the Oahu Railway Branch road and King Street, withdrawn from the Kamehameha Girls' School grounds and subdivided into 41 lots (291,691 square feet) to be sold under Torrens title. The lots fronting King Street are within the newly created business district.

Kapalama Fill 30,000.00
being on account and in part payment of a charge of $74,892.24 made by the Territorial Department of Public Works for filling in two pieces of low land at Kapalama (Lots 1 and 22, containing 12.53 acres) declared insanitary in 1924, and since carried in the "Sanitary Fund" of the Territory.

(7) Waiakamilo Quarry Fill 767.50
being costs to January 30, 1927, of waste from Middle Street improvement hauled to and spread over the portions of the floor of the abandoned Kapalama Quarry that were low and covered with debris. When the filling is done, it will be possible to subdivide and lease the quarry area, with 8 lots fronting Waiakamilo Road and others in rear.

Forward $56,353.37

	F o r w a r d	$56,353.37
(8) Frontage Taxes		39,633.97
being assessments paid,-		
Kakaako (1926)	$14,753.45	
Bethel St. Ext. (1926)	1,708.90	
Kahala Avenue (full)	10,915.69	
School Street (full)	3,373.35	
Bishop Street (full)	23,133.41	
T o t a l	$53,884.80	
less recovered from tenants:		
Kakaako ... $11,431.18		
Bethel St.. 1,708.90		
Kahala Av.. 1,004.77		
King St.... 105.98	14,250.83	

The Kahala Avenue improvement (Improvement District No. 19) extends Kahala Avenue eastward from Isenberg Road to the northwest corner of the old Isenberg homestead. Of the $10,915.69 assessed, $868.05 is chargeable to the Kamehameha School Rest Cottage premises at Waialae, the remainder being recoverable from tenants, who are refunding on the 10-year installment basis.

The School Street assessment (Improvement District No. 31) for extending School Street from Middle Street to Kalihi Road, has been wholly absorbed by the Estate. The land (12,447 square feet) required from the Trustees for the improvement was sold to the City by deed dated July 2, 1926, (see Real Estate Transactions), for $4,356.45.

In the case of the Bishop Street assessment for widening that street and extending it from Hotel to Beretania, the Trustees were charged (a) for their share of the cost to the City of acquiring the necessary land, the sum of $20,877.26
and (b) for paving, etc. 2,256.15
On July 12, 1926, the Trustees received $50,000 (with interest) damages under award of June 3, 1925, for 3,096 square feet of Estate land taken for the improvement (see Real Estate Transactions), out of which they paid The Bank of Hawaii, Ltd., the sum of $2,066 (with interest) representing the latter's share of the award proportioned on 100 square feet sold to the Bank by the Trustees since the date of the award.

F o r w a r d $95,987.34

115

Forward $95,987.34

(9) Kapaakea Subdivision 49,051.30
Being balance costs of constructing asphalt-macadam roads and a storm sewer system in the residential tract of 13.32 acres referred to in last report (and elsewhere in this Report) as the Bingham Park Extension. The total cost was $49,980.50.

(10) Kahala Cliffs Subdivision 300.00
being the cost of extending a 2-inch water main in this tract of 6.5 acres on Kahala Cliffs referred to in last report, bringing the total cost of that Subdivision to $20,164.54.

(11) Waialae 10-Foot Coral Road 973.34
being the Trustees' share of costs incurred ($1,816.20) in constructing 1,850 feet of roadway from Waialae Road leading into the Kapakahi Subdivision (part of the area surrendered out of Waialae Ranch Lease 2817, previously mentioned). The residue of the cost was borne by the benefited tenants.

(12) Hahaione Branch Road 981.40
being the Trustees' share of costs incurred ($1,344) in constructing a quarter-mile branch road across Kaalakei Valley, in Maunalua, along the makai boundary of the 200-acre tract demised by the above-mentioned Lease 3935, and leading to the Kamehameha School farm at Hahaione - the Lessees (who constructed the road) bearing part of the costs, in the sum of $362.60.

(13) Maunalua Development 1,537.36
being the cost incurred during the year ended June 30, 1927, in continuing the work referred to in previous reports of developing the agricultural resources of Maunalua,- principally for labor engaged in tree-planting.

(14) Waialae Water System 6,265.40
being the cost to the Trustees of pump and pipe lines taken over by them from the Waialae Ranch Company on the surrender of Lease 2817, December 31, 1926, previously mentioned. The system serves the section of farm lots lying mauka of Waialae Road and held under various sub-leases also taken over.

Forward $155,096.14

	Forward	$155,096.14
(15)	Waiawa Flume ..... being balance costs of flume construction built in March, 1926, for the purpose of leading surplus water from the well on Lease 2754 to the lands demised to other Waiawa tenants of the Estate.	95.00
(16)	Fencing ..... being the cost of constructing new fencing,-	1,167.96
	Kahala Quarry Lot $115.00	
	Kapalama-Alewa bdy. (net).. 509.62

(17)	Forestry ..... being the cost incurred during the year in tree-planting operations by the Trustees,-	6,215.56
	Waiawa, Ewa, ...$ 74.53	
	Kapalama Ridge 5,167.63	
	Nursery, Kamehameha Schools 973.40	

In last report mention was made of a lease taken by the Trustees from the Estate of Thomas Cummins and Alma Nieman of the lot of 1,800 square feet adjoining the rear of the Trustees' office and needed for office expansion. This year the Trustees have been able to purchase from Mrs. Nieman, for $8,000, her undivided one-third interest in the whole premises, comprising 3,124 square feet, with the brick building thereon numbered 840-844 Kaahumanu Street - the deed, dated September 24, 1926, is listed in the attached Statement of Real Estate Transactions. The Trustees' office addition has been completed, at a cost of $19,889.89.

Having in mind the urgent existing need that steps should be taken now, while kamaaina evidence is still available, to define and adequately protect the valuable water rights that are appurtenant to many of the Estate lands, the Trustees, in November last, engaged Mr. P. C. Morris, a searcher of titles, to make a complete investigation of official records for the purpose of gathering data bearing on

the subject. This investigation was completed in April, 1927, and a report thereon is now on file. To further the work, Mr. John McCombs, a Water Engineer, has been added to the permanent staff of the Trustees, his engagement dating from May 1, 1927. Mr. McCombs will undertake field studies to determine the Trustees' rights in the various localities as supported by kamaaina and other field evidence and by measurements of actual flow, for which purpose suitable equipment has been provided.

The Trustees have prepared, and file herewith, an Inventory of the property held by them as of the 30th day of June, 1927, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

A detailed survey of the land of Umauma, North Hilo, Hawaii, has been completed this year at a net cost of $871.71 - the maps being added to the office collection of maps as Nos. 1656 and 1656-A. The primary object of the survey was to locate and permanently mark the boundaries, and to determine cane areas in preparation for the issuance of a new lease to take the place of an expiring one.

Since January 3, 1927, the Trustees have employed Mr. Morris to devote as much of his time as possible to the work of rearranging their system of title deeds and abstracts, installing modern methods designed to render them readily accessible. To June 30, 1927, the expense incurred in this work for labor and equipment amounted to $2,391.25.

FORESTRY AND FOREST RESERVATIONS

In August, 1926, the Trustees approved of plans promulgated by the Territorial Department of Forestry, whereby some

5,000 acres of the Estate land of Keauhou, Kau, Hawaii, (heretofore fenced and held as a private reserve), bounded by Keaau on the southeast and by the upper Olaa and upper Waiakea Forest Reserves on the east, are included within the Kau (Hawaii) Forest Reserve. By this action the Trustees gain official protection for the forest area, without alienating any of their rights.

The Kahauloa II, South Kona, Hawaii, logging agreement (Lease 2825) with Keetaro Motooka, referred to in previous reports, has been renewed for 5 years from January 1, 1927. The new agreement continues to the licensee the right to cut and remove selected koa trees above the 3500-foot contour, and obligates him to plant within the prescribed area not less than 1,000 selected young trees to be furnished by the Trustees and set out and cultivated under their supervision and control. As this requires regular inspection and in view of the fact that the Estate owns 30,000 acres of Forest Reserve land on Hawaii, the Trustees deemed it essential that some qualified Forester should be employed to make these inspections and to render adequate supervision. The logical appointee was Mr. L. W. Bryan, Assistant Forester of the Board of Agriculture and Forestry and of the Experiment Station of the Hawaiian Sugar Planters' Association, stationed on Hawaii, who, for some time past, had actively and without compensation assisted the Trustees in the prosecution of their forestry work. He has accordingly been retained since January 1, 1927, at a salary of $300 per annum - he to give to the Estate work as much time as he can spare from his official duties, and to pay his own transportation expenses.

The completion of the Kamalo-Kawela-Makolelau boundary fence, hereinbefore mentioned, renders the Molokai Forest Reserve safe from the encroachment of live stock, and the Board of Agriculture and Forestry

has been notified that the Trustees are now ready to join with the Molokai Ranch and the Territorial authorities in a campaign designed to rid the portions of Kawela and Kamalo that are within the Reserve of both branded and unbranded wild cattle - the Estate to pay one-half the cost of publishing the required legal notice, which notice has been duly issued by the press. Until this stock, and the goats, are eliminated, no attempt will be made by the Trustees to reforest the denuded Kamalo Reserve areas.

In compliance with the terms of its leases of portions of the lands of Aihualama and Kaakaukukui (Pauoa Flats), the Hawaiian Sugar Planters' Association has rendered a report for 1926, which shows that during that year 862 trees were planted in the Manoa Arboretum at an altitude of from 1,600 to 1,800 feet, presenting a variety of soils and wind exposures; also, that a considerable part of the "Flats" was laid out for planting,- sufficient to accommodate 1,000 to 1,500 trees, of which 728, comprising 60 different species, have been set out.

An inspection of the Estate's Waiawa (Ewa) Forest Reserve, made on October 6th, showed that the Territorial Division of Forestry had planted in that section of the Reserve 100 Norfolk Island Pines (Araucaria excelsa), at stations appropriately chosen,- 8 trees being planted on top of the Koolau Range. It was found that the trees previously growing on top of the ridge had been severely damaged by wild hogs, and that the deep rain forest was almost a thing of the past. The Department of Forestry has been notified that the Trustees are willing to assist in the extermination of the predatory animals in the watershed regions of Oahu, and it is expected that the Department will shortly begin a vigorous campaign to rid the sections mentioned of these detriments to forest growth.

In Maunalua the ruggedness of the country is such that the Trustees have, as the most economical way to cover the hills, followed the practice of planting, in selected spots, only such species of trees as are known to spread from the root system or by means of winds and birds, and of giving careful attention to the cultivation of trees already set out and the replacement of such as may have died, rather than that of attempting extensive new planting. Trees planted and cared for during the year numbered 4,699.

In the work of reforesting the ridge and lower levels of the Kapalama uplands, very little experimentation is being carried on, as the trees there used are of such species only as have elsewhere demonstrated their fitness for that locality, but several different methods of planting have been tried out, in order to develop field practice to be utilized later by the Trustees in other areas. During the year plantings in that section comprised 25,143 trees - some of them having been set out on the wind scars, where they are expected to check the erosion and conserve the soil.

The forestry work of the Trustees has almost reached the point where a professional forester is needed,- the amount now being done requiring more supervision than can be given by the present force,- and the future expansion in forestry will necessitate continuous oversight by a properly trained man. It is, therefore, planned to engage for this position Mr. G. W. Ewart (of Kauai) upon his graduation next summer from Cornell University, where he is specializing on subjects best fitted to qualify him for local needs here.

LAW

On April 28, 1927, the Supreme Court rendered a decision in the David Kui Laamea case, confirming the verdict of the lower Court in favor of the Trustees in the appeal filed on a writ of error against the decision in the suit brought by the Estate to quiet title in 1.6 acres of land at Maunalua adversely claimed by Laamea; and on May 10th the Trustees were formally put in possession,

this closing a case that has long been pending.

On June 9, 1927, a decision rendered by the Land Court denied the petition (No. 631) of the Territory of Hawaii, referred to in the Fortieth Annual Report, and dismissed its application to register title to 18.362 acres of land in Kakaako within the boundaries of the Bishop Estate land of Kaakaukukui (L. C. A. 7713, Apana 6, Part 1, R. P. 4483 to M. Kekuanaoa) as being a lele of Puunui included within the Ili of Kaakaukukui.

On June 16, 1927, the suit brought by the City and County of Honolulu to condemn 1.78 acres of land known as the Pauoa Park Lot was withdrawn by the City, the City having accepted from the Trustees on that date a right-of-purchase lease (No. 3690) of the area involved, for a term expiring August 1, 1928.

The appeal filed the Third Taxation Division against the 1927 property tax on portions of the land of Honaunau, South Kona, Hawaii,- raised from $41,361 to $79,074,- was still pending at the close of the year covered by this Report, but has since been settled by compromise.

KAMEHAMEHA SCHOOLS

Buildings: The year's building outlay, amounting to $35,091.01, was distributed as follows:

Campus		
Piggery and Hennery, Balance,	$ 152.38	
Garage Addition, ... "	189.87	
Nursery Shed Addition, "	581.94	
Gymnasium and Grade Room,	10,169.42	$11,093.61
New Site		
Architects' Fees, ...	$ 9,000.00	
Engineering, ...	4,954.98	
Models, Prints and Photos, .	1,051.63	
Water System, ...	3,899.40	
Tree-planting, ...	1,159.04	
Sundries, ...	3,032.35	23,097.40
Hahaione Farm		
Manager's House Addition, ..		900.00

To expedite the work of preparing plans for the reconstruction programme of the Kamehameha Schools, President Frank E. Midkiff, on September 29th left for New York, carrying with him data on the general needs of the new school which it was desirable should be discussed with the Architects (The B. G. Goodhue Associates) before being set into the form of a controlling design. En route Mr. Midkiff conferred with various school specialists and authorities, and secured from them many practical and valuable suggestions on modern dormitory arrangements and other matters, all helpful in determining the problem now confronting the Trustees in this connection. Mr. Midkiff's return on December 25th was followed by a visit from Mr. Hardie Phillip, of the Goodhue Associates, who arrived on January 19th and remained here some weeks, studying conditions on the ground. As a result of this study, the tentative site selected on the Kapalama Ridge slope at 360 to 650 feet elevation was changed - the area lying just mauka thereof being found more suitable; and block plans are now being made to fit the latter site.

On January 31, 1927, the Trustees completed the sinking of a 12-inch artesian well on the Estate land lying at the north corner of Kapalama Avenue and School Street, which is designed to ensure an ample and dependable water supply for the new School plant. This new well, which, at a depth of 321 feet, yields an excellent flow of good, sweet water, displaces a well of the same size situated lower down on the present School campus, which has since been permanently sealed.

The plans for the new site contemplate that the Agricultural Department shall be conducted in Hahaione Valley, in Maunalua, where the Trustees, in September, 1926, definitely set aside for the

Schools' Agricultural branch a suitable tract having good soil, where conditions for dairying and hog-raising are excellent and where it is possible to handle work economically and to expand. Part-time students have for some time been working there under a Farm Manager, engaged in extending the alfalfa fields, road and water systems, papaia planting, etc. Such temporary buildings as were immediately needed at Hahaione have been provided, but, from now on, all building operations there will be conducted under competent architectural supervision, to the end that the Schools will eventually have there a farm group of structures that will be complete, harmonious and attractive - the programme contemplating that the work will be done in financial units over an amortization period of a term of years.

Equipment: Expenditures for permanent equipment during the year amounted $20,898.79, including costs incurred for

(1)	Class-room Furnishings, ...	$14,716.76	
(2)	Mergenthaler Linotype Machine	3,077.56	
(3)	Estey Two-Manual Reed Pipe Organ for the Memorial Chapel, ...	1,283.08	$19,077.40
(4)	Sundries for Hahaione, ...		1,821.39

Farm Stock and Equipment cost $10,561.12, including

(1)	A portable Frigidaire for the Dairy, ...	$ 846.95	
(2)	Pullets and Cows, ...	824.17	
(3)	Sundries, Kapalama, ...	1,550.00	$ 3,221.12
(4)	Sundries, Hahaione, ...		7,340.00

Other Permanent Improvements comprised the re-surfacing of the Tennis Court at the School for Girls, ... $ 1,225.00

Enrollment: The Schools opened in September, 1926, with an enrollment of 438 pupils, and closed on June 3, 1927 with an enrollment of 426, distributed:

	Boarders	Day	Total
Manual Department, B/S, ...	213	13	226
Preparatory Department, B/S,..	71	--	71
School for Girls,.....	121	8	129
	405	21	426

Full scholarships were awarded during the year to 25 pupils, representing a charge upon the Trust amounting to $1,306.

Details concerning the general activities of the Schools during the year ended June 30, 1927, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

Richard H. Trent
A. F. Judd
Wm Williamson

Trustees under the Will and of the Estate of Bernice P. Bishop.

Honolulu, Hawaii,

October 21, 1927.

Consideration: $225.00

EXCHANGES

From
CHARLES R. FRAZIER
Recovered title in 0.277 acre at Kaelepulu, Koolaupoko, Oahu, (part of Apana 45, L. C. A. 7713, R. P. 4475 to V. Kamamalu), with surrender of portion of easement over 40-foot roadway granted by deed of November 24, 1924,
In Exchange for 0.277 acre at Kaelepulu (same title) and the grant of a perpetual easement over new roadway from Kaelepulu Drive to intersection with old right-of-way,
Date of Deed: July 1, 1926,
Recorded in : Liber 830, pp 44/47

THOMAS C. WHITE
Acquired title in 6.37 acres at Keauhou 2, North Kona, Hawaii, comprising L. C. A. 5561E and L. C. A. 5785, Apana 1, (both to Keahualaaumoku), plus cash consideration of $275.00,
In Exchange for 91/100 acre on the Northeast side of Keauhou Bay, in Keauhou 1, North Kona, comprising part of Apana 7, L. C. A. 7713, R. P. 4475 to V. Kamamalu,
Date of Deed: October 26, 1926,
Recorded in : Liber 850, pp 134/139

W. AUKAI KANIKA
Acquired title in 1.27 acre at Waialae-iki, Honolulu, in four parcels, comprising L. C. A. 1989, R. P. 2276, Apana 1, to Lulea, L. C. A. 2389, R. P. 2285 to Kamonohiwa, L. C. A. 2516, R. P. 2282 to Maula, and L. C. A. 3216, R. P. 2279, Apana 1, to Ahuai, together with quit-claim in 45/100 acre at Waialae-nui, comprising L. C. A. 2391, R. P. 2149, Apana 1, to Kuapuu, owned by the Trustees but adversely occupied by Aukai,
In Exchange for 1.2 acre, comprising parts of L. C. A. 10613, R. P. 3578, Apana 3, to A. Paki, in Waialae-iki, L. C. A. 7713, R. P. 4475, Apana 50, to V. Kamamalu, in Waialae-nui, and all of L. C. A. 3012, R. P. 2645 to Makaweli, in Waialae-nui - this exchange being effected by way of compromise settlement of adverse claims by Aukai and to avoid further litigation,
Date of Deed: November 8, 1926,
Recorded in : Liber 850, pp 199/202

TERRITORY OF HAWAII
Recovered title in 29/100 acre at Kanewai, Kahala, Honolulu, comprising part of Apana 2, L. C. A. 228, R. P. 7721 to Kalaiheana, being 16-foot strip of abandoned roadway, 778 feet long,
In Exchange for 5.76 acres at Kanewai, Kahala (same title), comprising the section of Kahala Avenue improved by the Trustees between the boundaries of Waialae-nui and Kapahulu, 60 feet wide by 4,181.66 feet long,
Date of Deed: December 23, 1926,
Recorded in : Liber 865, pp 315/319

ESTATE OF ANNIE S. PARKE, LIMITED
Acquired title in 4,702 square feet at Kaaipu, Manoa, Honolulu, in two lots, comprising parts of R. P. (Grant) 22 to Kealoha,
In Exchange for 2,979 square feet at Kalehua, Manoa - part of Apana 10, L. C. A. 8559, R. P. 643 to C. Kanaina - the object of the exchange being to reconcile paper title with possession on the ground,
Date of Deed: December 31, 1926,
Recorded in : Liber 857, pp 451/454

EXCHANGES (Continued)

From

REALTY ASSOCIATES, LIMITED

Acquired title in 9,455 square feet at Kaaipu, Manoa, Honolulu, comprising Lots 64 and 65 as described in Land Court Certificate 2761 (Bishop Estate Transfer Certificate 5839), plus cash consideration of $250, and (for road purposes) title in 3,956 square feet comprising Lot 66 as described in the same certificate,

In Exchange for 13,131 square feet at Kaaipu, comprising parts of L. C. A. 5368, R. P. 1262 to Akahi, and R. P. (Grant) 22 to Kealoha, plus 10,236 square feet (same title) required for extension of Lowrey Avenue as defined by Land Court Application 575,

Date of Deed: February 21, 1927,
Recorded in : Liber 867, pp 317/319
(Land Court Docs 12314 & 12608)

UNIVERSITY OF DAYTON

Acquired or recovered title in 88/100 acre at Kalaepohaku and Pahoa, Waikiki, Honolulu, comprising (a) Lots 1, 4 and 5 as described in Land Court Certificate 3978 (Bishop Estate Transfer Certificate 5823), (b) part of Apana 1, L. C. A. 6400 to Kapu, and (c) part of R. P. (Grant) 224 to Kamakani, plus cash consideration of $264.00 and quit-claim of interest in 21/100 acre comprising part of L. C. A. 8515, R. P. 1666 to Keoni Ana,

In Exchange for 1.76 acre in Kalaepohaku and Pahoa, comprising parts of R. P. (Grant) 224 to Kamakani, and L. C. A. 8515, R. P. 1666 to Keoni Ana,

Date of Deed: February 28, 1927,
Recorded in : Liber 867, pp 268 et seq
(Land Court Doc 12279)

ROMAN CATHOLIC CHURCH

Acquired title in 1.34 acre at Kikiwelawela (Heeia), Koolaupoko, Oahu, comprising part of L. C. A. 11226, R. P. 2365, Part 1, Apana 1, to Naihe, subject to lease,

In Exchange for 1.34 acre at Aiea, Ewa, Oahu, comprising part of Land Patent (Grant) 8945 to Bishop Estate,

Date of Deed: June 22, 1927,
Recorded in : Liber 887, pp 363/367

TERRITORY OF HAWAII

Recovered title in 4.5 acres in Koolauloa, Oahu, being abandoned road areas in (1) Kaluanui (Apana 32, L. C. A. 7713, R. P. 7805 to V. Kamamalu) and (2) Punaluu (Apana 25, L. C. A. 9971, R. P. 7804 to W. P. Leleiohoku), with cash consideration of $1,800.00,

In Exchange for 9.317 acres in Kaluanui and Punaluu needed for, or in connection with, the Third Unit of Kamehameha Highway,

Date of Deed: May 12, 1927,
Recorded in : Liber 887, pp 324/334

AGREEMENTS

With

HOLOI LANAI ET AL

By which the Trustees, in return for a quit-claim of all interest in 1.3 acre of Konohiki land at Kahaluu, North Kona, Hawaii, (part of Apana 6, L. C. A. 7713, R. P. 6856 to V. Kamamalu), quitclaim to Holoi Lanai et al all interest in 12/100 acre of adjoining Konohiki land (same title),

Date of Deed : July 1, 1926,
Recorded in : Liber 850, pp 114/116

Note: This exchange was made by way of compromise settlement of an adverse claim - a recent survey having disclosed that both parcels were adversely held by Lanai et al as part of their adjoining kuleana.

