San Francisco.

~~March~~ 13 1867.
April,

My. Dear Mrs Dominis.

We arrived safely on the 2nd after a passage of twenty two days, we were all very seasick, and Father had to be nurse, Mr Caldwell was sick most all the passage, but is quite well now.

We are at present staying at the Lick House, but intend to leave Monday, and go to a private boarding house, till we go to house-keeping.

I have been up to Benicia and spent a week, it is a beautiful place, and I enjoyed myself very much. Nellie & Kittie have grown a good deal although I am quite as tall as Nellie.

I think that Mary & I will go there to board next term.

Annie & Helen have grown also. Annie is very pretty, she plays the piano very well for one so young and Birtie is just as cunning as he can be. he is the pet of the whole school.

Lucilla Bates called to see us. she has not changed any except she is a little stouter.

The new dining was opened yesterday it is perfectly exquisite. the flower is made of all kinds of wood, and the lamps are all made of glass- It is said to be one of the handsomest rooms in the United States I wish you could be here to see it Helen wants you to come over here and live.

April 15-

Mss Spencer & Mr Mills came down yesterday. they are going down to the Springs. Mr Mills has been quite sick, and is going there to see if it will improve his health.

The Berreyss called to see us they have lost all their property and are obliged to take boarders. How are the Maitlands geting along?, and is Miss McFarlane married yet, we saw in one of the Honolulu papers, (for windward ports. Dr & Mrs W. H Richards) so we supposed she was married.

As it is lunch time I think I must close, with a great deal of love

I from your loving
little friend
Lucretia

Ma & Father unite in sending love.