REALTY ASSOCIATES, LIMITED, AND OTHERS

By which the Trustees quit-claim all interest in 1,397 square feet situate on the Southwest side of Kalia Road at Keomukukai, in Waikiki, Honolulu, comprising part of Apana 1, L. C. A. 1281 to Kuluwailehua,

Date of Deed : July 7, 1926,
Consideration: $1.00

Note: This land has never been in the actual possession of the Trustees and is not inventoried as Bishop Estate property; the quitclaim, issued by request, is intended merely to perfect the paper title of the present owners.

ROBERT KAHALIOUMI

Granting until March 31, 1928, at 7%, in which to complete the purchase of 26/100 acre in Keauhou 1 and 2, North Kona, Hawaii, comprising all of Apana 2, L. C. A. 7372 to Kaikuaana, part of Apana 7, L. C. A. 7713, R. P. 4475 to V. Kamamalu, and part of Apana 12, L. C. A. 7715, R. P. 7844 to Lot Kamehameha,

Date of Agreement: July 26, 1926,
Sale Price : $200.00

GEORGE W. HALALII

By which the Trustees, in return for a quit-claim of all interest in 4/100 acre at Keauhou 1, North Kona, Hawaii, comprising part of Apana 2, L. C. A. 9692, R. P. 4420 to Kamakahia, release to Halalii all interest in 6/100 acre of adjoining Konohiki land (part of Apana 7, L. C. A. 7713, R. P. 4475 to V. Kamamalu) found by survey to be adversely held by Halalii as part of his adjoining kuleana,

Date of Deed : July 27, 1926,
Recorded in : Liber 840, pp 139/142

CITY AND COUNTY OF HONOLULU

By which the City is granted a perpetual easement for a concrete storm water drain over a strip of land containing 1,206 square feet comprising a portion of Kaaipu, Manoa, Oahu, (L. C. A. 5368, R. P. 1262 to Akahi), subject to rights of tenants,

Date of Agreement: August 11, 1926,
Consideration : $1.00

AGREEMENTS (Continued)

With

NAHINU NAHALE (W)

By which the Trustees receive quit-claim to 5/100 acre of Konohiki land in Kahaluu, North Kona, Hawaii, (part of Apana 6, L. C. A. 7713, R. P. 6856 to V. Kamamalu), found by survey to be adversely held by Nahale as part of her adjoining kuleana (Apana 1, L. C. A. 3443B to Kuia),

Date of Deed : October 27, 1926,
Recorded in : Liber 842, pp 496/497,
Consideration: $1.00

DAVID IOWELA (IOELA)

By which the Trustees receive quit-claim to 1/10 acre of Konohiki land in Kahaluu, North Kona, Hawaii, (part of Apana 6, L. C. A. 7713, R. P. 6856 to V. Kamamalu), found by survey to be adversely held by Iowela as part of his adjoining kuleana (Apana 1, L. C. A. 10766 to Pio),

Date of Deed : October 28, 1926,
Recorded in : Liber 843, pp 396/397,
Consideration: $1.00

WILLIAM KUNIPO AND WIFE

By which the Trustees receive quit-claim to 4/10 acre of Konohiki land in three lots at Kahaluu, North Kona, Hawaii, (parts of Apana 6, L. C. A. 7713, R. P. 6856 to V. Kamamalu), found by survey to be adversely held by Kunipo as parts of his adjoining kuleanas,

Date of Deed : October 28, 1926,
Recorded in : Liber 843, pp 393/395,
Consideration: $1.00

JOHN IOANE KUMUHONE

Granting until December 15, 1927, at 7%, in which to complete the purchase of 84/100 acre at Honuaula, Kailua, North Kona, Hawaii, comprising all of Apana 47, L. C. A. 9971, R. P. 6694 to W. P. Leleiohoku,

Date of Agreement: February 28, 1927,
Sale Price : $500.00

REALTY DEVELOPMENT COMPANY, LIMITED

By which this company is granted rights in common in 12-foot road easement across Pukaomaomao, Manoa, Oahu, (Tantalus Heights), erroneously omitted from the deed to the same company dated August 28, 1926 (see Sales) and now added as appurtenant to the land described in said deed,

Date of Agreement: May 25, 1927,
Consideration : $1.00

BERNICE P. BISHOP)
)

REPORT OF MASTER ON
42ND ANNUAL REPORT.

TO THE HONORABLE PRESIDING JUDGE,
AT CHAMBERS, IN EQUITY,
FIRST JUDICIAL CIRCUIT,
TERRITORY OF HAWAII:

The undersigned, to whom was referred the 42nd Annual Report of the Trustees, covering the annual period ending June 30, 1927, of the Bernice P. Bishop Estate, begs to submit his Report as follows:

I

RECEIPTS:

That the Master has carefully examined the Report of Trustees, as well as the account, vouchers, and other records accompanying the same. All vouchers have been checked against the itemized account of expenditures, and except as hereinafter mentioned, have been found to correspond therewith.

II

CASH AND SECURITIES:

The Master has also personally inspected the securities on hand and listed in the Report, and has found the same in the

possession of the Trustees in the quality and amount as scheduled in the account. Cash balance on hand on June 30, 1927, reported in the amount of $81,273.01, has been checked with the bank statement (Bishop Bank) and found to be correct.

III

TRUSTEES' COMMISSIONS:

Under "Schedule of Expenses" for month of July, 1926, Item 2, appears the following:

"Trustees' Commissions, balance for year ending June 30, 1926. . . . . .$20,199.57"

and again, under the same Schedule, for month of January, 1927, appears:

"Trustees' Commissions, account year ending June 30, 1927. . . . . .$26,894.33".

No vouchers are submitted covering these expenditures, or any part thereof, hence it is left to conjecture whether these disbursements were made in equal amounts to the several trustees, or otherwise, and it seems to the Master that the Court should have this information in order to be advised of the compensation received by each of the five trustees.

IV

KAMEHAMEHA SCHOOLS:

Under the Will of Bernice P. Bishop, the predominate idea of the testatrix was to devote the principal part of her estate to create and maintain two schools: one for boys, and one for girls, to be known as the Kamehameha Schools, giving preference to the boys' school. In which said schools, the young generations of Hawaii were to be educated in common English branches, instruction in morals, etc., as would tend to develop good and industrious men

and women. The desire is also expressed that the students might be educated in the higher branches, but such instruction to be secondary to the first object expressed. In the will of Mrs. Bishop, as well as in the codicils thereto, the trustees are granted wide authority as well as discretion in the management and control of the schools as well as in prescribing the curricula thereof, circumscribed only by general limitations, and by the express provision that the instructors in the schools shall forever be persons of the Protestant religion, but with no preference to any particular sect of Protestantism.

V

REPORT OF PRESIDENT, KAMEHAMEHA SCHOOLS:

The report of the President of Kamehameha Schools, accompanying the Report, outlines an ambitious and progressive plan to maintain the schools abreast of the times. It is obvious that the testatrix, at the date of executing the last codicil to her will, to-wit, October 9, 1884, could not have had foresight sufficient to appreciate the far-reaching developments and progress which has taken place since that date, and which have revolutionized the science of education as well as almost every other progressive science. The result being that the trustees must of a necessity keep step with the conditions caused by these events. It is fortunate, indeed, that the testatrix, under her will, and the codicils, has granted to the trustees very wide and discretionary power and authority, which, in the opinion of the author of this Report makes it not only legal but laudable for the trustees to operate and maintain a progressive and up-to-date institution for the education of the youth of the Territory, under the bounty of the testatrix.

VI

LANDS OF THE ESTATE:

The property of the estate is composed largely of vast areas of land situated throughout the Territory. A great deal of this land is waste property, while other portions are arable, and some is city property located mostly in Honolulu and Hilo. The Report shows a commendable tendency on the part of the trustees, through sales or leases, to increase the area utilized for agricultural and other purposes. Your Master expresses the hope that this plan may be developed from year to year until all of the property of the Estate which can be utilized will be put on a producing basis.

RECOMMENDATIONS: VII

The Master recommends that the trustees file separate vouchers for commissions paid to them, and that if such vouchers reflect the payment by the estate of proper and reasonable compensation, that the 42nd Annual Report and Account of the Trustees be approved.

Dated at Honolulu, this 20th day of April, 1928.

James L. Coke
Master.

ORDER APPROVING 42nd ANNUAL ACCOUNT

The Trustees under the Will and of the Estate of Bernice Pauahi Bishop, deceased, having filed herein their 42nd Annual Account and Report, together with a petition praying that said account and report be examined, approved and allowed; and said account and report having been referred by this court to James L. Coke as master for examination and report, and the said master having filed his report thereon wherein he recommends that the account and report be approved and allowed; and the trustees having filed their joint receipt for the commissions received by them, in accordance with the recommendation made in paragraph VII of the master's report,

NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the 42nd Annual Account and Report of said trustees is hereby approved and allowed; and that the said James L. Coke, master as aforesaid, be allowed and paid out of the fund of said trust estate compensation for his services in the sum of $500.

DATED, Honolulu, T. H., April 28 1928.

In the Matter of the
BERNICE P. BISHOP ESTATE

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 43rd Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1927 to and including June 30, 1928.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of their expenditures as such Trustees during said period.

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 22d day of November, 1928.

Trustees under the Will and of the Estate of Bernice P. Bishop.

TERRITORY OF HAWAII)
) SS.
CITY AND COUNTY OF HONOLULU)

A. F. Judd, one of the above named petitioners, having been duly sworn, deposes and says:

That he has read the foregoing petition and also the Schedules therein referred to, and hereto attached, and made parts of said petition, and knows their contents, and that the account of receipts and expenditures set forth in said schedules respectively is correct; and that the allegations contained in said petition are true to the best of the deponent's knowledge and belief.

A. F. Judd

SUBSCRIBED AND SWORN

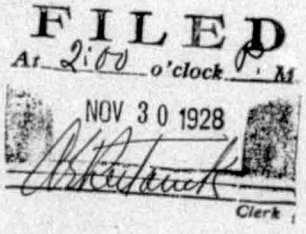
FORTY-THIRD ANNUAL REPORT

of the

TRUSTEES OF THE BERNICE P. BISHOP ESTATE

Year Ended

JUNE 30, 1928



IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the Matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ended

JUNE 30, 1928

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their FORTY-THIRD ANNUAL REPORT, covering the period from July 1, 1927, to and including the 30th day of June, 1928.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 2,694 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. A copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The Accounts for the year show as follows:

RECEIPTS from all sources:			
Revenue	$971,415.04	$	$
Capital	501,702.68	1,473,117.72	
Balance Forward, July 1/27,		81,273.01	1,554,390.73
DISBURSEMENTS			
Revenue		$ 887,729.95	
Capital		559,968.05	1,447,698.00
BALANCE IN HAND, June 30/28,			$ 106,692.73

160

The large balance carried forward is necessitated by the fact that construction work on the new School plant is now under way and requires ready funds. These moneys are, in the meantime, drawing the normal bank interest allowed on deposits in excess of $5,000.

Of the net Revenue Receipts, amounting to $676,307.90 (i. e., $595,034.89 plus the balance of $81,273.01 brought forward from last Accounts), 75.60% was used in general maintenance; i. e.,

Kamehameha Schools	41.99%	
General Operating Expenses	33.61%	75.60%
Converted to Capital		8.62%
Balance to New Account		15.78%

Of the net Capital Receipts, amounting to $365,570.78 (i. e., $307,305.41 plus $58,265.37 Converted Revenue), 46.55% was invested in a way calculated to produce income; i. e.,

Notes and Bonds	13.85%		
Lands Purchased	.03%	13.88%	
Improvement of Lands:			
Roads	10.00%		
Grading	1.14%		
Subdivisions	12.60%		
Maunalua Development	3.34%		
Water Systems	.29%		
Fencing, Nursery and Forestry	5.30%	32.67%	46.55%
Maps, Equipment, etc.			8.33%
Kamehameha Schools:			
Present Plant		6.96%	
New Plant		22.89%	
Hahaione Farm		15.27%	45.12%

LEASES AND RENTALS

The gross cash rental collections for the year aggregated $519,090.38 - an increase of $84,219.91 as compared with last year's returns. This is partly attributable to an increased collecting force, which, since November, 1927, has enabled the Trustees to keep two Collectors in the field practically all the time, and which has resulted in the reduction of outstanding accounts, from an aggregate of $87,906.19 on June 30, 1927, to $50,127.15 on June 30, 1928. Sugar

percentage leases yielded $18,700 more than for the previous year, and returns from newly opened areas, and from renewals of expiring leases at higher rentals commensurate with present values, will account for the remaining increase.

Property taxes recovered from tenants and treated as rents amounted to $260,534.57 - an increase of $7,055.03 as compared with last year's collections.

Leases in force at the close of the year numbered 1,936 - an increase of 99 as compared with last year. Tenancies (so called, as distinguished from leases) numbered 105 - an increase of 6. The classified record for the 12 months ended June 30, 1928, is as follows:

Leases	
New	239
Surrendered	47
Canceled	33
Expired	58
Transferred on Sales	2
Term Extensions	18
Partial Surrenders	6
Assignments Permitted	287
Tenancies	
New	31
Terminated	25

Reduced rents have been continued or allowed in the case of 128 leases, of which 118 were of lands on Oahu, 7 of lands in Kona (Hawaii), 1 in Hilo, 1 in Halawa (Molokai), and 1 in Hanalei (Kauai). Of the Oahu reductions, 56 were located in the Waikiki District (chiefly Kapaakea), 25 in Manoa, 18 in Waialae and 8 in Kahala. The Kapaakea and Manoa lands affected, while still utilized for agricultural purposes, are classed and assessed as residential: the reduction is made in order to keep the tenants in occupation and to derive from said lands sufficient income to cover the taxes until such time as a residential subdivision becomes feasible.

Of the 80 leases surrendered or canceled, 27 were of lands in

Honolulu proper, 16 in Ewa, 2 in Heeia, 3 in North Kona (Hawaii), 29 in South Kona, 2 in Hilo, and 1 in Keawanui (Molokai).

INVESTMENTS

Of personal property investments reported at the close of last year, current collections aggregated $169,356.51, all of which sum has been reinvested.

Land sales during the year out of the Trustees' subdivisions known as the Kamehameha Park Tract and Manoa Uplands, resulted in the acquisition of a number of notes and mortgages representing the unpaid balances of purchase moneys. These are shown, together with other securities, in the attached Statement of Personal Property Investments, which gives the total book value of all securities in hand at the close of the year as $1,401,242.08 - an increase of $75,048.30 as compared with the total reported at the close of the year preceding - and is accounted for as follows:

Forward from June 30, 1927,		$1,326,193.78	$
Deductions:			
Bingham Park Notes retired	27,546.77		
Bishop Bank C/D's "	50,000.00		
Bank of Hawaii C/D's "	100,000.00		
Kahalioumi Note "	80.00		
Kondo Note "	13,101.51		
Realty Dev. Co. Note "	6,175.00	196,903.28	1,129,290.50
Additions:			
Bishop Bank C/D's		220,000.00	
Chun Hoon Mortgage		20,000.00	
Kamehameha Park Tract Notes		6,304.08	
Manoa Uplands Notes		25,647.50	271,951.58
T o t a l June 30, 1928,			$1,401,242.08

TRUSTEES AND MEETINGS

The personnel of the Board of Trustees at the close of the year was the same as reported at the close of the year preceding,- namely, William O. Smith, E. Faxon Bishop, Albert F. Judd, William Williamson and Richard H. Trent.

Fifty-one meetings were held during the year.

LAND TRANSACTIONS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended Statement, the list including 51 sales, 1 purchase, 3 exchanges, and 9 agreements. The sum realized from the sales ($251,456.52) will be used principally in the work of reconstructing the Kamehameha Schools.

The single purchase was of land (283 square feet) on Kapalama Ridge required by the Trustees for the road to the new Kamehameha School site.

The two sales made in the Kawananakoa Park Tract, Nuuanu, (referred to in last Report), leave but three more lots in that subdivision still to be disposed of, and one of those is tentatively taken under an agreement of sale.

The first unit (104 lots, with 60-foot frontage and an average area of 6,789 square feet) in the Manoa Uplands Subdivision, situated on the northwest side of Manoa Road 1,200 feet mauka of its junction with Oahu Avenue, and comprising parts of the lands of Kahaumakaawe and Puahuula, referred to in last Report, was duly completed and placed on the market, through brokers, on April 30, 1928 - a moderate schedule of sale prices having been fixed on April 13th totaling $200,550, with terms of 25% down and the balance in three years at 7%. Although extensively advertised, sales in this tract have moved slowly, only 20 lots having been disposed of to June 30, 1928, netting the Trustees $37,150, of which $26,110 rests on mortgages. The building of roads and sidewalks, and the installation of the drainage system, was done by the City under the Frontage Tax Law as a 100% improvement project known as Improvement District No. 23, at a total cost of $100,290.34, which the Trustees are paying on the 10-year installment basis, charging the pro rata thereof to each lot as sold. Public utility systems (telephone, electric light and gas) were installed

along with the street work. In addition, the Trustees incurred an expense of $11,344.98 for incidental improvements, including the installation of an auxiliary water system completed on March 2d and designed to supply city water to the lots on the higher levels (above 300 feet). This system has since been turned over to the City by Agreement dated August 1, 1928, under which the latter will maintain and operate the same, pending the installation of a public system. The City, by Deed dated October 12, 1927, has also, for a nominal consideration, taken over all the paved streets in the Subdivision; and the Hawaiian Electric Company, by Deed dated November 22, 1927, has, for a like nominal fee, been granted three small lots (each 6 feet square) to be used as transformer stations necessary in the proper operation of the electric current supply system. Each of the deeds in this residential tract contains building and other restrictions of benefit to all purchasers, operative over a 20-year period.

The work on the subdivision of the Kamehameha Park Tract (First Series), containing 211,421 square feet and comprising 41 lots situated at the westerly corner of King Street and Houghtailing Road, Kapalama, also mentioned in last Report, was this year completed at a total cost of $13,795.40, and offered for sale at public auction held September 21, 1927, at upsets totaling $130,160, or an average rate of 61.56¢ per square foot - 25% down, and the balance on a 3-year mortgage at 8%. The sale resulted in the disposal of 10 lots, aggregating $30,850, or $20 in excess of the upset, with one sale made later, through a broker, at $2,500, making in all 11 sales totaling $33,350, of which $9,085 rests on mortgage. One other purchaser, who signed a Purchase and Sales Agreement under date September 30, 1927, subsequently withdrew, forfeiting his 10% deposit, $361.50, with interest and costs to March 1, 1928, as appears in the Accounts herewith. Title in the street and two service alleys (32,784 square feet) in this subdivision was

conveyed to the City for a nominal consideration, by Deed dated April 5, 1928.

By Deed dated June 29, 1928, the Trustees conveyed to the City, for $35,000, title in the 1.78-acre lot at the corner of Nuuanu Avenue and Pauoa Road, known as "Pauoa Park", which was the subject of the condemnation suit withdrawn by the City, as mentioned in last Report.

Explanatory of an item which appears in the Accounts filed herewith, by right-of-purchase Lease 3974, dated July 20, 1927, the City now holds 13.349 acres of land situated at the corner of Fourth Street and Kalihi Road, Kapalama-kai, comprising part of the Kamehameha School grounds and wanted by the City as the site for the Kalakaua Junior High School and for public park purposes. Under this lease, as extended, the Lessee has until January 1, 1930, in which to purchase the fee for $180,263.14, of which sum the Trustees received on June 14th of this year $71,232.90 as a payment on account of principal.

Out of a tract of 159.7 acres lying west of Isenberg Road (now Kealaolu Avenue) and within the area bounded by that road, Kahala Avenue and Oili Road, the Trustees have this year laid out approximately 100 acres in 77 lots provided with a coral road and water system, at a cost of $20,354.65. This tract comprises part of the area surrendered by the Waialae Ranch Company on December 31, 1926, and has since been lying idle, pending the outcome of attempts to lease it as a whole for agricultural purposes. A 350-foot strip along the rear of Section "A" of the Waialae-Kahala Beach Tract has been reserved for future subdivision, the remainder being divided into 44 quarter-acre house-lots fronting Kealaolu Avenue, and 33 farm-lots in rear thereof, ranging in size from 2 to 3 acres. The former have all been leased for 30-year terms, at rentals of from $160 to $180, depending on location. The farm-lot leases carry 15-year terms, with rentals fixed at $100 per acre.

The Kahala Beach Subdivision, fronting the mauka side of Kahala Avenue, has also this year been extended to include the section between Fort Ruger Military Reservation and Oili Road, where 17 lots have been laid out and all leased on 30-year terms, at rentals ranging from $90 to $180 per annum, according to size and location. This involved the acceptance of partial surrenders of certain adjacent leases, and adjustments of rentals incidental thereto.

Practically all of the 78 lots in the tract at Kapaakea, Waikiki, referred to in last Report as the Bingham Park Tract Extension, having been sold, the Trustees are now preparing to subdivide likewise the tract immediately adjoining on the eastern side and running from Beretania Street to Metcalf Street, extending in an easterly direction as far as the Matsumoto kuleana and the Territorial Normal School site, which will be known as the Bingham Park Tract Extension No. 2. To this end, the Land Court title obtained on the first section has been extended to include the addition, and the work of filling in the low sections has been pushed - the costs incurred to June 30th for Land Court proceedings and for fill being $6,096.45. The area registered under Land Court Application 866, filed August 13, 1928, and confirmed by Owner's Duplicate Certificate 7478 issued October 8, 1928, is 572,206 square feet, divided into 72 lots, and includes parts of Isenberg, Marques, Dole and Bingham Streets, and Wilder and Coyne Avenues. The building of roads and sidewalks will be carried out by the City, under the Frontage Tax Law, as a 100% improvement project.

Approximately 34.75 acres of Estate land in the neighborhood of Pearl Harbor has this year been filled in by the Standard Dredging Company with material pumped from said Harbor under its contract with the United States. These fills are being placed without cost to the Trustees, other than that of reduction of rents in the case of some of the tenants affected and of assuming a share of the amounts

claimed by tenants in the way of liquidated damages, which, to June 30, 1928, have been as follows:

Waimano - 8.75 acres lying between Opukaula and shore line of Pearl Harbor - Saburo Taba, sub-tenant,- a/c damages April 7, 1928, ...		$ 500.00
Also, reductions allowed on Lease 3278: Jan. 1/28 to Mar. 1/28, $700 to $600; Mar. 1/28 to end term, $600 to $225 p. ann.		
Kalauao - 22.0 acres lying makai of main Government Road and including the Loko Opu - Otakishi Kubo Estate, sub-tenant,- damages May 9, 1928, ...		4,000.00
Also, reduction allowed on Lease 700a, 4 years: Sept. 1/28 to Sept. 1/32, $1200 to $850 p. ann.		
Total Damages Paid, ...		$4,500.00
Less - received from Dredging Company on May 8, 1928,- Taba a/c, 1/2 of $ 600, ...	$ 300.00	
Kubo a/c, 2/3 of 4,000, ...	2,666.67	2,966.67
Net Outlay by Bishop Estate for Damages,		$1,533.33

Other Capital improvements made during the year included:

(1) The building of a new three-bedroom, single-walled cottage for the Care-taker at Maunalua, Oahu, located at the point of the ridge between Hahaione and Kamilo-nui Valleys,
Completed December 9, 1927, ... $ 5,686.71

(2) The widening from 10 to 16 feet and repaving with sand coral of 4,000 feet of the existing branch road to Hahaione, in connection with the development of the Kamehameha School Farm,
Completed October 21, 1927, ... 4,000.00

(3) The continuation of the work, started last year, of filling in the abandoned Waiakamilo Quarry lot, at Kapalama, preparatory to subdivision, ... 4,182.00

(4) Frontage taxes paid:

Kakaako (1927), ...		$14,753.45	
Vineyard Street Extension (full), ...		15,309.42	
West Queen Street Extension (10%), ..		7,235.26	
T o t a l, ...		$37,298.13	
Less - recovered from tenants:			
Kakaako, ...	$11,912.60		
Kahala Avenue, ...	1,004.77		
King Street, ...	105.98	13,023.35	24,274.78

The Vineyard Street assessment (Improvement District No. 33) for extending Vineyard Street from Liliha to Houghtailing Road, has been wholly absorbed by the Estate. The land (70,651 square feet) required from the Trustees for the improvement, was sold to the City by Deed dated

March 16, 1928, for $10,570.40, leaving the net outlay $4,739.02.

The West Queen Street assessment of $72,352.56 (Improvement District No. 42) for extending West Queen Street from King to Waiakamilo Road, is also wholly absorbed by the Estate. The land (88,579 square feet) required from the Trustees for the improvement was sold to the City by Deed dated March 19, 1928, for $40,118.55, leaving $32,234.01 as the net outlay.

(5) The improvement of the Waialae water system (taken over by the Trustees from the Waialae Ranch Company on December 31, 1926, as referred to in last Report) by the installation of meter boxes, etc. -
The cost to October 25, 1927, being ..... $ 1,068.71

This system was intended to serve the section of farm-lots lying mauka of Waialae Road and held under various sub-leases taken over at the same time. It represents an outlay of $7,334.11, which has this year yielded a revenue of $585.64 in the way of water rates collected from such of the tenants as were connected with the system, against operating costs of $1,475.82 - a loss of $890.18. On September 12, 1927, the Trustees decided to abandon this venture and request the City to supply the necessary water at regular City rates, using such parts of the Trustees' system as would be needed; and this change was duly effected on November 10, 1927, when certain of the material comprising the system, having an estimated salvage value of $1,424.80, was conveyed to the City for a nominal consideration. Of the remaining equipment, the tank and all of the pipe that was in good condition was moved to, and utilized upon, the Kamehameha Farm premises at Hahaione - the salvage value transferred being $760. The pump still remains in place, with a book value of $189.20, but the rest of the Capital charge has been written off in the amount of $6,384.91.

In connection with its plans for a general survey of all natural water resources of windward Oahu, the Honolulu Sewer and Water Commission was, on October 21, 1927, granted permission to make a study of Punaluu Stream, in Koolauloa, and to take measurements of discharge - the Estate, in return, to receive copies of all plans, surveys and

measurements made under this permission.

As the result of an inspection made in July-August, 1927, by the Estate Water Engineer and the Chief Engineer of the Division of Hydrography, the trail leading to the Trustees' water-measuring station on Lumahai Stream, in Hanalei, Kauai, has been cleared and rebuilt, and extended to a point two miles farther mauka, to facilitate the exploration of this upper region. It has also been arranged to have an Engineer from the Division of Hydrography take measurements at various points above the regular station over a period of one year from February, 1928, with the view of determining the point of maximum power in the stream, the waters of which have a potential value for power purposes.

On May 7th last a special Engineer was engaged to survey the Kamalo (Molokai) Stream bed, and to study the subject of flood control there. This survey was completed in June following, and the Engineer's report in this connection is now on file.

In October, 1927, the Hawaiian Macadamia Nut Company, having fulfilled the covenant in its Lease 3330 - covering lands in Keauhou II, North Kona - requiring the planting to Macadamia nut trees of all of the demised land suitable therefor, had in the ground 6,569 trees, or an average of approximately 70 to the acre. Some of these trees have attained a height in excess of 6 feet, and the general thriving condition of the Macadamia nut tree in Kona would indicate for the District a promising new branch of industry.

In the public interest, the Trustees, on May 4, 1928, granted the City, for a nominal consideration, an easement for a sewer line across their land of Kanewai, Manoa, and, on May 31st, a like easement for a sewer and water line across Kapaakea, Waikiki.

The Trustees have prepared, and file herewith, an Inventory

of the property held by them as of the 30th day of June, 1928, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps of lands in Kau, Hawaii, were this year added to the office collection of maps as Nos. 1690, 1691, 1724, 1725 and 1726 - the net cost being $1,682.01.

The survey of the Ahupuaas of Hionamoa and Paauau II (Maps Nos. 1690 and 1691), completed in October, 1927, was primarily made to show classification of lands preparatory to the renewing of an existing lease which expired March 31, 1928, and which has since been renewed on the basis of that survey at a rental increased from $3,500 to $8,044. Incidentally, this survey disclosed that the Hawaiian Evangelical Association was in possession of 0.62 acre of the konohiki in Paauau II (Grant 3533), used for church and cemetery purposes. The area was subsequently confirmed to the Association for $50, under Quitclaim dated March 14, 1928.

The survey of the Ahupuaas of Pakini-nui, Pakini-iki and Kawela, together with kuleanas and grants in Kiao, Kamaoa and Kiolokaa (Maps Nos. 1724-1726, inclusive), completed in March, 1928, was made to determine boundaries and to classify the lands preparatory to re-leasing them when the present grazing lease (No. 687a) should run out on September 30, 1929. The area involved is 15,184.3 acres, including 412 acrea of arable land and 5,025.9 acres of pasture - the rest being waste. Based on this survey, 11.25 acres, comprising L. C. A. 8786 to Kuaana, situated at Kaunamano, in Kau, known as the "Green premises", and heretofore believed to be Estate property but found to be occupied adversely, has been dropped from the Estate Inventory, whereon it was listed at $25 - Counsel holding that, even if Ruth Keelikolani had ever had title in this lot, it had long since been lost by adverse possession.

The work of rearranging the Trustees' office system of title deeds and abstracts, begun on January 3, 1927, by Mr. P. C. Morris, Abstracter, as mentioned in last Report, was finished on January 7th of this year - the total cost for labor and equipment, and for supplying data needed to complete certain of the files and furnishing a report of the final results, being $8,851.82.

FORESTRY

Estate forestry problems have long claimed the earnest attention of the Trustees, who appreciate fully the vital need that exists for bringing back the native forest cover in the interests of water conservation. Experiments in the past have proved instructive and much has been accomplished in the way of forest rehabilitation, but for some time past it has been apparent to the Trustees that, in order properly to carry on the work and to produce the results desired, a professional forester should be added to the Estate's permanent staff. This has now been done - Mr. G. R. Ewart 3rd (of Kauai) having been appointed Estate Forester as of August 1, 1928. Mr. Ewart is a graduate of Cornell University (Class of 1928) and brings to his work a training designed especially to qualify him to meet the needs peculiar to the Hawaiian forests.

Because of the necessity for more room, the Trustees, in February, 1928, decided to move their Nursery away from the site at the rear of the Preparatory Department of the Kamehameha School for Boys, and to utilize as a new site a 1.25-acre lot of available Estate land in Kapalama Valley, lying mauka of School Street and adjoining Kalihi Road at the Mokauea boundary. The new site (the removal to which was effected in August, 1928) is large enough to accommodate the old Nursery, and affords room for ample expansion. Approximately 400 feet of coral-paved road has been built to give access to it, following the alignment of the projected Valley road, and all the equipment used on

the old site has been moved to it. New installations include a water system, potting shed, shade house and warehouse; also, a gardener's cottage, moved from Waiawa, Ewa, (see below), and adapted to the needs of the Nursery. The cost of building the new Nursery and moving the plant, etc., from the old site, amounted to $5,234.42. In addition to this, the cost of operation for the year ended June 30, 1928, has been $4,543.27, which covers labor, soil, fertilizer, containers, lumber, etc., and is allocated in the proportion of 70% to the new School site, and 30% to forestry. The Nursery, in addition to its uses in connection with the forestry work of the Trustees on Oahu, is also utilized as a holding area for ornamental and useful trees and plants (many received as gifts from friends of Kamehameha) intended for the new campus. The total number of trees in the Nursery on August 4, 1928, was 19,701, of which 11,586 were being held for planting on the new School grounds, the balance being reserved for reforestation work.

On August 31, 1927, the Oahu Railway surrendered from its Lease 462, as of June 30, 1927, (13 years in advance of the normal date of lease maturity), 1,025 acres comprising portions of Waiau and Waiawa lying above the newly established Ewa Forest Reserve line - the Trustees undertaking to erect stock-proof fencing (now nearing completion) and otherwise to protect and maintain the area as forest-reserve until July 1, 1940. This tract, formerly sub-let to the now disincorporated Pearl City Fruit Company, was occupied by a number of buildings, of which 12 on Waiawa, were conveyed to the Trustees and subsequently moved,- 5 to Hahaione Farm; 1 to the new School Nursery; and 6 to the Kaiwiula Subdivision at Kapalama where they are now set up on as many different lots and leased - the moving and rehabilitation of these latter buildings being done by and at the expense of the present lessee thereof.

By the terms of Lease 4030 of lands in Halawa and Kaonohi (Kalauao) lying between the 650-foot contour and the makai line of the Ewa Forest Reserve, the Lessee is obligated to plant annually 2,000 selected young trees in the suitable sections of the gulch and hillside areas within the adjacent Forest Reserve and in the non-arable gulch and hillside areas makai thereof, adjacent to the leasehold. For this purpose the Lessee procured and planted in November, 1927, plants of Casuarinae, Grevilla robusta and Melaleuca leucadendron, and was furnished, besides, from the Estate Nursery, and planted, 669 trees, including 301 Java plum, 79 Albizzia stipulata, 50 Inkberry, 50 Acacia confusa, 49 Koa, 45 Peltophorum inerme, and 95 trees of 11 other species.

The experiment at Maunalua has been continued during the past year - the principal work having been the care and cultivation of trees planted since the inception of this project. New trees (from the Estate Nursery) of mixed varieties, to the extent of 1,017, have been set out, partly in place of original plantings that have failed to survive, and partly on new areas (principally in upper Kaalakei Valley) that have been added to those already subject to reforestation. The planting of Ironwoods on the soil scars in Kaalakei Valley has been extended considerably - 3,321 trees from the Estate Nursery having been devoted to this purpose. The cost of these operations for the year (excluding $1,200 paid the Maunalua Caretaker, who devotes practically all his time to tree planting) was $1,312.13. The total cost of the experiment to date (exclusive of the above Caretaker's wages) has been $4,798.81, or 32¢ per tree, and the number of trees planted since the inception of the project, and now in a satisfactory growing condition, is estimated at 15,000. The principal failures have occurred in the "Val" - the high-level valley between Kamili-nui and Kamili-iki - and, while these are cause for disappointment, they are, nevertheless, valuable as a guide to future planting under similar arid conditions. The

most successful plantings in the Val" are Mahogany, Java plum, Ironwood and "Japanese koa" (Acacia confusa). The plantings at Hahaione are more successful, on the whole, than those in the drier area of the "Val" - the failures there consisting chiefly of trees about which little was known by the Trustees at the time of the original planting, such as Cedrella australis and Ceiba pentandra. The failures have been removed, and new trees of other varieties planted in their places: Among the first plantings at Kaalakei, on the ridge adjoining the Government Kuliouou Forest Reserve, the Koa, Norfolk Island pine and Ficus rubiginosa have shown satisfactory growth, while among those planted in this section during the past year (in one of the sheltered pockets at the head of the valley near the crest of the Waimanalo Pali) the Eucalyptus pilularis has made remarkable progress, and other trees in this group,- such as Ceiba pentandra and Myrica nagi,- have also exhibited a healthy development.

A fence and wall was constructed this year along the line of Hahaione Forest Reserve, at a cost of $2,901.45.

With regard to the forestry work at Kapalama - the other large planting project of the Trustees: On Arbor Day (November 17, 1927) the entire Kamehameha student body and faculty united in the work of cultivating the trees planted on that Day in the year preceding and in the planting of 300 new trees - practically all of the latter being fruit and nut trees, including such types as Tea, Coffee, Macadamia nut, Brown persimmon and Kona orange, planted in the so-called "Fruit-Tree Area" at the bottom of the gulch mauka of the new School site.

Ficus Day (March 1, 1928) was also observed - the Boys' School students planting on that day 40 ficus posts of different varieties in the gulch and valley back of the new School campus.

The past year's work in the main forestry project consisted in caring for the 40,086 trees already planted, and in setting out

14,104 new ones - some to take the place of those originally planted that have failed to survive, but the majority by way of extending the experiment into unplanted portions of the Reserve. Much work was done during the year in the eroded areas makai of the Forest Reserve on the new School site, where plantings were possible only in wet weather. Many trees have made remarkable growth during the year,- conspicuously the Vinegar tree, Eucalyptus, Charcoal tree, Silver Wattle and Brassaia. Planting of Banyan slips has been, in many cases, successful. A change in the appearance of the Kapalama forest is already noticeable. The total cost of the Kapalama forestry experiment to date is $13,356.78, and the total number of growing trees in the Reserve and in the scar areas below the forest line is estimated at 54,000, showing a unit cost of approximately 25¢ per tree. The cost of operations during the past year has been $6,057.36, which includes the wages of one foreman and from three to five helpers, together with other expenses incidental to the work.

In the Trustees' Arboretum at Punaluu, in Koolauloa, Oahu, 1,500 selected trees were planted by the Estate in October-November, 1927, at a cost of $639.92. These new plantings, together with the area covered by the Hawaiian Sugar Planters' Association in 1923, have been subject to the continuous care of one Japanese, at the rate of $50 per month. Here the outstanding tree, from the standpoint of growth, is Albizzia stipulata, but unfortunately most of the trees of this species have been planted in an exposed location. The Paper Bark trees planted by the Trustees have grown into a forest. The total cost of the Punaluu project to date has been $2,571.72, or approximately 70¢ per tree for the 3,690 trees planted there.

In the Manoa Arboretum, comprising portions of Aihualama and Kaakaukukui (Pauoa Flats) held by the Hawaiian Sugar Planters' Association under Lease 2526, 1,814 trees of various species were planted during 1927.

In September, 1927, an inspection of the Estate's forests on the upper drainage area above Honokane, in North Kohala, Hawaii, showed that an excellent watershed cover existed there, with cattle being completely excluded.

The work on the Island of Hawaii has been confined to the Motooka plantings at upper Kahauloa II, in the South Kona District, on the mountains directly back of Napoopoo, at an elevation of about 3,500 feet above sea level. Motooka has continued, under his contract with the Trustees, to log the mature Koa trees in the Kahauloa Reserve, and, in payment for this privilege, has planted, under the supervision of Mr. L. W. Bryan of the Board of Agriculture and Hawaiian Sugar Planters' Association on the Island of Hawaii, Mainland temperate-zone trees. In April, 1928, Mr. Bryan inspected the 1,000 Sequoia sempervirens (redwoods) planted by Motooka in July, 1927, and found but two failures, indicating that the climate at that elevation is suitable for this species of tree. The chief expenditure in the above connection has been the monthly retainer paid to Mr. Bryan by the Trustees for his services in this and other forestry matters on the Island of Hawaii, which has amounted to $325 during the year ended June 30, 1928.

LAW

As an aftermath of the suit to quiet title in 1.6 acres of konohiki land at Maunalua, Oahu, brought by the Trustees against David Kui Laamea and decided last year in favor of the former, the Trustees, in March last, filed suit against the Executors of the Will of the late Samuel M. Damon to recover damages in the sum of $5,043.01, being the amount expended by the Estate in preserving title in the Laamea case, which, the Trustees hold, should properly be charged to the Damon Estate as former Lessee of a lease that included the Laamea lot, on the general theory that a lessee is obliged to turn back to the lessors

on expiration of lease all the land demised thereby. On technical grounds, the Circuit Court has twice sustained demurrers filed by the defendants, but the case is still pending under an amended bill of complaint.

The Trustees, on June 6, 1928, also filed suit in assumpsit against Lum Sau to collect $631.30 overdue rent on Lease 3116, Kaaipu, Manoa, but this was subsequently withdrawn and settled out of court.

On September 27, 1927, the Trustees were made parties to a suit brought by the City of Honolulu to condemn 13,567 square feet (afterwards - on May 15, 1928 - amended to read 13,640 square feet) of Estate land at Kauluwela, Honolulu, on the westerly side of the Kauluwela Public School, required for the enlargement of the School premises. This suit was still pending at the close of the year.

The matter of the Territory's claim to portions of the Ili of Kapalama (mentioned in the Forty-First Report as having been settled under agreement) has this year been definitely disposed of by the delivery to the Territory, on January 3, 1928, by the escrow deed dated July 31, 1925, of the area covered by water, and appurtenant riparian rights, and the receipt by the Trustees of the consideration ($15,000). Title in the remainder of the Ili was thereafter registered by the Trustees under Land Court Application 750, dated January 7, 1927 - the Owner's Original Certificate 6632 being later superseded by thirty-seven Transfer Certificates (Nos. 6680-6716, inclusive) issued to the Trustees on January 7, 1928.

For protection of Estate interests, the Trustees (through Counsel) appeared at the following Land Court hearings on applications filed by the Bishop Trust Company on behalf of Chun Hoon to register title in various parcels located at Waikiki, Honolulu - all since satisfactorily adjusted:

Application 796 - Hearing called October 29, 1927
Encroachment involving 1,751 square feet of adjoining Estate land;

Application 795 - Hearing called December 3, 1927
Minor discrepancies in bearings and distances; also, affecting Trustees' rights in ancient auwai and roadway;

Application 801 - Hearing called December 10, 1927
Verbal change in description.

In response to petition, filed with the Boundary Commissioner of the First Judicial Circuit, for the settlement of the outside boundaries of the Ili of Waialae-nui (L. C. A. 7713, Apana 50, to Victoria Kamamalu), the Trustees received under date August 2, 1927, Boundary Certificate No. 229, establishing such boundaries on the lines of the map and description furnished by them. This was done as a measure preliminary to the filing of an application for Land Court registration.

The 1927 tax appeal, mentioned in last Report as filed in the Third Taxation Division on portions of Honaunau, South Kona, Hawaii, was duly settled in the Appeal Court (Hilo) on September 24, 1927, being compromised at $64,904 (as against $79,074 assessed), on the understanding that the 1928 (Class "B") returns would be accepted by the Assessor on the basis of 12½ times the annual rents involved.

On the ground that the Hawaii County 1927 tax assessment, as increased by 2/10 of 1% by Act 226, Session Laws 1927, was illegal, the Trustees paid their first installment of 1927 taxes for that County under protest, and withheld from the second installment $1,413.50, or ½ of 2/10 of 1% of $1,413,500 value. The form of the Act, plus the manner in which the rate had been arrived at for the County, raised a question as to the validity of the entire assessment for 1927, but the Trustees, with other protestants, while setting up the invalidity of the legislation and the levy, and claiming a refund of the moneys paid under protest, agreed with the Attorney-General to accept, in principle, the latter's suggestion that the claims be modified so as not to contest the

validity of the entire assessment but only the above-mentioned 2/10 of 1%, and to pay the remainder of the tax without protest on the understanding that the protested portion would be refunded in case the protests were sustained by the Court.

Tax appeals for 1928 were filed in the Third Taxation (Hawaii) Division, and are still pending, as follows:

	Assessed	Returned	Appealed
NORTH HILO			
Umauma, ...	$ 51,187	$ 34,125	$ 17,062
SOUTH HILO			
Alae, ...	$ 55,095	$ 18,365	$ 36,730
Kulaikahonu, ...	56,380	19,600	36,780
Pahoehoe, ...	153,950	55,785	98,165
Honohononui (unleased):			
Beach Reserve 9.37 acs.	5,000	1	4,999
Subdivision 39.04 "	12,400	6,370	6,030
	$282,825	$100,121	$182,704

Co-operating with the Federal authorities in the matter of Prohibition Law enforcement, the Trustees have this year, following arrests and convictions, caused to be evicted from Estate lands the offenders in each case; i. e.,-

Soy Quong, Sub-tenant of Waialae Lease 3873,
Convicted April, 1928; lease canceled July 12th following.

Three Japanese, Sub-tenants of Kapalama Lease 1466,
Convicted March, 1928; ousted forthwith by Lessee - the lease, on this condition, being continued.

Nabe Sodoyama, Sub-tenant of Kapalama Lease 3422,
Convicted April, 1928; ousted forthwith by Lessee - the lease, on this condition, being continued.

Seichi Oshiro, Sub-tenant of Kapalama Lease 2000,
Raided April, 1928; ousted forthwith by Lessee - the lease, on this condition, being continued.

Kamasuke Toyama, Lessee of Kapaakea Lease 2073,
Convicted May, 1928; lease canceled May 4th.

John Silva Barros, Lessee of Waialae Lease 4065,
Convicted May, 1928; lease canceled June 20th following.

KAMEHAMEHA SCHOOLS

Hahaione Farm: The past year has seen substantial progress made in the work of rebuilding the Kamehameha Schools, both as to the Agricultural Branch in Hahaione Valley, at Maunalua, and as to the new site

on the hill back of the present campus at Kapalama. At Hahaione all the buildings are completed, save those intended for the Manager's House and the Dairy, and it is expected that these will be finished early in 1929. On September 1, 1928, the Trustees turned over to the Schools the Poultry Houses, Beef-Cattle Barn and Piggery, with their respective pens and paddocks, a garage and a wash-house, which, with incidental fencing, drains, etc., were constructed directly by the Trustees, who furnished all materials and contracted only for labor. Other buildings turned over at the same time were those moved from other places and re-erected at the Farm; i. e., the Farm-Implement Shed, moved in March from the present Kapalama campus, and the two Laborers' Cottages and Poultry-Keeper's House, moved in May from Waiawa, Ewa, and remodeled to fit the needs at Hahaione. Two other buildings moved from Waiawa were not re-erected, but the materials in them were utilized on the premises in various ways.

The development of the water system required the digging of 850 feet of additional trenches, in order to connect with the water-holes previously sunk by the Trustees near the point of the Hahaione-Kamilonui ridge, which, under pressure of a 9 H. P. Diesel Engine and centrifugal pump, provides ground water sufficient for the irrigation of 6 acres of alfalfa and some 3 acres of other crops. This will be watered by the Skinner System of overhead irrigation. As an addition to the trench and collecting system, the Trustees have provided City water by means of a pipe line laid from the Kuliouou boundary to Hahaione, which will furnish the supply needed for the watering of the Farm stock and for domestic purposes.

As part of the Farm development, the branch road from the Kuliouou boundary to Hahaione was rebuilt and widened from 10 to 16 feet for a distance of approximately 4,000 feet, the materials used being merely those found on the ground and the idea being to lay a more permanent

pavement later. A 16-foot road was also constructed from a point 1,000 feet mauka of the site selected for the Farm Manager's House to the Dairy site, and, on the west side of the Farm, from the Dairy site to a point 300 feet makai of the Piggery; also, 1,300 feet of old road running from the site of the Farm Manager's House to a point about 250 feet below the pump, was improved with telford base and sand-rock-top surfacing.

New Site: While some preliminary clearing had been done, the actual commencement of operations on the new School site at Kapalama may be said to date from March 8, 1928, when ground was broken for the 6,000 linear feet of main road approach, leading in from Ilima Drive on Alewa Heights. It is now complete with telford base and temporary 6-inch coral surfacing, which will be supplemented with permanent surfacing as soon as the heavy hauling incidental to building construction has ceased.

Underground armored cables for transmission of electric light and power, and for telephone service, have also been made, along with the water and sewer lines; and two Pump Houses have been completed, although not yet accepted - one being at the deep well sunk last year by the Trustees at the north corner of Kapalama Avenue and School Street, the other at the "booster pump" located at the 161-foot level near the present 200,000-gallon reservoir, which is 184 feet above sea level. The pipe and cable lines extend from the deep-well pump, through the "booster-pump" site, to the new 500,000-gallon reservoir now under construction at an elevation (overflow) of 850 feet above sea level. The sewer system will connect with the public mains on School Street.

The deep well has been equipped with a Byron-Jackson Turbine Pump designed to deliver water to the reservoir at the 184-foot level, from which point the two motor-driven centrifugal-pump units of the

Allis-Chalmers type, now installed there, will boost the water to the new reservoir at the 850-foot level at the rate of 300 gallons per minute, at a guaranteed efficiency of 62.5%. Both pumps are automatically controlled by means of underground cable connections.

Building operations have necessarily had to wait upon the above preliminary work, but advantage is being taken of the opportunity afforded by road building to have the same contractors excavate for the Parade Ground, Kitchen Court, Girls' Playground, Athletic Field, etc., which work is now about 90% completed.

On February 17th the Trustees authorized working drawings for the Dining Unit, Girls' Gymnasium and Girls' Dormitories "K", "L" and "M". In May Mr. Hardie Phillip, of the architectural firm of The B. G. Goodhue Associates, arrived, and remained in Honolulu several weeks, conferring with the Trustees; and on May 18th preliminary plans were approved for the remainder of the buildings allocated to the first financial unit - these plans including, in addition to those above mentioned, the Arts and Mathematics Building, Library, Senior Practice Cottage, etc. The completion of Groups 1 and 2 of the present plans will provide for 400 boarding pupils: ultimately, it is intended to provide for 600 boarding and 600 day pupils.

After much study of soil, rain-fall and exposures, and of the trees and plants selected, a planting programme, which has been worked out in the field and has met with the general approval of the Architects, has been adopted by the Trustees for use on the approach to the new site. It contemplates a minimum outlay of costs in installation and preliminary cultivation and upkeep, because the plants are on hand in the Trustees' Nursery and are of the types adapted to the conditions prevailing on the projected site. Aesthetically the plan presents a scheme of planting that will be unconventional and unique, will blend with the

landscape, and will enhance the effect of the approach to the buildings, particularly after the Chapel is completed.

Dairy: In September, 1927, 5 registered Jersey cows, purchased in the State of Washington, were received in replacement of a like number of the less desirable Holsteins in the School herd; also, in May, 1928, the Trustees authorized the purchase, as a measure necessary in the improvement of the School stock, of 10 dairy cows, 1 bull, 200 pullets from Waialae Ranch, and 8 cocks from Hollywood, California.

At the Territorial Fair held in Honolulu during the week of August 29, 1927, Kamehameha won a number of prizes on its livestock exhibits, and honors on forage crops and grape-fruit exhibits.

Faculty: At the close of the School year 1926-1927, Miss Abbie H. Newton resigned the principalship of the School for Girls, and has been succeeded by Miss Maude Schaeffer, formerly Dean of the State Teachers' College at Fresno, California. Miss Schaeffer arrived on August 12, 1927, and entered officially upon her duties at the beginning of the new School year, September 1, 1927.

Enrollment: The Schools opened on September 6, 1927, with an enrollment of 426 pupils, and closed on June 6, 1928, with an enrollment of 423, distributed:

	Boarders	Day	Total
Manual Department, B/S, ...	202	19	221
Preparatory Department, B/S, ...	72	--	72
School for Girls, ...	124	6	130
	398	25	423

Full scholarships were awarded during the year to 26 pupils, representing a charge upon the Trust amounting to $1,370.

Graduates numbered 51,- 32 at the Manual; 19 at the School for Girls.

On the morning of October 7, 1927, there were held in Bishop Memorial Chapel exercises commemorative of the Fortieth Anniversary of the opening of the Schools, October 3, 1887. Addresses reminiscent of Mrs. Bishop were made by the Trustees and others.

Details concerning the general activities of the Schools during the year ended June 30, 1928, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

W. O. Smith
A. Lewis
Richard A. Trent

Trustees under the Will and of the Estate of Bernice P. Bishop

Honolulu, Hawaii,
November 22, 1928.

Mr Smith

Aug. 30, 1928

To the Trustees of the
Bernice Pauahi Bishop Estate,
Honolulu, T. H.

Gentlemen:-

Brief Review of the Past Five Year Period: This constitutes my fifth annual report to the Trustees of the Bernice Pauahi Bishop Estate. As the past five years are reviewed, they seem to have been filled with interesting activities and with accomplishments that steadily should make for better Kamehameha Schools. The enrollment has increased to the maximum we are able to care for with the existing equipment, and we have a very considerable waiting list; the teaching personnel is improving year by year; the courses of study have been adapted progressively to the needs of the students; enlargements to old buildings have been made, and temporary new buildings have been erected, to care for the schools' program until the new plant can be completed upon the heights. There seems to be a general recognition in the community that The Kamehameha Schools are now serving the Territory in a very creditable and desirable manner.

A brief review of some of the adjustments made by the Schools during the past five years results in encouragement. The good features of the thirty-five former years of the Schools have been carefully conserved, and upon them have been made many improvements, chief among which may be mentioned the following: The curriculum of the Senior High School has been developed so that whilst it offers excellent training for proficiency in vocations, it affords ample general education to enable students directly to enter the Territorial Normal School and the University of Hawaii; careful counseling of students in the matter of educational and vocational guidance is offered by specially trained counselors; academic courses have been arranged very largely on the unit plan, including projects and activities, so that individual students receive the experiences that they most need; careful diagnostic tests are now made to discover the ability and the needs of the individual students, both mentally and physically, and the teachers take these factors into consideration in the requirements made of the students; various broadening social experiences in all departments of the school life, both as regular course and as extra curricular activities, have been provided so that the pupils may be assured participation in as abundant life as possible.

There has been constant care to avoid the "institutional" characteristics of school life and work; thus, whilst girls do much of the homekeeping about the School for Girls, they cook in a unit kitchen for a family-sized group of their fellow-students, care for a small portion of the house and grounds as if for a family, etc;

students participate to a very large extent in the conduct and government of the Schools through their Student Council and other club-like groups conducted in parliamentary manner, permitting frank discussion and ample opportunity for each student to contribute toward making the school life more normal and satisfactory; students and teachers work together to devise projects which have valuable educational content and which enable each one to contribute something for the betterment of the life at Kamehameha.

The Home Economics training of the girls has been crowned with a twelve weeks' Senior Practice Cottage experience so that the actual work of budgeting expenses, buying, housekeeping, home managing and caring for an infant is done by each girl under the careful supervision of a well-trained teacher and home economist. More advanced work in nursing, commercial subjects, in other vocational training and in music has been afforded the girls. The boys have had added to their experiences a two-year period of "Cooperative Education" in which they alternate between school and industry in two-weeks periods, and by which they acquire an ideal vocational training and a very much-needed general educational knowledge as well.

Practical training in Cane and Pineapple growing has been added to the agricultural course of study; for a time this was on a large scale of production and now it is on the small experimental plot basis; the agricultural plant is being moved to Hahaione Valley, where a large and well-planned farm is the basis of practical training in Animal Husbandry, dairying, poultry husbandry, crop production and forestry. Prior to the removal to Hahaione, the Piggery and Hennery were established in new quarters above School Street where, free from hemorrhagic septicaemia which had routed us from the old piggery site, we steadily carried on instruction in hog production and developed a breeding center capable of stocking the new and larger Hahaione unit. We have added a fine herd of Aberdeen Angus beef cattle, and have culled and added to our swine herds, our dairy stock and our poultry flocks, bringing each unit toward a profit-making basis.

All our equipment for teaching vocations has been added to and improved, thus enabling us to offer training that is equivalent, in so far as is possible in a school, to the work done in the industrial firms of Hawaii; such equipment has been selected as will be suitable for our new buildings and shops soon to be erected.

In order to care for more boarding as well as day students, our buildings have been enlarged and certain new ones built: two faculty residences have been altered so as to house twenty-five students therein; a new lanai dormitory to house twenty-four boys has been erected; a Senior Practice Cottage, a Gymnasium-Auditorium, a boys' Locker Building with baths, and two two-room buildings to care for Seventh and Eighth grade classes and a Nursing class have been added.

Of more importance than the foregoing have been the improvements made in the student personnel and among the faculty. An increased interest in Kamehameha has caused a good waiting list, thus enabling us to secure boys and girls of better character than

909

was possible in many cases in years gone by. This does not preclude some mistakes in selecting students even yet, unfortunately. We have long lists of applicants for teaching positions, and through professional friends we are put in touch with many desirable candidates so that whenever there has been a replacement, we have selected very carefully and thus have assembled a faculty that few secondary schools can equal - considering the group as a whole.

The aim during the past five years has been to lead the students into a desire to become efficient and indispensable servants of society, and to cause the teachers to think of themselves as the friends, companions and guides of the children. The realization of this relationship on the part of the teachers has resulted in a very fine average of professional study and growth. The teachers have worked hard in order that their courses might be laid out more in keeping with the laws of learning and with the trends of modern progressive education. This has been worth to the Schools probably as much as any other improvement mentioned above.

GENERAL CHARACTERISTICS OF THE YEAR 1927-1928

The past year, 1927--1928, seems in many ways to be the best of the five years of the period referred to above. The effectively earnest attitude of the teachers to make definite adjustments of their methods and courses better to aid the students seems to have become more evident than ever before. Plans have been clarified; much work has been done by most of the staff to insure that the students secure what they really need. Improved and standardized measuring tests have encouraged the teachers by revealing to them more reliably the status of each child.

The cooperation and ability of the new Principal of the School for Girls have been a big help in securing results this year in all phases of school life.

Probably the most significant feature of the year has been the unifying of the aims of the Faculty to learn as nearly as possible what are the social, physical and intellectual needs of the students and then to proceed scientifically and wholeheartedly to satisfy these needs. It seems very easy to say the foregoing sentence, but for various reasons, among which have been both an honest disagreement among individual teachers and a disinclination on the part of some teachers to renounce their personal liberties and pleasures, it has taken years to accomplish this essential unity of spirit.

The authorization by the Trustees of the plan to have married house-masters in the boys' dormitories has met with the accord of the Faculty and we have built two apartments for faculty members in dormitories "A" and "B". Also we have arranged to have faculty members and students eating together at the same tables, using the same food, which will afford a type of social contact not heretofore enjoyed by the students.

Practically all our courses are now made over into "units" of learning that are related as directly as practicable to the environment of Hawaii, and independent so far as is practicable of rote learning of formal textual matter. This enables students to think more and to acquire habits of judging and deciding. To effect these units has required many, many hours of work by individual teachers and by Committees.

We have placed greater emphasis during this past year than ever before on the teaching of health habits. Both Faculty and students have been directly and indirectly assisted and urged to live hygienic lives. It is believed that a greater consciousness of errors of eating and exercising has been developed.

A carefully planned program of character training, involving direct teaching, lectures, discussion, study, and lots of "conduct assignments" for practice, has been carried out during the year. Certain features have been voluntary Sunday School attendance, which has worked well; curricular (as well as Sunday School) study of the Bible; and Sunday evening informal discussion of life topics in the separate dormitories. The usual character-forming clubs have been continued also.

The "Cooperative Plan" of education is proving more and more to be a success. It was decided to reduce the term of this type of training from three to two years, so that the students might become a bit older and have somewhat better qualifications as industrial employees, as well as that they might have a little more time during their High School course to do the necessary academic work.

In the School for Girls we have arranged to give a specialized type of training in vocational competency to the girls who do not feel able to take further training for nursing, teaching or commercial work: we now offer sufficient training in nursing to enable these girls to become trained attendants; in weaving, to enable them to make and sell quality products, and in sewing and millinery to enable them to engage in these professions entirely or as a supplement to the work of their homes.

The past year has been much like the year that preceded it, only better; many of the things then in process of development have culminated and others have advanced further during the past year; my report for 1926-1927, in so far as general features are concerned, would practically serve for 1927-1928. The classes have met regularly, the regular and special functions of the Schools have been well and enthusiastically attended, and the student groups have given a good account of themselves when appearing before the public, as they so frequently have been called upon to appear.

Graduates of 1928: The graduating class this year numbered 51, which was eight more than graduated in last year's record-breaking class. Of this number, thirty-two were boys and nineteen were girls. Vocational proficiency was attained by all these students; in the occupations they have qualified as follows: Agriculturists 10, Automobile Mechanics 5, Carpenters 7, Commercial workers 6, electricians 4, machinists 3, nurses (to receive further training) 3, teachers (to receive further training 13.

8 of the girls are going to the University of Hawaii for further study, 5 to the Territorial Normal School, 2 to the Queen's Hospital, 1 to St. Luke's Hospital in San Francisco, and 3 go directly into commercial positions. The boys plan to go as follows: 11 will go to the University of Hawaii to study further in Agriculture or Applied Arts, 16 will go into skilled trades for which they have received specific training in Kamehameha, 1 will go into commercial work and 4 will go into Drafting and Surveying work. Every one of these boys, through the "Cooperative" system of training, had a good position awaiting him and for which he had been trained at Kamehameha.

Faculty Professional Study: In addition to the very considerable study made by the members of the Faculty during the past year in re-writing their own courses of study and textual matter, all participated in a study of Dr. H. C. Morrison's new book, "The Practice of Teaching in the Secondary School". Teachers were very careful to attend professional gatherings when held in the city, such as the Oahu Teachers' Association Convention, the Hawaii Educational Association Convention, etc.

The following faculty members took special courses of study during the year: Mr. A. M. Church, Mr. C. G. Banning, Mr. C. T. Leaf and Mr. K. O. Moe of the School for Boys; Miss S. Katherine Burgner, Miss Mildred Lamb, Miss Eleanor Van Etten and Miss Winifred E. Wing of the School for Girls; Miss Hannah P. Brown in the Preparatory Department.

ENROLLMENT.

The enrollment in the School for Boys and the School for Girls has been up to the limit of our capacity during the past year; the Preparatory Department has had a few vacancies.

The variations in enrollment during the year have been about as usual, and for practically the same usual run of reasons. A few students have dropped out on account of lack of moral fiber.

The following tables are of interest and show enrollment figures for the past year and for the four years preceding:

Enrollment Record 1927--1928

	Enrolled in Sept.	Entered during year	Left during year	Enrolled in June

Totals:

367	413	438	426	13	14	11	13	29	18	23	16	352	408	426	423

The enrollment by grades at the end of the school year is shown as follows:

Grade	V	VI	VII	VIII	IX	X	Low XI	High XI	XII	Totals
K.S.B.			20	21	47	33	37	32	31	221
K.S.G.			12	19	29	30		21	19	130
P. D.	47	25								72
Totals:	47	25	32	40	76	63	37	53	50	423

It seems that with a few exceptions (usually consisting of students who are falling behind in the 7th and 8th Grades of the public schools) our 7th and 8th Grades in the School for Boys are comprised of graduates of our Preparatory Department. This reflects the fact that the Junior High Schools on other islands are holding the children there. This condition will have to be met when our Preparatory Department is discontinued.

CURRICULUM

The courses of study are now quite well drawn up, specific units, projects and activities having been prepared by practically all the teachers. These courses are being prepared in mimeographed form for use during the coming year. After a year's application, and when such amendments as may be found necessary have been made, we shall print these courses of study. It is to be understood that no course is ever completely satisfactory or beyond need of revision, but we are getting our work definitely laid out in a progressive manner that will be a distinct contribution to education in these islands. Already much of our material is being taken and incorporated into the courses of study of other schools.

CURRICULUM - SPECIAL SUBJECTS

SCHOOL FOR BOYS: PREPARATORY DEPARTMENT

Applied Arts: Mr. Milton Ballengee, a new teacher, has taken these courses during the sabbatical year's leave of Miss Nevada Moore, and has kept a high interest and acquired considerable increase in skill and knowledge on the part of his students. The most of the work during the past year was with wood and leather. The boys did a desirable amount of free hand sketching for their jobs. Also they made several field trips to factories and to material supply firms. Most of the articles made were toys desired by the boys, or useful household articles.

Physical Education: The physical activities of the boys of Grades V and VI have been better carried out during the past year than they have been for several years heretofore; the work has been under the supervision of Mr. Bruce MacLeod, also a new man in the Schools. Gardening, informal play, supervised games, and formal sports have kept the boys busy. More attention has been given to formation of health habits. The nurse, Miss Agnes M. Chambers, has cooperated well in this type of training.

SCHOOL FOR BOYS: MANUAL DEPARTMENT

Forge and Sheet Metal Work: Boys of the 8th Grade had a very fine course of learning under a master mechanic and master teacher, Mr. Chas. Crozier, during the past year. These boys made many useful mechanics' tools, a farm dray, and several sheet metal articles for the kitchens, for roof drainage, etc.

Pattern Making and Casting: We were unable to install our small foundry equipment last year. Several patterns were made and rough casts made in the small furnaces, however, under Mr. Crozier's direction. Each boy is expected to have a small amount of this type of work so as to acquaint him completely with the process of taking an idea from blue-print to finished machined part.

911

Printing: An excellent quality of general education, training in English, and vocation training has been afforded through our well-equipped print shop, with carefully planned units of study presented by Mr. Adolph G. Hottendorf. In addition to a large quantity of job work, we regularly publish "The Cadet", our weekly newspaper, "Ka Hoaloha", the monthly paper of the Hawaiian Board, printed in Hawaiian; the School Annual "Ka Moi", and the Schools' annual catalog. Also two booklets prepared by the faculty members were printed and published by our printing classes last year - "The Cane Project" by Mr. Moe and "Common Diseases of Children" by Miss Saunders.

Woodworking and Carpentry: The training in carpentry and woodworking seems effectively to prepare our boys for the best type of such work in the islands. This work has been under Mr. Earle L. Russell. It involves not only development of skill in the use of hand tools, but also a knowledge of blue-print reading, material estimating, concrete work, structural and reinforcing steel, and power woodworking machines. Like all the rest of our shop courses, much of the instruction is specific training in the work which the boys are called upon to do in industry on their "Cooperative" shifts.

Agriculture:

(1)Gardening: The gardens have been used as projects to illustrate elementary agronomy and the elementary accounting for and managing of a small agricultural enterprise. Small plots were leased to selected students under restrictions. The Schools furnished the ground and water and did the heavy machine plowing and harrowing; the student furnished the seed, the labor and the management. The plots were small but served quite well to interest boys in the work and to teach them principles. All work was under the supervision of Mr. Kilmer O. Moe. $81.55 worth of vegetables were sold to the campus dining halls at market prices; there were 8 boys sharing in the work, each receiving $5.11 as his share of the profits. Half the gross income went to the Schools. Only about a quarter acre was occupied by the gardens of the School for Boys, students having so many other requirements that it is impracticable to require them to tend large plots.

(2) Cane: Growing of cane was practiced on a small experimental plot basis during the past year. Fertilizer, water, variety and effect of shade experiments were conducted. We now have a half acre of cane, with varying factors effecting growth in the different plots recorded, all surrounded by a high fence so that we hope to be able to carry the experiments through to completion without interference of molesting small boys.

We have rather missed the stimulating job that we had in connection with our seven and one-half acres of cane recently surrendered to the City and County. From the standpoint of science, the small plots are allright, but there is a lack of the generation of morale that is so valuable to adolescents and that we found in the big Cane Harvest Day. We now shall look elsewhere for our big events in connection with Agriculture.

(3) Pineapples: We have given only theoretical and textual study, supplemented with field trips, in pineapples this past year. Probably later the mauka areas of Hahaione Valley will lend themselves satisfactorily to pineapple culture and study.

(4) Animal Husbandry: The provision by the Trustees of the modern, carefully planned and economical piggery and hennery at Hahaione Valley encourages every one interested in the success of general agriculture and general education in Hawaii. The outlook for success in pig and beef cattle raising, as well as in egg and poultry production and in dairying is one of promise wherever the natural conditions are satisfactory in the islands. Furthermore, any knowledge of general agriculture is of considerable value to any Kamehameha student who may later be engaged in cane or pineapple production, or even in other than agricultural occupations. It would be to the general commercial advantage of these islands and to the specific advantage of many a family if much more general farming and food producing were being carried on in Hawaii.

It is hoped that during the year conclusions as to the water supply at Hahaione will justify the removal of the Dairy to this site. The Trustees' decision to cull out unproductive cows and replace them with stock to be carefully selected personally by Mr. Paul A. Gantt, in charge of our Animal Husbandry instruction, and to increase the size of our dairy herd will go far toward enabling us to produce much more milk and operate the dairy at a profit. Heretofore, with only about 20 to 22 cows being in milk at one time, our overhead has been relatively too high for our income.

(# Total Income includes Inventory adjustment $5611.20)

215

In all of our previous experience, except in two years when we culled large numbers of dairy cattle or when we increased our inventories greatly (in 1925-1926 by $5611.20) by capital appropriation additions of new stock, we have operated the farm and garden at a loss averaging about $4150.00 per year. This past year our loss was $4233.00. During the past year we have been building up our herds and our "Feed Purchased" item has greatly increased. Our hog sales are now beginning to be quite substantial, however, and we believe showing a good profit. We hope to cut our loss in two during the coming year, the next year to break even, and each succeeding year to show a profit.

Farm Income (Receipts)

1927-28	10763.	1204.	4555.	2382.	2859.	---	21763.

Our hennery is developing very satisfactorily due to hatchings and to favorable purchases of purebred pullets from Waialae Ranch. Samuel Vida, a graduate of Kamehameha in the class of 1926, is handling the poultry well under Mr. Gantt's direction.

(5) Forestry: Forestry is taught as a phase of agriculture and the emphasis is laid upon the relation between forests and field production. The value of fruit trees and the importance of horticulture are presented to the students, and students are taught how to germinate tree seeds, bring seedlings to planting size by potting, transplanting, tempering to wind, sun, etc., and how to select site and set out the small trees. The processes of fertilizing and grafting are carried on. This work has been under the direction of Mr. Moe and has resulted in considerable knowledge and interest in the classes. The proximity of the nursery of the Bishop Estate and the Schools' nursery has been of great benefit to our boys, since the high standards of a nursery on a commercial basis have been in view of our boys constantly. We shall have a problem how to keep our work up to highest standards

without the influence of the Estate Nursery close by. However, this is a problem in all school shop work; it is solved by the standards of training required by the instructor himself and, in an important manner, by the experience in industry that comes in the "cooperative" years.

Last Spring, under the direction of Mr. A. F. Judd, selected students from the School for Boys took part in a "Ficus Planting Day". This problem served to show the boys the approved method of planting Ficus trees so as to overcome low growing pests, to interest the boys in preserving and caring for the forests, and to give the boys an opportunity to participate in improving the new campus. The whole thing was of considerable educational value.

Last Fall, following our custom for the past several years, the Schools united on Arbor Day to set out memorial groves of trees in Kapalama Valley, back of the site of the new schools. The planting exercises were worth while and we hope will leave their mark of improvement on the valley. Also the spirit of cooperation and the stimulation of the project served admirably to build up a good morale and an attitude toward bettering the Schools. Probably in Arbor Day projects we may find the desired substitute for our lost Cane Harvest Project.

Electric Shop: Instruction in the electric shop was resumed by Mr. C. V. Budd after his year's substitution as Coordinator during Mr. Banning's sabbatical year's leave. Mr. Budd's classes are well handled; the boys worked seriously and received good training. Applied School work is largely electric distribution and repair of motors and fixtures. Theory is studied in class, and more advanced and varied training is afforded through the "Cooperative" education plan, particularly to those boys who are employed on the plantations where so much new electrifying is being done at present.

Machine Shop: Training in machine practice is quite specific, consisting of a carefully planned series of jobs on the floor, at the bench and with the machines. This work has been handled by Mr. George H. Kennedy, who will enjoy his sabbatical leave this year, during which time the work will be under Mr. Fred O. Wilkins, who heretofore has been Shop Assistant. Several of our jobs the past year have been work turned over to us by the Hawaiian Pineapple Company for our students to do on a "cost plus" basis.

Automobile Shop: Mr. Charles T. Parrent is steadily improving the type and scope of training offered our boys who wish to become automobile mechanics. The Trustees' authorization of purchase of new machines and equipment for this shop has enabled us to prepare our boys to do a high grade of work, and hence our "cooperative" students and graduates are able to become very well placed even in a field that is overrun and swamped by earnest though poorly prepared Oriental boys. The cost of equipment for this shop, when we move to our new plant, will be very small.

Drafting: We now have five years of drafting to offer our students who care for this type of work. Excellent courses are under the direction of Mr. Robert F. Lowrie, and include plates in free-hand drawing, machine design and drafting, and architectural design.

Business Training: It has been impracticable for us to provide for typewriting courses for our students (except for a few who go to classes at the School for Girls) on account of the lack of classroom space. There is no doubt as to the merit of typing as an aid to English learning, as well as an exploratory course to see which students may do well in commercial positions. We now offer a good course in business arithmetic and an elementary course in accounting. Our students sadly lack in knowledge of accounts. As time goes on, we hope to provide more of this sort of education for all our boys, so that, regardless of what occupations they follow, they may know the principles of business and of accounting. At the present time a few of our students go over to the School for Girls for Commercial training and have good jobs with Honolulu business firms during their "cooperative" years.

Plan of Vocational Experience: Only slight changes have been made in our general layout for vocational training during the past year, to become effective this Fall. We plan to divide the Seventh Grade between Print Shop and Forge Shop; and to divide the Eighth Grade between Forge Shop and Carpentry Shop. This will provide a desirable variety in the Seventh Grade, which was all Print Shop work last year. In the Ninth Grade, due to the fact that so many of our students enter this grade from other schools, we plan to give all students in this class rotating periods of six weeks in each of the following "shops" for the sake of exploration and vocational guidance: Electricity, Elementary Accounting, Printing, Machine Shop, Agriculture, and Automobile Shop. The Tenth Grade and Low Eleventh Grade will be spent full time on an elected vocational course in preparation for taking a job in Industry on the "cooperative" plan during the High Eleventh and Twelfth Grades.

"Cooperative"Plan of Education: The "Cooperative" plan of education seems to be the only adequate system for teaching a vocation in the schools. Other methods fall far short of desired results. We believe more than ever in the value of this training now being carried on at Kamehameha. The system has been in effect during four years at The Kamehameha School for Boys. It is believed that two years of experience of this sort is sufficient, and hence we now offer it only during the last two years of school. The success of the plan depends largely upon the Coordinator, Mr. Claude G. Banning, and his ability to keep proper relation between the Schools and the Employers.

Statistics of our Cooperative Group for last year follow:

Military Training: Capt. Thomas E. May, U.S.A. Infantry, D.O.L. has proved to be an excellent Commandant of Cadets during his first year with us, and the battalion has done very well under him. Kamehameha's Class "M" standing as an R.O.T.C. unit enables our students (the only secondary students in the Islands to be so favored) to attend the R.O.T.C. encampment at Schofield in the summer in order to qualify as Reserve Second Lieutenants in the U.S. Army. The following boys thus attended the camp this summer and won their Reserve Commissions: Simeon Akaka, James Huddy, Samuel Rogers, and Solomon Choy Tung.

Music: Miss Laura E. Brown has given us another progressive year of music. She has acted as head of this department, has taught class choruses, glee club singing, choir singing, and individual and small group singing. Under her leadership our Boys' Glee Club again won the Inter-island Glee Club Championship, the Boys' Club successfully toured Kauai, and the Girls' Glee Club made a fine impression on the island of Hawaii. Miss Mildred Lamb did well with the symphony orchestra and with some chorus and piano groups. Miss Eleanor Van Etten proved to be an excellent piano teacher and instructor in "kinder-symphony". The band had a good year under Mr. Anthony Sanuy, Bandmaster of the 64th Coast Artillery Band at Fort Shafter. Mrs. Florence Campbell helped Miss Brown train the Preparatory boys, who have had training in chorus, harmonica and piano. Our various musical units have been in great demand throughout the year, having had probably three times as many calls to perform as we were willing to let them accept; nevertheless, we have generously contributed in various places and on many occasions.

Physical Education: We have worked out an excellent syllabus of Health Education for the Schools, which is published in mimeographed form for the coming year. Our program during the past year has been very good on the whole, with Mr. William Wise acting as Physical Director, coach of football and baseball, and teacher of hygiene; and with Captain May as Assistant Physical Director. Many faculty members assisted in coaching various sports. All students had a physical examination and all participated in informal play and in organized sports in so far as their physical conditions justified their doing so. Inter-dormitory sports were carried on throughout the year so that every boy took part in sports unless excused by the Doctor. Though we won no Interscholastic championships last year, we made a very creditable showing in every season.

We rely greatly upon our physical activities as opportunities for permanent character improvement among the boys. Kamehameha is well organized and is doing well in Health Education, I believe.

SCHOOL FOR GIRLS: (Curriculum - Special subjects)

General Homemaking: All girls do a considerable amount of general housekeeping work each day. This is under the careful supervision of the Housemothers, Miss Frances A. Lemmon and Miss Mary L. Stimson, with certain supervision by the Assistant Matrons, Miss Daisy Bell and Mrs. Dora Pahu, (both graduates of Kamehameha School for Girls). These home-making tasks make a strenuous day's program, but they are of great value in the development of social efficiency and cooperation among the girls. Training in this line includes work in sewing, cleaning, ordering, answering phone calls, receiving guests, etc., and is coordinated with the regular scheduled class work of Home Economics.

Cooking: The girls have ample opportunity to learn the theory and practice of cooking and dietetics in connection with the preparation of meals for small groups of their fellow-students, on certain occasions for faculty groups and guests, and for patients in the hospital. The cooking is done in unit kitchens and the theory thereof is studied under the teachers of Home Economics, Miss Rowena Anderson and Mrs. Peggy Kurtsahn, assisted by Miss Daisy Bell. As carried on in the Kamehameha School for Girls, work in cooking is according to the approved Project Method: food is prepared for, and is served at, the table of six or eight of one's classmates who judge the results.

Nursing: All girls are given instruction in First Aid, diet for the sick, general nursing and care of the sick, prenatal care, and infant care. Also stress is laid on principles of preventive medicine and health conservation. The theory of the subject is usually connected with the practice in our Hospital and in the Senior Practice Cottage where an infant is cared for. Each year several of our girls who have graduated proceed to the Queen's and other hospitals for regular nurse's training. In this vocation Kamehameha graduates seem to do very well. Miss Ora L. Saunders, R.N. is the teacher in charge. She is assisted by Dr. E. D. Kilbourne, School Physician and by the supervisor of the Practice Cottage.

Sewing and Millinery: Miss Emma S. Noeckel offers very effective training to our girls in sewing and millinery. Each year each of our girls makes several dresses and a hat or two for herself. Of course this is an ideal set-up for learning. Though very few of our graduates follow this line of work vocationally, they have in sewing and millinery a trade that would supplement their family income if they should need to increase this income in later years.

Senior Practice Cottage: Most practical education is afforded in cooking, sewing, ordering, budgeting, receiving, cleaning, and all the arts and coordinations necessary in a family of eight or nine persons, through a twelve weeks' experience in our Senior Practice Cottage. This Cottage tour crowns the work of our Home Economics training. Each year the girls secure an infant and, through caring for him they correctly learn that very important function of woman-kind, - the proper bringing up of children. Last year the supervisor of the Cottage was Mrs. Peggy Heath Kurtsahn.

Commercial Training: During the past year all Ninth Grade girls had instruction in typing, which instruction had a definite value in improving the mechanics of their English. Although most of our girls have a rather restricted English and cultural background, each year we graduate from two to four who successfully find satisfactory niches in business or other offices. Miss Laura Duvauchelle and Miss Alice Forsythe, both recent Kamehameha graduates, are doing very good work at the present time in the President's office. Typing, stenography, use of office machines and commercial arithmetic and law are taught by Miss Gladys Schumaker; Office Practice by Miss Mary De Land, the latter being Girls' School Secretary. Most of the advanced typing, duplicating machine work, and the office practice is in connection with regular and required clerical jobs of the Schools.

Music: More work has been done in the line of music in the School for Girls this past year than heretofore. In addition to the well-conducted classwork, arranged systematically from 7th to 12th grade, the piano instruction, orchestra training and Glee and Chorus singing, we have had two new and valuable departures. Miss Eleanor Van Etten, who was teacher of Piano during Miss Norma Olsen's leave of absence, conducted a "Kinder Symphony" for younger girls, in which symphony the girls became familiar with orchestra conducting, instruments, etc; Miss Laura E. Brown has given individual instruction in harmony and other theoretical aspects of music to two girls who manifested special talent. Miss Eleanor Van Etten proved to be an effective teacher of piano; we hope to have her return to Kamehameha at some later date. Work with the orchestra was satisfactorily handled by Miss Mildred Lamb.

Art: The harmonious embellishment of the home is the keynote of our art courses. Girls are taught the main considerations of furniture selection, interior decoration, dress design, etc. Also the classes, which are under Miss Winifred E. Wing, strive to secure a color and form appreciation. Some practical poster work is done, and plates are made for use in the School Annual and in the weekly newspaper.

Physical Education: A thorough physical examination, followed by properly selected work, daily hygiene and recreation, including much play, has been the aim of Miss Mayme Tangen in her Physical Education courses. The girls have all engaged in some sort of out-of-door play as well as in social games. They have engaged in original health plays and dramatics that have held the interest of the girls and have impressed on the entire school the value of hygienic daily living. On different occasions several "good conduct" boys have been invited over to engage in games with the girls; this has been beneficial, to a certain extent, in correcting lacks due to the segregation of the sexes.

Weaving: We are planning to offer training in fine weaving for girls who have a flair for such arts, or who may be rather too motor-minded to succeed in the regular academic course. Ability in this craft would enable a woman to do weaving in her own home or in a small factory, thus supplementing the family income. Mrs. Dora Pahu, a graduate of the School for Girls, has had special training in these subjects and will teach weaving.

CURRICULUM: SPECIAL SUBJECTS; GENERAL CONSIDERATIONS

The courses in special subjects as outlined above offer a very valuable general educational experience as well as specific opportunity for vocational proficiency to Kamehameha boys and girls. It is planned that every graduate of Kamehameha will have a vocational competency when he leaves the Schools. The introduction of weaving as a subject for girls should tend to balance the opportunities in similar lines afforded the boys. Our courses are so planned that they apply well when the student goes directly into industry upon graduation, and also furnish a basis for further technical study at the University, Normal School, Nurses' Training School, etc.

CURRICULUM: "Constants" or Academic Subjects School for Boys and School for Girls.

English: Steady and definite gains are being made constantly in our English teaching and in the type of English spoken and written on the campus. For one thing, we must admit that we are getting many students from homes where English is spoken better than it was spoken in most of the homes of our students in former days. This is very significant, for it is almost a hopeless task to try to secure native English facility in one who, up to his adolescence, has used "pidgin". However, there is still great room for improvement, and we are getting encouraging results in this area. We continue to rely upon the weekly school newspaper, appearances in assembly, and other projects as will develop a desire to speak and write well. Using such motivation, we are emphasizing correctness and are affording an increased amount of drill. We have a wide range of social situations arranged for in which the student desires to speak good English. Also, we have increased the number of hours given to class instruction in English. Training in Oral Expression has been emphasized. The instruction has been under Mr. George Odgers, Mr. A. M. Church, Mr. Frederick Withington and Mr. Glen E. Josephson in the School for Boys, and under Miss Emma E. Winslow and Miss Carrie Mae Whaley in the School for Girls. English in the Preparatory Department has been taught by the grade teachers, Mrs. Susie E. Davis, Miss Elizabeth Ferguson and Miss Hannah Brown.

We are trying to have every teacher a teacher of English, and more and more this idea is being put into practice. This is a method that must be operative before we can get the results we desire.

Mathematics: Mathematics is one of the most difficult of all branches of learning to "motivate" since so much more mathematics is usually taught than is needed in an average life. Our teachers make every effort to relate mathematics to the life and practices of Hawaii, and they use many methods to keep the students' interest as high as possible, so that learning will be facilitated. Miss Mabel Catlin in the School for Girls has been especially successful with her School Store Project, and her records of budgets, schooling expense, merchandising accounts, etc. Work in the School for Boys and in the Preparatory Dep't. is still rather more formal and more inclusive than we hope to make it. Mr. Wm. B. Caldwell has had excellent results in teaching arithmetic fundamentals and Mr. Curtis T. Leaf has carried on an interesting experiment

in Algebra which shows that the individual instruction sheets are a decided advantage over the old class type of teaching. We are developing units which serve better to relate mathematics to our shop work and to the experiences which our boys have in their cooperative periods.

Science: Work in Science has been along the same line as in previous years except that specific units aiming to develop a mastery of the larger general phases of the students' environment have been worked out by the teachers. These units enable the student to get a grasp of certain important life considerations and relationships, whereas the old plan of teaching science was to require the student to memorize a large number of facts, usually interesting in themselves but also usually not well related to each other or to the student's life. Mr. Edwin Bonsey in the School for Boys and Miss Mabel Catlin in the School for Girls have taught Sciences. Great importance is attached to the teaching of Biology, especially the aspects of biology that relate to the human being.

Social Sciences: The teaching of History, Geography, Civics and Occupations has been arranged in unit form and herein also the desire has been to see that the student masters certain great ideas of mankind's conduct and growth is emphasized and is used to inculcate an appreciation of larger citizenship duties; school elections are held, student cooperative government is carried on, etc; all under careful teacher supervision. Exhibits of ancient and modern craftsmanship, of trade routes, of old and new documents of note, etc., are used to develop interest and to fix historical and geographical facts in the students' memories. An effort is made to remove prejudices of race and sect from the students' minds, and Hawaii's industrial and social history is studied. These subjects have been taught by Mr. J. W. Garrett and Miss Katherine Burgner.

Hawaiian Language: The students have been interested in and apparently have profited by the course in Hawaiian language offered to both boys and girls by Mr. John Wise. The course is open to Juniors and Seniors as an elective. We are preparing a new text-book for these classes.

7th and 8th Grades: The departmentalization of young students in Grades Seven and Eight was discontinued two years ago in Kamehameha, except for such highly specialized subjects as shop work, art, music and physical education. One teacher, Miss Carrie M. Whaley, presents English, Mathematics, Science and Social Science in the 7th Grade for Girls; Mr. Glen E. Josephson has the 7th Grade for Boys and Mr. Wm. B. Caldwell the 8th Grade. In the case of the latter two teachers, each has his specially strong points and each is not so strong in some respects, so that an integrated teaching has not been carried out quite so well as it has been in the School for Girls. Mr. Josephson has had English in both grades, while Mr. Caldwell has had Arithmetic in both. However, the classes are side by side in the same small building, the periods are long and rather informally carried on, and departmentalization is not so sharp as it is in most Junior High Schools. It is proving desirable for our younger students not to send them here and there for various academic subjects, but to keep them under one teacher in so far as possible, in order that the integrated and all-round success of

2035

the students may be the definite responsibility of some one; under the departmental plan we found one teacher chiefly concerned with teaching English, one with teaching Mathematics, etc., and no one specially responsible for the final success of the child as an individual.

Extra-Curricular Activities: All extra-curricular activities are carefully supervised by the Schools and are under Faculty advisors. The aims and the content of the activities are educational, and in many cases are found to be even better educational investments of the students' time than the more formal type of recitation. Each student participates in two or more extra-curricular activities, care being used in advising in which of these Clubs or groups a student would receive the greatest benefit. Such activities complement the regular school subjects and provide a fuller social life for students. The clubs range from character-forming clubs, such as the Hi-Y, Girl Scouts, Sir Galahad Club, Student Council, etc., through "subject" Clubs, such as Science Club, "Aggie" Club, etc. to the more recreational type, such as Boxing Club, Hiking Club, etc. Athletic sports are classed as extra-curricular activities, although like all other extra-curricular enterprises, these sports are on the regular school program, are directed by a member of the Faculty, and are known to contribute in an important way to a student's education. It is fortunate that several of these extra-curricular activities allow the boys and girls to work together co-educationally.

Character Training: Although one of the great objectives of all Kamehameha experience is character development, we have come to the conclusion that there is merit in a systematic study and discussion of ethical and character-building principles. The activities of the Hi-Y Club, Sir Galahad Club, Girl Scouts, Girl Reserves, Student Councils, and other such clubs are so planned as to be character-developing. Teachers are reminded ever to be on the alert to set a good example before the students, and to discuss carefully any question in which the student finds difficulty. Regular informal discussions on Sunday evenings are held in each dormitory in order to develop a little more of the home feeling and in order to give the students a chance to express themselves concerning a carefully planned set of life problems. In this way we systematically cover many points that, in years gone by, we erroneously took it for granted did not need to be brought up but were clear in the students' minds. In addition to usual Sunday services, including church and Sunday School, we have had one period of Bible Study each week as a part of the regular school program. These classes have been conducted by Mr. Lloyd G. Davis, Mr. Alfred M. Church, Mr. Frederick Withington and Miss Mary L. Stimson. Our Acting Pastor for Bishop Memorial Church has been Rev. Henry P. Judd. Mr. Judd has been especially helpful to us because of his knowledge of Hawaiians and of his intimate relationships with the religious work among the Hawaiians in the Territory.

We now have a bulletin giving details of our religious and character eduvation program and describing our experience along this line during the past year. It would be advantageous to review this bulletin in connection with this my Annual Report.

Those who have delivered the Sunday morning addresses in Bishop Memorial Church during the past year are: (see next page)

Field Trips: Honolulu offers opportunities par excellence for field trips illustrating History, Geography, Natural Science, Art, Government, Business and Commerce, Transportation, Industry and Agriculture, and many other phases of the life and activity of man. Our teachers now carefully plan such trips definitely to accomplish one or two things and then the class is taken out to observe. Usually the students assist in the planning and management of the trips; always they discuss and report on their findings. Our two Cadillac touring cars that are now converted into buses greatly facilitate field trips.

Health: Our program of Health Education has been improved during the past year and we hope that during the coming year we may carry out the details of an excellent syllabus now prepared in mimeographed form as a guide. At present what we are aiming toward is thorough physical examination routine, following which we shall know what each student needs and can offer that type of training, observation, dieting, and general hygiene that will produce maximum physical, and hence mental, efficiency. Our nurses have been very alert and have prevented many isolated cases of contagion from becoming epidemics. In spite of all efforts, however, we did have several cases of mumps in the Boys' School, and several cases of influenza. One thing that annoyed us greatly was the improper diagnosis of a run of sore throats in the Girls' School as diphtheria. We suffered because the technician of the Territorial Board of Health failed to use the only adequate sure check of his microscopic findings, - that is, he failed to try to produce the disease in guinea pigs.

Valuable discussions on the subject of social and sexual hygiene were led by Dr. Nils P. Larsen among the boys, and by Dr. Edith Hale Swift among the girls. Several sessions were given over to both speakers.

Table of Operations:

	1922-1923	1923-1924	1924-1925	1925-1926	1926-1927	1927-1928

Dr. E. D. Kilbourne, our School Physician, has served us very faithfully for many years. We lost an excellent man in his decision to reside on the Mainland. Our School Dentist, Dr. Joseph A.Pekelo, a graduate of Kamehameha, has handled more work than we have had done in any previous year. The Trustees' decision to employ the dentist for five full mornings each week will result in much better oral hygiene and tooth repair among our students, many of whom sorely need dental work. Not enough can be said for the reliable service rendered by our School Nurses, Miss Ida McGoldrick, Miss Ora L. Saunders and Miss Agnes M. Chambers.

The following table shows the Schools' costs in furnishing the services of a doctor and a dentist:

	Total paid to Dentist	Total paid to Doctor	Re-collected from pupils Dentist:	Doctor:	Bal. paid by Schools Dentist	Bal.paid By Schools Doctor
1917-18	$2071.00	$1000.00	$634.00	$634.00	$1437.00	$366.00
1918-19	1813.00	1020.00	676.00	676.00	1137.00	344.00
1919-20	2356.50	1020.00	681.00	681.00	1675.00	339.00
1920-21	2998.50	1500.00	687.00	687.00	2311.50	813.00
1921-22	2025.00	1500.00	678.00	678.00	1347.00	822.00
1922-23	2305.70	1500.00	685.00	685.00	1620.70	815.00
1923-24	1164.15	1500.00	739.00	739.00	425.15	761000
1924-25	1448.00	1500.00	995.00	995.00	453.00	505.00
1925-26	1203.50	1500.00	1052.50	1052.50	151.00	447.50
1926-27	2109.50	1500.00	1038.75	1038.75	1070.75	461.25
1927-28	2046.50	1500.00	1007.50	1007.50	1039.00	492.50

BOARDING DEPARTMENT

Although our menus have been improved during the past year, due to careful management and quantity buying we have had slightly less expense than we had during the preceding year. We have succeeded in getting the students to eat and enjoy more vegetables, though we must keep at education along this line. Next year, because we shall have students and teachers eating together more frequently, and also because we have reduced our "cooperative" years to two and will have more students continually in the Dining Hall of the School for Boys, we estimate that our board costs will be increased by about $5600.00 over costs of this year. This increase has been authorized by the Trustees and allowance made in this year's budget.

DORMITORY HOME LIFE

Genuine progress has been made in developing among Faculty and students the idea of a need for more social contacts between these two groups. In cottages "A" and "C" we now have living married instructors; in Dormitories "A" and "B" we have provided this summer for married faculty members in both of which dormitories the ladies are to act as housemothers. In each of the other three dormitories we shall have living one or two instructors. All these unmarried teachers and the housemothers, as well as several other members of our

staff will have their meals at tables with the boys. Similar arrangements are made for the girls. Reference has been made above to the various informal discussion groups in the dormitories. Also we have arranged for the boys to have "big brothers" among the Faculty members. Thus eight, ten or twelve boys will be looked after very specially by a selected Faculty Advisor, who will take an intimate personal responsibility for these boys, getting acquainted with the boys' homes and relatives, making a close friendship with each boy, and serving the boy in any way that a study of his case may show to be necessary.

It is a pleasure to note that nearly all our students turn out well morally, but it is discouraging to learn from time to time that certain of them weaken and yield disastrously to temptation.

OPERATING EXPENSES

Two items of our budget advance in considerable amounts each year: "Instruction" costs increase because we keep our good teachers for allong period of years and give them normal advances in salary each year; "Administration and General" similarly involves the salaries of many employees and includes the Trustees' contributions toward the purchase of annuities and of pensions, which increase each year. The item "Upkeep of Grounds" was too high last year, partially due to too little supervision and management. We now have these costs running at a more reasonable figure and expect to reduce expenses of this sort during the coming year. "Industrial Operations" is an account that varies rather widely from year to year. Last year our expense in this account was larger than usual due to the fact that we are steadily building up our herds and poultry, our alfalfa fields, etc. at Hahaione, and as yet our income is relatively small. Recently our receipts have started to show a fair volume and hence the net Industrial Operations account will be considerably smaller next year.

Although certain items varied one way or another from our estimates of a year ago, we were able to remain within our authorized budget of $288,750.00 In our last Annual Report we estimated that our net annual per capita costs would be approximately $600.00. They have been $614.69. Of course per capita costs will rise a little each year until we begin again to increase our enrollment - a thing we cannot do in the existing plant.

Comparative figures for five years ago, for 1923-24, 1925-26, and 1926-27, as well as for the past year are shown herewith:

	Expenses 1923-24	Expenses 1925-26	Expenses 1926-27	Expenses 1927-28
Maint. of Bldgs.	$25564.	$10578.	$12438.	$12578.
Upkeep of Grounds	14965.	14191.	13676.	16125.
Water, Lt. & Sewerage	6206.	5763.	5662.	5300.
Industrial Operation	7197.	10943.	4696.	14436.
Instruction	62689.	80420.	88421.	96839.
Boarding Expense	61038.	69330.	67445.	67241.
Religious & Social	5155.	2977.	2584.	3589.
Care of Health	10356.	12337.	14000.	12736.
Administration & Gen'l.	48628.	51095.	51494.	58045.
	$ 241803.	$257638.	$ 260420.	$ 286893.
Income from Tuitions, etc.	22173.	23783.	24437.	25649.
Net Cost	$ 219630.	$233855.	$ 235983.	$ 261244.
Average enrollment for the year	359	412	431	425
Average net Per Capita costs	$611.78	$567.60	$547.52	$614.69

ACCOUNTS RECEIVABLE

The following Comparative table shows that our Accounts Receivable are quite well in hand. Most of the accounts payable as of June 30, 1928 (the figure shown below) have been paid prior to the present writing.

	1924-25	1925-26	1926-27	1927-28
Charges . . .	$68834.13	$79039.06	$80552.09	$81823.42
Collections . .	61863.76	72762.72	76459.29	76994.50
Outstanding Accounts	$ 6970.37	$ 6276.34	$ 4092.00	$ 4828.92

FACULTY AND STAFF

It is a great pleasure to speak of the fine spirit of cooperation and of professional service that exists at present in our Faculty and staff. Nearly all our teachers have given most generously and effectively of their time and strength. Our Faculty on the whole in ability and attitude is far above what one would find in most secondary schools. Reference has been made above (under the heading "Faculty Professional Study") to the special studies pursued by various members of the group.

Miss Nevada Moore and Miss Norma Olsen enjoyed their sabbatical leave last year, the former studying and traveling in the Orient, the latter studying in Paris and traveling in Europe.

A large volume of clerical work is regularly and cheerfully handled by the administrative staff in my office. The Principals state that their secretaries have proved to be excellent assistants, which reports check with my own observations.

The division of the Faculty and Staff for work is shown in the following table:

	1923-24	1924-25	1925-26	1926-27	1927-28
Administration& Clerical	11	11	10	9	11
Teachers	26	31	32	36	40
Boarding Departments	12	13	16	15	10
Health	5	5	5	5	5
Military Department	3	3	3	3	3
On Leave of Absence	1	2	2	3	2
Religious Education	1	--	--	--	--
Psychologist	--	--	1	1	--
	59	65	69	72	71

The change in line-up as shown above is due to a careful consideration of the hours spent by various members of the Faculty and Staff. Where the greater part of one's effort is spent in teaching, although the person also does secretarial work, or where the greater part of the effort is devoted to teaching although the individual also may assist in carrying on the work of the boarding department, the classification is determined by the work in which the greater part of the time is spent. Probably this year's classification is more carefully done than was that of the preceding years.

The visits made by the Principals to the other Islands at about the time of the Easter Recess were very beneficial to the Schools indeed, and I believe should be repeated once a year. Mr. Nelson had a very profitable time with the graduates and prospective students of Kamehameha on the Island of Kauai; Miss Schaeffer visited the island of Hawaii, later joining with the Girls' Glee Club and touring the island. She made a very fine impression for the Schools on that trip; Miss Maude Post visited something like three hundred former and prospective Kamehameha students on the Island of Maui during her trip there, and we have heard many favorable echoes from the Valley Island since her trip. I should say in this connection that one could not expect more whole-hearted and efficient cooperation than is given by the three Principals of the Schools, together with their loyal and congenial faculty members.

A very pleasant feature of our Fortieth Anniversary Class Reunion and Luau was the presentation by Mr. Richard H. Trent, on behalf of the Board of Trustees, of two silver vases, appropriately inscribed, to Miss Frances A. Lemmon, as an expression of appreciation for her thirty-one years of service at Kamehameha, and to Miss Maude Post in appreciation of her twenty-nine years of service.

SPECIAL FUNCTIONS

The following list of special functions, while not a complete list of the many opportunities furnished for social growth at Kamehameha, indicates that we have been careful to provide students and faculty members with activities that should keep all alert and happy:

1927			
Aug. 29,	Mon.	3:00 p.m.	Alumnae Reception for Miss Schaeffer
Sept. 3	Sat.	2:30 p.m.	Faculty Outing at Waialae Beach Cottages
" 6	Tues.	8:00 a.m.	School begins
" 7	Wed.	7:30 p.m.	General Assembly in Bishop Memorial Chapel
" 8	Thurs.	4:00 p.m.	General Faculty Meeting
" 10	Sat.	2:00 p.m.	Faculty Reception to other school Faculties
" 11	Sun.	11:00 a.m.	First Sunday Service, Bishop Memorial Chapel
" 17	Saturday		Regatta Day

A list of special speakers whom the Departments have had the privilege of hearing during the past year at the regular morning assembly exercises, not including the names mentioned above, is as follows:

Boys' School Assemblies:

October	Mr. Geo. F. Hamilton, Mr. F. E. Midkiff, Lieut. Abbey
November	Sheriff Gleason, Mr. LeRoy Blessing, Rev. Akaiko Akana
December	Mr. C. A. Anderson, Dean Newlin of Pasadena High School, Mr. N. C. Hanks
January	Mr. H. K. Dombaugh
February	Mr. A. A. Shank, Dr. Nils P. Larsen
March	Rev. M. H. Fagan, Rev. A. Akana, Rev. Clyde E. Boyer
April	Miss Maude Schaeffer, Miss Maude Post, Rev. A. Akana
May	Mr. R. H. Trent

Girls' School Assemblies:

September	Rev. Akaiko Akana Dr. Theodore Richards
October	Mr. W. O. Smith, Rev. P. A. Swartz, Mrs. Thos. Richards
November	Mr. A. F. Judd, Rev. Akaiko Akana

December	Mrs. N, C. Schenck
Jamuary	Rev. Akaiko Anana, Mr. Ralph Clark
March	Rev. N. C. Schenck, Rev. Akaiko Akana, Rev. H. P. Judd

EDUCATIONAL FEATURES FOR THE COMING YEAR

The methods of previous years that have proved effective we shall continue next year. Like all things that are growing sturdily and steadily we shall try to keep the annual changes slight, but constant in the line of proved progressive education. The use of "projects" and "activities" in presenting the various units of learning we shall carry on as thoroughly as possible, because we know that learning is accomplished much more effectively when it comes along with doing things students have an interest in doing. Also, in so far as is possible, we shall develop a desire for thorough mastery of skill and of appreciation in each subject. We are trying to keep our students so absorbed in interesting and developing activities that cases of "discipline" will become unnecessary. We aim for an integrity in class work, shop work, on the campus, the field, and in the dormitories that will become habitual and will seem natural and desirable above all things to our students. We strive for that "atmospheric conviction" that a thing is not well done unless it is done right, and that righteousness in every daily requirement and assignment is paramount. We believe that the units of skill, knowledge, and appreciation will be presented well by our teachers, due to the careful planning of these units, to the ability of our teachers, and to the supervision that we are arranging to give. More library opportunities will be offered in the School for Boys. There will be special classes for students who are backward in English, and we are providing evening classes for our "Cooperative" plan students who are situated where they can take advantage of the courses. The improved social contacts referred to in preceding paragraphs are educational features. Training in weaving will prove a benefit to many girls. Students who wish further to carry on their training at the University of Hawaii will be better prepared to do so. The Faculty will continue professional growth studies and committee work toward the improvement of our courses.

CONCLUSION

The Kamehameha Schools have served the youth of Hawaii for forty years. The value of the Schools to this Territory has steadily increased and the prospects for future usefulness are very good. As we consider the great needs of our children and the competition and the intensity of life that are to characterize Hawaii, we are earnestly impressed with the necessity of doing well everything we can do during the years the students are with us.

It is my own belief that the Honorable Board of Trustees of the Bernice Pauahi Bishop Estate is greatly to be congratulated upon the years of eminent usefulness the Schools under their direction have had, and upon the careful preparations now being made for the greater service the Schools are to render.

Respectfully submitted,

PETITION FOR A VESTING ORDER

To the Honorable PRESIDING JUDGE at Chambers of the Circuit Court of the First Judicial Circuit, Territory of Hawaii:

Your petitioners, William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins, all residing in the City and County of Honolulu, Territory of Hawaii, respectfully represent and show:

1. That your petitioners are Trustees under the will and of the estate of Bernice P. Bishop, late of Honolulu aforesaid, deceased, who died on the 16th day of October, 1884, and whose will and the two codicils thereto were admitted to probate by the Supreme Court of the Hawaiian Islands on the 2nd day of December, 1884, as the last will and testament of said deceased;

2. That William Williamson, one of the five Trustees under the said will and of the said estate, died on the 22nd day of November, 1928;

3. That on the 4th day of December, 1928, the Justices of the Supreme Court of the Territory of Hawaii, under and by virtue of the power of appointment conferred upon them by the said will as aforesaid, appointed the said George M. Collins

228

Trustee under the said will and of the said estate in the place of and in succession to the said William Williamson, deceased;

4. That it is necessary that the legal title in and to all of the property and assets and choses in action forming the estate heretofore held in trust by the said William O. Smith, E. Faxon Bishop, Albert F. Judd and Richard H. Trent and the said Williamson as Trustees under the said will and of the said estate, do vest in the said William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins as co-trustees jointly, upon or subject to the trusts provided by the said will;

WHEREFORE your petitioners pray that an order be made vesting all of the said property in your petitioners, William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins as Trustees under the will and of the estate of Bernice P. Bishop, deceased, upon or subject to the trusts created by the said will; and your petitioners ask that an order issue out of this Honorable Court citing Harry R. Hewitt, in his capacity as Attorney General of the Territory of Hawaii, to appear before this court at a time to be named in said order to show cause, if any he has, why the prayer of this petition should not be granted.

Dated, Honolulu, T. H., December 6, 1928.

ORDER VESTING PROPERTY IN NEW TRUSTEE

The petition of William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins, all of the City and County of Honolulu, Territory of Hawaii, representing that they are Trustees under the will and of the estate of Bernice P. Bishop, late of Honolulu aforesaid, deceased, who died October 16, 1884, and whose will with the two codicils thereto was admitted to probate by the Supreme Court of the Hawaiian Islands on December 2, 1884; that William Williamson, one of the five Trustees under the said will and of the said estate died on the 22nd day of November, 1928; that on the 4th day of December, 1928, the Justices of the Supreme Court of the Territory of Hawaii, under and by virtue of the power conferred on them by the said will as aforesaid, appointed George M. Collins of Honolulu aforesaid Trustee under the said will and of the said estate in place of and in succession to said William Williamson, deceased; that it is necessary that the legal title in and to all of the property and assets and choses in action forming the estate heretofore held in trust by William O. Smith, E. Faxon

Bishop, Albert F. Judd, Richard H. Trent and the said William Williamson as Trustees as aforesaid do vest in the said William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins as co-trustees jointly upon or subject to the trusts provided by the said will; and it appearing upon hearing of said petition that the allegations of said petition are true, and no good cause appearing to the contrary, but good cause appearing therefor;

NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that all of the said property forming the estate of the said Bernice P. Bishop, deceased, be, and the same is hereby vested in the said William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins as Trustees under the will and of the estate of Bernice P. Bishop, deceased, upon or subject to the trusts created by the said will;

AND IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the said William O. Smith, E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins as such Trustees as aforesaid file jointly a new bond herein in the sum of One Hundred Thousand Dollars ($100,000.00).

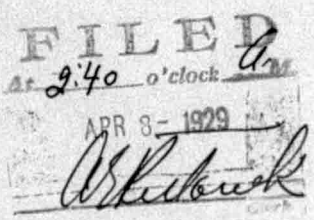
MASTER'S REPORT ON

43RD ANNUAL REPORT AND ACCOUNT



CHAS. E. CASSIDY
Attorney at Law
Honolulu, T. H.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT,
TERRITORY OF HAWAII

AT CHAMBERS — IN EQUITY

In the Matter of the Estate of
BERNICE P. BISHOP
EQUITY NO. 2045.

MASTER'S REPORT ON
43RD ANNUAL REPORT AND ACCOUNT

TO THE HONORABLE JUDGE OF THE ABOVE ENTITLED COURT,
PRESIDING AT CHAMBERS, IN EQUITY:

Comes now, the undersigned, CHAS. E. CASSIDY, heretofore appointed Master herein to examine the Forty-third Annual Report and Account of the Trustees of the above named Estate for the period ending June 30, 1928, and reports as follows:

I

That your Master has fully and carefully examined the Report of the Trustees, as well as the proceedings, account, vouchers and other records accompanying the same.

All accounts have been audited, and all expenditures checked with the corresponding vouchers, and except as herein-below noted, your Master has found the same to be in order and correct.

II

Under Schedule B, the following expenditures are listed:

Page 182 - July 2, 1927;

"Trustees commission, bal for year ended June 30, 1927 - - - - - - - - - -$24,944.37
" a/c for year ending June 30/28 paid in error - - - - - - - - - -$ 32.86

Page 208 - January 4, 1928;

"Trustees commission a/c year ending June 30, 1928 - - - - - - - - - -$24,457.95"

No vouchers are submitted by the Trustees for any part of the above charges.

III

Your Master has examined and verified the existence and possession of the securities listed in the Trustees Report and Inventory. The account states a cash balance, June 30, 1928, of $106,692.73 whereas the statement of the depository bank as of the same date credits the Trustees with a balance of $108,479.91. The difference of $1,787.18 is accounted for as the amount of outstanding and uncashed checks at the date of entry.

IV

During the course of the year the Trustees have undertaken new construction of permanent improvements at the Hahaione Farm and preliminary work preparatory to actual construction of a new Kamehameha School Plant. Expenditures for the same, totaling $139,506.32 and furnished in a separate account have been audited and checked against the corresponding vouchers listed in the general account and found to be properly supported and correct. In accordance with Smith vs. Lymer 29 Haw. 169, the Trustees have properly charged 2½% on the above sum as commission for final payment of cash principal.

V

In conclusion, your Master recommends that the Trustees be required to file proper vouchers for commissions received as set out in Paragraph II hereof and that thereupon, the 43rd Annual Report and Account of the Trustees herein be approved, allowed and settled as rendered.

Dated, Honolulu, T. H., April 7 1929.

Respectfully submitted,

Chas. E. Cassidy

In the Matter of the Estate
of
BERNICE P. BISHOP,
Deceased.

ORDER APPROVING 43rd ANNUAL ACCOUNT

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, having filed herein their 43rd Annual Account and Report, together with a petition praying that said account and report be examined, approved and allowed; and said account and report having been referred by this court to Charles E. Cassidy as master for examination and report, and the said master having filed his report thereon wherein he recommends that the account and report be approved and allowed; and the trustees having filed their joint receipt for the commissions received by them, in accordance with the recommendation made in paragraph II of the master's report,

NOW, THEREFORE, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the 43rd Annual Account and Report of said trustees is hereby approved and allowed; and that the said Charles E. Cassidy, master as aforesaid, be allowed and paid out of the fund of said trust estate compensation for his services in the sum of $500.00

DATED, Honolulu, T. H., April 19, 1929.

3rd Charles S. Dana
Judge, Circuit Court, First Circuit, Territory of Hawaii.

PETITION FOR A VESTING ORDER

To the Honorable PRESIDING JUDGE at Chambers of the Circuit Court of the First Judicial Circuit, Territory of Hawaii:

Your petitioners, E. Faxon Bishop, Albert F. Judd, Richard H. Trent, George M. Collins and John K. Clarke, all residing in the City and County of Honolulu, Territory of Hawaii, respectfully represent and show:

1. That your petitioners are Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu aforesaid, deceased, who died on the 16th day of October, 1884, and whose will and the two codicils thereto were admitted to probate by the Supreme Court of the Hawaiian Islands on the 2nd day of December, 1884, as the last will and testament of said deceased;

2. That William Owen Smith, one of the five Trustees under the Will and of the Estate of said deceased, died on the 13th day of April, 1929;

3. That on the 23rd day of April, 1929, the Justices

of the Supreme Court of the Territory of Hawaii, under and by virtue of the power of appointment conferred upon them by the said will as aforesaid, appointed the said John K. Clarke Trustee under the said will and of the said estate in the place of and in succession to the said William Owen Smith, deceased;

4. That it is necessary that the legal title in and to all of the property and assets and choses in action forming the estate heretofore held in trust by the said E. Faxon Bishop, Albert F. Judd, Richard H. Trent and George M. Collins and the said William Owen Smith as Trustees under the said will and of the said estate, do vest in the said E. Faxon Bishop, Albert F. Judd, Richard H. Trent, George M. Collins and John K. Clarke as co-trustees jointly, upon or subject to the trusts provided by the said will;

WHEREFORE your petitioners pray that an order be made vesting all of the said property in your petitioners E. Faxon Bishop, Albert F. Judd, Richard H. Trent, George M. Collins and John K. Clarke as Trustees under the will and of the estate of Bernice P. Bishop, deceased, upon or subject to the trusts created by the said will; and your petitioners ask that an order issue out of this Honorable Court citing Harry R. Hewitt, in his capacity as Attorney General of the Territory of Hawaii, to appear before this court at a time to be named in said order to show cause, if any he has, why the prayer of this petition should not be granted.

DATED, Honolulu, T. H., April 26, 1929.

PETITION OF TRUSTEES

FOR APPROVAL OF ANNUAL ACCOUNT

To the Honorable
the Presiding Judge
at Chambers, in Equity,
of the above entitled Court:

The petition of the undersigned, E. Faxon Bishop, Albert F. Judd, Richard H. Trent, George M. Collins and John K. Clarke, Trustees, of the City and County of Honolulu, Territory of Hawaii, respectfully shows unto your Honor as follows:

I.

That they are the duly appointed, qualified and acting Trustees under the Will and of the Estate of Bernice P. Bishop, late of Honolulu, deceased.

II.

That the petitioners herein submit to the Court their 44th Annual Report and Account as such Trustees of their transactions under and in respect of said Trust Estate covering the period from July 1, 1928 to and including June 30, 1929.

III.

That upon Schedule "A" of said Account they show all of their receipts as such Trustees during said period.

IV.

That upon Schedule "B" of said Account they show all of

their expenditures as such Trustees during said period.

V.

That upon Schedule "C" they show the aggregate of such receipts and expenditures, all of said schedules being attached hereto and made parts hereof.

VI.

That they submit and file herewith a full and complete inventory of the investments made by them under and by virtue of said trust, and which were outstanding at the close of said period.

VII.

That in and by their said attached report they set forth in more detail the transactions had under and by virtue of their said trust during said period.

WHEREFORE YOUR PETITIONERS PRAY that said Account may be referred by the Court to a Master to be examined and audited if the Court shall deem such course advisable.

AND THEY FURTHER PRAY that their said Account may be examined, approved and allowed by the Court.

DATED, Honolulu, T. H., this 25th day of October, 1929.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT

TERRITORY OF HAWAII

IN EQUITY AT CHAMBERS

In the matter of the Bernice P. Bishop Estate

TRUSTEES' REPORT

for the year ended

JUNE 30, 1929

To the Presiding Judge
of the First Circuit:

The Trustees under the Will and of the Estate of Bernice P. Bishop, deceased, beg to submit this their FORTY-FOURTH ANNUAL REPORT, covering the period from July 1, 1928, to and including the 30th day of June, 1929.

THE USUAL DETAILED ACCOUNT of Receipts and Expenditures (Schedules "A" and "B"), accompanied by 1,192 Vouchers and Schedule "C", is herewith presented, together with a Statement of Investments, a Summary of the year's Real Estate Transactions, and an abstract Inventory of the Real and Personal Property of the Trust, hereto attached and made a part of this Report. A copy of the Report of the President of the Kamehameha Schools is also filed herewith.

The Accounts for the year show as follows:

RECEIPTS from all sources			
Revenue	$1,054,648.52	$	$
Capital	644,633.67	1,699,282.19	
Balance Forward, July 1/28,		106,692.73	1,805,974.92
DISBURSEMENTS			
Revenue		$ 900,598.65	
Capital		778,495.72	1,679,094.37
BALANCE IN HAND, June 30/29,			$ 126,880.55

The large balance carried forward is necessitated by the fact that construction work on the new School plant is now under way and requires ready funds. These moneys are, in the meantime, drawing the normal bank interest allowed on deposits in excess of $5,000.

Of the net Revenue Receipts, amounting to $755,080.81 (i. e., $648,388.08 plus the balance of $106,692.73 brought forward from last Accounts), 65.47% was used in general maintenance; i. e.,

Kamehameha Schools	37.31%	
General Operating Expenses	28.16%	65.47%
Converted to Capital		17.73%
Balance to New Account		16.80%

Of the net Capital Receipts, amounting to $473,718.93 (i. e., $339,856.88 plus $133,862.05 Converted Revenue), 34.10% was invested in a way calculated to produce income; i. e.,

Notes and Bonds	7.53%		
Lands Purchased	5.34%	12.87%	
Improvement of Lands:			
Roads and Sewers	9.00%		
Grading	1.13%		
Subdivisions	6.83%		
Maunalua Development	.86%		
Fencing, Nursery and Forestry	3.41%	21.23%	34.10%
Maps, Equipment, etc.			7.24%
Kamehameha Schools:			
Present Plant		7.43%	
New Plant		39.14%	
Hahaione Farm		12.09%	58.66%

LEASES AND RENTALS

The gross cash rental collections for the year aggregated $564,890.08 - an increase of $45,799.70 as compared with last year's returns. This is a normal increase attributable to returns from newly developed areas and from renewals of expiring leases at higher rentals commensurate with present values. Rents and taxes unpaid and outstanding at the close of the year aggregated $38,951.42 gross as against $50,127.15 at the close of the year preceding.

Property taxes recovered from tenants and treated as rents amounted to $266,277.84 - an increase of $5,743.27 as compared with

270

last year's collections.

Leases in force at the close of the year numbered 2,019 - an increase of 83 as compared with last year. Tenancies (so called, as distinguished from leases) numbered 109 - an increase of 4. The classified record for the 12 months ended June 30, 1929, is as follows:

Leases	
New	184
Surrendered	51
Canceled	17
Expired	32
Transferred on Sales	1
Term Extensions	28
Partial Surrenders	10
Assignments Permitted	373
Tenancies	
New	22
Terminated	18

Reduced rents have been continued or allowed in the case of 41 leases - all save one (in Halawa, Molokai) being of lands on Oahu. Of these latter 7 are located in the Waikiki District, 1 in Waialae, 2 in Kahala, 1 in Kapalama, 4 in Kamanuwai, 6 in Heeia, and 19 in Ewa.

Of the 69 leases surrendered, transferred or canceled, 22 were of lands in Honolulu proper, 10 in Ewa, 9 in North Kona (Hawaii), 21 in South Kona, 6 in Hilo and 1 on Molokai.

The rental reductions allowed on agricultural lands were measures of relief to rice planters whose crops had been seriously damaged by the rice-borer, a pest which the Department of Entomology of the Territorial Board of Agriculture and Forestry is endeavoring to eradicate through the introduction of egg parasites, which are now being propogated successfully and distributed in the rice-growing districts of Oahu. Two articles written by the Department and dealing with the problem of control of this pest were printed by the Trustees in the December issue of the Nippu Jiji in the form of Japanese and Chinese translations (50 in each language) and copies

thereof sent to each of the Chinese and Japanese rice planters holding Estate lands.

The Ahupuaas of Kawela, Pakini-nui and Pakini-iki, together with kuleanas and grants in Kiao, Kamaoa and Kiolokaa, all in Kau, Hawaii, and containing 15,184.3 acres of pasture, agricultural and waste lands (surveyed in March, 1928, as reported last year) were offered for lease under sale at public auction under a 20-year term from October 1, 1929, at an upset rental of $2,000 - the sale being held in Honolulu on November 1, 1928. Spirited bidding brought the upset to $8,500, at which rental the lease was knocked down to the Hutchinson Sugar Plantation, the old tenant.

INVESTMENTS

Of personal property investments reported at the close of last year, current collections aggregated $240,115.97, all of which sum has been reinvested.

Land sales during the year resulted in the acquisition of 5 mortgage notes aggregating $99,950.00, representing the unpaid balance of purchase moneys. One of these was paid off during the year; another partly paid. The unpaid balances are shown, together with other securities, in the attached Statement of Personal Property Investments, which gives the total book value of all securities in hand at the close of the year as $1,527,600.11 - an increase of $126,358.03 as compared with the total reported at the close of the year preceding- and is accounted for as follows:

Forward from June 30, 1928,	$	$1,401,242.08	$
Deductions:			
Bingham Park Notes retired	12,258.77		
Bishop Bank C/D's "	150,000.00		
Bank of Hawaii C/D's "	50,000.00		
Kamehameha Park Notes "	1,252.59		
Kondo Mortgage Bal. "	7,504.61		
Liberty Bonds, 3rd "	15,050.00		
Liberty Inv. Co. Mtg. a/c	2,512.50		
Manoa Uplands Notes retired	5,175.00	243,753.47	1,157,488.61

Brought Forward		$1,157,488.61
Additions:		
Bishop Bank C/D's	$250,000.00

Liberty Investment Co. Mtg. Bal.	86,250.00	
Manoa Uplands Notes	3,700.00	
Mun Lun School Mtg.	10,000.00	
Mutual Telephone Bonds @ 105.51	15,826.50	370,111.50
T o t a l June 30, 1929,		$1,527,600.11

TRUSTEES AND MEETINGS

This year the Trustees have to report the death of two of their co-Trustees: Mr. William Williamson, on November 22/28 and Mr. William O. Smith, on April 13/29.

At the time of his decease Mr. Williamson was the Secretary and Treasurer of this Trust, and Chairman of the Building Committee of the Kamehameha Schools. He was stricken in the Trustees' office while leading a conference of that Committee on November 20th. Having himself taught in the classroom on the Mainland and in Hawaii at Punahou, he keenly appreciated the problems confronting the teachers at Kamehameha, and viewed the work and achievements of their pupils with professional interest. Consideration of others with whom he worked and with whom he was associated was characteristic of him.

Mr. Smith, at the time of his death, was Vice-President of the Board. The last survivor of the original Trustees selected by Mrs. Bishop, he accepted the office of Trustee in 1884 and served as such continuously to the day of his death except for the period 1886/1897, during which interim he spent a few years in California, and then actively engaged in law and in politics in Hawaii. For nearly twenty years Mr. Smith held the office of President of the Board, and since 1897 no Trustee has been more active than he in furthering the interests of Kamehameha.

To fill the vacancies the Justices of the Supreme Court appointed George Miles Collins on December 4, 1928 to succeed Mr.

Williamson, and John Kirkwood Clarke on April 23, 1929 to succeed Mr. Smith - the personnel of the Board at the close of the year being as follows: E. Faxon Bishop, Albert F. Judd, Richard H. Trent, George M. Collins and John K. Clarke.

Fifty meetings were held during the year.

LANDS AND IMPROVEMENTS

The details of the year's realty transactions (other than those pertaining to leases) are set out in the appended statement, the list including 35 sales, 5 purchases, 1 exchange and 26 agreements. The sum realized from the sales will be used principally in the work of reconstructing the Kamehameha Schools.

Of the several sales to the City and County: (a) that of May 10, 1928 of 4 acres at Kapalama on the makai side of School Street (sold out of the Kamehameha Boys' School grounds) is now the site of the Kalihi English Standard School; (b) that of February 19, 1929 comprised two 13-foot strips required for the widening of North King Street between Kalihi Road and Houghtailing Road - the City assuming the obligation of moving walls and fences back to the new line and of repaving the main King Street entrances to the Kamehameha School grounds; (c) that of December 29, 1928 conveys to the City title in the Koko Head Park premises at Maunalua, being in fulfillment of the terms of Right-of-Purchase Lease 3348 and agreements supplemental thereto, mentioned in previous reports, under which the Trustees receive substantial value in the way of water supply lines and constructed roads essential to the development of remaining Estate lands in Maunalua as a farming and residential section; (d) that of March 1, 1929 conveys title in the land used for the extension of University Avenue from Metcalf to South King Street, a project known as Improvement District No. 52. The assessment of $75,985.74 (wholly absorbed by the Estate) is partly offset by the sale of the land taken for the street at the price of $18,976.42;

(e) the deed of February 28, 1929 conveys title in the land used for the extension of Smith Street from Beretania to Kapena Street (Improvement District No. 53) done under petition of the Trustees and their Lessee, C. Q. Yee Hop, the latter receiving (through the Trustees) $11,300 awarded by the City as damages for property loss and assuming, under a readjustment of his leases, the obligation to pay the total street assessment, amounting to $47,541.15 less a small portion ($1,442.13) absorbed by the Estate. This transaction also involved the sale to the Mun Lun Chinese School, completed on the same date, of land on the Extension at the price of $14,781.00 of which $10,000 rests on a 2-year 6% mortgage as appears in the appended statement of Investments.

The sale to the Liberty Investment Company of land at Kapaakea, Waikiki (completed May 10, 1929) comprised 74 lots in the Bingham Park Tract Extension referred to in last Report - 11 of the lots being in Extension No. 1, 63 in the adjoining section known as Extension No. 2, developed by the Trustees under the Frontage Tax Law as a 100% improvement project and listed as Improvement District No. 27. The assessment of $64,285.17 is wholly assumed by the purchaser save only $2,851.55 representing the Estate's share as prorated from the date of the deed. Of the $115,000.00 named as consideration, $86,250 rests on a 3-year 6% mortgage. In developing Bingham Extension No. 2 the Trustees had had in view the sale of the lots therein by retail but changed their plans when the opportunity occurred to sell as a whole at a price which about equaled the total schedule fixed for the individual lots, eliminated the delay incidental to the retail plan and left the Trustees in position to proceed earlier with the development of adjacent lands. All of the streets in the Tract were conveyed to the City for a nominal consideration by deed dated December 4, 1928.

Sales in the Manoa Uplands Tract during the year comprised 9 lots yielding an aggregate of $15,900, of which $2,575.00 rests on

mortgage; also, the remaining two lots in the Kawananakoa Park Tract, in Nuuanu (mentioned in last Report) were this year disposed of in the aggregate sum of $11,740.00, of which $4,335.00 rests on mortgage;

Of the Purchases, that from the Waialae Ranch on May 21, 1929, of a kuleana in Waialae-iki was in consolidation of interests - the area purchased being now leased to the Ranch at a rental equal to 5% of the purchase price;

Of the "Agreements" that of August 29, 1928 made between the Bishop Estate and Museum Trusts provides for the conveyance to the Museum of the fee in the site of the present Museum buildings and area immediately adjacent thereto out of the Kamehameha Boys' School grounds. The several School buildings standing on this land will continue to be used by the Schools until the latter are ready to move to upper Kapalama, when all save Bishop Hall (which the Museum retains) will be razed. The consideration of $100,000 is payable in five annual installments of $20,000 each, of which the initial installment was received by the Estate on the date of signature of the agreement. As the equivalent of rent-free use of the land by the Schools during the interim between now and the time when the Schools will move, interest on the principal sum involved is waived by the Estate.

The Agreement made with Allen L. Ching under date May 6, 1929 by which the Trustees undertake to sell to him 5,244 square feet on the makai side of the Government Main Road at Heeia, Koolaupoko, Oahu, was arranged in settlement of a suit in ejectment filed on February 26, 1929 by the Heeia Company, Ltd., as Lessee of Lease 528a against Mr. Ching, an adverse occupant. The suit was discontinued as the result of this settlement.

Capital improvements made during the year included the completion of the work, started last year, of filling in certain low

276

lands of the Estate in the vicinity of Pearl Harbor - the work being done by the Standard Dredging Company with material pumped from the Harbor under its contract with the United States. These fills were placed without cost to the Trustees other than that of temporary rental reductions allowed in the case of some of the tenants concerned and the assumption by the Trustees of a share of the cash awards to tenants as liquidated damages. The area filled during the year was approximately 42.51 acres, comprising lands in

Waimano and Waiawa,	29.31 acres
Halawa, mauka of Oahu Railway line, ...	2.20 acres
Kalauao, adjoining Loko Opu, ...	11.00 acres

Cash awards were paid as follows:

	Lease	Award		
Waimano and Waiawa				
Sotaro Tanaka, ...	2371	$ 600		
Shozo Fujinaka, ...	2416	1,800		
Hirokichi Tamura, ...	2416	400		
Man Wo, ...	3278	600		
Kisuke Asato, ...	3278	600	$4,000	
Saburo Taba (bal), ...	3278		100	
Kalauao				
Kam Kee, ...	700a	2,000		
Kazue Minami,.....	2581	200	2,200	$6,300.00
Dredging Company's Share				
Refunded to Trustees, ...			2,000	
Paid awardees direct, ...			1,100	3,100.00
Net Cash Outlay, Trustees, ...				$3,200.00

As a result of the above project, over the 2-year period ended June 30, 1929 the Estate has had some 77.26 acres of low salt swamp raised to the status of potential country residence property on a cash outlay of $4,733.33 or about $61 per acre.

The work of improving the abandoned Waiakamilo Quarry lot at Kapalama (referred to in last Report) has this year been continued at a cost (for the year) of $11,474.13: to wit,

Grading, ...	$6,961.50
Drains, etc., ...	1,933.88
Road Construction, on a/c ..	2,578.75

and will be offered for lease as soon as further surveys and computations shall have been made and a rent schedule adopted. When the filling

is complete there will here be available for subdivision 10.64 acres. Of this area a series of 29 lots has been laid out along Waiakamilo Road where the fill has been brought to grade and roads and drainage provided. These will be offered for lease as soon as a demand can be developed and a fair rental schedule worked out.

Other subdivision costs incurred during the year were:

Kapaakea (filling)	$23,232.57	
Less		
Engineering costs refunded by the City under Improvement Tax Statute, ...	1,875.00	$21,357.57
Manoa Uplands		
Installing underground distributing system for water, lights, telephones, etc., and planting and maintaining grass in sidewalk areas, ..	11,335.02	
Less		
Engineering costs refunded by the City under Improvement Tax Statute, ...	3,000.00	8,335.02
Kaaipu (Manoa)		
Drainage system, ...		1,615.00
Waialae-Kahala Farm Lots		
Roads, Water-pipe, etc., ..		1,034.06

Frontage taxes on which payments were made by the Estate during the year were:

District	No	Instlmt		
Kakaako, ...	9	8th	$14,753.45	
Manoa Uplands, ...	23	2nd	8,124.44

Bingham Extn. No. 2, ...		3,577.07	4,145.44	26,133.31
Net Payments, ...				$33,514.61

Other capital improvements made by the Trustees during the year included the development of water and construction of roads at Waiawa, Ewa, for the benefit of tenants, ... $1,265.86;

the laying of sewer pipe in Blocks 8a and 8b at Ala Moana and Kiawe Streets, connecting this subdivision with the City sewerage system in order to facilitate the leasing of lots therein, ... 471.80;

the laying of water pipe to serve the Honohononui Subdivision in South Hilo, Hawaii, ... 438.90;

the construction of sidewalks along Front Street, Piopio Subdivision, South Hilo, ... 738.00;

the construction of a beach road, Honaunau, South Kona, Hawaii - the Estate's share of cost being, ... 139.75.

Capital improvements to Konohiki lands made or to be made by the Lessees under lease agreements include:

(a) Provision for the placing by November 1, 1930 of 50,000 cubic yards of quarry waste on Estate low lands at Kapaakea, Waikiki;

(b) Provision for broadcasting by December 1, 1930 of not less than 3,000 pounds of Ekoa (Haole Koa) on the lands of Kaupulehu and Makalawena, North Kona, by way of pasture improvement; a n d

(c) The planting of 190 pounds of Paspalum Compressum and 400 pounds of Purple Mesquite done during the past year by way of pasture improvement on the land of Keauhou in Kau, Hawaii.

The Trustees have prepared, and file herewith an Inventory of the property held by them as of the 30th day of June, 1929, and are publishing a copy of the same in the local press.

MAPS AND SURVEYS

Completed maps this year added to the office collection of maps are listed as numbers 1941, 1942 and 1943, of the Ahupuaa of Alae, South

Hilo and number 2021 of a portion of the Ahupuaa of Honaunau, South Kona, Hawaii.

The Alae Survey was primarily to mark boundaries and to classify the lands preparatory to the issuance of a new lease to take the place of the one expiring December 31, 1929. The new 20-year lease (No 4309) issued on February 18, 1929 to the old tenant, demises 899.1 acres, including 450 acres of forest reserve where the Lessee may develop water but may use this area for no other purpose. The annual rental reserved is $2,800 as against $1,200 reserved by the old lease.

The Honaunau Survey was to create a subdivision in the coffee area heretofore demised to the Capt. Cook Coffee Company under a lease (1163a) expiring December 31, 1929 with the view of leasing the lots therein to the individuals actually in occupation,- 44 of these have accepted direct leases to run for 11 years from January 1, 1930, covering 239.9 acres at an aggregate reserved annual rental of $2,536 as against $1,000 reserved by the expiring blanket lease.

A survey of the grazing areas in Kamilo-nui and Kamilo-iki mauka of Kuapa Pond in the Ili of Maunalua, Oahu, begun in June, 1928, was completed in August following preparatory to the opening of negotiations for lease - the work including also a topographical survey of the beach section of Wawamalu in the same Ili preparatory to subdivision.

FORESTRY

The Kapalama Nursery referred to in last report as being maintained by the Trustees in connection with their forestry work on Oahu and as a holding centre for ornamental and useful trees and plants intended for the new Kamehameha School campus, was this year conducted at a cost of $8,356.02, covering the employment of one nurseryman and from three to five laborers; also, soil, containers,

and other incidentals. Of this total 70% is chargeable to the new School campus; 30% to general forestry. A total of 12,831 plants were distributed from the Nursery during the year, leaving in the Nursery on June 30, 1929, approximately 10,000 plants, practically all of them being held for planting on the new campus.

During the year ended June 30, 1929 plantings on the new Kamehameha campus comprised 5,482 trees, 5,153 vines or shrubs, 31 flats of rope cactus and 15 truckloads of night blooming Cereus - most of the planting being along the road on the approach to the building sites. Most of these plants are growing well and give promise of being suited to the site - many of the black butt (Eucalyptus pilularis) being now over 10 feet high, and some of the vinegar trees (Tristania conferta) over 7 feet.

The year's work in the Kapalama forest area above the new Kamehameha campus consisted in planting 4,990 trees, replanting where 50 had died, and of caring for the 54,190 already planted. The cost of these operations was $3,040.95, covering half the salary of one working luna, the wages of three laborers and various incidental expenses. With some exceptions the trees planted in the lower two-thirds portion of Kapalama Valley have grown well, but in the upper part the results have not been so favorable - the stiff wet soil at the end of the Valley being acid and highly toxic, which is a characteristic of Oahu's wet forest and offers a serious problem in dealing with the work ofreforesting a large part of Hawaii's decadent forests. The experiments being conducted by the Trustees with various species of trees in this characteristic and easily accessible section are being watched with interest by local foresters.

In Maunalua the Forest Reserve, as officially approved on March 22, 1929 by the Board of Commissioners of Agriculture and Forestry, contains an area of 1,710 acres of Estate land comprising the upper portions of the four valleys of Kaalakei, Hahaione, Kamilo-nui and Kamilo-iki, with the bounding and intervening ridges but excluding the

56 acres in Kaalakei previously set aside as part of the Waimanalo Forest Reserve. This area is protected with stock-proof fencing of which 6,210 linear feet of post and wire supported on the ends by 393 linear feet of stone wall, was completed by the Trustees in February last, across the heads of Kamilo-nui and Kamilo-iki Valleys.

Forestry operations in Maunalua during the year consisted in the setting out of 3,590 trees and caring for the 15,000 trees already planted - the new planting being in the four stations already started at the heads of Kaalakei, Hahaione and Kamilo-nui Valleys and in the high level valley in the ridge between Kamilo-nui and Kamilo-iki Valleys. These four stations offer widely differing conditions, ranging from rain forest to almost desert areas, from areas of very high and constant winds to areas of relative calm, from deep soils to shallow soils. The primary purpose of these plantings is to establish centers for seed dispersal in the hope that the birds and wind will further spread the trees through the forest reserve. They also furnish valuable information on the silvical requirements of the various trees used. It is interesting to note that a volunteer seedling of sandalwood (Santalum ellipticum) uncovered in the brush of the "Small Val" (the high level valley between Kamilo-nui and Kamilo-iki Valleys) a little over two years ago, is now about 8 feet high, well formed and vigorous in appearance; also to note that many sandalwood are volunteering in dry rocky soil at the head of Kamilo-nui Valley, now that the cattle have been removed. This tree is evidently well suited to the conditions found in the drier parts of Maunalua and it is planned to plant more by the seed spot method in the hope that, with the aid of birds, the tree may be further spread through the forest reserve.

In the Trustees' arboretum at Punaluu in Koolauloa, Oahu, no trees have been planted since October, 1927, with the exception of 100 Aoa (Ficus prolixa) whose seed was recently brought from Samoa by Mr.

A. F. Judd. As the trees here are now of such size as no longer to need constant care the services of the one laborer maintained heretofore (and whose time during the past year was largely confined to keeping the smaller trees clear of weeds and grass) were discontinued on July 31, 1929. In the earliest planting in this arboretum (done by the Hawaiian Sugar Planters' Association) there were many failures, but later plantings have met with marked success. Probably the outstanding tree as regards consistent growth is the Paper Bark (Melaleuca leucadendron). Of other outstanding trees in this arboretum the Brassaia actinophylla and Fraxinus americana (White Ash) have been observed reproducing naturally through the agency of the birds and the wind. The Ash should prove a valuable tree in forming an understory to Hawaii forests. During the period from October 8, 1928 to February 1, 1929 a trapper was employed in an attempt to exterminate wild pigs from this reservation, but the attempt met with but little success.

In the Manoa Arboretum, comprising portions of Aihualama and Kaakaukukui (Pauoa Flats) held by the Hawaiian Sugar Planters' Association under Lease 2526, 1862 trees of various species were planted during 1928.

The 12,340 linear feet of stock-proof fencing erected by the Oahu Railway and Land Company to protect the Waiau-Waiawa section of the Ewa Forest Reserve, done under an agreement with the Trustees, mentioned in last Report, was this year completed at a cost to the Estate of $3,561.98.

On June 26, 1929, the Honolulu Plantation, co-operating with the Trustees and the public authorities in the effort being made to protect the forests, voluntarily amended its Lease 704 so as to definitely fix the mauka line of the North Halawa section of its leasehold at the established makai line of the forest reserve and to erect thereon, at its own expense, an efficient stock-proof fence. An inspection by the Trustees' Forestry Committee, made in May, 1929 (following the conference on Forestry or Tree Planting of Oahu held by the Territorial

authorities and private owners, in Honolulu, during March-April, 1929) showed that in North Halawa, where the Estate had been listed at the conference as having 111 acres needing reforestation, there was as a matter of fact only about 20 acres that could here be so classed, comprising an area of open, wind-swept ridges and slopes located on the main Aiea-Halawa Ridge.

In Kau, Hawaii, the Lessee of the Bishop Estate land of Keauhou reports that during the past year he has planted at Ainahou 100 trees, including flowering trees, shade, nut, citrus and palm; has constructed stock-fencing and has practically eliminated the wild goats from the land demised.

On December 22, 1928, the Nanawale Forest Reserve, in Puna, Hawaii, was officially proclaimed as such by the Governmental authorities. This reserve includes in its boundaries 1,066.9 acres of Bishop Estate land (part of Kahuwai) which thus receives official protection without the alienation of any of the Trustees' rights.

Estate forestry work on the Island of Hawaii has been confined, principally, to the Motooka plantings at upper Kahauloa II in the South Kona District, mentioned in last Report. Here Motooka, under his contract with the Trustees, is engaged in logging mature Koa trees in the Kahauloa Reserve and planting in lieu thereof selected trees of other varieties at the rate of 1,000 per annum. Under the supervision of Mr. L. W. Bryan of the Board of Agriculture and the Hawaiian Sugar Planters' Association on the Island of Hawaii, Motooka, during the summer of 1928, planted 800 Ash (Fraxinus sp.) and 200 Sugi (Cryptomeria japonica). Such of the Sugi cuttings as have not struck root are being replaced by the Ash, some of which latter species, planted in July, 1928, have already reached a height of over 8 feet and give promise of being successfully propogated in this location. Practically the only expense to the Trustees in conducting these useful operations is that involved in the payment of $25 per month as a retainer to Mr. Bryan for his services in supervising this planting project and in

advising the Trustees on other forestry matters on the Island of Hawaii.

In 1926 the Forestry Division of the Territorial Board of Agriculture and Forestry invited Mr. C. S. Martin, an officer of the Indian Forest Service, to visit Hawaii for the purpose of studying local conditions and furnishing advice as to the practicability of rejuvenating Oahu's wet forests through the introduction of Indian trees and plants,- the Trustees co-operating in this matter by voting $500 to be paid Mr. Martin as an honorarium and agreeing also to pay the small costs incidental to the collecting and shipping into the Territory of such seeds as might be selected as the result of this investigation. Mr. Martin was unable to accept the invitation and in October, 1927, Mr. R. D. Richmond, of the same service, was invited in his stead. Mr. Richmond arrived in Honolulu on November 5, 1928 and remained until the 10th following, during which time he was conducted on a number of field trips that had been especially planned to give him a first-hand knowledge of typical wet forest conditions. In December the Board of Agriculture and Forestry received from California Mr. Richmond's preliminary report containing a list of trees and plants that he would recommend be given a trial. Based on this report the Territorial Forester, in April, 1929, forwarded to Mr. Richmond an order for seeds in quantity sufficient to produce 3,000 plants of each species recommended, these to be shipped to the Territorial Board of Agriculture and Forestry in Honolulu at different times, as the various types matured. The collecting and packing will be supervised by Mr. Richmond and forwarded to Honolulu by the Indian Forest Service at a minimum of cost to the Trustees.

LAW

In the suit referred to in last Report as having been brought by the Trustees against the Executors of the Will of the late Samuel M. Damon to recover damages in the sum of $5,043.01 (the amount expended by the Trustees between October 23, 1924 and May 21, 1927 in preserving

title in 1.6 acre of Konohiki land at Maunalua, Oahu, comprising part of the Damon expired leasehold but adversely held and claimed by David Kui Laamea) the Supreme Court having, in March, 1928, failed to sustain the demurrer filed by the defendants and remanded the case to the Circuit Court for jury trial, the defendant's offer of compromise was accepted in settlement of the case without further trial. Under this compromise the Trustees, on June 26, 1929, accepted payment of $5,824.51 (the full amount of their claim, plus costs of court and attorney's charges), waived interest on their bill of $5,043.01 and waived claim for the value of the use of the land during the period of Kui's adverse occupation thereof. Of greater moment to the Estate than the recovery of the moneys involved was the judicial decision sustaining the Trustees in their contention that a lessee is obliged to turn back to the lessors on expiration of lease all of the land demised thereby - the Supreme Court in this case, strongly urging the sacredness of the lessee's covenant to return to the lessors the land demised to him by the lease, intact, and holding that, consequently, it was perfectly definite that the law in this jurisdiction now was that a lessee on whom this covenant had been imposed, who was not living up to it, must pay damages based on two things: (a) the lessors' cost of recovering possession, and (b) the rental for the time the latter had been dispossessed. This ruling, clearing up as it does all doubts on this subject, will be of unestimable value to the Trustees in dealing with similar cases in the future. (30 Haw. 853)

The suit referred to in last report as having been brought by the City to condemn 13,640 square feet of Estate land at Kauluwela, Honolulu, located on the westerly side of the Kauluwela Public School and required for the enlargement of the School premises, was duly compromised and settled on November 22, 1928, when the Trustees accepted an award of $7,146.46 (received December 6) in full of damages - the City undertaking to settle with the Estate tenants concerned.

In Judge Steadman's Court on May 16, 1929, the following old cases involving the Bishop Estate were dismissed and stricken from the calendar:

(a) No 9003: Suit in ejectment brought in 1918 by the Territory to recover the Ili of Kumuulu in Waiau, Ewa, containing 2,511.2 acres held by the Trustees and claimed by the Government;

(b) No 10451: Suit in eminent domain brought by the City to condemn 1.78 acre of land at Kalaalalo known as "Pauoa Park", since purchased by the City under deed dated June 29, 1928, as mentioned in last Report;

(c) No 10452: Dealing with proceedings instituted by the Territory for the registration of title to land at Kakaako, involving a portion of "Atkinson Park", Supreme Court having since sustained the decree of the Land Court, thereby holding that the Government had no title in this land as against the Trustees;

(d) Nos 11687 and 11691: Dealing with the Trustees' claim for refund of the 2/10 of 1% taxes referred to in last Report as having been illegally assessed by the Territory and paid by the Estate with the first installment of taxes on Hawaii lands for the year 1927, amounting to $1,413.50, these cases having since been disposed of by Act 131, Session Laws 1929 authorizing refunds. The Trustees, on May 11, 1929, recovered $1,389.96.

The suit mentioned in previous Reports as having been brought by the United States against the Trustees and others to condemn certain lands in Heeia, Koolaupoko, Oahu, required as a radio station site, was duly settled on May 31, 1929, when the Trustees accepted an award of $16,787.85 in full of their claim in the 20.82 acres of Estate land concerned, being damages ($10,410) plus 8% interest thereon ($6,377.85) computed from July 28, 1920 (date of service of summons) to March 26, 1928, the date of Judgment.

Under Act 196, Session Laws 1929, the Trustees recovered, on May 17, 1929, $4,495.25 being moneys paid the Territory on November 16, 1918 for drainage canal costs, Waiolama Sanitation Project, and since held to have been illegally collected from property owners concerned.

Under Act 156, Session Laws 1929, the Trustees have also (since June 30, 1929) recovered $170.68 inadvertently paid to the Territory for 1927 taxes on seven Kona,(Hawaii) leases of lands devoted to the raising of Macadamia nut trees, and consequently exempt from taxes for that year under the law exempting such lands from taxation over the period of 5 years (1927/1932).

The Trustees of the Bernice P. Bishop Museum having filed, on November 1, 1928, a Bill for Instructions and Other Relief, seeking to reform the Museum Deed of Trust in order somewhat to enlarge its scope, it was deemed desirable that, inasmuch as the Estate Trustees had been parties to the original Museum Deed of Trust, they should come into this case, as the decree would require the execution of another instrument by both the Museum and the Estate Trustees. As the simplest way to accomplish this object, the Estate asked leave to intervene and to file an Answer admitting the averments of the Museum Bill, and this Answer was duly filed on November 15, 1928. A Decree entered by the Circuit Court on November 22, 1928, granted

the Museum the desired relief and the Amendatory Deed of Trust was duly executed between the Museum and Estate Trustees on the same date.

In a suit brought by the Trustees against the Honolulu Honey Company, Limited, to recover rent due on a Maunalua tenancy, judgment was secured on September 13, 1928, in the sum of $928.90 and costs. No moneys under this judgment have as yet been collected, but the tenancy has since been terminated.

At the Land Court hearing called for January 19, 1929 on the petition (Application 702) of Samuel Kaanapa Sylva and Kamakee Sylva to register land at Mokauea, Kalihi Valley, adjoining Section "H" of Bishop Estate Land Court Application 750, a notice was filed by the Trustees requesting that Courses 10 and 14 of the Survey accompanying the petition be corrected to conform to the Survey of said Section "H".

In May last, the Trustees, with others, were cited as respondents in a suit brought by the Waimea Land Company to partition the land of Waimea, Oahu, abutting the Estate land of Kawailoa, the Trustees owning a 30-foot roadway easement over part of Waimea.

In June last the Trustees were cited as defendants in an action brought by Louisa K. Jones to quiet title in 16,663 square feet of land in Heeia, Koolaupoko, comprising part of R. P. 1664, L. C. A. 10613 to A. Paki, situate on the southwesterly side of Kamehameha Highway. This case has since been disposed of in favor of the Trustees.

In June last the Trustees, with others, were also cited in an injunction suit brought by the United States, involving an infraction of the prohibition law, said to have occurred on land at 1136 Liliha Street. As the land concerned was found to be not the property of the Trustees, a motion was at once filed by the District Attorney deleting the Trustees names as parties to the suit, making it unnecessary for the Trustees to appear.

The 1928 tax appeal, mentioned in last Report as filed in the Third Taxation Division on certain lands in North and South Hilo, was still pending at the close of the year; as is also an appeal on the same lands filed for the year 1929, as follows:

	Assessed	Returned	Appealed
NORTH HILO			
Umauma, ...	$ 51,187	$ 34,125	$ 17,062
SOUTH HILO			
Alae, ...	$ 55,095	$ 18,365	$ 36,730
Kulaikahonu, ...	56,380	19,600	36,780
Pahoehoe, ...	153,950	55,785	98,165
Honohononui (unleased)..			
Beach Reserve, 9.37 ac.	5,000	1	4,999
Subdivision,..39.04 ac.	12,400	6,370	6,030
	$282,825	$100,121	$182,704

The Trustees, owning an undivided one-third interest in the lot containing 3,124 square feet adjoining the makai side of their office building on Kaahumanu Street, filed suit against the owners of the other two-thirds interest (heirs of the late Thomas Cummins) to partition the property; and on August 16, 1928 an order issued from the Circuit Court authorizing a Commissioners' Sale of the property and fixing $27,000 as the upset. The sale which followed on September 19 resulted in the purchase of the property by the Trustees (the only bidders) at the upset price, the sale being duly confirmed by the Court on September 27th and the deed passed to the Trustees as of September 29th. In completing the transaction the Trustees, on October 2nd, paid the Commissioner the full consideration and costs, and received back $9,000, representing their one-third interest. The old one-story brick structure standing on the lot has since been displaced by a new concrete building erected by the Trustees and now used as a much needed addition to their office.

KAMEHAMEHA SCHOOLS

Hahaione Farm: Kamehameha's agricultural branch in Hahaione Valley, Maunalua, although not fully completed, has been in oper-

ation during the past year as a unit of School activities. On March 1, 1929, the Manager's house (referred to in last Report as in progress) was duly accepted as completed, as was also, on April 19 following, the bunkhouse, bathroom and kitchen erected as temporary Laborers' Quarters. Plans for the Dairy Building and Garage-Stable Building were duly approved on June 7, 1929 and contract let on the 21st following. Work on these was in progress at the close of the year.

The Skinner Sprinkling System was installed in November, 1928, over an area of two acres; and in January following an electrical system was provided, connecting all buildings with the Hawaiian Electric Company's lines at Kuliouou - all current being metered at one point in order to secure the most favorable rates.

From three to six laborers and a foreman have been employed on pasture improvement with the view of pushing the work of planting forage during the wet season.

A summary of the year's expenditures follows:

Buildings		
Piggery, including fences for small pens, grading and ditching around the main building, fencing pig paddocks, constructing wallows, paddock shelters, water troughs, gates, feed racks, etc., ...	$18,225.26	
Beef Cattle Barn and Paddock Fence,..	2,575.18	
Hennery, ...	7,472.88	
Manager's House, including garage, servants' quarters, roadway, etc., ...	8,241.46	
Assistant Manager's House (alterations)	900.00	
Laborers' Quarters, ...	1,554.25	
Dairy Building (in progress), ...	28.89	$38,997.92
Engineering, ...		4,624.20
Architects'Fees, ...		901.84
Water System, ...		906.37
Carried Forward, ...		$45,430.33

Brought Forward, ...	$45,430.33
Pasture Improvement, ...	5,391.55
Electric Light and Power System, ...	6,328.20
Roads and Sundries, ...	118.17
T o t a l, ...	$57,268.25

New Site: Work on the programme for the development of the new School site on the ridge back of the present School campus, has progressed during the year:

In December, 1928, a test of the water in the deep well sunk at the north corner of Kapalama Avenue and School Street, was made by the Sanitary Engineer, resulting in the issuance to the Trustees of Board of Health Certificate 196 stating that the water was free from contamination and, at the time of examination, suitable for potable purposes.

On January 11, 1929, acceptance tests of the Byron-Jackson Turbine Deep Well Pump showed the overall efficiency of that unit to exceed the guarantee by 9.46% which entitled the vendor to an efficiency bonus of $946. This raised the total cost of the pump to $3,058, but over a 10-year period it is estimated that the saving in power charges due to the excess efficiency will be $2,300.

On March 1, 1929, the Deep Well and Booster Pump Houses, completed last year, were duly accepted by the Trustees together with the new cover installed on the existing reservoir in replacement of the old worn-out cover.

On March 21, 1929, the two motor-driven centrifugal Booster Pump units installed last year were tested for efficiency and smoothness of operation. This showed an average of 4.06% above the guaranty of 62.5% which, over a year's run of eight hours per day, means a saving of $500 in power costs.

The new circular, reinforced concrete 500,000-gallon reservoir reported last year as under construction at an elevation (overflow) of 850 feet above sea level, was duly accepted by the Trustees on

March 15, 1929, as complete. As a preliminary precaution, before letting of contract, the Trustees had the plans of this structure (designed by the Trustees' Engineers) referred to Professor John Mason Young for check and criticism. Mr. Young suggested certain changes in detail, improving the design and these changes were duly adopted and incorporated in the plans, which were then pronounced by Mr. Young as providing for a thoroughly safe structure. To prevent the sliding of the earth slope a rip-rap wall has been constructed on three sides of the reservoir excavation supplemented by stone gutters designed to receive the surface drainage.

In the early part of May, 1929, Mr. A. H. Murray, of the New York architectural firm of The B. G. Goodhue Associates, arrived in Honolulu and remained until 22nd of the same month, conferring with the Trustees and making personal investigations of conditions on the ground. Under his direction, two sections of wall were constructed in the Infirmary Court to serve as samples of type for those to be erected in other parts of the new campus and to form part of the specifications.

The Preliminary building programme of the Trustees was amended on November 21, 1928, when it was decided to delete the Arts and Mathematics Building from among those planned for the first financial unit. The postponement of the erection of this building will work no hardship and will save interest on the outlay incidental thereto until such time as the need for it becomes pertinent.

To determine the load that the soil of the new site will sustain, test borings were made in January, 1929 as a measure preliminary to decision on final design of buildings; also, efforts have been made to locate in Kapalama Valley a source of rock suitable for building purposes. It is hoped that the Trustees' Kahala Quarry will yield sandstone for the building of such items as steps and parapet walls; and test pits have here been sunk to determine the quantity available.

In the general scheme of beautification of the grounds of new Kamehameha and approaches thereto the work provided for in the initial planting programme (referred to in last Report) was practically completed in May, 1929, and the programme for the second unit of the work had been nearly finished at the close of the fiscal year, June 30, 1929 - two of the planting areas being at that time not ready for planting. Pipe has been laid to irrigate a grove of native trees, and shrubs of special types of "dry forest" planted in the swale mauka of the second walled curve of approach. Programme (or Plan) No. 3, adopted May 31, 1929, deals with the planting of trees (a) to form a screen to conceal the new Reservoir and (b) to form a windbreak for the Girls' play and work area.

The year's expenditures on the new site are summarized as follows:

Engineering,		$10,925.90
Sewer and Water Systems, (net),		80,114.82
Light and Power Systems,		2,785.00
Roads,		40,282.39
Planting (net),		9,113.34
Buildings (excavation, etc.),		6,229.61
Library,	$ 954.00	
Kitchen,	2,943.00	
Girls' Gymnasium,	1,629.00	
Stone search, etc,	703.61	
Grounds (excavations, etc.),		35,956.63
Hospital Court and Ramp,	2,145.00	
Kitchen Court,	4,560.00	
Parade Ground,	11,923.00	
Terrace,	1,164.00	
Gymnasium Playground,	2,754.00	
Baseball Field,	3,225.00	
Football Field,	9,026.25	
Athletic Field (regrading),	90.41	
Walls, Stakes, Tools, etc.,	1,068.97	
T o t a l,		$185,407.69

Enrollment: The Schools opened on September 10, 1928, with an enrollment of 434 pupils, and closed on June 10, 1929, with an enrollment of 417, distributed:

	Boarders	Day	Total
Manual Department, B/S,	208	15	223
Preparatory Department, B/S,	67	--	67
School for Girls,	123	4	127
	398	19	417

Full scholarships were awarded during the year to 19 pupils, representing a charge upon the Trust amounting to $1,048.

Graduates numbered 45, - 24 at the Manual; 21 at the School for Girls.

Details concerning the general activities of the Schools during the year ended June 30, 1929, may be had by reference to the President's Report filed herewith.

Respectfully submitted,

Trustees under the Will and of the Estate of Bernice P. Bishop

Honolulu, Hawaii,

October 25, 1929.
